# 2012 CR-V Navigation Manual (Unlinked)

This document does not contain hyperlinks and may be formatted for printing instead of web use. This is due to changes in content and specifications of the vehicle that happen throughout the model year. This manual will be replaced with a hyperlinked version at the end of the model year.

The information and specifications included in this publication were in effect at the time of approval for printing. Honda Motor Co., Ltd., reserves the right, however, to discontinue or change specifications or design at any time without notice and without incurring any obligation.

#### **Accessories Precautions**

The GPS antenna is located in the dashboard. Metallic front or side window tinting can seriously degrade or obstruct GPS reception.

Signal noise from devices such as radar detectors, vehicle tracking devices, remote starters, and additional amplifiers can disrupt the navigation system. If you install any such item, install it away from the navigation display and antenna.

#### **Important Safety Information**

Using the navigation system while driving can take your attention away from the road, causing a crash in which you could be seriously injured or killed.

Only operate system controls when the conditions permit you to safely do so.

Avoid focusing on the screen or manually operating the system controls while driving.

Certain on-screen controls are disabled when driving, but most of the audible instructions and voice commands continue to function. Pull to the side of the road if you need to devote more attention and time to look at the screen or access additional menus.

Route guidance may conflict with street closures, road construction, detours, and out-of-date map data.

The system itself may also have limitations. Verify route information by carefully observing roads, signs, and signals. Always use your own judgment and obey traffic laws.

#### System Limitations P. 188

#### NOTICE

This vehicle's navigation display, if so equipped, includes mercury-containing components. Upon removal, please reuse, recycle, or dispose of as hazardous waste.

Clean the screen with a soft, damp cloth. You may use a mild cleaner intended for use on navigation screens.

# **Overview—Functions at a Glance**

# **Navigation**

You can select any place/landmark as a destination by using voice control or the touch screen. The navigation system gives you turn-by-turn driving directions to your destination.

# Store home addresses →P36

Register **2** home addresses.

## Store contacts →R31

Store up to **200** contacts in **2** address books.

# **Enter destination** → P.56

Select your destination using **11** methods.

# Select route →P.78

Set route preferences and select one of **3** routes.

Follow your route in real-time with voice guidance.

FM Traffic P99

View and avoid congestion and traffic incidents.

Avoid certain areas 

P102

Set streets and areas to detour around.

Add waypoints P103

Add up to **4** "pit stops" along your route.

### **Audio**

The advanced audio system provides clear, well-defined sound and makes the most of your music. Enjoy listening to a variety of audio sources, such as:

AM/FM Radio PRI16

XM® Radio PRI21

Compact Disc PRI25

iPod® PRI29

Pandora® →PI33

USB Flash Drive →PI36

Bluetooth® Audio →PI40

## Voice Control →P20

Use voice commands to control the system while driving. You can operate all key functions of the navigation, audio, and climate control systems.

## Bluetooth® HandsFreeLink® →R148

Pair a compatible cell phone to receive incoming and make outgoing calls. You can operate the phone features without ever taking your hands off the wheel.

# **Text Messages** → P.167

Receive text messages on the navigation screen from a compatible device and hear them read aloud. Reply to them using preloaded messages.

## **Other Features**

Multi-View Rear Camera → P.172

Helps you check for obstacles around the rear of your vehicle on the navigation screen when reversing.

# **System Controls**

- (Display) Button →P.145
- B SOURCE Button →P.144
- **◄** ► (Channel) Button
- + (Volume) Button

- (Pick-Up) Button R163
- 22 🖘 (Hang-Up/Back) Button
- ાર્દ (Talk) Button ← ₽5

# **Voice Control Operation**

- 2 Say a voice command.
  - Voice Command 
    P.197
- The audio system is muted during voice control mode.
- Say K "Help" to see all supported commands. A voice help tutorial is also available.

Voice Help R13

• Carefully read the usage note for the voice control. Voice Control System P20

# **Audio System**

You can play music from a wide array of media sources. You can also control the audio system using voice commands.

## **Basic Operation**

1 Press the VOL (Volume/Power) button to turn the audio system on or off.

2 Press the AUDIO button and select **SOURCE** on the screen.

4 Rotate the VOL ♂ (Volume/Power) knob to adjust the volume.

# **Audio Control Display**

Press the AUDIO button to display the audio system on the navigation screen.

# **Map Screen Legend**

# **During Route Guidance**

During route guidance, route information is displayed on the map/guidance screen and multi-information display. Press the MAP/GUIDE button to display the guidance screen.

## Map Screen

### **Guidance Screen**

# **Day or Night Mode**

Press the \*\* (Display mode) button to manually switch between day and night mode.

### Multi-information Display

# **Turn-by-Turn Directions**

The next guidance point appears on the multi-information display.

Next driving maneuver is approaching.

# **How to Enter Information**

You can enter information (e.g., city names, street names, personal names, and business names comprising letters, numbers, and symbols) when prompted on input screens by two different methods.

## **Using Voice Control**

When you see [16] in this manual, voice commands are available for that feature

- Say the letter, number, or symbol (e.g., say 1/2").
- Use spelling assist (e.g., say [6] "Alpha" to enter the letter "A" or [6] "Hyphen" to enter a hyphen).
- The system beeps if you say an unavailable (grayed out) letter or number.
- If a voice command is not recognized, a list is displayed with possible options.

### On list screens:

- Say the number of the list item (e.g., say [6]? "Five" to select item 5).
- Say W "Up" or W "Previous" to scroll up one page.
- Say 1 "Down" or 1 "Next" to scroll down one page.

## **Using the Touch Screen**

Touch a character or icon on the screen to select it.

- Select **Delete** to remove the last entered character.
- Select **Shift** to display accented and upper/lower case characters.
- Select **Space** to enter a space character.
- Select **More** to display symbols.

#### NOTE

You can also use the joystick to enter information.

System Controls P. 4

### On list screens:

Scrolling through lists or tabs is limited while the vehicle is moving. Certain touch screen functions are limited or inoperable while the vehicle is moving. For these functions, use available voice commands or pull over to proceed.

# **Navigation—Home Addresses and Going Home**

The "Home" feature automatically routes you to your home address from any location simply by selecting **Go Home 1** or **2**, or saying **Go Home.**" You can store two home addresses as **Home Address 1** and **Home Address 2**.

## **Storing Your Home Address**

- 3 Select Personal Information.
- 4 Select Home Address 1.

- Select Edit Address.
- 8 Select Address.
  - Enter an address.
- 10 Select Edit Phone No.

Select OK.

# **Going Home**

1 Press the DEST button.

2 Select Go Home 1.

Alternatively, you can say [6] "Go Home" from any screen. Your home address is displayed on the Calculate Route screen.

- 3 Select Set as Dest.
- The following voice commands are available: say ½ "Go Home," ½ "Go Home 1," ₺ "Go Home 2."
- If you have two home addresses stored, saying (Go Home" will select Home Address 1.

# **Navigation—Entering a Destination**

Enter your destination using one of several methods, then follow route guidance on the map or guidance screen to your destination. You can also perform these steps using 🚱 voice control.

4 Enter the name of your destination street and select List if necessary.

If there is more than one city with the specified street, a list of cities is displayed. Select the desired city from the list.

View Routes: Choose one of three routes.

 Route Pref.: Choose MAX or MIN for the three settings.

# **Navigation—Changing Route or Destination**

You can alter your route by adding waypoints to visit, adding streets to avoid, or changing your destination during route guidance.

# Adding a Waypoint ("Pit Stop")

You can add up to four waypoints along your route. P103

- 1 Press the DEST button.
- Select Waypoint.
- 3 Select search method.

When you select **Places Around the Waypoint**, select the desired waypoint.

Select the icon category and location to add to the destination list when prompted.

# Changing Your Destination

There are four methods you can use to specify a new destination during route guidance.

- Say № "Find Nearest..." ➤ P108

  Searches for the nearest place/landmark on the map screen (e.g., № "Find nearest gas station").
- Say Go Home Plo Routes to your home address.
- Entering a new destination P110
   Press the DEST button. Select DEST
   Menu1/2 and enter a new destination.

## **Canceling Your Route**

1 Press the DEST button.

# From the map screen:

1 Select MAP MENU.

# **Voice Help**

This navigation system comes with voice help information, which tells you how to use the voice command functions. Go to Voice Info for tips when using the voice command functions.

# **Getting Started Tutorial**

## **Command Help**

For "Command Help" menu items, all voice commands that are available for that system are listed.

Select **Read** to hear the commands in the list read aloud.

Voice Commands → P.197

# **Troubleshooting**

For more Information P173

- Why does the vehicle position icon on the map "lag" a short distance behind my actual position, especially at intersections?
- This is normal. The navigation system is unaware of the width of intersections. Large differences in vehicle position can indicate a temporary loss of the GPS signal.
- Why does the "time to destination" display sometimes increase even though I am getting closer to my destination?
- The "time to destination" is based on the posted road speed signs and your actual road speed to give you a better estimate of arrival time
- Why does my clock frequently change the time forward and backward by one hour?
- The clock setting is automatically updated based on your GPS location. If you normally drive between two time zones, the clock may keep adjusting the time. You can turn this feature off.
  - Clock Adjustment P. 47

- How do I specify a destination when an entered city or street could not be found?
- Try entering the street first. Some cities are lumped in with  $(\mathbf{A})$ a major metro area. In rural "unverified" areas or new subdivisions, streets may be missing or only partially numbered.
- How do I turn on the navigation system voice guidance? Q
- 1. Press the INFO button. Select **Setup**. Check that **Volume** is not set to **Off** 
  - 2. Select Other, then Basic Settings. Set Voice **Recognition Tutor** to **On** if you want the system to provide confirmations and system prompts.
- My battery was disconnected or went dead, and the navigation system is asking for a code. Where do I find it?
- In most cases, you do not need to enter a code. Simply press and hold the VOL (Volume/Power) button for two seconds; the system should reactivate.
  - System Initialization P. 186

# **How to Use This Manual**

This section explains different methods on how you can easily find information in this manual.

# Searching the Table of Contents

Two types of Tables of Contents help you find your desired information.

#### Table of Contents

First, find the general chapter related to what you are looking for (e.g., entering a destination from the Address Book). Then, go to that chapter to view a more specific table of contents.

#### **Chapter Contents**

This more detailed table of contents shows you exactly what information is listed by section and title.

# Searching the Index P208

Menu items displayed on the navigation screen (e.g., Address Book) can be found individually in the Index.

The Index consists of main terms and sub-entries. The sub-entries help you get to the desired page depending on what you are looking for.

Go to the Next Page

After following the menu tree, step-by-step instructions explain how to achieve the desired result.

### Menu Tree

The menu tree helps guide you through the system's menu options. To get to your desired function, follow the menu tree in order of the steps shown.

#### NOTE:

All menu options can also be activated with voice commands.

Press the hard button on the system control panel.

Press the DEST button.

Select the menu option.

Select Address Book.

<sup>\*</sup> Sample pages and images in this section may differ from the actual ones.

# **System Setup**

This section describes the start-up procedure and the navigation and setup functions.

Start-up	18
Voice Control System	20
Command Input	20
Voice Recognition	21
Interface Settings	22
Display and Volume Settings	22
Guidance Prompts	23
Basic Settings	24
Color	25
Language	29

Resetting the Clock Settings	4
Setting the Clock Type	
/ehicle	
Off-road Tracking	5
Correct Vehicle Position	

Pata Reset	53
Reset Factory Default Settings	53
Clear All Speed Dial	54

The navigation system starts automatically when you turn the ignition to ACCESSORY (I) or ON (II). At start-up, the following Confirmation screen is displayed.

- 1. Select Change Language.
  - ► If you do not need to change the system language, proceed to step 3.

2. Select the system language.

- 3. Select OK.
  - ➤ Your current position is displayed on the map screen.

#### Start-up

If the navigation system loses power at any time, you may need to press and hold the VOL (Volume/Power) button for more than two seconds, or you may be prompted for the 5-digit security code.

System Initialization P. 186

You can change the system language at any time.

**≥ Language** P. 29

"OK" on the Confirmation screen cannot be selected by using a voice command. If you do not select **OK** within 30 seconds, the screen turns dark and you cannot use voice commands. Press any navigation or voice control button to continue.

**☑ Clock Adjustment** P. 47

Setting the Clock Type P. 49

## ■ Limitations for Manual Operation

Disabled Option

Certain manual functions are disabled or inoperable while the vehicle is in motion. You cannot select a grayedout option until the vehicle is stopped.

Voice commands are still operable while the vehicle is in motion.

## **Voice Control System**

Your vehicle has a voice control system that allows hands-free operation of most of the navigation system functions. You can also control the audio and climate control system, and make and receive phone calls using <code>Bluetooth®</code> HandsFreeLink®.

The voice control system uses the [K] (Talk) and [S] (Hang-Up/Back) buttons on the steering wheel and a microphone near the map lights on the ceiling.

A "Voice Info" feature provides a tutorial that explains how to use the voice control system.

**▶ Voice Help** P. 13

## **Command Input**

If the system does not understand a command or you wait too long to give a command, it responds with "Pardon? No command was heard. Please press the talk button and say a command."

When you give a command, the system generally either repeats the command as a confirmation or asks you for further information. If you do not wish to hear this feedback, you can turn it off. However, listening to the feedback will help familiarize you with the way the system expects commands to be phrased.

### **Basic Settings** P. 24

If the system cannot perform a command or the command is not appropriate for the screen you are on, the system beeps.

If the system responds with prompts such as "Please use the touch screen to..." or "Please use the joystick to...," the system is asking for input that cannot be performed using the voice control system.

On character input screens, a list of possible characters is displayed if the system does not recognize your command.

You can find out which voice commands are available for a particular screen using the  $\mathbb{R}$  Help command. The system will display and read the list of available commands to you.

#### ≥ [K] (Talk) Button

#### ○ Command Input

The audio system is muted while using the voice control system.

# **Voice Recognition**

To achieve optimum voice recognition when using either the navigation voice control system or *Bluetooth*® HandsFreeLink®:

 Make sure the correct screen is displayed for the voice command that you are using.

**► Voice Commands** P. 198

- Close the windows and moonroof.
- Adjust the dashboard and side vents so air does not blow onto the microphone on the ceiling.
- Speak clearly in a clear, natural speaking voice without pausing between words.
- Reduce any background noise if possible. The system may misinterpret your command if more than one person is speaking at the same time.
- Refer to the Voice Info tutorial.

**▶ Voice Help** P. 13

# **Interface Settings**

# **Display and Volume Settings**

§ INFO button ► Setup

Use the Main Setup screen to adjust the display and volume.

Select **■** or **▶** to adjust the desired item.

The following items are available:

- Brightness: Adjusts the screen's brightness.
- Contrast: Adjusts the screen's contrast.
- Black Level: Adjusts the screen's black level.
- Volume: Adjusts the navigation system volume level.

#### Display and Volume Settings

You can set separate daytime and nighttime settings for **Brightness**, **Contrast**, and **Black Level**. Adjust each setting when the display is in either daytime or nighttime mode.

You can set the display and volume settings using voice commands.

**Main Setup Screen Commands** P. 203

#### Volume

If you set **Volume** to **Off**, you will not hear route guidance or voice command confirmations. If you then select **VOICE** on the map screen, you will hear route guidance at the default volume.

# **Guidance Prompts**

§ INFO button ► Setup

Set the number of guidance prompts before you get to the guidance point.

Setup

Main Setup

Guidance Prompts

Black Level

Personal Information

Select an option.

The following options are available:

Items	Distance from Guidance Point			
	About 1/2 mile	About 1/4 mile	Just before	
MIN		Yes		
NORMAL (factory default)	Yes	Yes	Yes	
MAX	Yes	Yes	Yes	

#### ■ Guidance Prompts

To replay voice guidance, select **VOICE** on the map screen.

Listening to Voice Guidance P. 84

You can turn voice guidance off if you prefer.

Display and Volume Settings P. 22

## **Basic Settings**

§ INFO button ► Setup ► Other ► Basic Settings

Set the map units to either miles or kilometers, and control the voice feedback from the navigation system.

Select an item.

The following items are available:

- Keyboard Layout: Sets the type of keyboard screen to either Alphabet (factory default) or QWERTY.
- Units: Sets the map units to either miles (factory default) or kilometers.
- Voice Recognition Tutor: Turns the voice feedback feature on or off.
   On (factory default): Provides voice control system confirmation or prompts.
   Off: Disables the feature.
- Display Voice Command Tips: Alerts you when manual control of the system is disabled to prevent distraction while driving. Only voice commands are available. On (factory default): Displays a message.
  - Off: Disables the message, but some options may be grayed out on the screen.

- Verbal Reminder: Turns the verbal reminders on or off.
  - On (factory default): Provides warning voice messages when:
    - Driving with the parking brake on
  - Driving without wearing the driver and/or passenger seat belt

Off: Disables the feature.

### Color

Setup ► Other ► Color

Choose the color of the navigation map and system menus.

Select an item.

The following items are available:

- Map: Sets the color of the map screen.
  - **Map Color** P. 26
- Menu: Sets the color of the menu screens.
  - Menu Color P. 26

### ■ Map Color

% INFO button ▶ Setup ▶ Other ▶ Color ▶ Map

Set separate map colors for Day and Night modes.

Select a color for the map screen.

### ■ Menu Color

§ INFO button ➤ Setup ➤ Other ➤ Color ➤ Menu

Set separate menu colors for Day and Night modes.

Select a color for the menu screens.

#### Map Color

#### For Day mode

Set to **White** (factory default is **Beige**) to obtain the best daytime display contrast.

#### For Night mode

Set to **Black** (factory default) to obtain the best nighttime display contrast.

#### Menu Color

#### For Day mode

Set to **Black** (factory default is **Blue**) to obtain the best daytime display contrast.

#### For Night mode

Set to **Black** (factory default is **Blue**) to obtain the best nighttime display contrast.

## ■ Switching Display Mode Manually

Set the screen brightness separately for Day and Night modes. Press the \*)
(Display mode) button to cycle through the display modes (Day to Night to Off).

- 1. Press the \* button.
  - ► The Brightness bar is displayed for a few seconds.
- 2. Press the \* button again.
  - Repeat the procedure to switch the display modes.
  - ➤ Select ◀ or ▶ to adjust the brightness.

#### Switching Display Mode Manually

A visual guide helps you see the difference between Day and Night modes.

Day or Night Mode P. 8

#### **Recommended Settings**

- Select mid-range for the dash illumination.
- Select White for the map Day display and Black for the map Night display.

Illumination control	Priority	Operation
*) button	1	Selects Day, Night, or Off display mode. This button has the highest priority and overrides all other display control adjustments listed below.
Sunlight sensor (see your Owner's Manual for location)	2	If the sunlight sensor detects daylight and the headlights are turned on, the system automatically overrides the Night display and displays the Day display mode.  Remember: If desired, use the *> button to override this automatic choice.
Dash illumination adjustment buttons (see your Owner's Manual for location)	3	When the headlights are turned on, and you wish to have the Day display mode, adjust the illumination to full brightness (beeps).  Remember: Adjust the dash brightness back to mid-range to allow auto switching by sensing the headlights are on or off.
Headlights (Auto/On/Off)	4	When turned on, the display changes to Night display mode. The previous three controls listed above can "cancel" this function.  Remember: Use the *D button, or adjust the dash illumination to full brightness, to set the display to your desired choice.
Screen color choice	N/A	The user can select the color of the screen that will be displayed for the Day and Night display modes described above.  Remember: For best contrast, ensure that the map color is white for Day and black for Night.

## Language

§ INFO button ▶ Setup ▶ Other ▶ Language

Set the system language used on all screens. You can choose from three languages: **English, Français** (French), **Español** (Spanish).

Select the system language.

#### Language

Voice confirmation of cities and streets only occurs when **English** is the system language.

When **Français** or **Español** is selected, some messages continue to be displayed in English.

## **Personal Information**

## § INFO button ▶ Setup ▶ Personal Information

Use the personal information menu to select and set your address books, home addresses, and PINs. You can also delete unwanted destinations from the list of previously routed destinations.

Select an item.

The following items are available:

- Address Book: Stores new addresses or edits your address book.
  - Address Book P. 31
- Home Address 1: Sets or edits your home address.
  - **Nome Addresses** P. 36
- Home Address 2: Sets or edits another home address.
  - **Nome Addresses** P. 36
- PIN Number: Sets or changes your PIN.
  - PIN Numbers P. 37
- User Name: Sets or changes your user name.
  - User Name P. 38
- Previous Destinations: Deletes the destination history.
  - Previous Destinations P. 39

#### >> Personal Information

Personal information cannot be backed up or moved to another navigation system.

### **Address Book**

### **%** INFO button ▶ Setup ▶ Personal Information ▶ Address Book

Store up to 200 address entries in two address books (User 1 and User 2). You can add, edit, and delete information in the address books.

Select the user name to edit the user address book

Displays the address book.

- Select the user name to change the user address book.
- Select the category tab to display only the address in the selected category.

#### Management Address Book

The number of addresses is shared by the two address books. For example, if User 1 has 150 addresses, User 2 can only have 50.

If you have PIN-protected your address book, enter your PIN when prompted. Select **OK**. PINs are optional.

PIN Numbers P. 37

Any address book categories you create are also displayed on the Select an Address screen.

**Selecting an Address Book Category** P. 34

### ■ Adding an Address Book Entry

§ INFO button ► Setup ► Personal Information ► Address Book

This section explains how to enter the name and address.

1. Select New Address.

2. Select an item.

The following items are available:

- Edit Name: Edits the name of the entry.
- Edit Address: Edits the address of the entry.
- Edit Phone No.: Edits the phone number of the entry.
- Edit Category: Specifies the category of the entry.
- **Delete**: Deletes the entry.

#### 

If you do not give the address a name, one is automatically assigned (e.g., Address 001). You can re-enter, edit, or make changes to any entry. "Address" is the only required field.

- 3. Select Edit Name.
- **4.** Enter a name or title. Select **OK**.
- 5. Select Edit Address.
- **6.** Select an item for specifying the address.

The following items are available:

- Current Position: Select your current location.
- Address: Enter an address on the character input screen when prompted.
   Address P. 58
- Previous Destinations: Select a previous destination.
  - Previous Destinations P. 64
- Place Name: Enter the name of a place/landmark.
  - Place Name P. 65
- Place Category: Select a category to search for a place/landmark (e.g., Banking, Lodging).
  - **▶ Place Category** P. 67
- Place Phone Number: Enter the phone number of a place/landmark.

  ▶ Place Phone Number P 72

#### Adding an Address Book Entry

When you use **Place Name** or **Place Category**, the name and phone number are automatically entered.

## ■ Editing an Address Book Entry

§ INFO button ► Setup ► Personal Information ► Address Book

- 1. Select the address to edit.
- 2. Enter the name, address, phone number, and category fields. Adding an Address Book Entry
  - P. 32
- 3. Select OK.

### ■ Selecting an Address Book Category

**%** INFO button ► Setup ► Personal Information ► Address Book

- 1. Select an address.
- **2.** Select **Edit Category**.
- **3.** Select **BUSINESS**, **PERSONAL**, or a category you created.

#### ■ Editing an Address Book Entry

The entered contents are displayed on the Edit address screen.

#### ■ Selecting an Address Book Category

You can have up to 100 categories (including "UNFILED"). These categories can be shared with User 1 and User 2. For example, if User 1 creates some categories, User 2 can also use them.

If you delete a category that is used by other addresses, the category type for those addresses changes to "UNFILED."

#### **Category Icons**

The following icons can be selected for a category:

- Creating a New Category
- **1.** Select **New Category**.
- 2. Enter a name and select an icon when prompted. Select OK.
  - ▶ The created category is displayed in the list of categories.
- Deleting or Editing a Category
- 1. Select Edit Category.
- 2. Select Edit Category or Delete.
- **3.** Delete an existing category, or change the name and icon.

# ■ Deleting an Address Book Entry

% INFO button ▶ Setup ▶ Personal Information ▶ Address Book

- Edit address

  ABC STORE
  1234 MAIN ST
  ANYPLACE, CA
  (310)555-1234 PERSONAL

  Edit Name Edit Category
  Edit Address Delete
  Edit Phone No. OK
- **1.** Select the address to delete
- 2. Select Delete.
- 3. Select Yes.

#### Deleting an Address Book Entry

When you transfer the vehicle to a third party, delete all address book entries.

## **Home Addresses**

**⊗** INFO button ► Setup ► Personal Information ► Home Address 1 or Home Address 2

Set two home addresses that you frequently use.

- Edit the name, address, and phone number the same way as an address in the address book.
  - Adding an Address Book Entry P. 32
- 2. Select OK.

#### Home Addresses

If you have PIN-protected your home addresses, enter your PIN when prompted. Select **OK**. PINs are optional.

PIN Numbers P 37

If your home street is not in the system database, park on the nearest verified street to your home. When entering the "Address" field, select **Current Position** to use your current location as the home address.

You can delete a home address if necessary. Select **Delete**. Select **Yes**.

When you transfer the vehicle to a third party, delete all home addresses

The home icon is shown on the map screen on 5 mile or less map scales.

#### **PIN Numbers**

## § INFO button ▶ Setup ▶ Personal Information ▶ PIN Number

Set a 4-digit PIN for protecting personal addresses and your home addresses. Once you set a PIN, you are prompted to enter it whenever you access a personal address or a home address.

- 1. Select the PIN to create.
- **2.** Select the user name (when selecting **Address Book PIN**).

- 3. Enter a 4-digit PIN.
- **4.** Re-enter the new PIN when prompted to confirm the number you just entered.
  - ► If you do not enter the same number both times, an "INCORRECT PIN" message is displayed. Enter your PIN again.

#### PIN Numbers

#### PIN

Personal Identification Number (PIN) is a password used to access some personal data.

PINs are optional. If you choose to use a PIN, keep a note of the number in a secure location. If you forget your PIN, your dealer will have to reset the navigation system and all of your stored information will be erased. The factory default is no PIN

#### Go Home PIN

Go Home PINs are shared with User 1 and User 2. If either User 1 or User 2 sets a Go Home PIN, both of them need to enter the PIN when:

- selecting Go Home for a destination
- selecting **Home Address** for editing
  If you want to stop using a PIN, select **Do not**use PIN.

## **User Name**

§ INFO button ▶ Setup ▶ Personal Information ▶ User Name

Change the user name ("User 1" or "User 2") to your desired name.

- **1.** Select the name to change.
- 2. Enter a name. Select OK.

#### **Previous Destinations**

## § INFO button ► Setup ► Personal Information ► Previous Destinations

The navigation system maintains a list of your previously routed destinations as a shortcut for entering the same destination in the future. You can delete some or all of your previous destinations from the list.

- **1.** Select the destination to delete
  - ► Repeat the procedure as necessary.
  - ► Items to be deleted are indicated with a trash icon.
- **2.** Select **OK** to delete the selected destinations.

#### Previous Destinations

Up to 50 destinations can be stored.

The list of previous destinations is shared with User 1 and User 2. For example, if User 1 deletes some previous destinations, they are deleted for User 2 as well.

To cancel the selection of a previous destination, select the destination again.

Selecting **Delete All** allows you to delete all destinations.

# Routing & Guidance

## **§** INFO button ▶ Setup ▶ Other ▶ Routing & Guidance

Choose various settings that determine the navigation system functionality during route guidance.

Select an item.

The following items are available:

- Rerouting: Sets the route recalculation to automatic or manual mode.
   ▶ Rerouting P. 41
- Unverified Area Routing: Sets whether you use the route guidance in unverified areas.
  - Unverified Area Routing P. 42
- Edit Avoid Area: Specifies areas to avoid when calculating a route.
   Edit Avoid Area P. 44
- Edit Waypoint Search Area: Sets the distance from the route to find waypoints. ▶ Edit Waypoint Search Area P. 46
- **Guidance Mode**: Sets whether to display only the map screen or a split mapguidance screen.
  - **Guidance Mode** P. 90

# Rerouting

## § INFO button ► Setup ► Other ► Routing & Guidance

Set whether route recalculation occurs automatically or manually during route quidance.

Select an option.

The following options are available:

- Automatic (factory default): The system calculates a new route automatically when you deviate from the route. It is strongly recommended that you leave the system set to Automatic.
- Manual: Disables route recalculation. The system beeps and "Off Route" is displayed when you deviate from the route.

#### Rerouting

If you live in an area with poor mapping, you may wish to set **Rerouting** to **Manual** to avoid constant recalculation. You will need to select **Recalc.** manually to make the system recalculate your new route.

# **Unverified Area Routing**

## INFO button ► Setup ► Other ► Routing & Guidance

Receive turn-by-turn map and voice guidance in unverified areas.

Select On or Off.

-		
Differences	Off (factory default)	On
On or Off?	The driver wishes to manually navigate using the navigation map and choose the streets that lead to the destination.	The driver chooses to let the navigation system suggest possible routing, knowing that the guidance may not be accurate.
Route calculation	Route is usually longer, using verified roads whenever possible.	Route is shorter, but uses unverified (purple) streets that may not be accurate.
Route line	A blue dotted vector line is displayed on the map that continually points to your destination.	A blue-pink dashed route line highlights suggested unverified streets on the map while traveling to your destination.
Cautionary messages	Cautionary pop-up screens and voice announcements remind you to obey all traffic restrictions.	Cautionary pop-up screens and voice announcements remind you to exercise additional caution and obey all traffic restrictions.

#### Unverified Area Routing

Unverified roads are found in rural areas, and typically include residential streets away from the center of a town. They may not be accurate, and can contain errors in location, naming, and address range.

Unverified roads are shown only when viewing the map in the 1/20, 1/8, 1/4, 1/2, 1, or 2 mile map scales.

## Blue-pink route line

Differences	Off (factory default)	On
Guidance (map/voice)	There is no turn-by-turn map or voice guidance.	Voice guidance commands end with the phrase "if possible" to remind you to verify all traffic restrictions.
My Destination (Direction list)	A direction list is typically not available. However, depending on your route, directions are provided to help you reach the first available verified road.	A direction list is provided showing unverified street names in blue boxes and turn symbols in pink.

## **Edit Avoid Area**

#### 

Specify up to five areas to avoid (e.g., road construction, closures), if possible, when the system calculates routes to your destination.

**1.** Select **New Area** or an existing area to edit.

- **2.** Select **Edit Name** to label the area to avoid.
- 3. Enter a name or title. Select OK.
- **4.** Select **Edit Area** to define the area to avoid.

The following items are available (after an area is set):

- View Area Map: Displays the selected avoid area on the map.
- **Delete**: Deletes the selected avoid area

#### Edit Avoid Area

The avoid areas are shared with User 1 and User 2. For example, if User 1 specifies some avoid areas, User 2 can also use them for setting a route.

The maximum size of an "avoid area" is about 1 square mile.

If your selected area contains a freeway, you are asked "Do you want to avoid freeways?" Answering "No" allows you to use a route through an avoid area on a freeway without any pop-up messages.

You can select areas to avoid, however you cannot select roads or areas that you want the system to use for routing.

You can enter characters for the name until the input field is full.

**5.** Select a method for specifying the area.

The following items are available:

- Address: Specify the general area by entering an address.
  - Address P. 58
- Map Input: Specify the general area by map input.

Map Input P. 75

- **6.** Scroll the map to position the cursor over your desired start point, adjusting the map scale as necessary. Press the ENTER button to mark the start point.
  - To redo the area selection, press the CANCEL button.
- Scroll the map to "draw" the area. Press the ENTER button to mark the end point.
- 8. Select OK.
  - ► The area you specify is displayed in the list of areas to avoid.

# **Edit Waypoint Search Area**

#### 

Select the distance from your highlighted route line (on either side of your route) that the system will search for a waypoint.

**■ Adding Waypoints** P. 103

You can specify a different search distance for freeways and surface streets.

- 1. Select a search distance.
- 2. Select OK.

The following options are available:

- On Freeways: 1, 2, 5, or 10 miles can be set. Factory default is 2 miles.
- On Surface Street: 1/2, 1, 2, or 5 miles can be set. Factory default is 1/2 mile.

#### 

The search distance does not affect the search range used for the Find Nearest voice commands (e.g., say [16] "Find nearest gas station").

# **Clock Adjustment**

## § INFO button ▶ Setup ▶ Other ▶ Clock Adjustment ▶ Clock Adjustment

Set the automatic adjustment of the system clock for daylight saving and international time zones.

Select an item.

The following items are available:

• Auto Daylight: The navigation system automatically adjusts the clock ("spring ahead" or "fall back" by one hour) when a daylight saving time change occurs.

On (factory default): Adjusts the clock automatically.

Off: Disables the feature.

• Auto Time Zone: The navigation system automatically adjusts the clock when driving through different time zones.

On (factory default): Adjusts the clock automatically.

Off: Disables the feature.

- Clock Format: Sets the time notation to either 12-hour clock (12H, factory default) or 24-hour clock (24H).
- Time Adjustment: Adjust the current time manually.
   Adjust Time P. 48
- Reset: Reset the clock settings to the factory default.
   Resetting the Clock Settings P. 48

#### 

You can check the time and date from any screen using voice commands.

Global Commands P. 198

#### **Auto Daylight**

This function is not activated in areas that have not adopted daylight saving time, even if you have set **Auto Daylight** to **On**.

#### Auto Time Zone

If you live and work in two different time zones, you may want to turn **Auto Time Zone** to **Off**. When driving near a time zone boundary, the displayed time zone may fluctuate between the two zone times.

# **Adjust Time**

§ INFO button ▶ Setup ▶ Other ▶ Clock Adjustment ▶ Clock Adjustment Adjust the current time (hours and minutes).

- **1.** Select  $\square$  or  $\square$  to adjust the value.
- **2.** Select **OK** on the top right of the screen.

# **Resetting the Clock Settings**

<sup>®</sup> INFO button ▶ Setup ▶ Other ▶ Clock Adjustment ▶ Clock Adjustment Reset all clock settings to the factory defaults.

Select **OK** under **Reset**.

# **Setting the Clock Type**

 $\S$  INFO button  $\blacktriangleright$  Setup  $\blacktriangleright$  Other  $\blacktriangleright$  Clock Adjustment  $\blacktriangleright$  Clock Type Set the design of the clock screen.

- **1.** Select **Clock Type** or **Background**.
- **2.** Select an option to change the design.
- 3. Select OK.

## Setup ► Other ► Vehicle

Set the off-road tracking feature and correct the vehicle position displayed on the map.

Select an item.

The following items are available:

- Off-road Tracking: Set whether to display the tracking dots on the map. 

  ☑ Off-road Tracking P. 51
- Current Vehicle Position: Adjust the position of the vehicle on the map. 

   Correct Vehicle Position P. 52

# **Off-road Tracking**

## § INFO button ▶ Setup ▶ Other ▶ Vehicle

The navigation system can be set to display white off-road tracking dots ("breadcrumbs") on the map screen whenever you drive into an area approximately 1/2 mile away from a mapped road.

Select an option.

The following options are available:

- On: The system displays the white tracking dots.
   Driving Off-road P. 83
- Off (factory default): Disables the feature.

#### ○ Off-road Tracking

To clear existing breadcrumbs, set Off-road Tracking to Off, exit the Setup screen, and then set Off-road Tracking to On again.

## **Correct Vehicle Position**

## § INFO button ▶ Setup ▶ Other ▶ Vehicle

Manually adjust the current position of the vehicle as displayed on the map screen if the position appears to be incorrect.

- 1. Put the vehicle in Park.
- 2. Select ADJUST under Current Vehicle Position.
- **3.** Scroll the map to position the arrowhead at your correct position.
- **4.** Select or to position the arrowhead in the correct direction the vehicle is facing.
- 5. Select OK.

#### 

An apparent position error can occur where buildings, tunnels, and other objects block or reflect the GPS signals, forcing the system to use "dead reckoning" to determine your location and direction.

Using this function to adjust vehicle position is not recommended. When the system reacquires a GPS signal, it will automatically place the vehicle in the correct location.

If you continually have to adjust the vehicle position, you may have problems with the GPS reception or there may be database errors.

System Limitations P. 188

## **Data Reset**

# **Reset Factory Default Settings**

§ INFO button ▶ Setup ▶ Other ▶ Reset Factory Default

Reset all the settings on the Setup screens to their factory defaults.

Confirmation

This will reset all settings to the factory defaults, After returning to the defaults, the system will restart, Would you like to continue?

Yes

No

Select Yes.

#### ■ Reset Factory Default Settings

The following settings are reset:

- Brightness, Contrast, Black Level, Volume, Guidance Prompts
- Basic Settings: Keyboard Layout, Units, Voice Recognition Tutor, Verbal Reminder, Display Voice Commands Tips
- Routing & Guidance: Rerouting, Unverified Area Routing, Edit Waypoint Search Area, Guidance Mode
- Clock Adjustment: Auto Daylight, Auto Time Zone, Clock Format Time, Clock Type
- Vehicle: Off-road Tracking
- Color: Map Color, Menu Color

When you transfer the vehicle to a third party, reset all settings to default and delete all personal data.

- Deleting an Address Book Entry P. 35
- **▶ Home Addresses** P. 36
- PIN Numbers P. 37
- **Discr Name** P. 38 ■
- **▶ Previous Destinations** P. 39

# **Entering a Destination**

## B DEST button

This section describes how to enter a destination for route guidance.

Select an item.

➤ Select **DEST Menu 2** to display additional menu entries.

The following items are available:

- Address: Sets a destination by entering an address.
   Address P 58
- Address Book: Sets a destination by selecting an address stored in your Address Book.
  - Address Book P. 63
- Previous Destinations: Sets a destination by selecting a previous destination.
   Previous Destinations P. 64

#### Entering a Destination

"Display Menu", 📧 "Display Navigation"

If you press the DEST button when en route, the Route Menu screen is displayed.

**≧** Changing Your Route P. 101

Prior to departure, you can set areas along your route to avoid.

Avoiding Streets P. 102

Certain touchscreen functions are disabled while the vehicle is moving.

**■ Limitations for Manual Operation** P. 19

• Place Name: Sets a destination by entering a place name.

Place Name P. 65

• Place Category: Sets a destination by selecting a place/landmark.

**▶ Place Category** P. 67

• Place Phone Number: Sets a destination by entering the phone number of a place/landmark.

Place Phone Number P. 72

• Coordinate: Sets a destination by entering latitude and longitude.

Coordinate P. 73

• Intersection: Sets a destination (intersection) by entering two streets.

**▶ Intersection** P. 74

• Map Input: Sets a destination by scrolling through the map.

▶ Map Input P. 75

• Go Home 1 or 2: Sets your home address as a destination.

**B** Going Home P. 10

## **Address**

## § DEST button ▶ Address

Enter an address to use as the destination. The state or province you are currently in is displayed (e.g., California).

Select an item.

The following items are available:

- City: Selects your destination city.
  - Selecting a City P. 60
- **Street**: Selects your destination street.
  - Selecting a Street P. 61
- Change State: Selects the state or province.
  - **Selecting the State or Province** P. 59

## ■ Selecting the State or Province

## § DEST button ▶ Address ▶ Change State

- 1. Enter a state name.
  - Select **List** to display a list of states.

**2.** Select a state from the list.

# ■ Selecting a City

§ DEST button ► Address ► City

The name of the city where you are currently located is displayed.

- **1.** Enter the name of a different city, or select **List** for the current city.
  - Select List to display a list of cities.

Non-detailed area mark: Try entering the street first and then select the city.

- **2.** Select your destination city from the list.
  - ➤ A list of matching hits is automatically displayed after you enter several letters, with the closest match at the top of the list
  - Next, you are prompted to enter a street name.
    - **Selecting a Street** P. 61

#### Selecting a City by Name

Vehicle position may not be displayed when:

- The automobile is traveling off-road.
- The vehicle position data cannot be updated.

#### **Using Voice Command (English only)**

Say <u>(city"</u> on the Find address by screen, and the following screen is displayed:

Say \*\*Current City" to select your current location, or say the name of a different city.

Selecting a Street P. 61

If your city is not listed, it may be part of a larger metropolitan area. Try entering the street first.

## ■ Selecting a Street

B DEST button ► Address ► Street

- **1.** Enter the name of your destination street.
  - ➤ Do not enter the street type (e.g., street, road, avenue) or direction (e.g., north, south, east, west).
  - Select List to display a list of streets.
- **2.** Select your destination street from the list.
  - ➤ A list of matching hits is automatically displayed after you enter several letters, with the closest match at the top of the list.

#### Selecting a Street

When entering the names of major freeways, you can use the following abbreviations. For interstates, use an "I" (e.g., I-10). For U.S. freeways, use "US" (e.g., US-18). For state freeways, use the two-character state designation (e.g., CA-101). For county roads, use the appropriate designation (e.g., G-2).

## Using Voice Command (English only)

Say <u>\*\*</u> "Street" on the Find address by screen, and the following screen is displayed:

- Say the name of your destination street, and say the street number as a string of individual numbers.
- Set the route to your destination. **■ Calculating the Route** P. 77

- **3.** Enter the street number. Select **OK**.
  - Only valid street numbers can be entered.
- **4.** Set the route to your destination.
  - **Calculating the Route** P. 77

## ■ Selecting a Street

If you did not select a city first and there is more than one city with the specified street, a list of cities is displayed.

Select the desired city from the list.

## **Address Book**

### § DEST button ▶ Address Book

Select an address stored in your address book to use as the destination.

**1.** Select your user name.

- **2.** Select your destination from the list
- **3.** Set the route to your destination.
  - **Calculating the Route** P. 77
  - ➤ Select ◀ or ➤ to display only the entries in a category: ALL, BUSINESS, PERSONAL, or other categories you have created.
    - Selecting an Address Book Category P. 34

#### Address Book

If you have PIN-protected your address book, enter your PIN when prompted. Select **OK**. PINs are optional.

PIN Numbers P. 37

You can select **New Address** on the Select an address screen to add an entry to the address book

Adding an Address Book Entry P. 32

To switch the list between User 1 or User 2, select the user name on the top right of the screen.

## **Previous Destinations**

#### B DEST button ▶ Previous Destinations

Select an address from a list of your 50 most recent destinations to use as the destination. The list is displayed with the most recent destination at the top.

- 1. Select a destination from the list.
- 2. Set the route to your destination. 

  ☐ Calculating the Route P. 77

#### Previous Destinations

Your home addresses and addresses stored in your address book are not added to the list of previous destinations.

You can delete unwanted previous destinations from the list.

Previous Destinations P. 39

## **Place Name**

#### Best button ► Place Name

Enter the name of a place (e.g., business, hotel, restaurant) stored in the map database to use as the destination.

- 1. Enter a place name.
- **2.** Select **List** to display a list of matching hits.

- 3. Select a place name from the list.
  - If the place name is in multiple categories, the categories are displayed when you select it.
     ☑ Place Name in Multiple Categories P. 66
- **4.** Set the route to your destination.  **Calculating the Route** P. 77

#### Place Name

This option is convenient if you know the exact name of a place.

Select **More** to enter symbols and accented letters, select **Space** to enter a space character, or select **Delete** to remove the last character.

Once a name is entered and selected, select **SORT BY Name** or **SORT BY Distance**. Matching letters are in yellow.

## ■ Place Name in Multiple Categories

If the place name is in multiple categories in the map database, the following screen is displayed.

**1.** Select a place name.

- 2. Select a subcategory.
- **3.** Set the route to your destination.
  - **Calculating the Route** P. 77

#### ▶ Place Name in Multiple Categories

Select **SORT BY Name** or **SORT BY Distance**. Matching letters are in yellow.

# **Place Category**

## § DEST button ▶ Place Category

Select the category of a place (e.g., Banking, Lodging, Restaurant) stored in the map database to search for the destination.

**1.** Select a category.

- 2. Select a subcategory.
  - ► Select or to change the main category.
    - List of Categories P. 207

#### ▶ Place Category

This option is convenient if you do not know the exact name of a place or if you want to narrow down the number of matches returned for places with a common name.

You can store up to 30 favorite subcategories. Select **Fav. Subcategory** to access your favorites

Favorite Subcategories P. 69

Advanced helps you to search the subcategory. When you enter a keyword and select List, the list of appropriate subcategories is displayed.

3. Select an item.

The following items are available:

- Place Name: Searches for a place in the subcategory by name. Enter a city name when prompted.
- Sort by Distance to Travel: Displays all the places in the subcategory sorted by distance from your current location. The closest place is displayed at the top.
- City Vicinity: Searches for a place in the subcategory within a 20-mile radius of a specific city. Enter a city name and then a place name when prompted. Only the first approximately 1000 matching places/landmarks are displayed.
- Search by Keyword: Searches for a place by keyword when you do not know the
  exact category. Select Sort by Distance to Travel for locations near your current
  location, or select City Vicinity for locations in a specific city. Enter a keyword
  when prompted. Select List to view a list of possible locations if one is not found
  automatically.

#### Place Category

#### Sort by Distance to Travel

For locations sorted by distance to travel, you can select **More** to increase the scope of the search. The number of locations increases to 100, 200, and up to approximately 1000. When the number of locations is 100 or less, you can increase the scope to 500 miles, 1000 miles, or all of U.S.

- **4.** Select a place name from the list.
- **5.** Set the route to your destination. **■** Calculating the Route P. 77

#### ▶ Place Category

The straight line distance (as the crow flies, not driving distance) and direction to the destination are shown for the highlighted place.

# ■ Favorite Subcategories

↑ DEST button ► Place Category ► Fav. Subcategory
 Store up to 30 favorite subcategories.

■ To store a subcategory in favorites:

- **1.** Select a category on the Category screen.
- 2. Select Add to Fav. Subcategory.

**3.** Select the favorite subcategories to add. Select **OK**.

#### ▼ Favorite Subcategories

#### **Stored categories**

A subcategory stored in **Fav. Subcategory** has a star at the end of the line.

■ To delete a subcategory from favorites:

**1.** Select **Delete** on the Favorite Subcategory screen.

2. Select the subcategories to delete.

▶ Items to be deleted are indicated

► Repeat the procedure as

with a trash icon. **3.** Select **OK** 

necessary.

**≫** Favorite Subcategories

#### **Deleting categories**

You can also delete a favorite subcategory on any Subcategory screen. Select ▲ or ▼ to select a favorite subcategory (which has a star at the end of line) and select Delete from Fav. Subcategory.

# **Place Phone Number**

## DEST button ► DEST Menu 2 ► Place Phone Number

Select a destination by phone number. Only phone numbers in the database are recognized.

- **1.** Enter the area code and phone number. Select **OK**.
- 2. Set the route to your destination. 

  ☐ Calculating the Route P. 77

#### ≫ Place Phone Number

All 10 digits must be entered.

Phone numbers of private residences entered in your address book are not stored in the database and thus cannot be used to search for a destination.

A list is displayed if there are multiple locations in the database with the same phone number. Select a place from the list.

## Coordinate

## DEST button ► DEST Menu 2 ► Coordinate

Specify a location using latitude and longitude map coordinates.

Enter latitude	
N 33° 50' 44"	
1	
Delete	OK

- 1. Enter the latitude. Select OK.
- 2. Enter the longitude. Select OK.

Calculate route to

1234 MAIN ST
ANYPLACE, CA

4,5 mi +0

Destination Map

ADD Address Book
View Routes

ADD My Dest,
Route Pref,
Set as Dest,

- **3.** Scroll the map to position the cursor over your desired destination, adjusting the map scale as necessary. Press the ENTER button.
  - ▶ If the address is not the desired location, scroll to another location and try again.
- 4. Press the ENTER button again to display the route calculation menu.☑ Calculating the Route P. 77
- 5. Select Set as Dest.

#### Coordinate

Latitude and longitude must be entered up to the seconds' value.

A yellow box (shown at scales above 1/4 mile) denotes the area that can be viewed when you press the ENTER button on the current map.

Information icons are displayed at scales from 1 mile to 1/4 mile. Place/landmark icons are displayed at 1/8 mile or less. Roads are displayed at 1/4 mile or less.

If you select multiple icons within the cursor radius, you are prompted to select one of the items from a list.

## Intersection

## DEST button ► DEST Menu 2 ► Intersection

Select the intersection of two streets as the destination. The state or province for your current location is displayed at the top of the screen (e.g., California).

- **1.** Select the intersection search method.
- 2. Set the route to your destination. 

  ☐ Calculating the Route P. 77

The following items are available:

- City: Selects the city where the intersection is located. You are prompted to enter the name of the two intersecting streets.
  - Selecting a City P. 60
- **Street**: Selects the two intersecting streets. The city or cities that the streets are located in are displayed.
  - Selecting a Street P. 61
- Change State: Selects the state or province.
  - **Selecting the State or Province** P. 59

#### Intersection

It is usually easier to select **Street** to find the streets first. The city or cities that the streets are in will be displayed. If you select **City** and your city is not listed, it may be part of a larger metropolitan area. Try entering the street first.

If the intersection is outside the state you are currently in, select **Change State**.

**Selecting the State or Province** P. 59

If there is more than one intersection, you are prompted to select the intersection. If the two streets that you have selected do not intersect, no intersection is entered.

# **Map Input**

§ DEST button ▶ **DEST Menu 2** ▶ **Map Input** 

Use the joystick to manually select an icon or a location on the map screen as the destination.

You are prompted to define the map area to display.

1. Select an item.

The following items are available:

- Current Position: Your current location is centered on the map.
- City: You are prompted to select the city.
  - Selecting a City P. 60
- State: You are prompted to select the state.
  - **Selecting the State or Province** P. 59

- **2.** Scroll the map to position the cursor over your desired destination, adjusting the map scale as necessary. Press the ENTER button.
  - ► If the address is not the desired location, scroll the map to another location and try again.
- 4. Select Set as Dest.

### Map Input

A yellow box (shown at scales above 1/4 mile) denotes the area that can be viewed when you press the ENTER button on the current map.

Information icons are displayed at scales from 1 mile to 1/4 mile. Place/landmark icons are displayed at 1/8 mile or less. Roads are displayed at 1/4 mile or less.

If you select multiple icons within the cursor radius, you are prompted to select one of the items from a list.

Selecting a Destination on the Map P. 109

# Calculating the Route

This section describes how to calculate your route.

- 1. Select Set as Dest.
  - ➤ The system calculates and displays the route line on the map screen.
    - Route Line P. 82

The following items are available:

Route Pref.: Changes the route preferences (calculating method).
 Changing the Route Preference P. 78

AUDIO / MAP MENU

VOICE (1)

- **2.** Follow the route guidance to your destination.
  - **Driving to Your Destination** P. 80
  - The system provides you with pop-up messages if your route passes through unverified areas, avoid areas, or areas with traffic restrictions.

### ∑ Calculating the Route

The current route preferences are displayed as icons on the top right of the Calculate Route screen. The straight line distance (as the crow flies, not driving distance) and direction to the destination are shown.

You cannot use voice commands while the system is calculating the route.

#### Add to Address Book

You can add the destination address to the address book.

Adding an Address Book Entry P. 32

## Add to My Dest.

You can add the address to the destination list.

**Editing My Destination** P. 107

#### Call

You can place a telephone call to the destination phone number.

**Bluetooth® HandsFreeLink®** P. 148

# **Changing the Route Preference**

Change the route preference by selecting minimum or maximum driving methods.

- 1. Select MIN or MAX for each item
- 2. Select OK.

# Viewing the Routes

View three different routes to your destination.

- 1. Select a route on the list.
  - ➤ The travel distance and estimated travel time is displayed for each route.
  - ➤ The system calculates and displays the route line on the map screen.
    - Route Line P. 82
- 2. Select OK.

#### ∑ Changing the Route Preference

The calculated route may not be the route you would choose. For safety reasons, the system generally applies the following rules to your route:

- Shortcuts through residential areas are avoided.
- Right turns are favored over left turns or Uturns
- Time-restricted turns (turns prohibited at certain times of the day) are not used.

#### ∑ Viewing the Routes

It is not unusual for some calculated route options to be identical.

# **Calculating the Route on the Destination Map**

Calculate the route from the map of the destination address.

Select Calculate the Route.

► The system calculates and displays the route line on the map screen.

Route Line P. 82

© Calculating the Route on the Destination Map

© "Display Destination Map" (when en route)

# **Driving to Your Destination**

This section describes how to follow the route guidance to your destination, receive traffic information, and choose the icons displayed on the map screen.

# **Viewing the Route**

## ■ Map Screen

After calculating the route to your destination, the route is displayed on the map screen.

## **► Map Screen Legend** P. 7

As you drive, the system tracks your position on the map in real time and provides guidance as you approach each guidance point on the route.

### ∑ Viewing the Route

岖 "Display Map"

You can change the map scale using voice control commands (e.g., say \*\*Display 2 mile scale\*\*).

Map Scale Commands P. 199

You can also change the map scale by using the ZOOM button.

You can control the icons displayed on the map screen using voice control commands (e.g., say © "Display post office").

**► Map Display Commands** P. 198

You can obtain information about the route using voice control commands (e.g., say 1/4) "How long to the destination?").

Route Commands P. 200

You can display the next guidance point on the map screen by saying figure "Display Map Guide" (when en route).

If you scroll the map while en route, the time and distance to destination indicators are replaced with an indicator showing distance from the current vehicle position.

The map screen can be viewed in single-screen or split-screen mode.

**B** Guidance Mode P. 90

## **■** Guidance Screen

The guidance screen offers an alternative way to view your route.

- ► In single-screen mode, press the MAP/GUIDE button to switch between the map and guidance screens.
- ➤ In split-screen mode, press the MAP/GUIDE button to switch between the next guidance direction and a list of guidance directions.

#### 

A visual guide helps you check the guidance screen.

**■ Guidance Screen** P. 8

#### **Turn-by-Turn Directions**

The next guidance point appears on the multiinformation display.

**■ Turn-by-Turn Directions** P. 8

You can turn this feature on or off using the multi-information display. See the Owner's Manual for instructions

## ■ Route Line

When driving on verified streets, the route line is light blue. The route line display changes when driving on unverified streets:

► If Unverified Area Routing is Off, the route line uses verified streets only (when possible). A dotted "vector line" pointing directly towards your destination is also displayed.

► If Unverified Area Routing is On, the route line changes to a dashed blue-pink line to indicate that the route line uses unverified streets.

#### ■ Route Line

You can set **Unverified Area Routing** to **Off** to follow your own route to the destination. If **Unverified Area Routing** is **On**, be aware that unverified streets may not be displayed accurately.

Unverified Area Routing P. 42

You can always view the entire route by simply saying [16] "Display entire route."

The route line may also consist of red or orange segments when your route line displays traffic information.

Map Screen Legend P. 7

FM Traffic P. 99

# ■ Deviating From the Planned Route

If you leave the calculated route, the system automatically recalculates a route to the desired destination based on your current location and direction.

#### Rerouting P. 41

# ■ Driving Off-road

If you leave all mapped (digitized) roads, the system automatically starts displaying a series of dots (breadcrumbs) to track the path you are taking. If needed, you can follow the dots back to the mapped road you originally left.

### Off-road Tracking P. 51

#### Deviating From the Planned Route

If **Rerouting** is set to **Manual** and you go off route, the system waits for you to manually initiate recalculation. Select **Recalc**.

Rerouting P. 41

## Driving Off-road

A message "Not on a digitized road" may appear when you drive half a mile away from a mapped road

Breadcrumbs may occasionally be displayed in urban areas, such as large parking lots in shopping malls, in new subdivisions where the roads are not yet in the database, or in areas where a GPS signal is unavailable, such as in a parking garage.

Off-road tracking breadcrumbs are limited to approximately 150 miles. Breadcrumbs at the beginning of the trail are deleted if you exceed that distance.

Breadcrumbs are displayed only at 1/20, 1/8, 1/4, and 1/2 mile map scales.

# **Listening to Voice Guidance**

## **YOICE** (on map)

As you approach each guidance point, a pop-up window is displayed on the map screen with instructions for you to follow. Voice guidance for each guidance point is also provided.

Typically, you hear three prompts:

- 1/2 mile from the guidance point (2 miles on freeway)
- 1/4 mile from the guidance point (1.2 miles on freeway)
- Just before the guidance point

To replay voice guidance, select **VOICE** on the map screen.

If you select **VOICE** between guidance points, voice guidance for the next guidance point is provided.

### ∑ Listening to Voice Guidance

"Voice" (on the map screen)

You can turn voice guidance off if you prefer.

**Display and Volume Settings** P. 22 **Display and Volume Settings** P. 22

When driving in unverified areas, the phrase "if possible" is inserted before each voice guidance prompt.

**VOICE** on the map screen may be grayed out if the vehicle is approaching or is in an unverified area with **Unverified Area Routing** set to **Off**.

The timing of voice guidance varies depending on the type of road you are on and the distance to the next guidance point.

# Map Menu

# **Displaying the Map Menu**

Use the Map Menu to control the icons displayed on the screen and to display traffic information. You can also use the Map Menu to find locations or to cancel the route.

- **1.** On the map screen, select **MAP MENU** (if displayed).
  - ► The Map Menu is displayed on the map screen.

2. Select an item.

The following items are available:

- Cancel Route: Cancels your current route.
   ➡ Canceling the Route P. 102
- Show icon on Map: Selects the icons to display on the map.

   Showing Icons on the Map P. 92
- Traffic Incidents: Displays a list of the traffic incidents around your current location or on your current route.

FM Traffic P. 99

#### Map Menu

If you scroll the map while en route, press the MAP/GUIDE (or CANCEL/BACK) button to return to the current position map screen, then select MAP MENU.

#### **Traffic Incidents**

You must be in or near a traffic-enabled city to receive coverage for that area. FM Traffic is available in the lower 48 states and Hawaii.

The incident icons are displayed on the 5 mile (8 km) or less map scale.

**Map Scale and Functions** P. 95

Continued

- Map Legend: Displays an overview of the map features.
  - ▶ Map Legend P. 94
- **Guidance Menu:** Allows you to set or confirm the guidance points and freeway exits for your route.
  - **Guidance Menu** P. 87

  - **► Changing Your Destination** P. 108
- Exit Info: Displays a list of the freeway exits.
  - Freeway Exit Information P. 89

# **Guidance Menu**

# **§ MAP MENU** (on map) ► Guidance Menu

Display the guidance points and freeway exits for your route, and set the display mode for the map and guidance screens.

Select an item.

The following items are available:

- **Directions**: Displays a list of the guidance points.
  - Directions P. 88
- **Guidance Mode**: Selects the guidance display mode.
  - **Guidance Mode** P. 90

## ■ Directions

**MAP MENU** (on map) ► Guidance Menu ► Directions

Display a list of the guidance points on your route for your confirmation.

Select lacktriangle or lacktriangle to scroll through the list.

► Press the MAP/GUIDE button to return to the map screen.

#### Directions

Guidance points with exit information are indicated by a ① (freeway exit information) icon. Select Exit Information to display the exit information.

**► Freeway Exit Information** P. 89

The route guidance information is automatically deleted when you reach your destination.

# ■ Freeway Exit Information

MAP MENU (on map) ► Exit Info.

Display a list of the freeway exits for the route. You can view freeway exit information (whether the exit is near gas stations, restaurants, ATMs, etc.) and add new destinations or waypoints to the calculated route.

1. Select an exit from the list.

- 2. Select a list item.
  - ► Select or to display information for different exits.
  - ► The location is displayed on the Calculate Route screen.
    - **► Calculating the Route** P. 77

#### ▼ Freeway Exit Information

"Display Freeway Exit Information"

You can scroll the map and select a (freeway exit information) icon on the map screen to display the freeway exit information. The cicon is only displayed if there is exit information available

Icons are displayed only at 1/4, 1/2, or 1 mile scale

Showing Icons on the Map P. 92

The route guidance information is automatically deleted when you reach your destination.

### ■ Guidance Mode

## **MAP MENU** (on map) ► Guidance Menu ► Guidance Mode

Select the display mode during route guidance: single-screen mode (default) or split-screen mode.

Select an option.

The following options are available:

• Single Screen: Displays the map and guidance screens on separate screens.

#### 

The guidance mode can also be selected from the System Setup menu.

Routing & Guidance P. 40

• Split Screen: Displays the map and guidance information simultaneously on the map screen.

#### ■ Guidance Mode

### Next guidance point

The next guidance point (the pop-up window) is displayed on the map screen as you approach a guidance point in the single-screen mode.

The next guidance point is also displayed on the multi-information display.

**■ Turn-by-Turn Directions** P. 8

# **Showing Icons on the Map**

## **MAP MENU** (on map) ► Show icon on Map

The icon bar along the bottom of the screen allows you to select the icons that are displayed on the map.

Select an icon in the icon bar.

- Selecting toggles the icon display on or off.
- ► Repeat the procedure as necessary.

The following options are available:

- Icon check boxes: Displays or hides the traffic and landmark icons.
  - Map Screen Legend P. 7
  - FM Traffic P. 99
- ALL OFF: Hides all icons.
- Icon Options: Fine-tunes the icon display.
  - Fine-tuning the Icons P. 93

### Showing Icons on the Map

You can display or hide the icons using voice commands on the map screen (e.g., say 10 "Display hospital").

■ Map Display Commands P. 198

# ■Fine-tuning the Icons

**MAP MENU** (on map) ► Show icon on Map ► Icon Options

Icons in some categories can be fine-tuned to display or hide.

**1.** Select an icon category from the list (e.g., **Other Icons**).

- **2.** Select the icons to display on the map.
  - Selecting toggles the icon display on or off.
  - Repeat the procedure as necessary.
- 3. Select OK.

### ∑ Fine-tuning the Icons

To display the "Other Icons," be sure to turn on OTHER ICON in the icon bar.

# **Map Legend**

# MAP MENU (on map) ► Map Legend

See an overview of the map lines, areas, routes, traffic information, and navigation icons.

Select an item.

► The system displays the map legend.

## Map Legend

A visual guide helps you see the map legend.

### Map Scale & Functions

You can change the map scale using voice commands on the map screen (e.g., say [底] "Display 2 mile scale").

**▶ Map Scale Commands** P. 199

You can change between miles or kilometers.

**Basic Settings** P. 24

# ■ Map Icons and Functions

Display or hide all icons on the map screen, with the exception of Honda/Acura Dealer icons which are always shown.

#### ■ Landmark icon

Туре	lcon display control	lcon selectable	lcon searchable
Honda/Acura dealer	Always on	Yes	Yes
Hospital	Yes	Yes	Yes
School	Yes	Yes	Yes
ATM	Yes	Yes	Yes
Gas station	Yes	Yes	Yes
Restaurants	Yes	Yes	Yes
Post office	Yes	Yes	Yes
Grocery store	Yes	Yes	Yes
Hotel/Lodging	Yes	Yes	Yes
Police station	No icon	No	Yes
Shopping, Tourist attraction, Bank	No icon	No	Yes
Parking garage	Yes	Yes	Yes
Parking lot	Yes	Yes	Yes
Freeway exit info.	Yes	Yes	No

### Map Icons & Functions

You can display or hide the icons using voice commands on the map screen (e.g., say \*\*Display hospital\*\*).

### Map Display Commands P. 198

Some icons, like police stations, are not shown, but you can still locate the nearest one with the Find Nearest voice command (e.g., say \*Find nearest police station\*).

#### Find Place Commands P. 199

#### Icon display control

Icons that can be displayed or hidden.

#### Icon selectable

Icons that can be selected as a destination using the joystick.

#### Icon searchable

Icons that can be searched using the 15 Find Nearest voice command.

### ■ Traffic icon

Туре	lcon display control	lcon selectable	lcon searchable		
Traffic speed	Yes	No	No		
Traffic incident	Yes	No	Yes		

# ■ Map Orientation

North always pointing up.

Select the map orientation icon to change the map orientation.

so that the direction you are traveling is always pointing up.

#### Traffic Incident

When you use the joystick to position the cursor (round red circle) over the traffic incident icon, you can view the summary of the incident.

When you press the ENTER button to select the traffic incident icon, you can view a pop-up message describing the incident in detail.

#### Map Orientation

"Display Heading-up" (from map screen), © "Display North-up" (from map screen)

The red arrow in the symbol always points North. On scales greater than 1 mile, North-up mode is always used.

## ■ Current Location

Display and save your current location for future use as a destination. The address, latitude, longitude, and elevation of your current location are displayed.

■ To save your current location in the address book:

**1.** Select the vehicle icon on the map.

- 2. Select Save.
- **3.** Edit the name, phone number, and category.
  - Address Book P. 31
- 4. Select OK.

#### ○ Current Location

"Display Current Location" (on map screen)

You can also save the current location by saying Register the Current Location".

If you have PIN-protected your address book, enter your PIN when prompted. Select **OK**. PINs are optional.

PIN Numbers P. 37

The elevation is not displayed if the system is receiving insufficient GPS information. When elevation is displayed, it may differ with roadside elevation signs by  $\pm 100$  feet or more.

Saving your current location does not change or cancel your current route.

## **FM Traffic**

## **§ MAP MENU** (on map) ► Traffic Incidents

View and avoid specific incidents and/or congestion on your route:

- 1. Select On Route.
- 2. Select an incident from the list.
  - ► The system displays the map screen and the incident location.

3. Select Traffic Detail.

#### >> FM Traffic

You must be in or near a traffic-enabled city to receive coverage for that area. FM Traffic is available in the lower 48 states and Hawaii.

Automatic traffic rerouting may not provide a detour route depending on circumstances.

(\*\*Display traffic incidents", (\*\*E) "Display traffic list"

You can also display the traffic incidents from the INFO screen

You can display traffic incidents and related information on the map screen using voice commands.

**▶ Map Display Commands** P. 198

### 4. Select Avoid.

► Repeat step 2 to 4 as necessary.

#### 5. Select Reroute

➤ The system recalculates a detour route that avoids the traffic incidents.

#### 

You can choose to avoid up to 10 traffic incidents. It is not always possible for the system to calculate a route that avoids all traffic incidents or specific traffic incidents you select.

The "On Route" tab on the Traffic List screen is only available during route guidance.

You cannot select an incident to avoid from the "All" tab.

You can also detour around a traffic incident manually if you encounter an unexpected obstacle.

**▶ Taking a Detour** P. 102

# **Changing Your Route**

# B DEST button (when en route)

This section describes how to alter your route, add an interim "waypoint" (pit stop), choose a different destination, cancel your current destination, and continue your trip after stopping.

Select an item.

The following items are available:

- Cancel Route: Cancels the route guidance.
  - Canceling the Route P. 102
- Detour: Calculates a detour route.
  - Taking a Detour P. 102
- Avoid Streets: Avoids streets along your route.
  - Avoiding Streets P. 102
- Change Route Pref.: Changes the route preferences (calculating method).
  - **≧** Changing the Route Preference P. 78
- Waypoint: Sets waypoints along your route.
  - **Adding Waypoints from the Route Menu** P. 104
- My Destination: Shows a list of waypoints. You can delete waypoints or edit the
  order of them.
  - **Editing My Destination** P. 107

### ∑ Changing Your Route

\*\*E "Display Menu", \*\*E "Display Navigation" (when en route)

If you press the DEST button when not en route, the Destination Menu screen is displayed.

**Entering a Destination** P. 56

# **Canceling the Route**

 $\S$  DEST button (when en route) ightharpoonup Cancel Route

Cancel the route guidance and remove the destination and all waypoints from the destination list. The system then returns to the map screen.

# **Taking a Detour**

note in the state of the state

Calculate a detour route manually. The system attempts to calculate a new route by avoiding the next 5 miles (while on a freeway) or 1 mile (while on a surface street).

# **Avoiding Streets**

 $\S$  DEST button (when en route)  $\blacktriangleright$  Avoid Streets

Select a street or streets along your route to avoid.

- 1. Select the street you want to avoid.
  - ▶ Repeat the procedure to avoid other streets.
  - ➤ Streets to be avoided are indicated with a trash icon.

### ■ Canceling the Route

You can also cancel your route from the Map Menu.

Map Menu P. 85

#### ∑ Taking a Detour

The detour option is convenient if you encounter an unexpected obstacle such as a road closure or extremely heavy traffic congestion.

### Avoiding Streets

Avoiding certain streets is convenient if you know of road construction, road closures, or excessive traffic along the route.

You cannot choose specific streets you want to use, only those to avoid. However, you can select intersections or waypoints (places/landmarks) that the system will use in your route.

**■ Adding Waypoints** P. 103

You can store up to 10 streets to avoid. You cannot avoid your current street or the streets of your waypoint(s) or destination (system beeps if selected).

### 2. Select OK.

➤ The system calculates a new route.

# **Adding Waypoints**

Add up to four waypoints (pit stops) along the route to your destination.

Waypoints are displayed on the map screen as small, numbered red flags. The route follows the waypoints in the order they are listed in the destination list

#### Adding Waypoints

Waypoints allow you to stop for gas or food, for example, and then continue on to your destination.

Press the MAP/GUIDE button to return to the map screen without adding a waypoint at any time.

The search corridor used for adding waypoints can be adjusted.

**Edit Waypoint Search Area** P. 46

You can delete waypoints or edit the order of waypoints in the destination list.

**Editing My Destination** P. 107

# ■ Adding Waypoints from the Route Menu

§ DEST button (when en route) ▶ Waypoint

**1.** Select a search method to add a waypoint.

The following items are available:

- Places Along the Route: Searches within a "corridor" on either side of the route
- Places Around the Destination: Searches in a spiral pattern around the destination.
- Places Around the Waypoint: Searches in a spiral pattern around the location you select.

**2.** Select the location when you select Places Around the Waypoint.

### Adding Waypoints

#### Search method

"Search around" method

"Searc

"Search along" method

The search corridor used for adding waypoints can be adjusted.

**Edit Waypoint Search Area** P. 46

- **3.** Select a waypoint category (e.g., Auto Service).
- **4.** Select a waypoint subcategory (e.g., GAS STATION).

- **5.** Select a place.
  - ► The waypoint is added to the destination list.
  - ► The route is automatically recalculated and displayed on the map screen.

# ■ Adding Waypoints from the Calculate Route Screen

- 1. Select a new address or location.
- 2. Select ADD TO My Dest.

**3.** Select ▲ or ▼ to select a location in the destination list. Select **OK**.

- 4. Select OK.
  - ➤ The route is automatically recalculated and displayed on the map screen.

# **Editing My Destination**

 $% \left( {{\mathbf{S}}_{1}} \right) = {\mathbf{S}}_{2} \left( {{\mathbf{S}}_{1}} \right) = {\mathbf{S}}_{3} \left( {{\mathbf{S}}_{1}} \right) = {\mathbf{S}$ 

Delete or edit the order of waypoints.

- 1. Select Edit.
  - ➤ Select Map to display the destination and waypoints on the map screen.

- 2. Select an item
- 3. Select OK.
  - ► The route is automatically recalculated and displayed on the map screen.

The following items are available:

- Delete: Select a list item to delete.
- Edit Order: Select a list item to move, select ▲ or ▼ to select a new location.

# **Changing Your Destination**

There are several methods you can use to change the route destination.

### **Find Nearest Place**

MAP MENU (on map) ► Find Nearest...

Search for the nearest place/landmark on the map screen and set it as your destination.

- 1. Select Find Nearest....
- 2. Select a category type.
- 3. Select a subcategory.
- **4.** Select a place.
- 5. Select Set as Dest.
- **6.** Select an item to set the place as a destination or add to the destination list.
  - ► The system calculates the route.
    ► Calculating the Route P. 77

#### 

"Find Nearest..." (on map screen)

The Find Nearest voice command is the fastest method of specifying a place/landmark as your destination. Many kinds of places can be found.

Find Place Commands P. 199

# **Selecting a Destination on the Map**

Select a new destination when en route by selecting a location on the map.

- **1.** Scroll the map to position the cursor over your desired destination, adjusting the map scale as necessary. Press the ENTER button.
  - ► If the address displayed is not the desired location, press the CANCEL/BACK button and repeat the procedure.
- 2. Press the ENTER button again.
- 3. Select a place.
- 4. Select Set as Dest.
  - **Calculating the Route** P. 77

- **5.** Select an option.
  - ➤ The route is automatically recalculated and displayed on the map screen.

The following options are available:

- Set as New Destination: Sets the location as your new destination.
- Add to My Destination: Sets the location as a new waypoint.

### **Entering a New Destination**

Property DEST button (when en route) ▶ DEST Menu 1 or DEST Menu 2

Enter a new destination using the Destination Menu screen even when you are en route.

- **1.** Select a method to enter a new destination.
- **Entering a Destination** P. 56
- After entering a new destination, the address is displayed on the Calculate Route screen.
- 2. Select Set as Dest.

∑ Entering a New Destination

岖 "Display Menu", 岖 "Display Navigation"

- 3. Select an option.
  - ➤ The route is automatically recalculated and displayed on the map screen.

The following options are available:

- Set as New Destination: Sets the location as your new destination.
- Add to My Destination: Sets the location as a new waypoint.

# **Resuming Your Trip**

Stop your vehicle en route (e.g., to rest, stop for gas, etc.), and then continue on your route.

If you did not complete your route, the Continue Trip screen is displayed when you restart your vehicle.

Select **OK**.

You can continue on the same route.

- Route Pref.: Changes the route preferences (calculating method).
  - **Changing the Route Preference** P. 78
- View Routes: Displays three different routes.
  - **≥ Viewing the Routes** P. 78
- **Destination Map**: Display a map of the destination.
  - **Calculating the Route on the Destination Map** P. 79

#### Resuming Your Trip

The Continue Trip screen has the same options as when you calculate a route.

**■ Calculating the Route** P. 77

To cancel your destination, press the CANCEL/BACK button.

#### Add to Address Book

You can add the destination address to the address book.

**⚠** Adding an Address Book Entry P. 32

#### Call

You can place a phone call to the destination phone number.

**Bluetooth® HandsFreeLink®** P. 148

# Audio System

# **About Your Audio System**

The audio system features FM/AM radio and XM® Radio. It can also play audio discs, WMA/MP3/AAC tracks, iPods®, USB flash drives, and *Bluetooth*® devices.

The audio system is operable from the buttons and switches on the panel, or the remote controls on the steering wheel.

**▶ Audio Remote Controls** P. 144

**■ Audio System** P. 6

# **Auxiliary Input Jack**

Use the jack in the console compartment to connect standard audio devices.

- **1.** Open the AUX cover.
- **2.** Connect a standard audio device to the input jack using a 1/8 inch/3.5 mm stereo miniplug.
  - ➤ The audio system automatically switches to the AUX mode.

#### 

XM® Radio is available on a subscription basis only.

XM® Radio Service P. 124

XM® Radio is available in the United States and Canada, except Hawaii, Alaska, and Puerto Rico.

XM is a registered trademark of Sirius XM® Radio, Inc.

Video CDs, DVDs, and 3-inch/8-cm mini discs are not supported.

Do not leave the iPod® or USB flash drive in the vehicle. Direct sunlight and high temperatures may damage it.

iPod® and iPhone® are registered trademarks owned by Apple Inc.

You can operate the audio system by voice commands.

Audio Commands P. 201

#### Mack Auxiliary Input Jack

To switch the mode, press any of the other audio mode buttons. You can return to the AUX mode by pressing the AUX button.

# **System Theft Protection**

The system is disabled when it is disconnected from the power source, such as when the battery is disconnected or goes dead.

### ■ Reactivating the system

- 1. Turn the ignition switch to ON (II), and turn on the system.
  - ▶ If you turn the ignition switch to ACCESSORY (I), you will be requested to enter the security code. See step 3.
- 2. Press and hold the VOL (Volume/Power) button again for more than two seconds.
  - ▶ The system is reactivated when the system's control unit recognizes that the system is in your vehicle.
  - ▶ If the control unit fails to recognize, "ENTER CODE" appears on the navigation screen.
- **3.** Enter the security code. If you do not enter the code correctly after 10 tries, leave the system for one hour before trying again, or visit a dealer to have the system reset.

### System Theft Protection

Find the audio system's security code and serial number label in your Owner's Manual kit.

Do not store the label in your vehicle. If you lose the label, you must first retrieve the serial number, and then obtain the code from a dealer.

#### U.S. Only

You can register the security code at Owner Link (owners.honda.com.). To find information on how to retrieve the serial number and obtain the code, visit radio-navicode.honda.com.

**Entering the Security Code** P. 186

# Playing FM/AM Radio

# **Selecting FM/AM Mode**

- 1. Press the FM/AM button.
  - Press the FM/AM button again, if necessary, to select the frequency band (FM1, FM2, AM).
  - ► The band and frequency are displayed.
- **2.** Select AUDIO/STREET until AUDIO is highlighted in blue.
  - ➤ The preset keys are displayed at the bottom of the screen.
- 3. Select the preset key.
  - ➤ You can also select a station using the SEEK/SKIP button.

### ▶ Playing FM/AM Radio

"Display audio screen"

You can control the radio using voice commands.

Radio Commands P. 201

A visual guide helps you operate the audio system.

**System Controls** P. 4 **Basic Operation** P. 6

The ST indicator comes on the display for stereo FM broadcasts. Stereo reproduction in AM is not available.

The radio can receive the complete AM and FM bands:

AM band: 530 to 1710 kHz FM band: 87.7 to 107.9 MHz

You can store six AM stations and 12 FM stations in the preset buttons. FM1 and FM2 let you store six stations each.

### **Audio Screen Control**

§ AUDIO button (in FM/AM mode)

Control the audio system through the navigation screen.

- 1. Select a frequency band (AM, FM1, or FM2).
- 2. Select a preset station.
  - ➤ Touch and hold a preset key until a beep sounds to store the current station in the key.

The following items are available:

- TUNE: Tunes the radio to the frequency you select. Select ◀ or ▶ to select a frequency.
- SCAN: Scans for stations with a strong signal in the current band and plays a 10-second sample. Select **Stop** to stop scanning and play the current selection.
- AUTO SELECT: Scans and automatically stores up to six AM stations and 12 FM stations with a strong signal in the preset buttons.
- AUDIO MENU: Sets the RDS options and sound preferences.
- **SOURCE**: Changes the source mode.
- Open/Close icon: Displays/hides the detailed information.

#### Mario Screen Control

The audio information is also displayed on the multi-information display. See your Owner's Manual for more information.

The A.SEL indicator comes on the display when AUTO SELECT is on. If you do not like the stations Auto Select has stored, you can change the frequencies stored in the preset buttons manually.

### **Audio Menu**

8 AUDIO button (in FM/AM mode) ► AUDIO MENU

Select an item.

The following items are available:

- RDS search: Searches for programs by RDS category. 

   Searching for Programs by RDS Category P. 119
- Radio Text: Displays the text information broadcast by the current RDS station.
   Radio Text Display P. 120
- RDS INFO: Sets whether to display the RDS Information on the screen. 
   RDS Info Display P. 119
- Sound: Displays the sound preferences screen.
   Adjusting the Sound P. 143

### Radio Data System (RDS)

Provides text data information related to your selected RDS-capable FM station.

### ■ RDS Info Display

When **RDS INFO** is set to ON, the name of the FM station is displayed. When set to OFF, the frequency of the station is displayed.

### ■ Searching for Programs by RDS Category

8 AUDIO button (in FM/AM mode) ► AUDIO MENU ► RDS search

Search for FM stations with a strong signal that broadcast the selected RDS category information

- 1. Select a search method (Seek up, Seek down, Scan).
- **2.** Select a category.
  - Scanning for stations in that category begins. When an RDS station is found, it begins to play.
  - ► If there are no RDS-capable stations in the area, "NOTHING" briefly appears on the display.

### ■ Radio Text Display

<sup>®</sup> AUDIO button (in FM/AM mode) ► **AUDIO MENU** ► **Radio Text** Display the radio text information of the selected RDS station.

### ■ Radio Text Display

The RDS indicator comes on the display when the selected RDS station is broadcasting text data.

# Playing XM® Radio

# **Selecting XM Mode**

- 1. Press the CD/XM button.
  - Press the CD/XM button again, if necessary, to select the channel band (XM1, XM2).
  - ► The band and channel are displayed.
- **2.** Select AUDIO/STREET until AUDIO is highlighted in blue.
  - ► The preset keys are displayed at the bottom of the screen.
- **3.** Select the preset key.
  - ➤ You can also select a station using the SEEK/SKIP button.

### ▶ Playing XM® Radio

"Display audio screen"

You can control the radio using voice commands.

Radio Commands P. 201

A visual guide helps you operate the audio system.

**System Controls** P. 4

**Basic Operation** P. 6

In the channel mode, all available channels are selectable. In the category mode, you can select a channel within a category (Jazz, Rock, Classical, etc.).

There may be instances when XM® Radio does not broadcast all the data fields (artist name, title). This does not indicate a problem with your audio system.

You can store 12 XM stations in the preset buttons. XM1 and XM2 let you store six stations each.

XM® Radio display messages will be displayed on the audio screen.

XM® Radio Display Messages P. 124

### **Audio Screen Control**

8 AUDIO button (in XM mode)

Control the audio system through the navigation screen.

- 1. Select the channel band (XM1, XM2).
- 2. Select a preset channel.
  - ➤ Touch and hold a preset key until a beep sounds to store the current channel in the key.

#### Audio Screen Control

The audio information is also displayed on the multi-information display. See your Owner's Manual for more information.

The following items are available:

- CATEGORY: Tunes to the channel you select. Select ◀ or ▶ to select a channel.
- SCAN: Scans for channels by the scan mode (channel mode or category mode) selected in the Audio Menu.
  - Scan Channel: Scans for channels with a strong signal in the current band and plays a 10-second sample. Select Scan Channel to stop scanning and play the current selection.
  - Scan Category: Scans for channels with a strong signal in the selected category in the current band and plays a 10-second sample. Select Scan Category to stop scanning and play the current selection.
- CHANNEL LIST: Displays the list of available channels. Scroll the list to select a channel.

• AUDIO MENU: Sets the receiving mode (channel or category) and sound preferences.

Audio Menu P. 123

- **SOURCE**: Changes the source mode.
- Open/Close icon: Displays/hides the detailed information.

### **Audio Menu**

R AUDIO button (in XM mode) ► AUDIO MENU

Select an item.

The following items are available:

- MODE: Sets CH (channel mode) or CAT (category mode) scan mode.
- **Sound**: Displays the sound preferences screen.

### **XM® Radio Service**

### ■Subscribing to XM® Radio

- 1. Retrieve your radio ID before registering for subscription.
  - ► To see the radio ID, press the ▼ (SEEK/SKIP) button to select "000" channel. You can also select "000" channel from CHANNEL LIST.
- 2. Have your radio ID and credit card number ready, and either call XM or visit the XM website to subscribe.

### ■ Receiving XM® Radio

Press the XM button and stay in this mode for about 30 minutes until the service is activated. Make sure your vehicle is in an open area with good reception.

### XM® Radio Display Messages

Loading: XM is loading the audio or program information.

Channel Off Air: The channel is not currently broadcasting.

**Channel Not Authorized**: The encryption code is being updated. Channels 0 and 1 still work normally.

No Signal: The signal is too weak in the current location.

**Channel Not Available**: No such channel exists, the channel is not part of your subscription, or the artist or title information is not available.

Check Antenna: There is a problem with the XM antenna. Contact a dealer.

### Subscribing to XM® Radio

Contact Information for XM® Radio:

**U.S.**: XM® Radio at *www.xmradio.com*, or (800) 852-9696

Canada: XM Canada at www.xmradio.ca, or (877) 209-0079

#### ■ Receiving XM® Radio

The XM satellites are in orbit over the equator; therefore, objects south of the vehicle may cause satellite reception interruptions. Satellite signals are more likely to be blocked by tall buildings and mountains the farther north you travel from the equator.

You may experience reception problems under the following circumstances:

- In a location with an obstruction to the south of your vehicle
- In tunnels
- On the lower level of a multi-tiered road
- Large items are carried on the roof rack

# Playing a Disc

# **Selecting Disc Mode**

GPS GTRI
MANIACTAN BEACH

- **4.** Select or ▶ to select a track.
  - ➤ You can also select a track using the SEEK/SKIP button.
  - ➤ The track number and elapsed time are displayed on the display. Text information stored on MP3/WMA/AAC discs is also displayed.

### ▶ Playing a Disc

"Display audio screen"

You can control the disc using voice commands.

Disc Commands P. 202

A visual guide helps you operate the audio system.

System Controls P. 4

**Basic Operation** P. 6

In some cases, the name of the artist, album, or track may not appear correctly.

Do not use discs with adhesive labels. The label can cause the disc to jam in the unit.

WMA tracks protected by digital rights management (DRM) cannot be played. The audio system displays Unplayable File, then skips to the next track.

If there is a problem, you may see an error message on the display.

Error Messages P. 181

If you eject the disc but do not remove it from the slot, the system reloads the disc automatically after several seconds.

### **Audio Screen Control**

§ AUDIO button (in DISC mode)

Control the audio system through the navigation screen.

Select a track.

- Select the Folder tab to display the list of folders on MP3/WMA/AAC discs having a folder structure.
- **▶ Playing MP3/WMA/AAC Discs** P. 127

The following items are available, depending on the type of disc:

- SCAN:

**Scan Track**: Scans all tracks on the disc (or in the selected folder) in the order they were recorded (stored) and plays a 10-second sample. Select **Stop** to stop scanning and play the current selection.

**Scan Folder**: Scans the first track in each folder on the disc and plays a 10-second sample. Select **Stop** to stop scanning and play the current selection.

• PLAY MODE:

Random All: Plays all tracks on the current disc in random order.

Random in Folder: Plays all tracks in the current folder in random order.

Repeat 1 Track: Repeats the current track.

**Repeat 1 Folder**: Repeats all tracks in the current folder.

#### Mario Screen Control

The audio information is also displayed on the multi-information display. See your Owner's Manual for more information.

#### ■ Repeat and Random Play

To stop repeat- or random-play, select the current play mode button again.

- **SOUND**: Displays the sound preferences screen.
  - **Adjusting the Sound** P. 143
- **SOURCE**: Changes the source mode.
- Open/Close icon: Displays/hides the detailed information.

### Playing MP3/WMA/AAC Discs

§ AUDIO button (in DISC mode) ▶ Folder

Change the folder on MP3/WMA/AAC discs that have tracks stored in a folder structure.

Back To Current Track

Touch to close the folder.

SOURCE 03 01 Track 00'29'
Folder Track
1 01 ROOT
2 02 FOLDER A
4 06 FOLDER B
5 07 FOLDER F

▼ FOLDER ►

Touch to open the folder.

- 1. Select a folder.
  - ► The system displays the track list.
- 2. Select a track.
  - ➤ The system begins playing the selected track.

#### 

#### **Folder List**

- Any tracks not in a folder are automatically added to a "ROOT" folder, which is displayed at the top of the Folder List.
- If the root folder has additional folders in a lower layer, they are listed on the screen.

**Back to Current Track**: Displays the current track at the top of the list.

### **Recommended Discs**

- Use only high-quality CD-R or CD-RW discs labeled for audio use.
- Use only CD-R or CD-RW discs on which the recordings are closed.
- Play only standard round-shaped discs.

The disc packages or jackets should have one of these symbols.

### ■ Discs with MP3, WMA, or AAC Tracks

- Some software files may not allow for audio play or text data display.
- Some versions of MP3, WMA, or AAC formats may be unsupported. If an unsupported track is found, the audio unit displays Unsupported, and then skips to the next track.

#### ■ Recommended Discs

A Dual-disc cannot play on this audio unit. If recorded under certain conditions, a CD-R or CD-RW may not play either.

### ■Connecting an iPod®

- **1.** Unclip the USB connector in the center console and loosen the adapter cable.
- 2. Install the iPod® dock connector to the USB connector.

# ■ Model Compatibility

#### Model

# **Playing Tracks in Folders**

% AUDIO button (in USB mode) ▶ Folder

Change the folder if the tracks are stored in a folder structure.

Touch to open the folder.

- 1. Select a folder
  - ► The system displays the track list.
- 2. Select a track.
  - ➤ The system begins playing the selected track.

### ■ Repeat and Random Play

To stop repeat- or random-play, select the current play mode button again.

#### ▶ Playing Tracks in Folders

#### Folder List

- Any music tracks not in a folder are automatically added to a "ROOT" folder, which is displayed at the top of the Folder List.
- If the root folder has additional folders in a lower layer, they are listed on the screen.

**Back to Current Track**: Displays the current track at the top of the list.

# Playing Bluetooth® Audio

Your audio system allows you to listen to music tracks stored on your *Bluetooth*-compatible phone.

This function is available when the phone is linked to the vehicle's *Bluetooth*® HandsFreeLink® (HFL) system.

**Bluetooth® HandsFreeLink®** P. 147

# Selecting Bluetooth® Audio Mode

- **1.** Make sure that your phone is on, paired, and linked to HFL.
  - Pairing a Phone P. 150
- **2.** Press the CD/XM button until you get to *Bluetooth*® Audio mode.
  - A Bluetooth® message and icon are displayed on the display and screen.
- **3.** Select AUDIO/STREET until AUDIO is highlighted in blue.

#### ▶ Playing Bluetooth® Audio

心 "Display audio screen"

You can control the *Bluetooth*® Audio using voice commands.

#### **Bluetooth® Audio Commands** P. 203

Not all *Bluetooth*-enabled phones with streaming audio capabilities are compatible. To check if your phone is compatible:

- U.S.: Visit automobiles.honda.com/ handsfreelink.
- Canada: Visit www.handsfreelink.ca.
- Call HandsFreeLink customer support at (888) 528-7876.

In some states, it may be illegal to perform some data device functions while driving.

In some cases, the name of the artist, album, or track may not appear correctly.

Only one phone can be used with HFL at a time. When there are more than two paired phones in the vehicle, the first paired phone the system finds is automatically linked.

- **4.** Select **⋈** or **⋈** to select a track.
- **5.** If necessary, follow the cell phone operating instructions for playing audio tracks.

### ≥ Playing Bluetooth® Audio

If more than one phone is paired to the HFL system, there may be a delay before the system begins to play.

A "NO CONNECT" message may be displayed if:

- The phone is not linked to HFL.
- The phone is not turned on.
- The phone is not in the vehicle.
- An incompatible phone is connected.

Check the following if the phone is not recognized:

 Another HFL-compatible phone, which is not compatible for Bluetooth® Audio, is already connected.

# **Switching to HFL Mode**

- 1. If you receive a call when Bluetooth® Audio is playing, press the ∠ (Pick-Up) button on the steering wheel to answer the call. Bluetooth® HandsFreeLink®
  P 148
- 2. Press the (Hang-Up/Back) button to end the call, and *Bluetooth* Audio is resumed.

### **Audio Screen Control**

Control the audio screen through the navigation system.

Bluetooth® Audio mode

Select an item.

Audio control

The following items are available:

- **GROUP**: Select **◄** or **▶** to select a playlist, album, genre, etc.
- SOUND: Displays the sound preferences screen. 

   Adjusting the Sound P. 143
- **SOURCE**: Changes the source mode.

#### Mario Screen Control

The audio information is also displayed on the multi-information display. See your Owner's Manual for more information.

The display items vary on the connected device.

The following functions may not be available on some devices:

- Pause function
- Group selection

### Adjusting the Sound

### § AUDIO button ( ► AUDIO MENU ) ► SOUND

Adjust the sound bass, treble, fader, and balance. You can also adjust the strength of the sound coming from the subwoofer speaker. In addition, you can set Speedsensitive Volume Compensation (SVC).

- **1.** Select the tab to adjust the desired sound mode.
- 2. Adjust the desired level.

#### Magneting Adjusting the Sound

Fader adjusts the front-to-back strength, while balance adjusts the side-to-side strength. If the fader adjustment is set to the maximum front level, the subwoofer is turned off.

The SVC has four modes: Off, Low, Mid, and High. SVC adjusts the volume level based on the vehicle speed. The faster you go, the audio volume increases. As you slow down, the audio volume decreases. If you feel the sound is too loud, choose Low, and vice versa.

### **Audio Remote Controls**

- Press the ◀ (Channel) button to select the previous preset station (channel).
- Press and hold the **b** button to skip to the next station in the frequency.

#### DISC, iPod®, USB, or Bluetooth® Audio

- Press the button to skip to the next track.
- Press the 
   ■ button to skip to the beginning of the current track. Press the 
   ■ button again to go to the beginning of the previous track.
- Press and hold the ◀ or ▶ button to skip up or down a folder (DISC/USB).

#### Pandora®

- Press the **b** button to skip to the next song.

### ■ 🗗 (Display) Button

Press the (Display) button to temporarily clear the turn-by-turn directions screen.

# Bluetooth® HandsFreeLink®

This section describes how to operate *Bluetooth*® HandsFreeLink®. You can place and receive phone calls using your vehicle's audio system without handling your cell phone.

luetooth® HandsFreeLink®	148
Pairing a Phone	150
Setting Up Speed Dialing	155
Editing Phone Information	158
Phone Setup	159
Making a Call	160
Receiving a Call	163
HFL Menus	164
ext Messages	167

### Bluetooth® HandsFreeLink®

#### R PHONE button

Select an item.

The following items are available:

- Redial: Dials the last number.
- Call History: Displays the call history.
  - Using Call History P. 162
- Phonebook: Displays the cell phone's imported phonebook.
  - Using the Phonebook P. 161
- Dial: Makes a call by entering the phone number.
  - Entering a Phone Number P. 161
- Text Messages: Displays received text messages list. is displayed if there is an unread message.
  - Text Messages P. 167
- Phone Setup: Sets up the HFL features.
  - Pairing a Phone P. 150
- Speed Dial 1, 2: Makes a call to stored speed dial entries.
  - Using Speed Dial P. 162
  - Setting Up Speed Dialing P. 155

#### Bluetooth® HandsFreeLink®

You can control the HFL system using voice commands.

► HFL Menus P 164

To use HFL, you need a *Bluetooth*-compatible cell phone. For a list of compatible phones, pairing procedures, and special feature capabilities:

- U.S.: Visit automobiles.honda.com/ handsfreelink.
- Canada: Visit www.handsfreelink.ca.
- Call HandsFreeLink customer support at (888) 528-7876.

#### **Voice Control Tips**

- Aim the vents away from the ceiling and close the windows, as noise coming from them may interfere with the microphone.
- Press and release the <u>(\*)</u> (Talk) button before giving a command. Speak clearly and naturally after a beep.

#### **≥ Voice Control Operation** P. 5

- If the microphone picks up voices other than yours, the command may be misinterpreted.
- To change the volume level, use the audio system's volume knob or the remote audio controls.

### ■ Help Features

Say £ "Hands-free help" or £ "Help" any time to get help or hear a list of commands.

**▶ Voice Help** P. 13

#### 

#### Bluetooth® Wireless Technology

Bluetooth® name and logos are registered trademarks owned by Bluetooth SIG, Inc., and any use of such marks by Honda Motors Co., Ltd., is under license. Other trademarks and trade names are those of their respective owners.

#### **HFL Limitations**

An incoming call on HFL will interrupt *Bluetooth*® Audio when it is playing. Audio will resume when the call is ended.

Certain touchscreen functions are disabled while the vehicle is moving.

**≧** Limitations for Manual Operation P. 19

### **Pairing a Phone**

### **8** PHONE button

When no *Bluetooth*-compatible phone has ever been paired to the system, the following screen appears:

- 1. Select Yes
- **2.** Put your cell phone in "Discovery" or "Search" mode.
- 3. Select OK.
  - ➤ The system begins to search for your phone.
- **4.** Select your phone in the list.
  - Select Find Another Phone if your phone is not found.
  - Refer to your phone manual for instructions on searching for a Bluetooth® device.
- **5.** Enter the 4-digit pairing code on your phone when prompted to complete the pairing process.

#### ▶ Pairing a Phone

Your *Bluetooth*-compatible phone must be paired to HFL before you can make and receive hands-free calls.

The maximum range between your phone and vehicle is about 30 feet (10 meters).

#### **Phone Pairing Tips**

- You cannot pair your phone while the vehicle is moving.
- Your phone must be in discovery or search mode when pairing the phone. Refer to your phone's manual.
- Up to six phones can be paired.
- Your phone's battery may drain faster when it is paired to HFL.
- If your phone is not ready for pairing or not found by the system within three minutes, the system will time out and returns to idle.
- The default pairing code "0000" is used unless you change the setting.

#### Pairing Code

You can change the pairing code setting.

**≧** Changing the Pairing Code P. 152

#### **Delete a Phone**

You can delete the paired phone.

Deleting a Paired Phone P. 153

### ■ Pairing from Phone Setup

### PHONE button ▶ Phone Setup

Use the Phone setup screen to pair an additional *Bluetooth*-compatible phone if a phone has been previously paired to the system.

- 1. Select Add/Select a Phone under Bluetooth setup.
- 2. Select Search.

- **3.** Put your cell phone in "Discovery" or "Search" mode
- 4. Select OK.
  - ➤ The system begins to search for your phone.
- **5.** Select your phone in the list.
  - Select Find Another Phone if your phone is not found.
  - Refer to your phone manual for instructions on searching for a Bluetooth® device.
- **6.** Enter the 4-digit pairing code on your phone when prompted to complete the pairing process.

#### ▶ Pairing from Phone Setup

You can control the HFL system using voice commands.

HFL Menus P. 164

If a prompt appears asking to connect to a phone, select **No** and proceed with step 1.

### ■ Changing the Pairing Code

PHONE button ► Phone Setup ► Add/Select a phone

1. Select Edit under Pairing Code.

2. Select an item.

The following items are available:

- Random: Uses a randomly generated pairing code.
- Fixed: Create your own pairing code.

- **3.** If you select **Fixed**, enter a new pairing code. Select **OK**.
  - Select **Delete** to remove the current pairing code.

### ■ Deleting a Paired Phone

PHONE button ► Phone Setup ► Add/Select a phone

- 1. Select List under Paired Phone List.
- 2. Select a phone to delete.
  - ➤ The *Bluetooth*® icon indicates the currently linked phone.

Deleting a Paired Phone

When you transfer the vehicle to a third party, delete all paired phones.

- 3. Select Delete this Phone.
- 4. Select Yes.

### ■ Changing the Currently Paired Phone

PHONE button ► Phone Setup ► Add/Select a phone

- 1. Select List under Paired Phone List.
- 2. Select a phone to connect.
- 3. Select Connect.
  - ► HFL disconnects the linked phone and starts connecting to another paired phone.

#### ○ Changing the Currently Paired Phone

If no other phones are found or paired when trying to switch to another phone, HFL will inform you that the original phone is linked again.

### **Setting Up Speed Dialing**

### PHONE button ► Speed Dial 1 or Speed Dial 2

Create speed dial entries with voice tags for easy calling.

1. Select Add New.

- **2.** Select a number entry option.
- 3. Select a number.
- 4. Select Voice Tag.
  - Select **OK** to store the speed dial without a voice tag.
- **5.** Follow the prompt to enter a voice tag.

The following options are available:

- Phonebook: Adds a number from the imported phonebook.
- History: Adds a number from the last 20 numbers.
- Phone Number: Enters a number manually.

#### Setting Up Speed Dialing

You can control the HFL system using voice commands.

**► HFL Menus** P. 164

Up to 15 speed dial entries can be stored per phone.

### ■ Registering a Voice Tag to a Speed Dial Entry

PHONE button ► Speed Dial 1 or Speed Dial 2

- 1. Select a speed dial entry.
- 2. Select Edit Speed Dial.
- 3. Select Voice Tag.

**4.** Follow the prompt to enter a voice tag.

### ■ Registering a Voice Tag to a Speed Dial Entry

Voice tags allow you to call your speed dial entries using the "Call..." voice command (e.g., say [6] "Call John Smith") after saying [6] "Call by voice tag."

- Avoid using duplicate voice tags.
- Avoid using "Home" as a voice tag.
- Avoid using voice tags that only contain numbers.
- It is easier for HFL to recognize a longer name (e.g., "John Smith" instead of "John").

#### ▶ Deleting a Speed Dial Entry

- 1. Select Delete Speed Dial.
- 2. Select Yes.

### ■ Editing a Voice Tag

### PHONE button ► Speed Dial 1 or Speed Dial 2

- **1.** Select a speed dial entry.
- 2. Select Edit Speed Dial.
- 3. Select Voice Tag.

4. Select an item.

The following items are available:

- Play Stored Voice Tag: Plays the stored voice tag.
- Record Voice Tag: Stores a voice tag. Follow the prompt to enter a voice tag.
- Delete Voice Tag: Deletes the stored voice tag. Select Yes.

### **Editing Phone Information**

### PHONE button ► Phone Setup ► Add/Select a phone ► List

Edit the user name of a paired phone, and protect the phonebook and speed dial entries with a PIN.

1. Select a phone to edit.

2. Select an item.

The following items are available:

- Connect: Connects the selected phone to the HFL.
- Edit Name: Enter a name.
- PIN: Enter a 4-digit PIN. Re-enter to confirm. You can select Do Not Use PIN to remove a PIN.
- Replace this Phone: Deletes the selected phone and adds a new phone.
   ▶ Pairing a Phone P. 150
- Delete this Phone: Deletes the user name, call history, and phonebook.

### ■ Editing Phone Information

You can control the HFL system using voice commands.

**▶ HFL Menus** P. 164

You can name up to six HFL users. Each can be PIN protected, and have their own phonebook, speed dial entries, and call history.

### **Phone Setup**

PHONE button ► Phone Setup

Set HFL options and features.

- 1. Select an item.
- 2. Select OK.

The following items are available:

- Bluetooth Setup: Pairs your phone to the system.
   ▶ Pairing a Phone P. 150
- Bluetooth Connection: Turns the Bluetooth® connection on or off.
   On: Connects your Bluetooth-compatible device to the system.
   Off (factory default): Disables the feature.
- Auto Transfer: Sets whether to automatically transfer a call from your phone to
  HFL when you enter and turn on the vehicle.

On (factory default): Automatically transfers your call to HFL. Off: Disables the feature

- Auto Answer: Sets whether to automatically answer an incoming call.
   On: Automatically connects an incoming call after about five seconds.
   Off (factory default): Disables the feature.
- Text Message Notice: Sets whether to give an incoming message notification.
   On (factory default): Gives an incoming message notification.
   Off: Messages are still received, but without notification.

#### ▶ Phone Setup

You can control the HFL system using voice commands.

**⇒ HFL Menus** P. 164

**Text Message Notice** can be set separately for each paired phone.

• Volume: Select — or + to adjust the receiver and ring volume. If you change the volume during a call, it is maintained at that level until you change it again.

### **Making a Call**

Make calls by entering a number or using the imported phonebook, call history, or speed dial entries.

- Using the Phonebook P. 161
- **Entering a Phone Number** P. 161
- Using Call History P. 162
- Using Speed Dial P. 162

### ■ Using the Phonebook

PHONE button ► Phonebook

- 1. Select a name.
  - ➤ Select alphabetical tabs to display the entries in the group.
- 2. Select a number.
- **3.** Select **Call** to begin dialing.

### ■ Entering a Phone Number

PHONE button ► Dial

- **1.** Enter a phone number.
- 2. Select Dial to begin dialing.

#### ■ Using the Phonebook

Up to three icons are displayed for each phonebook entry. If there are more than three numbers for an entry, "..." is displayed.

This feature is not available on all phones.

#### ∑ Entering a Phone Number

A command that consists of several numbers can be spoken together. For example, say 123-456-7890" at once.

### ■ Using Call History

PHONE button ► Call History

- 1. Select a call.
  - Select All, Dialed, Received, Missed to view the call history by category.
- 2. Select Call to begin dialing.

### ■ Using Speed Dial

PHONE button ► Speed Dial 1 or Speed Dial 2

- 1. Select a speed dial entry.
- 2. Select Call to begin dialing.

#### ► Using Call History

The call history shows the last 20 calls from your phone.

#### Using Speed Dial

To make a call using speed dial, you need to create speed dial entries.

Setting Up Speed Dialing P. 155

#### **More Speed Dial Lists**

You can make a call by using more speed dials on the other phones.

- 1. Select another paired phone in the list.
- **2.** Select a speed dial entry.
- 3. Select Call to begin dialing.

If the other phone is PIN-protected, enter the PIN when prompted. Select **OK**. PINs are optional.

**Editing Phone Information** P. 158

### **Receiving a Call**

**1.** Press the (Pick-Up) button to answer a call and display the Calling screen.

2. Press the (Hang-Up) button to terminate the call.

The following options are available during a call:

- MUTE: Allows you to mute your voice.
- Touch Tones (available on some phones): Allows you to send numbers or names during a call. This is useful when you call an automated phone system.
- Transfer Call: Allows you to transfer a call from HFL to your phone, or from your phone to HFL.

#### ■ Receiving a Call

An incoming call notification appears on both the navigation screen and the multi-information display, and you hear an audible ring tone.

If your phone has Call Waiting, press the button to put the original call on hold and answer the incoming call. To return to the original call, press the button again. If you want to hang up the original call and answer the new call, press the button.

To change the volume level of HFL, use the audio system volume knob or the steering wheel volume controls.

Some phones may send battery, signal strength, and roaming status information to the screen.

#### **Phonebook**

Displays the cell phone's imported phonebook.

Using the Phonebook P. 161

### **HFL Menus**

Use HFL when the vehicle's ignition is in the ACCESSORY (I) or ON (II) position.

You can operate HFL by voice when on the PHONE screen. Below is the flow chart showing available voice commands.

"Add a New Phone" or "Search"

"Pairing Code"

#### HFL Menus

To use HFL, you must first pair your *Bluetooth*-compatible cell phone to the system while the vehicle is parked.

Switch from a currently linked phone to another paired phone. ■ Changing the Currently Paired Phone P. 154

Create a user name for a paired phone.

Create a PIN for a paired phone.

Replace the previously paired phone with a new phone.

Delete a previously paired phone.

**Deleting a Paired Phone** P. 153

Pair your phone to the system. Pairing a Phone P. 150

Set a "fixed" or "random" pass-key code for phone pairing.

**► Changing the Pairing Code** P. 152

"Edit Name"

"PIN"

"Replace this Phone"

"Delete this Phone"

### **Text Messages**

If your paired phone is MAP-compatible, you can receive and hear text messages and reply to them using fixed reply messages.

### Pairing a Phone P. 150

If a text message is received, the following screen is displayed.

#### 1. Select Read.

- ► The text message is read aloud.
- Select Cancel to check the text message later.
- ▶ If the phone number of the sender is stored to the Phonebook, the name is displayed.
- 2. Select an item.
  - ➤ The entire message body is not displayed while driving.

#### 

You can control the text messages feature using voice commands.

#### **₹** Text Message Commands P. 203

To use this function, you need a Bluetooth- and MAP (Message Access Profile)-compatible cell phone. For a list of compatible phones and special feature capabilities:

- U.S.: Visit automobiles.honda.com/ handsfreelink.
- Canada: Visit www.handsfreelink.ca.
- Call HandsFreeLink customer support at (888) 528-7876.

If your phone is not capable of this function, a notification appears when you select the text message option.

Select **Text Messages** from the Phone screen to view a list of the 20 most recently received text messages. You can select each one to read, reply, or call back. The list cannot be scrolled while the vehicle is moving.

The following items are available:

- **Read:** Reads the text message aloud. Select **Stop** to stop reading. Adjust the volume using the VOL (Volume/Power) knob.
- **Reply:** Replies to the message using a fixed reply message. You cannot create your own messages.
  - Replying to the Message P. 168

- Call: Calls the sender.
- Previous message: Displays the previous message.
- Next message: Displays the next message.

### ■ Replying to the Message

- **1.** Select the message you want to use.
- 2. Select Send.

#### 

You can set up text message notification when the first message for the paired phone is received. You can change the setting from the Phone setup screen.

Phone Setup P. 159

If you delete a message on the phone, the message is also deleted in the system. If you send a message from the system, the message goes to your phone's outbox.

# **Other Features**

This section describes the useful functions incorporated into the navigation system.

Trip Computer	17
nformation Functions	17
System/Device Information	17
Map Update	17
Multi-View Rear Camera	17

### **Trip Computer**

### INFO button ► Trip Computer

View the distance traveled and average fuel consumption.

Select an item.

The following items are available:

- Current Drive: Displays the current trip information.
- **History of Trip A**: Displays information for three previous histories. The information is stored every time you reset Trip A.
- Delete History: Deletes the trip information. Select Yes.

#### Trip Computer

Displays the following trip information:

- **Instant Fuel**: The current estimated instant fuel economy.
- Average Fuel: The average fuel economy since the last key cycle.
- 1st, 2nd, 3rd Prev.: The previous average fuel consumption.
- **RANGE**: The estimated distance you can travel on the fuel remaining in the tank.

These values are estimates only.

### Information Functions

### **System/Device Information**

§ INFO button ► System/Device Information

View database, software, device, and vehicle identification information.

### **Map Update**

§ INFO button ▶ Map Update

Update the map database.

#### ∑ System/Device Information

You will need this information when ordering a map update.

**☑ Obtaining Navigation Update Data** P. 191

#### Map Update

When you order a map update, it is mailed to you on a USB flash drive.

**Obtaining Navigation Update Data** P. 191

### Multi-View Rear Camera

Your vehicle is equipped with a multi-view rear camera. When you shift into Reverse, the rear view is displayed on the navigation system screen. The edge of the bumper and parking guide lines are also displayed.

To turn the guide lines on or off, press and hold the CANCEL button until the guide lines turn on or off.

Press the ZOOM IN/OUT button to adjust the screen brightness.

While the rear view is displayed, touch ?, ? or ? to switch between wide, normal, and top down view modes.

#### Multi-View Rear Camera

Always keep the camera lens clean and unobstructed. The multi-view rear camera has a lens that makes distances appear different than they actually are. Always take care when reversing, and look behind you for obstacles.

Navigation controls are disabled when in Reverse.

If you turn the guide lines off, they remain off until you turn them back on.

Adjusting the brightness for the multi-view rear camera display does not affect the brightness for the navigation screen.

If the last used viewing mode is wide or normal, the same mode is selected the next time you shift into Reverse. If top view was last used, wide mode is selected.

# Troubleshooting

# **Map, Voice, Entering Destinations**

Problem	Solution
The Startup Confirmation screen is displayed every time I start the car.	This is normal. The Startup Confirmation screen reminds you and your guest drivers to always operate the navigation system in a safe manner. If you do not select <b>OK</b> at startup, voice commands will not work.
The navigation system reboots by itself (returns to the opening screen).	A reboot can be caused by extreme temperatures or shock from bumpy roads, and does not necessarily indicate a problem. If this happens frequently, please see your dealer.
How do I specify a destination when an entered city or street could not be found?	<ul> <li>Try entering the street first. Some cities are lumped in with a major metro area. In rural "unverified" areas or new subdivisions, streets may be missing or only partially numbered.</li> <li>Try selecting the destination directly from the map.</li> <li>Map Input P. 75</li> </ul>
Why do some letters become grayed out when I enter an address?	As you enter each letter in an address or a place/landmark, the navigation system looks in the database to see what letters are possible and grays out letters that do not apply.
How do I delete Personal Addresses, Previous Destinations, or the Home Address?	<ol> <li>Press the INFO button. Select Setup &gt; Personal Information to display the types of information.</li> <li>Select the type of address to delete.</li> <li>Select Delete.</li> </ol>
I cannot hear the navigation system voice.	Press the INFO button. Select <b>Setup</b> and check that <b>Volume</b> is not set to <b>Off</b> . <b>■ Display and Volume Settings</b> P. 22
The voice control system is having difficulty recognizing my voice commands.	<ul> <li>Check that the vents are not blowing air onto the microphone on the ceiling, the vehicle is as quiet as possible, and you are using the correct command when speaking.</li> <li>▶ Voice Recognition P. 21</li> <li>Say  # "Help" on any screen to see a list of the applicable voice commands.</li> </ul>
The navigation system pronunciation of street names in the guidance command or destination address sounds strange.	The basic guidance phrases use a studio-recorded voice, but street names are pronounced using a machine-generated voice. Consequently, the name may be mispronounced or sound strange at times.

Problem	Solution
I cannot give voice commands.	Make sure you selected "OK" at the Startup Confirmation screen. <b>▶ Start-up</b> P. 18
I cannot select an option on the touch screen.	To prevent driver distraction, certain touch screen functions and features are limited or inoperable while the vehicle is moving. Use voice commands, or pull over to proceed.
The screen is bright when I drive at night.	<ol> <li>Check that the nighttime dashboard brightness control is not set to maximum.</li> <li>Press the INFO button. Select Setup &gt; Other &gt; Color &gt; Map. Set the Night color to Black for the best contrast.</li> <li>Switching Display Mode Manually P. 27</li> </ol>
The screen is dark when I drive during the day.	Press the INFO button. Select <b>Setup &gt; Other &gt; Color &gt; Map</b> . Set the Day color to White for the best contrast. <b>■ Switching Display Mode Manually</b> P. 27
How do I change or remove my PIN?	<ol> <li>Press the INFO button. Select Setup &gt; Personal Information &gt; PIN Number &gt; GO Home 1 PIN or GO Home 2 PIN or Address Book PIN.</li> <li>Enter your existing PIN. You then have the choice to change or remove the PIN.</li> <li>PIN Numbers P. 37</li> </ol>
I have forgotten my PIN. How do I reset the PIN for Home or the PIN for personal addresses (User 1 or User 2)?	Your dealer must reset the PIN for you.
Why is Call grayed out on the Calculate Route screen?	Your phone is not paired to ${\it Bluetooth}$ B HandsFreeLink or, if paired, your phone is in use.

### Traffic

Problem	Solution
My FM Traffic is missing or is not displaying properly. What is wrong?	<ul> <li>Verify the following:</li> <li>FM Traffic relies on a clear FM signal. If signal strength is low, traffic data may not be available.</li> <li>Check the traffic icon on the icon bar, and the icon options for traffic.</li> <li>Showing Icons on the Map P. 92</li> <li>It is possible that there is a temporary technical problem with your metropolitan area traffic. You can call Honda Automobile Customer Service to see if there is an outrage.</li> <li>Honda Automobile Customer Service Contact Information P. 190</li> <li>If the situation persists, see your Honda dealer for assistance.</li> </ul>

# **Guidance**, Routing

Problem	Solution
The navigation system does not route me the same way I would go or the same way as other mapping systems.	The navigation system attempts to generate the optimal route. You can change the route preferences used when calculating a route.  ▶ Changing the Route Preference P. 78
The street I'm on is not shown on the map screen.	The mapping database is constantly undergoing revision. You can access the most recent information on the internet.  ▶ Map Coverage P. 191
The vehicle position icon is not following the road and the "GPS icon" text in the upper left hand corner of the screen is white or missing.	<ul> <li>Check that the GPS antenna (located in the dashboard) is not blocked. For best reception, remove items from the dashboard, such as radar detectors, cell phones, or loose articles.</li> <li>Metallic tinting or other aftermarket devices can interfere with the GPS reception. Please consult your dealer.</li> <li>■ GPS System P. 188</li> </ul>

Problem	Solution
The blue highlighted route and voice guidance stopped or turned into a blue/pink dashed line before I got to my destination.	Your route has entered an unverified area.  ➡ Unverified Area Routing P. 42
How do I stop the map from rotating as I drive along?	Select the map orientation icon on the map screen, or say **Display north-up" to change the map orientation.
Sometimes, I cannot select between the North-up and Heading-up map orientations.	The Heading-up map orientation can only be shown in the lower scales (1/20 - 1 mile scales).   Map Scale and Functions P. 95
The "time to destination" display sometimes increases even though I am getting closer to my destination.	If your speed reduces due to slower traffic, the navigation system updates the "time to destination" based on your actual road speed to give you a better estimate of arrival time.
The vehicle position icon on the map "lags" a short distance behind, especially when I arrive at an intersection.	This is normal. The navigation system is unaware of the width of intersections. Large differences in vehicle position can indicate a temporary loss of the GPS signal.   ■ GPS System P. 188
The screen is showing white dots as I drive along.	These dots are called "breadcrumbs." These are displayed if Off-road Tracking is set to On and you drive more than 1/2 mile off mapped roads.  ▶ Off-road Tracking P. 51
How do I remove the white dots ("breadcrumbs") from my screen?	Press the INFO button. Select Setup > Other > Vehicle, and set Off-road Tracking to Off, then return to the map.  ▶ Off-road Tracking P. 51
A road that I selected to avoid is being used when routing.	When you "draw" your area to avoid, make sure to select sections of roads that include at least one intersection.  ▶ Avoiding Streets P. 102
My elevation (shown when I display the current position) seems to fluctuate even though my elevation has not changed.	This is normal. The elevation can vary ±100 feet due to GPS calculation errors.   ➡ GPS System P. 188

Problem	Solution
My elevation is missing on the "current position" screen.	The elevation is only displayed if the GPS antenna can receive signals from at least four satellites. Try moving the vehicle into an open area. The elevation is also not displayed if the calculated elevation is zero or below sea level.

# **Update, Coverage, Map Errors**

Problem	Solution
My city is not part of a fully verified detailed coverage area.	The mapping database is constantly undergoing revision. You can access the most recent information on the internet.  ▶ Map Coverage P. 191
Does the navigation system work outside North America?	The navigation system contains maps for the 50 U.S. states, Canada, and Puerto Rico. The navigation system will not work in Mexico or other countries.   ▶ Map Coverage P. 191
Can I play video DVDs in my navigation system?	No. The navigation system is designed only to read music discs. If you experience any problems that you cannot resolve, please contact your dealer.
How do I report errors I find in the database?	Minor errors are bound to occur in a large database. If you encounter major errors, see   ▶ Reporting Errors P. 190

# **Display, Accessories**

Problem	Solution
The display appears dim when starting the car in really cold weather.	This is normal. The display will become brighter after a few minutes.

## **Multi-View Rear Camera**

Problem	Solution
When I shift gears, the multi-view rear camera image display is delayed.	This is normal. When shifting into or out of Reverse, you may experience a delay while the screen image switches between the navigation screen and the multi-view rear camera image.
The multi-view rear camera image is too dark or too bright. How do I adjust the brightness?	While the camera image is displayed, press the ZOOM IN/OUT button to adjust the brightness.  This adjustment does not affect the navigation screen brightness settings.

# **Miscellaneous Questions**

Problem	Solution
My clock frequently changes forward and backward by one hour.	The clock setting is automatically updated based on your GPS location. If you live and work on the boundary between two time zones, you can turn off this feature.   ☑ Clock Adjustment P. 47
The clock changes even when I am not driving near a time zone boundary.	The time zone boundaries are only approximated in the navigation system. Depending on the geography of the time zone boundary, the switch to a different zone can be erratic.   ■ Clock Adjustment P. 47
My state does not observe daylight saving time. How do I turn off this feature?	Press the INFO button. Select Setup > Other > Clock Adjustment > Clock Adjustment, and set Auto Daylight to Off.  ☑ Clock Adjustment P. 47
Daylight saving time has started, but the navigation system did not change time even though Auto Daylight is set to ON.	The automatic daylight saving time feature does not work in regions where the daylight saving time system has not been adopted.
The navigation system automatic daylight feature is not switching the navigation system clock on the correct dates.	Press the INFO button. Select Setup > Other > Clock Adjustment > Clock Adjustment, and set Auto Daylight to On. Note that the automatic daylight feature does not work in regions where the daylight saving time system has not been adopted.  ▶ Clock Adjustment P. 47
The navigation system clock switched by one hour for no apparent reason.	You may be driving near a time zone boundary.   ☑ Clock Adjustment P. 47
My battery was disconnected or went dead, and the navigation system is asking for a code.	Press and hold the VOL ☑ (Volume/Power) button for two seconds. The system should reactivate. If you have installed an aftermarket system, see your dealer. ► Entering the Security Code P. 186
How do I change the interface language?	Press the INFO button. Select <b>Setup</b> > <b>Other</b> > <b>Language</b> , and set the language to <b>English</b> , <b>Français</b> , or <b>Español</b> .

# **Error Messages**

# **Navigation System**

Error Message	Solution
The display temperature is too high! For protection, the display will shut down.	This message appears briefly when the display temperature is too high. The navigation system turns off until the display cools down. The system turns back on automatically when the display cools down.
The navigation system is unable to start due to excessive heat. The system will start after the system cools.	The navigation system has difficulty accessing to the map database when the temperature is high. The navigation system starts up automatically when the display cools down.
Route has not been completed. Please try again from a different location.	This message appears when you are on a route to or from a new area that is not in the database. Try planning a different route to or from a different location. If the error persists or is shown for a wide area, see your dealer.
Destination is not in this database version. Please set from map.  No POI found	The destination was not found in the database. Try another destination nearby, or select the destination from the map using the joystick. If the error persists or is shown for a wide area, see your dealer.

# **Disc Player**

Error Message	Cause	Solution
Bad Disc	Servo error	• Press the 🛕 (Eject) button and remove the disc, and check that the

# System Initialization

The navigation system must be initialized if power to the navigation system is interrupted for any reason (e.g., the battery was disconnected).

# **Entering the Security Code**

Find the navigation system's security code and serial number label in your Owner's Manual kit. Do not store the label in your vehicle. If you lose the label, you must first retrieve the serial number, and then obtain the code. You can find out about your serial number and security code from a dealer.

- **1.** Turn the ignition switch to ON (II), and turn on the audio system.
  - ▶ If you turn the ignition switch to ACCESSORY (I), and you will requested to enter the security code. See step 3.
- 2. Press and hold the VOL (Volume/ Power) button for more than two seconds.
  - ▶ The system is reactivated when the system's control unit recognizes that the system is in your vehicle. If the control unit fails to recognize, "ENTER CODE" appears on the navigation screen.
- **3.** Enter the security code.
  - ▶ If you do not enter the security code correctly after 10 tries, leave the system for one hour before trying again, or visit a dealer to have the system reset.

#### NOTE:

In the U.S., you can register the security code on Owner Link (owners.honda.com.). To find information on how to retrieve the serial number and obtain the code, visit radio-navicode.honda.com.

# **Acquiring GPS Information**

Depending on the length of time the power was interrupted, your system may require GPS initialization.

The navigation system lost power and is acquiring its location from the GPS satellites. This usually takes less than 10 minutes.

\* Start the engine.

\* Park the vehicle in an open area away from trees, power lines, and tall buildings.

\* Remove loose articles, cell phones, or electrical accessories located near the GPS antenna.

\* If this screen is displayed repeatedly when starting the vehicle, see your dealer.

If initialization is not necessary, the system proceeds directly to the Startup Confirmation screen

If the system fails to locate a sufficient number of satellites to locate your position within 10 minutes, the following screen is displayed.

If you are experiencing GPS reception problems:

**B** GPS System P. 188

# **Startup Confirmation Screen**

The Startup Confirmation screen is displayed when initialization has successfully completed. It is displayed every time you start your vehicle. Select **OK** to continue.

#### NOTE:

"OK" cannot be selected using a voice command.

# **Map Matching**

Map matching is the process of using the acquired GPS information to locate your position on the map screen. If you are on a mapped road, the name of the road is displayed along the bottom of the map screen when map matching is completed. Do not enter a destination until the road name is displayed.

The system may initially show your location on a different street (e.g., in urban areas where streets are close together), may show an incorrect elevation, or may delay the display of the vehicle position icon at intersections. This is normal; the system will correct itself while you drive.

## **GPS System**

The signals received from the GPS satellites are extremely weak (less than a millionth of the strength of a local FM station) and require an unobstructed view of the sky. The GPS antenna is located in the dashboard. The signal reception can easily be interrupted or interfered with by the following:

- Metallic window tint on the front or side windows
- Cell phones, PDAs, or other electronic devices docked in a cradle or lying loose on the dashboard
- Remote starters or "hidden" vehicle tracking systems mounted near the navigation unit
- Audio electronic devices mounted near the navigation unit
- Trees, tall buildings, freeway overpasses, tunnels, or overhead electrical power wires

The GPS is operated by the U.S. Department of Defense. For security reasons, there are certain inaccuracies built into the GPS for which the navigation system must constantly compensate. This

can cause occasional positioning errors of up to several hundred feet.

#### **Address Calculation**

The destination icon shows only the approximate location of a destination address. This occurs if the number of possible addresses is different from the number of actual addresses on a block. For example, the address 1425 on a 1400 block with 100 possible addresses (because it is followed by the 1500 block) will be shown a quarter of the way down the block by the system. If there are only 25 actual addresses on the block, the actual location of address 1425 would be at the end of the block.

#### **Database**

The digitized map database reflects conditions as they existed at various points in time before production. Accordingly, your database may contain inaccurate or incomplete data or information due to the passage of time, road construction, changing conditions, or other causes.

For example, some places/landmarks may be missing when you search the database because the name was misspelled, the place was improperly categorized, or a place/landmark is not yet in the database. This is also true for police stations, hospitals, and other public institutions. Do not rely on the navigation system if you need law enforcement or hospital services. Always check with local information sources.

In addition, the map database contains verified and unverified areas. Unverified streets may be missing from the map, in the wrong location, or have an incorrect name or address range. A message will warn you if your route includes unverified streets. Exercise additional caution when driving in unverified areas.

The database does not include, analyze, process, consider, or reflect any of the following categories of information:

- Neighborhood quality or safety
- Population density
- Availability or proximity of law enforcement
- Emergency, rescue, medical, or other assistance
- Construction work, zones, or hazards
- Road and lane closures
- Legal restrictions (such as vehicular type, weight, load, height, and speed restrictions)
- Road slope or grade
- Bridge height, width, weight, or other limits
- Traffic facilities safety
- Special events

• Pavement characteristics or conditions

Every effort has been made to verify that the database is accurate. The number of inaccuracies you experience increases the longer you go without obtaining an updated map database.

# **D** Obtaining Navigation Update Data P. 191

We assume no liability for any incident that may result from an error in the program, or from changed conditions not noted above.

# **Resolving Problems**

If you run into a specific issue that you cannot resolve, consult the following help resources:

- For navigation system issues:
   Troubleshooting P. 174
   There are also FAQs available online at automobiles.honda.com.
- For questions regarding *Bluetooth*® HandsFreeLink:
  - **Bluetooth® HandsFreeLink®** P. 148
- For traffic-related issues:
  - Traffic P. 176
- For reporting issues with the database or places/landmarks:
  - Reporting Errors P. 190
- Call Honda Automobile Customer Service.
  - ► Honda Automobile Customer Service Contact Information P. 190

# **Reporting Errors**

You can help to improve database accuracy by reporting any errors you encounter.

- Report errors in freeways and main "verified" roads shown in black on the map at http://mapreporter.navteq.com/ dur-web-external/.
- Please do not report errors in purple "unverified" roads. Maps for these areas are provided for reference only.
  - **▶** Unverified Area Routing P. 42
- Please do not report errors in places/ landmarks, such as changes in business names. Information about points of interest are constantly being updated. An updated database is available for purchase, usually in the fall of each year.
   Obtaining Navigation Update Data
  - P. 191
- For vehicle position icon errors, screen error messages, or other GPS-related errors:

# Honda Automobile Customer Service Contact Information

Honda Navi

American Honda Motor Co., Inc.

Honda Customer Service Mail Stop 500-2N-7E 1919 Torrance Blvd.

Torrance, CA 90501-2746 Tel: (800) 999-1009 Fax: (310) 783-3273

# **Visiting Your Dealer**

If you have a question that you cannot resolve using the available help resources, you can consult your dealer. Please identify the specific issue (e.g., error occurs when you enter a specific address, when driving on a certain road, or just when it's cold) so that the service technician can refer the issue to the factory so that a solution can be found. Be patient, the service technician may be unfamiliar with your specific issue.

## **Map Coverage**

The navigation system provides map coverage for the contiguous United States, Alaska, Hawaii, Canada, and Puerto Rico. The map coverage consists of accurately mapped (verified) metropolitan areas and a less accurate (unverified) rural database. Note that unverified areas are constantly being reviewed and converted to verified areas each year.

Contiguous United States

WANCHUMER

LOS AMUS

HOWOLULU

PUEPTO RICO

Map coverage update information is available from Honda Automobile Customer Service or online at www.hondanavi.com.

To find navigation system update information:

- 1. Visit www.hondanavi.com.
- **2.** Enter your vehicle model and model year.
- **3.** Click Map Coverage to display a list of verified coverage areas on the most recent update.
- **4.** Click Map Coverage Details to display a PDF document with a full listing of all coverage areas.
  - Adobe® Reader® is required for viewing and printing the Portable Document Format (PDF) documents. To download the latest version of Adobe Reader, visit http:// get.adobe.com/reader/.

# Obtaining Navigation Update Data

Honda is continually expanding the scope of the navigation system. Navigation system software upgrades may be made available periodically, usually in the fall of each year.

To purchase an updated data file:

- **1.** Obtain your vehicle's VIN number and the System/Device Information.
  - System/Device Information P. 171
- **2.** Call the Honda Navigation Disc Fulfilment Center at (888) 291-4675, or order online at www.hondanavi.com.

Update data is not available from your dealer. However, the dealer may assist you in obtaining an update data for you out of courtesy. There is no program for free updates.

#### **Traffic Information**

- Continuously updated traffic information is available in major metropolitan areas across the 48 contiguous states and Hawaii.
- Visit automobiles.honda.com/traffic for a complete listing of coverage areas and other information.

# Operation in Alaska, Hawaii, Canada, and Puerto Rico

#### ■XM® Radio

Navigation-equipped vehicles delivered to Alaska, Hawaii, Canada, and Puerto Rico are equipped with XM hardware, but XM broadcasting is not available. There are certain functions that rely on XM satellite signal coverage which are not available. Unavailable menu options will appear gray on the LCD display.

#### ■ Map Coverage

All roads displayed on the map screens are verified roads. Information in this manual relating to "unverified" roads or areas is not applicable.

#### Address and Place Entry Screens

Entering a destination address or place/ landmark on another island may result in a screen caution message. This is because there are no ferry routes between islands in the database.

# Shipping a Vehicle to the U.S. Mainland

To receive XM audio, you must call XM and set up an account at (800) 852-9696.

#### **END-USER TERMS**

#### ■ TERMS AND CONDITIONS

Personal Use Only. You agree to use this Data for the solely personal, noncommercial purposes for which you were licensed, and not for service bureau, timesharing or other similar purposes. Accordingly, but subject to the restrictions set forth in the following paragraphs, you may copy this Data only as necessary for vour personal use to (i) view it, and (ii) save it, provided that you do not remove any copyright notices that appear and do not modify the Data in any way. You agree not to otherwise reproduce, copy, modify. decompile, disassemble or reverse engineer any portion of this Data, and may not transfer or distribute it in any form, for any purpose, except to the extent permitted by mandatory laws. Multi-disc sets may only be transferred or sold as a complete set as provided by you and not as a subset thereof

Restrictions. Except where you have been specifically licensed to do so by NT, and without limiting the preceding paragraph, you may not (a) use this Data with any products, systems, or applications installed or otherwise connected to or in communication with vehicles, capable of

vehicle navigation, positioning, dispatch, real time route guidance, fleet management or similar applications; or (b) with or in communication with any positioning devices or any mobile or wireless-connected electronic or computer devices, including without limitation cellular phones, palmtop and handheld computers, pagers, and personal digital assistants or PDAs.

Warning. The Data may contain inaccurate or incomplete information due to the passage of time, changing circumstances, sources used and the nature of collecting comprehensive geographic data, any of which may lead to incorrect results.

No Warranty. This Data is provided to you "as is," and you agree to use it at your own risk. NT and its licensors (and their licensors and suppliers) make no guarantees, representations or warranties of any kind, express or implied, arising by law or otherwise, including but not limited to, content, quality, accuracy, completeness, effectiveness, reliability, fitness for a particular purpose, usefulness, use or results to be obtained from this Data, or that the Data or server will be uninterrupted or error-free.

Disclaimer of Warranty: NT AND ITS LICENSORS (INCLUDING THEIR LICENSORS AND SUPPLIERS) DISCLAIM ANY WARRANTIES, EXPRESS OR IMPLIED, OF QUALITY, PERFORMANCE, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT. Some States, Territories and Countries do not allow certain warranty exclusions, so to that extent the above exclusion may not apply to you.

Disclaimer of Liability: NT AND ITS LICENSORS (INCLUDING THEIR LICENSORS AND SUPPLIERS) SHALL NOT BE LIABLE TO YOU: IN RESPECT OF ANY CLAIM. DEMAND OR ACTION, IRRESPECTIVE OF THE NATURE OF THE CAUSE OF THE CLAIM, DEMAND OR ACTION ALLEGING ANY LOSS, INJURY OR DAMAGES, DIRECT OR INDIRECT. WHICH MAY RESULT FROM THE USE OR POSSESSION OF THE INFORMATION: OR FOR ANY LOSS OF PROFIT, REVENUE, CONTRACTS OR SAVINGS, OR ANY OTHER DIRECT, INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF YOUR USE OF OR INABILITY TO USE THIS INFORMATION, ANY DEFECT IN THE INFORMATION. OR THE BREACH OF THESE TERMS OR CONDITIONS, WHETHER IN AN ACTION IN CONTRACT OR TORT OR BASED ON A WARRANTY, EVEN IF NT OR ITS LICENSORS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. Some States, Territories and Countries do not allow certain liability exclusions or damages limitations, so to that extent the above may not apply to you.

**Export Control.** You agree not to export from anywhere any part of the Data provided to you or any direct product thereof except in compliance with, and with all licenses and approvals required under, applicable export laws, rules and regulations.

Entire Agreement. These terms and conditions constitute the entire agreement between NT (and its licensors, including their licensors and suppliers) and you pertaining to the subject matter hereof, and supersedes in their entirety any and all written or oral agreements previously existing between us with respect to such subject matter.

Governing Law. The above terms and conditions shall be governed by the laws of the State of Illinois, without giving effect to (i) its conflict of laws provisions, or (ii) the United Nations Convention for

Contracts for the International Sale of Goods, which is explicitly excluded. You agree to submit to the jurisdiction of the State of Illinois for any and all disputes, claims and actions arising from or in connection with the Data provided to you hereunder.

Government End Users. If the Data is being acquired by or on behalf of the United States government or any other entity seeking or applying rights similar to those customarily claimed by the United States government, this Data is a "commercial item" as that term is defined at 48 C.F.R. ("FAR") 2.101, is licensed in accordance with this End User License Agreement, and each copy of the Data delivered or otherwise furnished shall be marked and embedded as appropriate with the following "Notice of Use," and shall be treated in accordance with such Notice:

#### NOTICE OF USE

# As required by the FCC

1)This device complies with Part 15 of the FCC Rules and Canadian RSS-210/RSS-Gen. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

2)The FCC requires the user to be notified that any changes or modifications made to this device that are not expressly approved by the party responsible for compliance may void the user's authority to operate the equipment.

3)This product emits radio frequency energy, but the radiated output power of this device is far below the FCC and IC radio frequency exposure limits. This equipment complies with FCC and IC RF radiation exposure limits set forth for an uncontrolled environment. Nevertheless, the device should be used in such a manner that the potential for human contact with the antenna during normal operation is minimized.

# Main Setup Screen Commands

The system accepts these commands on the Main Setup screen.

Brightness up

Brightness down

Brightness minimum/min.

Brightness maximum/max.

Contrast up

Contrast down

Contrast minimum/min.

Contrast maximum/max

Black level up

Black level down

Black level minimum/min.

Black level maximum/max.

Volume up

Volume down

Volume minimum/min.

Volume maximum/max.

Volume off

Guidance prompts normal

Guidance prompts maximum/max

Guidance prompts minimum/min

#### **On-Screen Commands**

The system accepts these commands on any screen. There are over 100 on-screen commands. Say what is written on the screen to activate that selection. For lists, you can say the list item number to select that item.

Next/Previous\*1

Right/Left\*1

Up/Down\*2

Return

*OK* (excluding Startup Confirmation screen)

Delete

- \*1. To get to another page or tab.
- \*2. While driving, you can scroll down the list up to three pages.

# **Spelling Assistance**

The voice control system can also recognize phonetic alphabet input for numbers, letters, accented letters, punctuation marks, and symbols.

#### NOTE:

When selecting letters using the voice control system, a confirmation box may pop up to confirm the entry.

2	Two
3	Three
4	Four
5	Five
6	Six
7	Seven
8	Eight
9	Nine
0	Zero

#### ■ Letters

Say	Or say
А	Alpha/Apple
В	Bravo/Boy
C	Charlie
D	Delta/Dog
E	Echo/Edward
F	Foxtrot/Frank
G	Golf/George
Н	Hotel/Henry
1	India/Igloo
J	Juliet/John
K	Kilo/King
L	Lima/Larry
M	Mike/Mary
N	November/Nancy

Say	Or say
0	Oscar
P	Papa/Paul
Q	Quebec/Queen
R	Romeo/Robert
S	Sierra/Sam
Т	Tango/Tom
U	Uniform/Uncle
V	Victor
W	Whiskey/William
X	X-ray
Υ	Yankee/Yellow
Z	Zulu/Zebra

## ■ Accented Letters

Say	Say or Symbol
À	A grave
Â	A circumflex
Ä	A umlaut
Ç	C cedilla
È	E grave
É	E acute
Ê	E circumflex
Ë	E umlaut
ì	I grave
Î	I circumflex
Ϊ	I umlaut
Ô	O circumflex
Ù	U grave
Û	U circumflex

Say	Say or Symbol
Ü	U umlaut

Say	Say or Symbol
@	At sign
^	Caret
*	Asterisk
_	Underscore
*	Back quote
i	Comma
	Dot

Say	Say or Symbol
?	Question mark
:	Colon
;	Semicolon
+	Plus
-	Hyphen
!	Exclamation point
"	Double quote
#	Pound
\$	Dollar
%	Percent
&	Ampersand
ı	Apostrophe
(	Open parenthesis
)	Close parenthesis
~	Tilde
/	Slash
<	Less than
>	Greater than
{	Open brace
}	Close brace
4	Enter
