Navigation Manual

2020 ILX

ACURA

The information and specifications included in this publication were in effect at the time of approval for printing. Honda Motor Co., Ltd., reserves the right, however, to discontinue or change specifications or design at any time without notice and without incurring any obligation.

Accessories Precautions

The GPS antenna is located in the dashboard. Metallic front or side window tinting can seriously degrade or obstruct GPS reception.

Signal noise from devices such as radar detectors, vehicle tracking devices, remote starters, and additional amplifiers can disrupt the navigation system. If you install any such item, install it away from the navigation display and antenna.

Important Safety Information

⚠ WARNING

Using the navigation system while driving can take your attention away from the road, causing a crash in which you could be seriously injured or killed.

Only operate system controls when the conditions permit you to safely do so.

Avoid focusing on the screen or manually operating the system controls while driving.

Enter information before you begin driving or when stopped. As you drive, listen to the audible instructions and use voice commands when possible. Pull to the side of the road if you need more time to look at the screen or operate the controls.

Route guidance may conflict with street closures, road construction, detours, and out-of-date map data.

The system itself may also have limitations. Verify route information by carefully observing roads, signs, and signals. Always use your own judgment and obey traffic laws.

System Limitations P. 152

NOTICE

This vehicle's navigation system display, if so equipped, includes mercury-containing components. Upon removal, please reuse, recycle, or dispose of as hazardous waste. Clean the screen with a soft, damp cloth. You may use a mild cleaner intended for use on the information screen and the On Demand Multi-Use Display™.

Overview—Functions at a Glance

Navigation

You can select any place/landmark as a destination by using voice control or the Interface Dial. The navigation system gives you turn-by-turn driving directions to your destination.

Store home address P. 31

Register ***1*** home address.

Store Save Locations P. 25

Store up to ***200*** contacts in ***2*** address books.

Enter destination P. 74

Select your destination using ***13*** methods.

Select route P. 101

Set route preferences and select one of ***3*** routes.

Track route P. 102

Follow your route in real-time with voice guidance.

U.S. models

Traffic Information*1

View and avoid congestion and traffic incidents.

*1: Available only in certain areas.

Canadian models

Subscription service

AcuraLink Real-Time Traffic™ P. 119

Bypass congestion and traffic incidents.

Avoid certain areas P. 43

Set streets and areas to detour around.

Add waypoints P. 124

Add up to ***4*** “pit stops” along your route.

AcuraLink® P. 13

AcuraLink® provides you with important information and messages between your vehicle and Acura.

Voice Control P. 22

Use voice commands for safer system control while driving. You can operate all key functions of the navigation system.

Audio, *Bluetooth*® HandsFreeLink® (HFL), and multi-view rear camera can be operated on this navigation system. See the Owner's Manual for information on those systems.

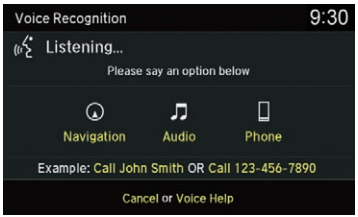
Voice Control Operation

Voice Portal Screen

❶ Press and release the (Talk) button mounted on the steering wheel.
The system displays voice commands that can be accepted on the displayed screen.



- The system beeps when ready for a command. Press the (Hang-Up/Back) button to cancel.
- Available voice commands are highlighted on the screen. Say only and exactly what is on the screen.

❷ Say a voice command.
After that, follow the voice prompt and say a voice command.

- The audio system is muted during voice control mode.
- You can use other voice commands on the Voice Portal screen.
  The system recognizes only certain commands.
  Available navigation voice commands P. 164
- Say "*Voice Help*" to enter supported commands for the current screen. A voice help tutorial is also available.
  Voice Help P. 14
- During the voice control mode, press and hold the (Hang-Up/Back) button to return to the last screen before the voice control mode is entered.
- Set **Voice Prompt** to **Off** to bypass the voice prompt. See your Owner's Manual.
- Carefully read the usage note for the voice control.

How to Enter Information

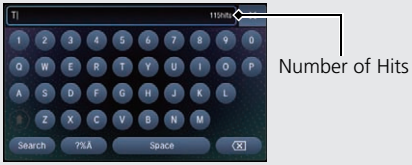
You can enter information (e.g. city names, street names, personal names, business names comprising letters, numbers, and symbols) when prompted on the input screen.

Using the keyboard displayed on the On Demand Multi-Use Display™

Select the desired character.

- Select ⇧ to display upper/lower case characters.
- Select ?%Ä to display symbols and accented characters.
- Select **Space** to enter a space character.
- Select ⌫ to remove the last entered character.
- Select **Search** to start searching (when available).
- Select **OK** to finish entering.

On Demand Multi-Use Display™



On input search screens, the number of hits in the map database is displayed.

Information screen

Rotate ⟲ to select an appropriate entry.

Certain screen functions are limited or inoperable while the vehicle is moving. For these functions, use available voice commands or pull over to proceed.

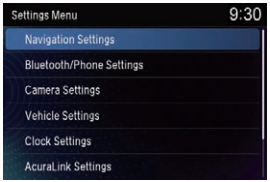
Navigation—Home Address and Going Home

The "Home" feature automatically routes you to your home address from any location simply by selecting Go Home.

Storing Your Home Address

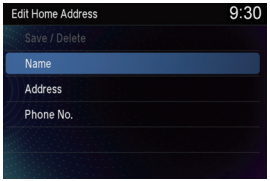
1. Press the **SETTINGS** button.

2. Rotate to select **Navigation Settings**. Press .



3. Rotate to select **Edit Go Home**. Press .

4. Rotate to select **Name**. Press .



5. Enter a name. Select **OK**.

6. Rotate to select **Address**. Press .
7. Enter an address. Select **OK**.
8. Rotate to select **Phone No**. Press .

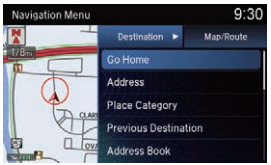
9. Enter a phone number. Select **OK**.

10. Rotate to select **Save / Delete**. Press .
11. Rotate to select **Save**. Press .

Going Home

1. From the map screen, press .

2. Rotate to select **Go Home**. Press .



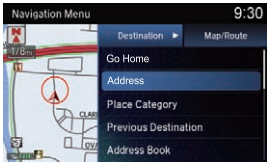
3. Rotate to select **Set as Destination**. Press .

Navigation—Entering a Destination

Enter your destination using one of several methods, follow the route guidance on the map or the guidance screen to your destination.

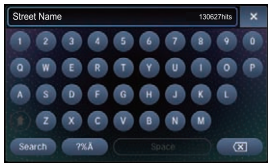
1. From the map screen, press .

2. Rotate to select **Address**. Press .

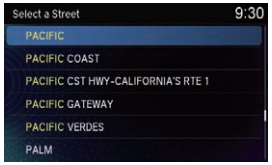


3. Rotate to select **Street**. Press .

4. Enter the name of your destination street. Select **Search**.

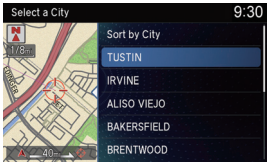


5. Rotate to select your destination street from the list. Press .

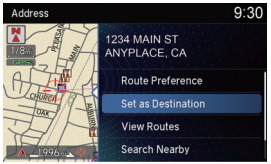


6. Enter the street number. Select **Search**.
7. Rotate to select your destination street number from the list. Press .

8. If there is more than one city with the specified street, a list of cities will be displayed. Rotate to select the desired city from the list. Press .



9. Rotate to select **Set as Destination**. Press .
   Route guidance to the destination begins.



- **Route Preference**: Choose **Max** or **Min** for the five settings.
- **View Routes**: Choose one of three routes.

Navigation—Changing Route or Destination

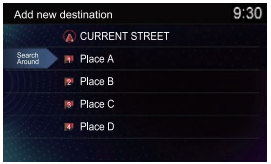
You can alter your route by adding waypoints to visit, adding streets to avoid, or changing your destination during route guidance.

Adding a Waypoint ("Pit Stop")

You can add up to four waypoints along your route. P. 124

1. From the map screen, press .

2. Move ◁ or ▷ to select **Map/Route**.
3. Rotate to select **Destination List**. Press .
4. Rotate to select **Add New Destination**. Press .
5. Rotate to select **Find Along Route**. Press .
6. Rotate to select location and search method. Press .



- **Search Around**: Search around a location.
- **Search Along**: Search between two locations.

7. Select the icon category and location to add to the Destination List when prompted. Edit the order of destinations if necessary.
8. Rotate to select **Options**. Press .
9. Rotate to select **Start Route**. Press .

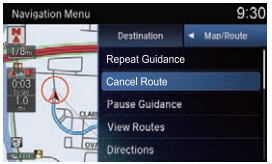
Changing Your Destination

There are several methods you can use to specify a new destination during route guidance.

- Selecting an icon on the map P. 137
  Scroll the map to position the cursor over a place/landmark icon or a new area on the map. Press twice.
- Entering a new destination P. 138
  Press . Move ◁ to select **Destination** and enter a new destination.

Canceling Your Route

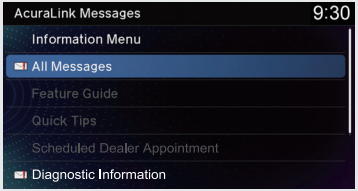
1. Press .
2. Move ◁ or ▷ to select **Map/Route**.
3. Rotate to select **Cancel Route**. Press .



AcuraLink®

AcuraLink® Messages

AcuraLink® provides a direct communication link between you and Acura. It sends and receives several kinds of messages through the Acura server.



The following features are available:

- Vehicle feature guide
- Operating quick tips
- Safety and maintenance information
- Diagnostic information
- Dealer appointment and maintenance reminders

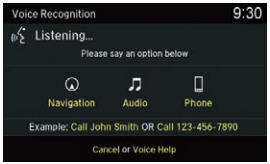
* Not available on all models

Voice Help

This navigation system comes with voice help, which shows you what command to say when using the voice command functions.

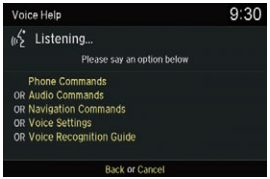
Command Help

1. Press and release the (Talk) button.
2. Say "*Voice Help*".

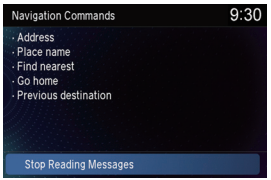


The voice help screen is displayed. The "*Voice Help*" command is available on most screens.

3. Say one of the options from the list of available commands by category (e.g., "*Navigation Commands*").

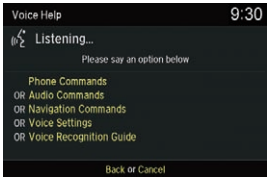


4. The system displays a list of all available commands for the category. Press to hear the list read aloud.



Voice Recognition Guide

1. Say "*Voice Recognition Guide*" on the voice help screen.



For "Voice Settings" see your Owner's Manual.

2. The system reads the tips for the voice control.

- Rotate to read the tips.
- Move ◁ or ▷ to display the previous/next page.

Troubleshooting

For more Information P. 141

Q Why does the vehicle position icon on the map "lag" a short distance behind my actual position, especially at intersections?

A This is normal. The navigation system is unaware of the width of intersections. Large differences in vehicle position can indicate a temporary loss of the GPS signal.

Q Why does the "time to destination" display sometimes increase even though I am getting closer to my destination?

A The "time to destination" is based on your actual road speed and traffic conditions to give you a better estimate of arrival time.

Q How do I specify a destination when an entered city or street could not be found?

A Try entering the street first. Some cities are lumped in with a major metro area. In rural "unverified" areas or new subdivisions, streets may be missing or only partially numbered.

Q How do I turn on the navigation system voice guidance?

A Press the **SETTINGS** button. Select **Navigation Settings** and press . Move to select **Guidance**. Select **Guidance Volume** and press . Adjust it to the preferred volume level.

Q My battery was disconnected or went dead and the navigation system is asking for a code. Where do I find it?

A In most cases you do not need to enter a code. Simply press and hold the (Power) button for two seconds, the system should reactivate.

System Initialization P. 150

How to Use This Manual

This section explains different methods on how you can easily find information in this manual.

Searching the Table of Contents

P. 1

There is a Table of Contents and a more detailed Chapter Contents to help find the desired information.

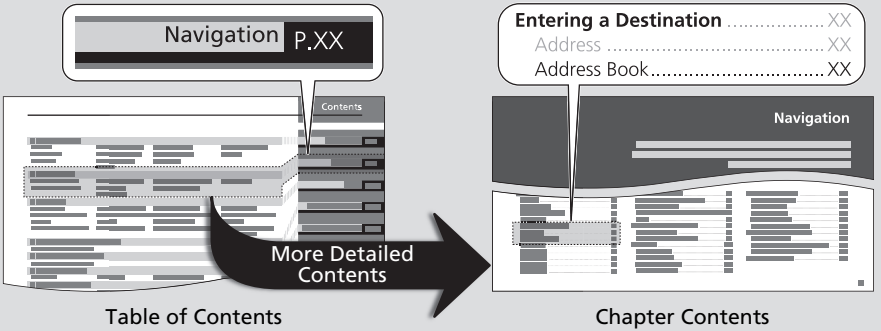


Table of Contents

Find the general chapter related to what you are looking for (e.g., entering a destination from the Address Book). Go to that chapter to view a more specific table of contents.

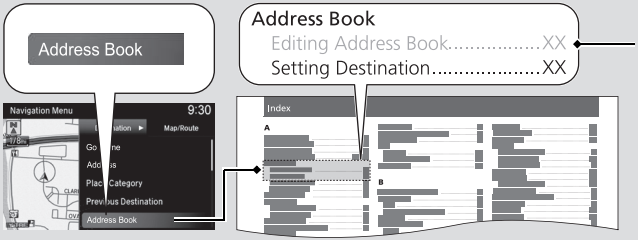
Chapter Contents

This more detailed table of contents shows you exactly what information is listed by section and title.

Searching the Index

P. 166

Menu items displayed on the information screen (e.g., Address Book) can be found individually in the Index.

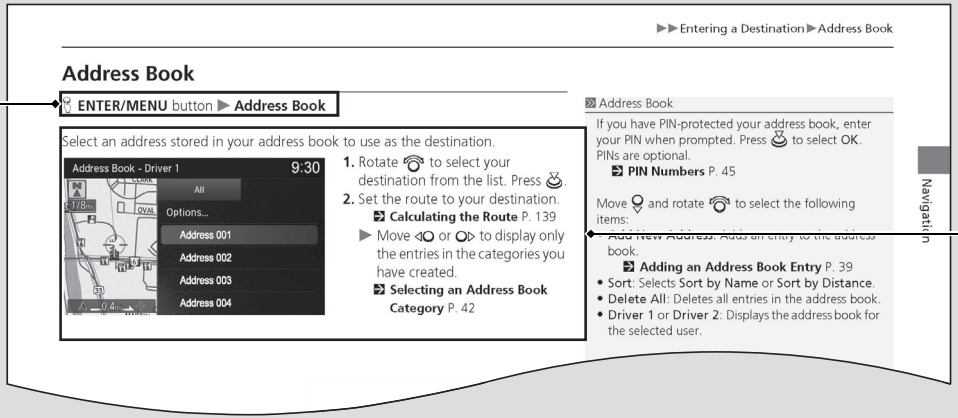


Information Screen

Index

The Index consists of main terms and sub-entries. The sub-entries help you get to the desired page depending on what you are looking for.

Go to the Next page

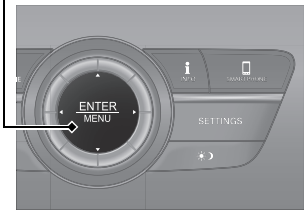


After following the menu tree, step-by-step instructions explain how to achieve the desired result.

Menu Tree

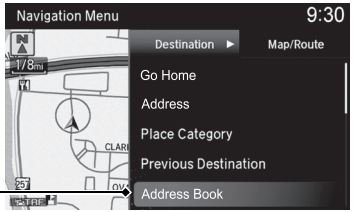
The menu tree helps guide you through the system's menu options. To get to your desired function, follow the menu tree in order of the steps displayed.

ENTER/MENU button ▶ **Address Book**



Press the hard button on the system control panel.

Press .



Select the menu option with the Interface Dial.

Rotate to select **Address Book**.
Press .

Sample pages and images in this section may differ from the actual ones.

System Setup

This section describes the start-up procedure and the navigation and setup functions.

Customized Features 66

The navigation system starts automatically when you set the power mode to ACCESSORY or ON. At start-up, the following Confirmation screen is displayed.

1. Press ⏺ to continue.
- ▶ If you do not press ⏺, the map screen is displayed after a certain period of time.
- ▶ The system will automatically start up the feature that was used the last time.

2. Press the **NAV** button if a different mode is selected.
- ▶ Your current position is displayed on the map screen.

Start-up

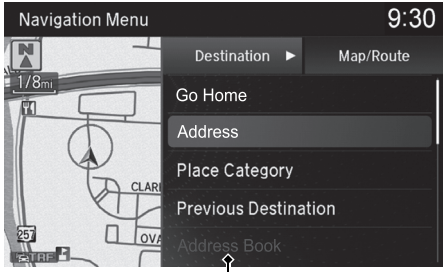
If the navigation system loses power at any time, you may need to press and hold the ⏻ (Power) button for more than two seconds, or you may be prompted for the five-digit security code.

System Initialization P. 150

At start-up, the driver's keyless access remote is automatically detected and the address book settings, setup preferences, wallpapers, and audio settings for that driver (e.g., Driver 1) are loaded.

"OK" on the Confirmation screen cannot be selected by using a voice command.

Limitations for Manual Operation



Disabled option

Certain manual functions are disabled or inoperable while the vehicle is in motion. You cannot select a grayed-out option using the Interface Dial until the vehicle is stopped.

Voice commands are still operable while the vehicle is in motion.

Your vehicle has a voice control system that allows hands-free operation for most of the navigation system functions.
The voice control system uses the (Talk) and (Hang-Up/Back) buttons on the steering wheel and a microphone near the map lights on the ceiling.
A "Getting Started" feature provides a tutorial that explains how to use the voice control system.

Voice Recognition Guide P. 14

Command Input

If the system does not understand a command or you wait too long to give a command, the system asks you to repeat the command.
When you give a command, the system generally either repeats the command as a confirmation or asks you for further information. If you do not wish to hear this feedback, you can turn it off. However, listening to the feedback will help familiarize you with the way the system expects commands to be phrased.
If the system cannot perform a command or the command is not appropriate for the screen you are on, the system beeps.
On character input screens, a list of possible characters is displayed if the system does not recognize your command.
You can find out which voice commands are available for a particular screen using the "*Voice Help*" command. The system will display and read the list of available commands to you.

Voice Help P. 14

Voice Control System

The system displays voice commands that can be accepted on the displayed screen. Say only and exactly what is on the screen.

Command Input

The audio system is muted while using the voice control system.

Voice Recognition

To achieve optimum voice recognition when using the navigation voice control system:

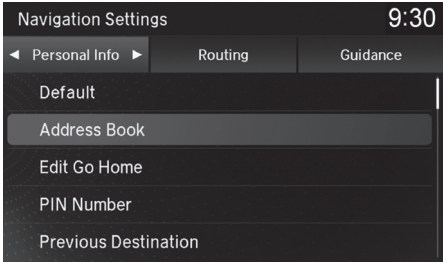
- Make sure the correct screen is displayed for the voice command that you are using.
  The system recognizes only certain commands.
  Available navigation voice command
  ➡ **Voice Commands** P. 164
- Close the windows and moonroof.
- Adjust the dashboard and side vents so air does not blow onto the microphone on the ceiling.
- Speak in a clear, natural speaking voice without pausing between words.
- Reduce any background noise and the climate controls fan speed if possible. The system may misinterpret your command if more than one person is speaking at the same time.
- Refer to the Voice Help feature.
  ➡ **Voice Help** P. 14

Voice Recognition

The voice control system can only be used from the driver's seat because the microphone unit removes noises from the front passenger's side.

SETTINGS button ▶ **Navigation Settings** ▶ **Personal Info**

Use the personal information menu to select and set your address books, home address, and PINs. You can also delete unwanted destinations from the list of previously routed destinations.



Rotate to select an item. Press .

The following items are available:

- **Default**: Restores the **Navigation Settings** the factory default settings.
- **Address Book**: Stores new addresses or edits your address book.
  Address Book P. 25
- **Edit Go Home**: Sets or edits your home address.
  Home Address P. 31
- **PIN Number**: Sets or changes your PIN.
  PIN Numbers P. 32
- **Previous Destination**: Deletes the destination history.
  Previous Destination P. 33
- **Category History**: Deletes the place categories you recently used.
  Category History P. 34
- **Download POI**: Edits and deletes the Imported POI categories.
  Download POI P. 35

Personal Information

Personal information cannot be backed up or moved to another navigation system.

The navigation settings can also be selected from the navigation menu. Press from the map screen. Move ◁ or ▷ to select **Destination** or **Map/Route**. Rotate to select **Navigation Settings**.

Default

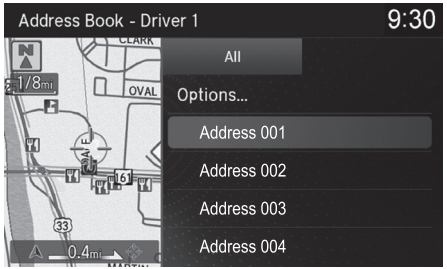
The following settings will be reset:

- Personal Information
- Routing
- Guidance
- Map

Address Book

SETTINGS button ▶ **Navigation Settings** ▶ **Personal Info** ▶ **Address Book**

Store up to 200 address entries in two address books (Driver 1 and Driver 2). You can add, edit, and delete information in the address books.



Move ◁ or ▷ to display only the addresses in the selected category. To change the user address book (**Driver 1** or **Driver 2**), rotate ⟲ to select **Options**. Press ⊙. Rotate ⟲ to select **Driver 1** or **Driver 2**. Press ⊙.

Address Book

Up to 200 addresses can be stored to each address book of Driver 1 and Driver 2 separately.

If you have PIN-protected your address book, enter your PIN when prompted. Press ⊙ to select **OK**. PINs are optional.

PIN Numbers P. 32

Any address book categories you create are also displayed.

Selecting an Address Book Category P. 29

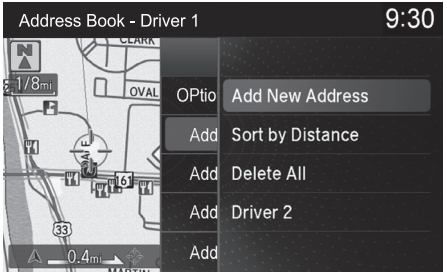
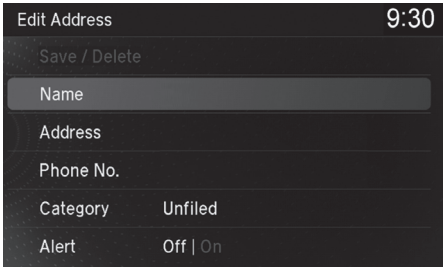
■ Adding an Address Book Entry

SETTINGS button ▶ **Navigation Settings** ▶ **Personal Info** ▶ **Address Book** ▶ **Options**

This section explains how to enter the name and address.



1. Rotate ◯ to select **Add New Address**. Press ◯.



2. Rotate ◯ to select an item. Press ◯.

The following items are available:

- **Name**: Edits the name of the entry.
- **Address**: Edits the address of the entry.
- **Phone No.**: Edits the phone number of the entry.
- **Category**: Specifies the category of the entry.

Adding an Address Book Entry

If you do not give the address a name, one is automatically assigned (e.g., Address 001). You can re-enter, edit, or make changes to any entry. "Address" is the only required field.

- **Alert**: Alerts you when you approach the address entry.
  On: Beeps and displays a message when your vehicle gets near the entry.
  Off (factory default): Disables the feature.

3. Rotate to select **Name**. Press .
4. Enter a name or title. Select **OK**.
5. Rotate to select **Address**. Press .
6. Rotate to select an item for specifying the address. Press .
7. Rotate to select **Save / Delete**. Press .
8. Rotate to select **Save**. Press .

The following items are available:

- **Current Position**: Select your current location.
- **Address**: Enter an address on the character input screen when prompted.
  Address P. 76
- **Place Category**: Select a category to search for a place/landmark (e.g., Banking, Lodging).
  Place Category P. 85
- **Previous Destination**: Select a previous destination.
  Previous Destination P. 84
- **Place Name**: Enter the name of a place/landmark.
  Place Name P. 89
- **Local Search**: Sets a destination by using Local Search.
  Local Search P. 87
- **Place Phone Number**: Enter the phone number of a place/landmark.
  Entering a Destination P. 74

Continued

Adding an Address Book Entry

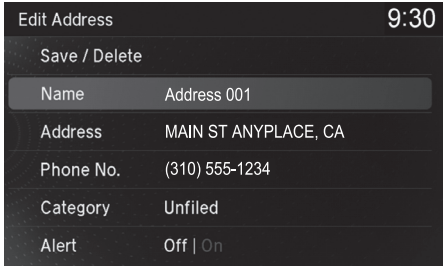
When you use **Place Name** or **Place Category**, the phone number is automatically entered.

You can also add a phone number and category.

- Intersection: Specify the intersection by entering two streets.
  ➔ **Entering a Destination** P. 74
- Download POI: Select a place/landmark from a list of the imported POI (category and places) data you created.
  ➔ **Entering a Destination** P. 74
- Select Using Map: Enter a place/landmark by scrolling through the map.
  ➔ **Entering a Destination** P. 74
- Scenic Route: Enter a place/landmark by using a list of scenic roads for each state or province (U.S. and Canada only).
  ➔ **Entering a Destination** P. 74
- Coordinate: Enter latitude and longitude of a place/landmark.
  ➔ **Entering a Destination** P. 74

Editing an Address Book Entry

SETTINGS button ▶ **Navigation Settings** ▶ **Personal Info** ▶ **Address Book**



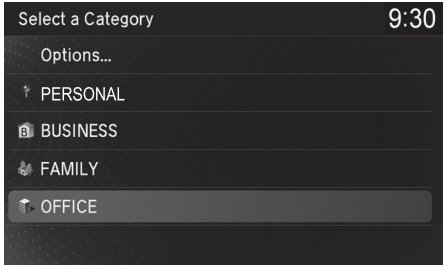
1. Rotate to select the address to edit. Press .
2. Enter the name, address, phone number, and category fields.
   ➡ **Adding an Address Book Entry** P. 26
3. Rotate to select **Save / Delete**. Press .
4. Rotate to select **Save**. Press .

Editing an Address Book Entry

The entered contents are displayed on the Edit address screen.

Selecting an Address Book Category

SETTINGS button ▶ **Navigation Settings** ▶ **Personal Info** ▶ **Address Book**



1. Rotate to select an address. Press .
2. Rotate to select **Category**. Press .
3. Rotate to select a category. Press .
   ▶ Create a category in advance.
   ➡ **Creating a New Category** P. 30

Selecting an Address Book Category

Up to 100 categories can be stored to each address book of Driver 1 and Driver 2 separately.

If you delete a category that is used by other addresses, the category type for those addresses changes to "**Unfiled**".

Continued

■ Creating a New Category

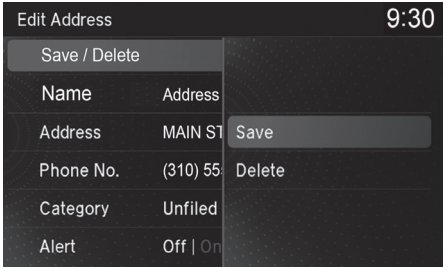
1. Rotate to select **Options**. Press.
2. Rotate to select **New Category**. Press.
3. Enter a name and select an icon when prompted.
▶ The created category is displayed in the list of categories.

■ Deleting or Editing a Category

1. Rotate to select **Options**. Press.
2. Rotate to select **Delete** or **Edit**. Press.
3. Delete an existing category, or change the name and icon.
▶ The selected category to delete is indicated with a trash icon. Select **Options**, press, and rotate to select **Delete Selected**.

■ Deleting an Address Book Entry

SETTINGS button ▶ **Navigation Settings** ▶ **Personal Info** ▶ **Address Book**



1. Rotate to select the address to delete. Press.
2. Rotate to select **Save / Delete**. Press.
3. Rotate to select **Delete**. Press.
4. Rotate to select **Yes**. Press to delete the address.

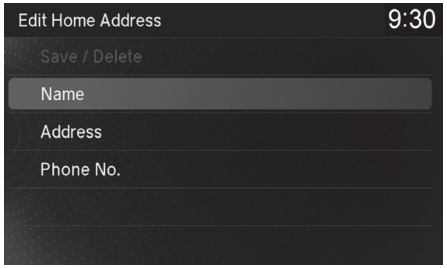
Deleting an Address Book Entry

When you transfer the vehicle to a third party, delete all address book entries.

Home Address

SETTINGS button ▶ **Navigation Settings** ▶ **Personal Info** ▶ **Edit Go Home**

Set a home address that you frequently use.



1. Edit the name, address, and phone number the same way as an address in the address book.
   Adding an Address Book Entry P. 26
2. Rotate to select **Save / Delete**. Press.
3. Rotate to select **Save**. Press.

Home Address

If you have PIN-protected your home addresses, enter your PIN when prompted. Select **OK**. PINs are optional.

PIN Numbers P. 32

If your home street is not in the system database, park on the nearest verified street to your home. When entering the "Address" field, rotate to select **Current Position** to use your current location as the home address and press.

You can delete a home address if necessary. Rotate to select **Save / Delete**. Press. Rotate to select **Delete**. Press. Rotate to select **Yes**. Press.

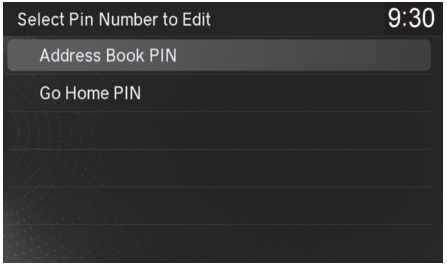
When you transfer the vehicle to a third party, delete all home addresses.

The home icon is shown on the map screen on the 1/20 and 1/8 mile (80 and 200 m) scales.

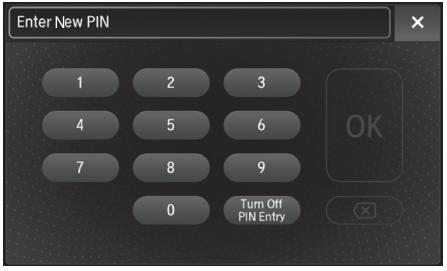
PIN Numbers

SETTINGS button ▶ **Navigation Settings** ▶ **Personal Info** ▶ **PIN Number**

Set a four-digit PIN for protecting personal addresses and your home address. Once you set a PIN, you are prompted to enter it whenever you access a personal address or a home address.



1. Rotate to select the PIN to create. Press .



2. Enter a four-digit PIN. Select **OK**.

3. Re-enter the new PIN, when prompted, to confirm the number you just entered. Select **OK**.

▶ If you have not entered the same number both times, an "INCORRECT PIN" message is displayed. Enter your PIN again.

PIN Numbers

PIN

Personal Identification Number (PIN) is a password used to access personal data.

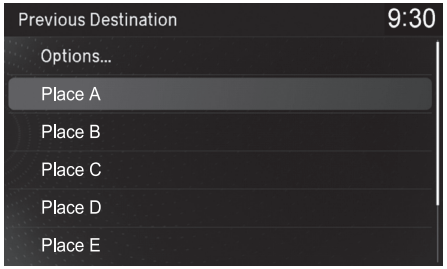
PINs are optional. If you choose to use a PIN, keep a note of the number in a secure location. If you forget your PIN, a dealer will have to reset the navigation system and all of your stored information will be erased. The factory default is no PIN.

If you want to stop using a PIN, select **Turn Off PIN Entry**.

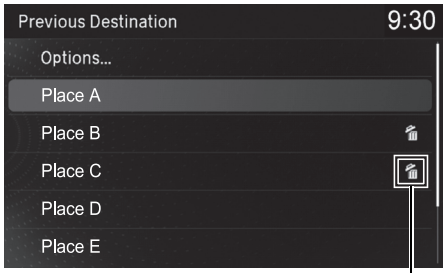
Previous Destination

SETTINGS button ▶ **Navigation Settings** ▶ **Personal Info** ▶ **Previous Destination**

The navigation system maintains a list of your previously routed destinations as a shortcut for entering the same destination in the future. You can delete some or all of your previous destinations from the list.



1. Rotate to select the destination to delete. Press .
▶ Repeat the procedure as necessary.
▶ Items to be deleted are indicated with a trash icon.



2. Rotate to select **Options**. Press .
3. Rotate to select **Delete Selected**. Press .
▶ The confirmation message will appear.
4. Rotate to select **Yes**. Press .

Previous Destination

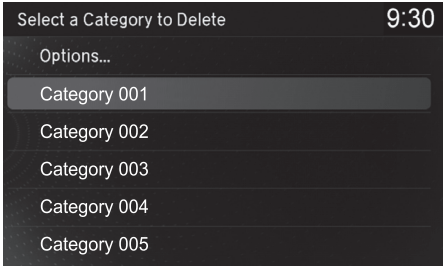
Up to 50 destinations can be stored.

To cancel the selection of a previous destination, rotate to highlight the destination again. Press to de-select it.

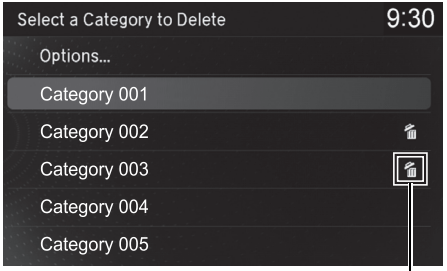
Category History

SETTINGS button ▶ **Navigation Settings** ▶ **Personal Info** ▶ **Category History**

The navigation system maintains a list of your recently used place categories as a shortcut for selecting the same categories in the future. You can delete some or all of your recently used categories from the list.



1. Rotate to select the category to delete. Press .
   ▶ Repeat the procedure as necessary.
   ▶ Items to be deleted are indicated with a trash icon.



2. Rotate to select **Options**. Press .
3. Rotate to select **Delete Selected**. Press .
   ▶ The confirmation message will appear.
4. Rotate to select **Yes**. Press .

Category History

Up to 50 categories can be stored.

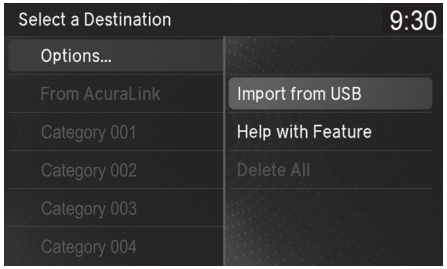
To cancel the selection of a category, rotate to highlight the category again. Press to de-select it.

Download POI

Import custom Points of Interest (POI) into the navigation system and set the POI as a destination. You can also add, edit, and delete POIs.

Importing POI Categories

ENTER/MENU button (on map) ▶ **Destination** ▶ **Download POI**



1. Connect a USB flash drive with stored POI data to the USB connector.
2. Rotate to select **Options**. Press.
3. Rotate to select **Import from USB**. Press.
4. Rotate to select a category to import. Press.

Editing POI Categories

SETTINGS button ▶ **Navigation Settings** ▶ **Personal Info** ▶ **Download POI**

1. Rotate to select the downloaded POI category to edit. Press.
2. Rotate to select an item. Press.

The following items are available:

- **Alert Setting**: Alerts you when you approach the places/landmarks in the category.
  On: Beeps and displays a message when your vehicle gets near the places/landmarks in the category.
  Off (factory default): Disables the feature.
- **Delete Category**: Deletes all places/landmarks and icon in the selected category.
- **Edit Icon**: Changes the category icon.

Importing POI Categories

For more information about connecting a USB flash drive, see your Owner's Manual.

POI data in csv and kml formats can be imported.

You can download POI data from various POI websites.

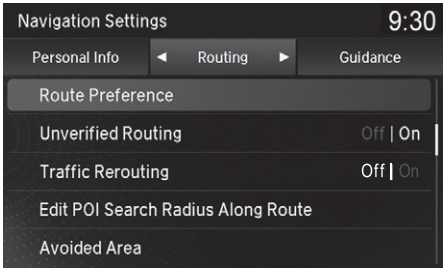
If you select **From AcuraLink**, you can download POI data from the AcuraLink® server.

Editing POI Categories

If you select **From AcuraLink**, you can edit **Alert** only.

SETTINGS button ▶ **Navigation Settings** ▶ **Routing**

Choose various settings that determine the navigation system functionality during route calculation.



Rotate to select an item. Press .

The following items are available:

- **Default**: Restores the **Navigation Settings** the factory default settings.
- **Route Preference**: Changes the route preferences (calculating method).
  Route Preference P. 37
- **Unverified Routing**: Sets whether you use the route guidance in unverified areas.
  Unverified Routing P. 39
- **Traffic Rerouting**: Sets whether you use automatic recalculation based on traffic information.
  Traffic Rerouting P. 41
- **Edit POI Search Radius Along Route**: Sets the distance from the route to find waypoints.
  Edit POI Search Radius Along Route P. 42
- **Avoided Area**: Specifies areas to avoid when calculating a route.
  Avoided Area P. 43

Routing

The navigation settings can also be selected from the navigation menu. Press from the map screen. Move ◁ or ▷ to select **Destination** or **Map/Route**. Rotate to select **Navigation Settings**.

Move ◁ to select **Personal Info**, so that you can use the **Default**.

Default

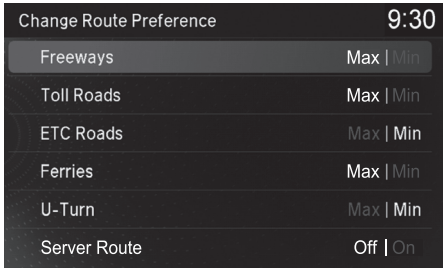
The following settings will be reset:

- Personal Information
- Routing
- Guidance
- Map

Route Preference

SETTINGS button ▶ **Navigation Settings** ▶ **Routing** ▶ **Route Preference**

Change the route preference by selecting minimum or maximum driving methods.



1. Rotate to select an item. Press .
2. Rotate to select **Max** or **Min**. Press .
   ▶ Repeat step 1 and 2 as necessary.

Route Preference

The calculated route may be the shortest route or the route you would choose. For safety reasons, the system generally applies the following rules to your route:

- Shortcuts through residential areas are avoided.
- Right turns are favored over left turns or U-turns.
- Time-restricted turns (turns prohibited at certain times of the day) are not used.

Check the ferry schedule when the calculated route includes ferry route.

ETC is short for the Electronic Toll Collection system.

Server Route*

- You can view three routes distributed from AcuraLink®.
  Viewing the Routes P. 101
- Set to **On** and select **Optimal Routes** to select your desired route.
  Optimal Routes* P. 38

Continued

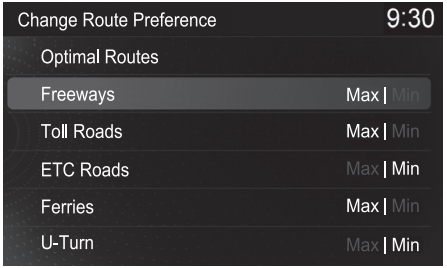
* Not available on all models

Optimal Routes*

SETTINGS button ▶ **Navigation Settings** ▶ **Routing** ▶ **Route Preference**

You can select desired routes by sorting the route list. The three top routes can be displayed on the **Select a Route** screen.

Viewing the Routes P. 101



1. Rotate to select **Optimal Routes**. Press .
2. Rotate to select a route type. Press .
3. Rotate to change the order of the selected route type. Press .

Optimal Routes*

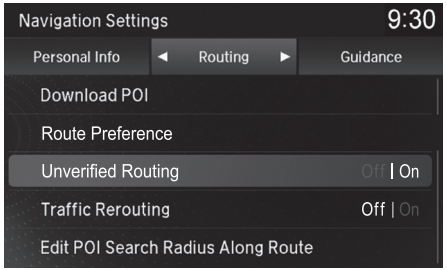
Optimal Routes is a subscription service. For more information, contact an Acura dealer or visit *www.acura.ca/owners/acuralink*.

* Not available on all models

Unverified Routing

SETTINGS button ▶ **Navigation Settings** ▶ **Routing** ▶ **Unverified Routing**

Receive turn-by-turn map and voice guidance in unverified areas.



Rotate to select **On** or **Off**. Press .

Differences	Off	On **(factory default)**
On or Off?	The driver wishes to manually navigate using the navigation map and choose the streets that lead to the destination.	The driver chooses to let the navigation system suggest possible routing, knowing that the guidance may not be accurate.
Route calculation	Route is usually longer, using verified roads whenever possible.	Route is shorter, but uses unverified (purple) streets that may not be accurate.

Unverified Routing

Unverified roads are found in rural areas, and typically include residential streets away from the center of a town. They may not be accurate and can contain errors in location, naming, and address range.

Unverified roads are shown only when viewing the map in the 1/20, 1/8, 1/4, 1/2, 1 and 2 (mile) / 80, 200, 400, 800 (m), 1.6 and 3.2 (km) map scales.

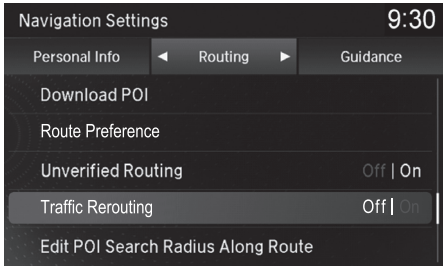
Continued

Differences	Off	On **(factory default)**
Route line	The route line uses verified streets only (when possible). If **Straight Line Guide** is set to **On**, a pink vector line is displayed on the map that continually points to your destination. ➡ **Straight Line Guide** P. 61	A blue-pink route line highlights suggested unverified streets on the map while traveling to your destination.
Cautionary messages	Cautionary pop-up screens and voice announcements remind you to obey all traffic restrictions when starting route guidance, approaching an unverified area, and entering an unverified street.	Cautionary pop-up screens and voice announcements remind you to obey all traffic restrictions when entering an unverified street.
Guidance (map/voice)	There is no turn-by-turn map or voice guidance.	Voice guidance commands end with the phrase "if possible" to remind you to verify all traffic restrictions.
Directions list	A direction list is typically not available. However, depending on your route, directions are provided to help you reach the first available verified road.	A direction list is provided showing street names and turn symbols in pink.

Traffic Rerouting

SETTINGS button ▶ **Navigation Settings** ▶ **Routing** ▶ **Traffic Rerouting**

A faster route can be calculated based on continuously updated traffic information.
Traffic Rerouting™ P. 119



Rotate to select an option. Press .

The following options are available:
- **On**: The system reroutes automatically based on traffic information.
- **Off** (factory default): Disables the feature.

Traffic Rerouting

You must be in or near a traffic-enabled city to receive coverage for that area. Traffic information is available in certain areas in the lower 48 states, Hawaii, and some cities in Canada.
Traffic Information P. 156

Canadian models

Traffic Rerouting requires an AcuraLink Real-Time Traffic™ subscription.
See your Owner's Manual for subscription information.

Automatic traffic rerouting may not provide a detour route depending on circumstances.

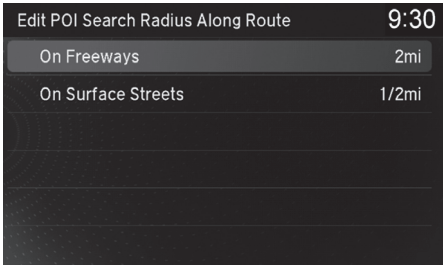
Edit POI Search Radius Along Route

SETTINGS button ▶ **Navigation Settings** ▶ **Routing** ▶ **Edit POI Search Radius Along Route**

Select the distance from your highlighted route line (on either side of your route) that the system will search for a waypoint.

Adding Waypoints P. 124

You can specify a different search distance for freeways/highways and surface streets.



1. Rotate to select an item. Press .
2. Rotate to select a search distance. Press .

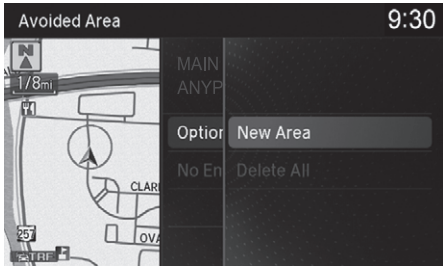
The following items are available:

- **On Freeways** (U.S.)/**On Highways** (Canada): 1, 2, 5, or 10 miles (1.6, 3, 8, or 16 km) can be set. Factory default is 2 miles (3 km).
- **On Surface Streets**: 1/2, 1, 2, or 5 miles (0.8, 1.6, 3, or 8 km) can be set. Factory default is 1/2 mile (0.8 km).

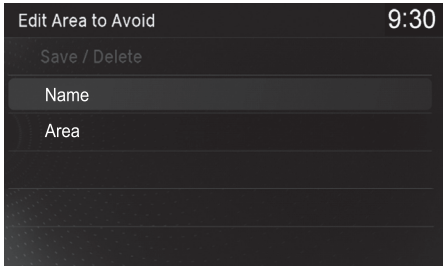
Avoided Area

SETTINGS button ▶ **Navigation Settings** ▶ **Routing** ▶ **Avoided Area**

Specify up to five areas to avoid (e.g., road construction, closures), if possible, when the system calculates routes to your destination.



1. Rotate to select **Options**. Press.
2. Rotate to select **New Area**.



3. Rotate to select **Name** to label the area to avoid. Press.
4. Enter a name or title. Select **OK**.
5. Rotate to select **Area** to define the area to avoid. Press.

The following options are available (after an area is set):

- **Save**: Saves the selected avoid area.
- **View Area**: Displays the selected avoid area on the map.
- **Delete**: Deletes the selected avoid area.

Avoided Area

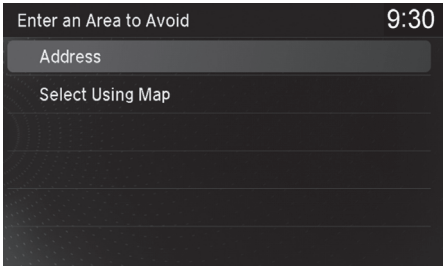
The maximum size of one side of an "avoid area" is approximately 1/2 mile (800 m).

If your selected area contains a freeway/highway, you are asked "Do you want to avoid freeways (highways)?" Answering "No" allows you to use a route through an avoid area on a freeway/highway without any pop-up messages.

You can select areas to avoid; however, you cannot select roads or areas that you want the system to use for routing.

You can enter up to 25 characters for the name.

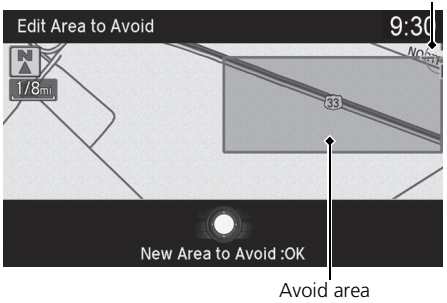
Continued



6. Rotate to select a method for specifying the area. Press .

The following options are available:

- **Address**: Specify the general area by entering an address.
  ➡ **Address** P. 76
- **Select Using Map**: Specify the general area by using map.
  ➡ **Select using Map** P. 96



7. If you select **Select Using Map**, scroll the map to position the cursor over your desired start point, adjusting the map scale as necessary. Press to mark the start point.
▶ To redo the area selection, press the **BACK** button.

8. Scroll the map to "draw" the area. Press to mark the end point.

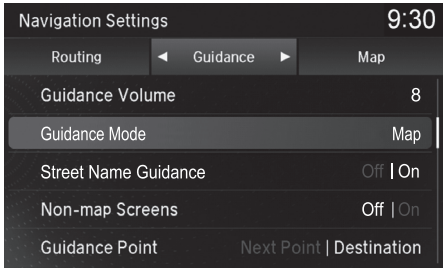
9. Press to select **OK**.
▶ The area you specify is displayed in the list of areas to avoid.

Avoided Area

Avoid area can be set in the 1/20, 1/8, or 1/4 mile (80, 200, or 400 m) map scales.

SETTINGS button ▶ **Navigation Settings** ▶ **Guidance**

Choose various settings that determine the navigation system functionality during route guidance.



Rotate to select an item. Press .

The following items are available:

- **Default**: Restores the **Navigation Settings** the factory default settings.
- **Guidance Volume**: Adjusts the navigation system volume level.
- **Guidance Mode**: Sets whether to display only the map screen or a split map-guidance screen.
  Guidance Mode P. 46
- **Street Name Guidance** (US models): Sets whether to read out the street names during voice guidance.
  Street Name Guidance P. 48
- **Non-map Screens**: Sets whether the guidance screen interrupts the screen display.
  Non-map Screens P. 49
- **Guidance Point**: Sets whether to display the guidance information to the destination or the next waypoint.
  Guidance Point P. 50
- **Estimated Time**: Sets whether to display the remaining time or arrival time to the guidance point.
  Estimated Time P. 51

Guidance

The navigation settings can also be selected from the navigation menu. Press from the map screen. Move ◁ or ▷ to select **Destination** or **Map/Route**. Rotate to select **Navigation Settings**.

Move ◁ to select **Personal Info**, so that you can use the **Default**.

Default

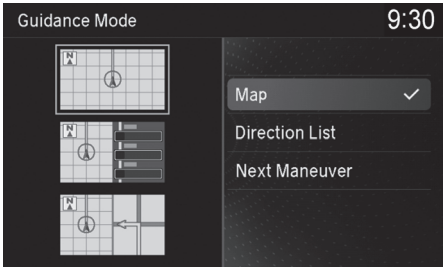
The following settings will be reset:

- Personal Information
- Routing
- Guidance
- Map

Guidance Mode

SETTINGS button ▶ **Navigation Settings** ▶ **Guidance** ▶ **Guidance Mode**

Select the display mode for the map and guidance screens.

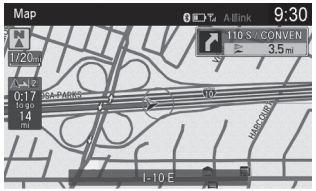


Rotate to select an option. Press .

The following options are available:

- **Map** (factory default): Displays only the map screen. When you approach a guidance point, the next guidance point appears.

Map screen



Near the next guidance point

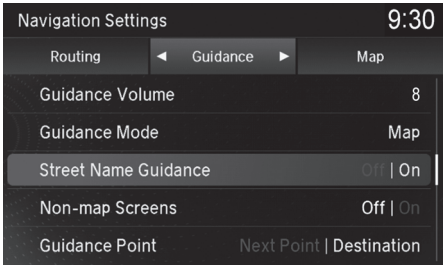
Street Name Guidance

SETTINGS button ▶ **Navigation Settings** ▶ **Guidance** ▶ **Street Name Guidance**

The navigation system includes the street names during voice guidance (e.g., "Turn right on Main Street").



Rotate ⟲ to select an option. Press ⊙.

The following options are available:

- **On** (factory default): Voice guidance includes the street names.
- **Off**: Disables the feature.

Street Name Guidance

This feature is only available when the system language is set to **English**.

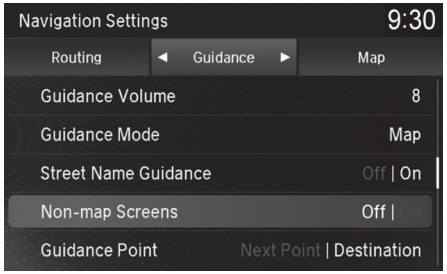
This feature may not be available in non-English speaking areas.

This function is available on U.S. models only.

Non-map Screens

SETTINGS button ▶ **Navigation Settings** ▶ **Guidance** ▶ **Non-map Screens**

The navigation system temporarily interrupts the screen display to view the guidance screen as you approach a guidance point.



Rotate to select an option. Press .

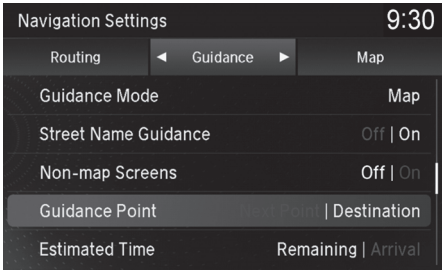
The following options are available:

- **On**: The guidance screen interrupts other mode screens (e.g., audio, phone, etc., except the rear view camera mode).
- **Off** (factory default): Disables the feature.

Guidance Point

SETTINGS button ▶ **Navigation Settings** ▶ **Guidance** ▶ **Guidance Point**

Set the guidance point to display on the map screen.



Rotate to select an option. Press .

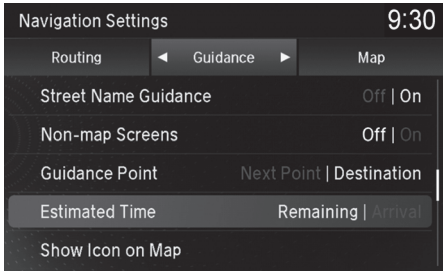
The following options are available:

- **Destination** (factory default): Displays the remaining/arrival time and distance to the destination.
- **Next Point**: Displays the remaining/arrival time and distance to the next waypoint.

Estimated Time

SETTINGS button ▶ **Navigation Settings** ▶ **Guidance** ▶ **Estimated Time**

Select the estimated time to display on the screen.



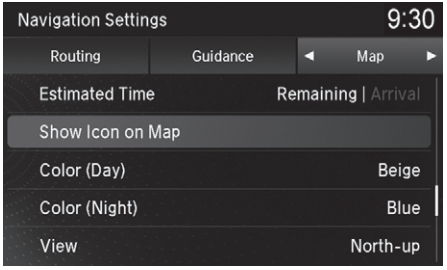
Rotate to select an option. Press .

The following options are available:

- **Arrival**: Displays the arrival time to the destination or the next waypoint.
- **Remaining** (factory default): Displays the remaining time to the destination or the next waypoint.

SETTINGS button ▶ **Navigation Settings** ▶ **Map**

Select the landmark icons to display on the map, select the color of the map, change the orientation of the map, or adjust the current position of the vehicle as displayed on the map.



Rotate to select an item. Press .

The following items are available:

- **Default**: Restores the **Navigation Settings** the factory default settings.
- **Show Icon on Map**: Selects the icons to display on the map.
  Showing Icons on Map P. 54
- **Color (Day)**: Selects the color of the map for the Day mode.
  Color P. 56
- **Color (Night)**: Selects the color of the map for the Night mode.
  Color P. 56
- **View**: Selects the map orientation (**North-up**, **Heading-up**, or **3D map**).
  View (Map Orientation) P. 59
- **3D Angle Adjustment**: Adjusts the viewing angle for the 3D map.
  3D Angle Adjustment P. 60
- **Straight Line Guide**: Sets whether to display a straight guideline to the destination or waypoint.
  Straight Line Guide P. 61

Map

The navigation settings can also be selected from the navigation menu. Press from the map screen. Move ◁ or ▷ to select **Destination** or **Map/Route**. Rotate to select **Navigation Settings**.

Move ◁ to select **Personal Info**, so that you can use the **Default**.

Default

The following settings will be reset:

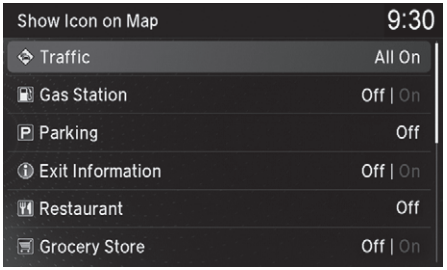
- Personal Information
- Routing
- Guidance
- Map

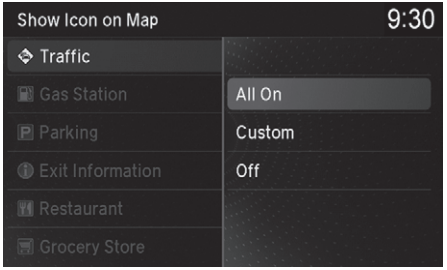
- Display Tracking: Sets whether to display the tracking dots on the map.
  ➔ **Display Tracking** P. 62
- Delete Tracking: Deletes the tracking dots on the map.
  ➔ **Deleting Tracking Dots** P. 63
- Correct Vehicle Position: Adjusts the position of the vehicle on the map.
  ➔ **Correct Vehicle Position** P. 64
- System Device Information: Displays database, software, device, and vehicle identification information.
  ➔ **System Device Information** P. 65
- Map Data Update: Provides the status of map database updates.
  ➔ **Map Data Update** P. 65

Showing Icons on Map

SETTINGS button ▶ **Navigation Settings** ▶ **Map** ▶ **Show Icon on Map**

Select the icons that are displayed on the map.





1. Rotate to select an item. Press .
   ▶ If the selected item has no sub categories, pressing toggles the setting between **On** and **Off**.
   ▶ If the selected item has sub categories, proceed to the next step.
2. Rotate to select an option. Press .
   ▶ Repeat step 1 and 2 as necessary.

The following options are available:

- **All On**: Displays the landmark icons for all the sub categories.
  Map Screen Legend P. 8
- **Custom**: Fine-tunes the icon display.
  Fine-tuning the Icons P. 55
- **Off**: Hides the landmark icons for all the sub categories.

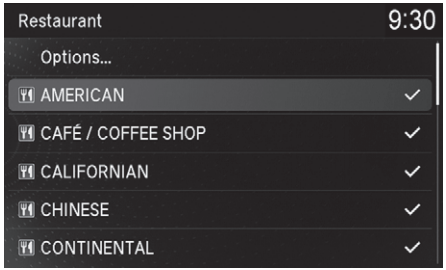
Showing Icons on Map

If you have PIN-protected your address book, enter your PIN when prompted. Move to select **OK**. PINs are optional.

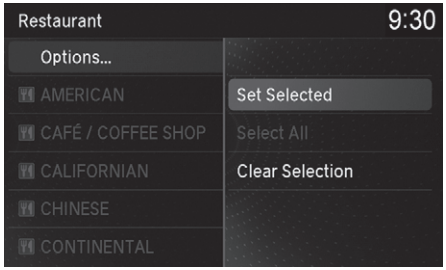
PIN Numbers P. 32

■ Fine-tuning the Icons

Icons in some categories can be fine-tuned to display or hide.



1. Rotate to select the icons to display on the map. Press .
- ▶ Pressing toggles the check mark display on or off.
- ▶ Repeat the procedure as necessary.



2. Rotate to select **Options**. Press .

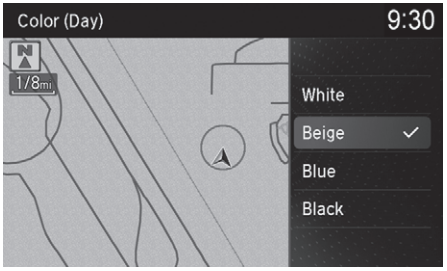
3. Rotate to select **Set Selected**. Press .

Color

Set separate map colors for Day and Night modes.

■ Color (Day)

SETTINGS button ▶ **Navigation Settings** ▶ **Map** ▶ **Color (Day)**



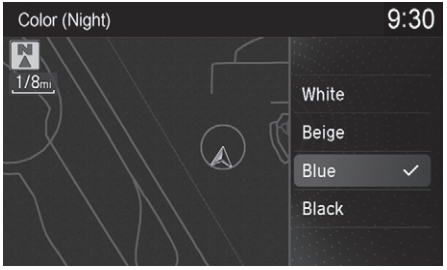
Rotate to select a color for the Day mode. Press .

Color (Day)

The factory default is set to **Beige**.

■ Color (Night)

SETTINGS button ▶ **Navigation Settings** ▶ **Map** ▶ **Color (Night)**



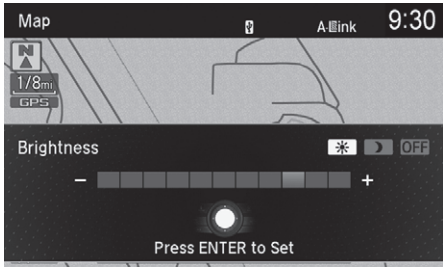
Rotate to select a color for the Night mode. Press .

Color (Night)

The factory default is set to **Blue**.

■Switching Display Mode Manually

Set the screen brightness separately for Day and Night modes. Press the (Display mode) button to cycle through the display modes (Day to Night to Off).



1. Press the (Display mode) button.
   ▶ The Brightness bar is displayed for a few seconds.
   ▶ Rotate to adjust the brightness. Press .
2. Press the (Display mode) button again.
   ▶ Repeat the procedure to switch the display modes.

Illumination	Priority	Operation
(Display Mode) button	1	Selects Day, Night, or Off display mode. This button has the highest priority and overrides all other display control adjustments listed below. **Remember:** Once you press this button, you assume full manual control of the display mode until the power mode is set to VEHICLE OFF (LOCK).
Sunlight sensor (see your Owner's Manual for location)	2	If the sunlight sensor detects daylight and the headlights are turned on, the system automatically overrides the Night display and displays the Day display mode. **Remember:** If desired, use the (Display Mode) button to override this automatic choice.

Continued

Switching Display Mode Manually

A visual guide helps you see the difference between Day and Night modes.

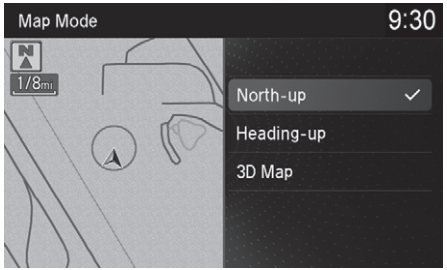
Day or Night Mode P. 9

Illumination	Priority	Operation
Dash illumination adjustment buttons (see your Owner's Manual for location)	3	When headlights are turned on, and you wish to have the Day display mode, adjust the illumination to the full brightness setting (beeps). **Remember:** Adjust the dash brightness back to mid-range to allow auto switching by sensing if the headlights are on or off.
Headlights (Auto/ On/Off)	4	When turned on, the display changes to Night display mode. The previous three controls listed above can "cancel" this function. **Remember:** Use the [☼☽] (Display Mode) button to adjust the brightness of the display.
Screen color choice	N/A	The user can select the color of the screen that will be displayed for the Day and Night display modes described above.

View (Map Orientation)

SETTINGS button ▶ **Navigation Settings** ▶ **Map** ▶ **View**

Select the map orientation.



Rotate to select an option. Press .

The following options are available:

- **North-up** (factory default): Displays the map with North always pointing up.
- **Heading-up**: Displays the map so that the direction you are traveling is always pointing up.
- **3D Map**: Displays the bird's eye view map.

View (Map Orientation)

The red arrow in the symbol always points North.

Heading-up and 3D map view switch to the North-up view on the maximum map scale.

The bird's eye view map switches to the Heading-up map while scrolling the map.

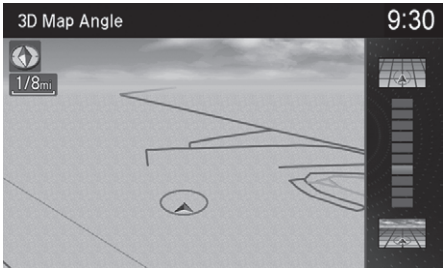
The viewing angle for the bird's eye view can be adjusted.

3D Angle Adjustment P. 60

3D Angle Adjustment

SETTINGS button ▶ **Navigation Settings** ▶ **Map** ▶ **3D Angle Adjustment**

Adjust the viewing angle.

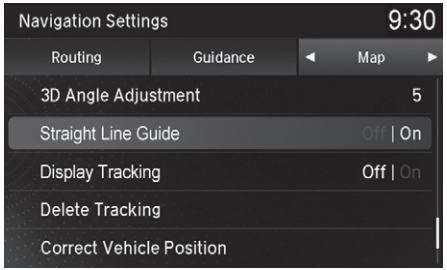


Rotate to adjust the angle. Press .

Straight Line Guide

SETTINGS button ▶ **Navigation Settings** ▶ **Map** ▶ **Straight Line Guide**

Set whether to display a straight guideline to the destination or waypoint.



Rotate to select an option. Press .

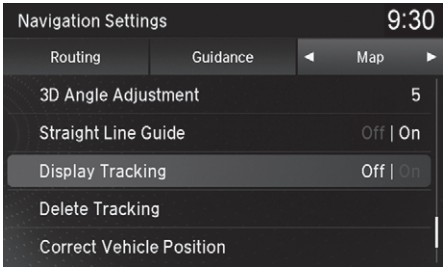
The following options are available:

- **On** (factory default): Displays a straight guideline on the map.
- **Off**: Disables the feature.

Display Tracking

SETTINGS button ▶ **Navigation Settings** ▶ **Map** ▶ **Display Tracking**

The navigation system can be set to display white tracking dots (“breadcrumbs”) on the map screen.



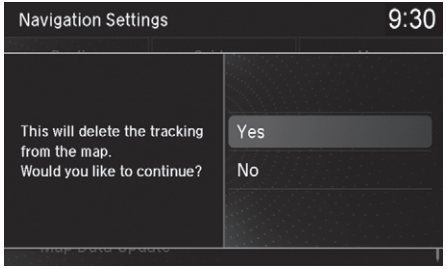
Rotate to select an option. Press .

The following options are available:

- **On**: Displays white tracking dots.
  Tracking Dots P. 106
- **Off** (factory default): Disables the feature.

Deleting Tracking Dots

SETTINGS button ▶ **Navigation Settings** ▶ **Map** ▶ **Delete Tracking**



Rotate to select **Yes**. Press .

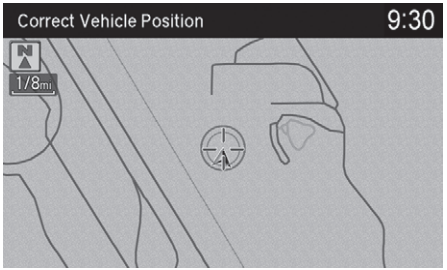
Deleting Tracking Dots

When you transfer the vehicle to a third party, delete the tracking dots.

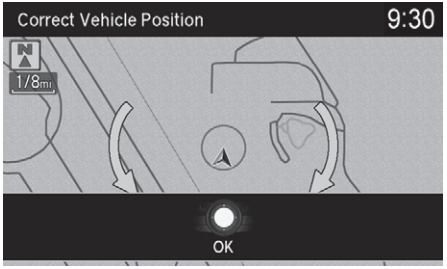
Correct Vehicle Position

SETTINGS button ▶ **Navigation Settings** ▶ **Map** ▶ **Correct Vehicle Position**

Manually adjust the current position of the vehicle as displayed on the map screen if the position appears to be incorrect.



1. Put the vehicle in Park.
2. Rotate to select **Correct Vehicle Position**. Press .
3. Scroll the map to position the cursor over at your correct position. Press .



4. Rotate to position the arrowhead in the correct direction the vehicle is facing.
5. Press to select **OK**.

Correct Vehicle Position

An apparent position error can occur where buildings, tunnels, and other objects block or reflect the GPS signals, forcing the system to use "dead reckoning" to determine your location and direction.

Using this function to adjust the vehicle position is not recommended. When the system reacquires a GPS signal, it will automatically place the vehicle in the correct location.

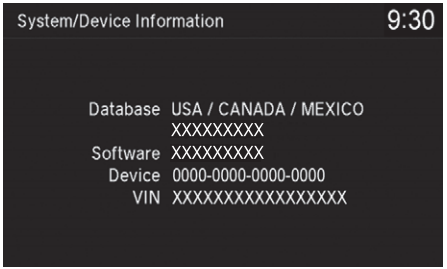
If you continually have to adjust the vehicle position, you may have problems with GPS reception or there may be database errors.

System Limitations P. 152

System Device Information

SETTINGS button ▶ **Navigation Settings** ▶ **Map** ▶ **System Device Information**

View database, software, device, and vehicle identification information.



System Device Information

You will need this information when ordering a map update.

Obtaining a Navigation Update P. 155

Map Data Update

SETTINGS button ▶ **Navigation Settings** ▶ **Map** ▶ **Map Data Update**

Check the map data update status when updating the map database.

Map Data Update

This operation is only available during a database update.

Obtaining a Navigation Update P. 155

Use the information screen to customize certain features.

Information Screen

■ How to customize

Select your desired setting item by pressing the **SETTINGS** button, then rotating while the power mode is ON and the vehicle is at a complete stop. Press .

Entering a Destination

If you press when en route, the **Map/Route** screen is displayed.

Map/Route Menu P. 109

Prior to departure, you can set areas along your route to avoid.

Avoided Area P. 43

- Place Phone Number: Sets a destination by entering the phone number of a place/landmark.
  ➔ **Place Phone Number** P. 92
- Intersection: Sets a destination (intersection) by entering two streets.
  ➔ **Intersection** P. 95
- Download POI: Sets a destination by using a list of the imported POI (category and places) data you created.
  ➔ **Download POI** P. 93
- Select Using Map: Sets a destination by scrolling through the map.
  ➔ **Select using Map** P. 96
- Scenic Route: Sets a destination by using a list of scenic roads for each state or province (U.S. and Canada only).
  ➔ **Scenic Route** P. 94
- Coordinate: Sets a destination by entering latitude and longitude.
  ➔ **Coordinate** P. 98
- Navigation Settings: Sets the personal information and basic navigational preferences.
  ➔ **Personal Information** P. 24
  ➔ **Routing** P. 36
  ➔ **Map** P. 52

Address

ENTER/MENU button ▶ **Address**

Enter an address to use as the destination. The state (U.S.) or province (Canada) in which you are currently located is displayed (e.g., California).

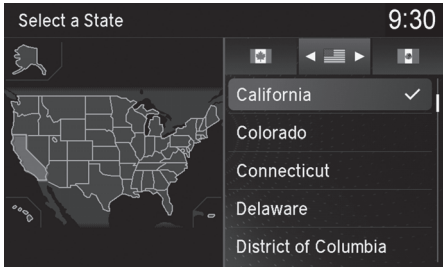
Rotate to select an item. Press .

The following items are available:

- **City**: Selects your destination city.
  Selecting a City P. 79
- **Street**: Selects your destination street.
  Selecting a Street P. 80
- **House Number**: Enters the house number to select the street.
  Selecting a Street by House Number P. 82
- **ZIP Code** (U.S.)/**Postal Code** (Canada): Enters the zip code or postal code to select the city.
  Selecting a City by Zip Code or Postal Code P. 78
- **Change State** (U.S.)/**Change Province** (Canada): Selects the state or province.
  Selecting the State or Province P. 77

Selecting the State or Province

ENTER/MENU button ▶ **Address** ▶ **Change State/Change Province**



Rotate to select a state (U.S.) or province (Canada) from the list. Press .

Selecting the State or Province

Move ◁ or ▷ to select the following areas:

- (U.S.) for the U.S. mainland, Alaska, Hawaii, and Puerto Rico
- (Canada)
- (Mexico)

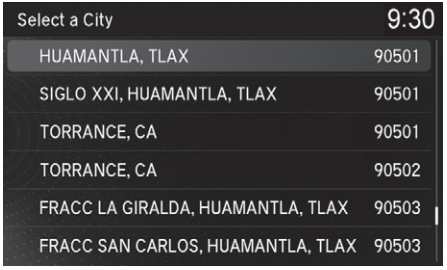
Continued

Selecting a City by Zip Code or Postal Code

ENTER/MENU button ▶ **Address** ▶ **ZIP Code/Postal Code**

1. Enter the zip code (U.S.) or postal code (Canada) of your destination.

2. Select **Search**.



3. Rotate to select the destination city from the list. Press .

▶ Next, you are prompted to enter a street name.

Selecting a Street P. 80

Selecting a City by Zip Code or Postal Code

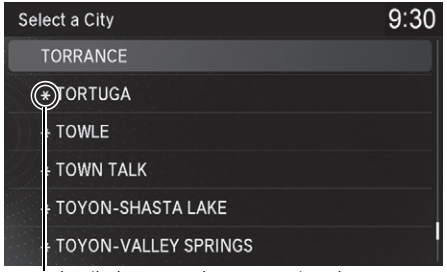
If your city is not listed, it may be part of a larger metropolitan area. Try entering the street first.

Selecting a City

ENTER/MENU button ▶ **Address** ▶ **City**

The name of the city where you are currently located is displayed.

1. Enter the name of a different city, or select **Search** without entering a letter for the current city.



Non-detailed area mark: Try entering the street first and then select the city.

2. Rotate to select your destination city from the list. Press .

▶ A list of matching hits is automatically displayed after you enter several letters, with the closest match at the top of the list. Matching letters are highlighted.

▶ Next, you are prompted to enter a street name.

Selecting a Street P. 80

Selecting a City

Vehicle position may not be displayed when:
- The vehicle is traveling off-road.
- The vehicle position data cannot be updated.

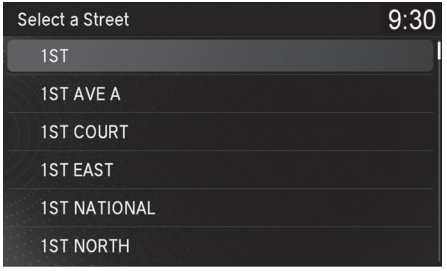
You do not need to enter spaces or symbols (e.g., &, -, %). Partial matches are supported (e.g., "ANGELES" to find "LOS ANGELES").

If your city is not listed, it may be part of a larger metropolitan area. Try entering the street first.

Continued

Selecting a Street

ENTER/MENU button ▶ **Address** ▶ **Street**

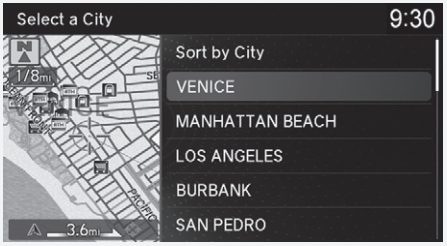


1. Enter the name of your destination street.
   - ▶ Do not enter the street type (e.g., street, road, avenue) or direction (e.g., north, south, east, west).
   - ▶ Select **Search** without entering a letter to display a list of streets.
2. Rotate to select your destination street from the list. Press .
   - ▶ A list of matching hits is automatically displayed after you enter several letters, with the closest match at the top of the list. Matching letters are highlighted.

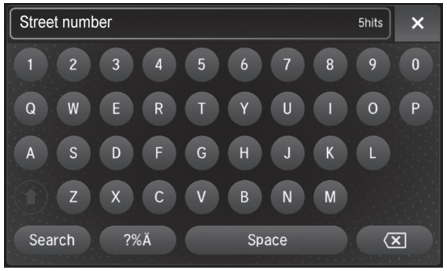
Selecting a Street

When entering the names of major freeways/highways, you can use the following abbreviations.
For interstates, use an "I" (e.g., I-10). For U.S. freeways, use "US" (e.g., US-18). For state freeways, use the two-character state designation (e.g., CA-101). For county roads, use the appropriate designation (e.g., G-2).
For Trans-Canada and Provincial highways, use "Hwy" (HWY-7). For County roads, use "CR" (CR-32). For Regional Roads, use "RR" (RR-5).

If you did not select a city first and there is more than one city with the specified street, a list of cities is displayed.



Rotate to select the desired city from the list. Press .



3. Enter the street number.
▶ Only valid street numbers can be entered.
4. Select **Search**.
5. Set the route to your destination.
➡ **Calculating the Route** P. 99

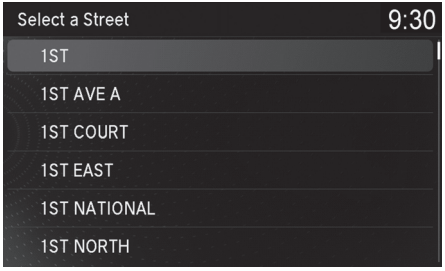
■ Selecting a Street by House Number

ENTER/MENU button ▶ **Address** ▶ **House Number**

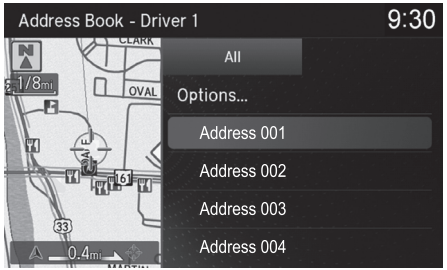


1. Enter the house number.
   ▶ Only a valid house number can be entered.
2. Select **Search**.
   ▶ If you did not yet select a street name, enter a street name when you are prompted.
3. Rotate to select your destination street from the list. Press .
   ▶ Select a city when you are prompted.
4. Set the route to your destination.
   ➔ **Calculating the Route** P. 99

Address Book

ENTER/MENU button ▶ **Address Book**

Select an address stored in your address book to use as the destination.



1. Rotate to select your destination from the list. Press .
2. Set the route to your destination.
   - **Calculating the Route** P. 99
   - ▶ Move ◁ or ▷ to display only the entries in the categories you have created.
     - **Selecting an Address Book Category** P. 29

Address Book

If you have PIN-protected your address book, enter your PIN when prompted. Press to select **OK**. PINs are optional.

- **PIN Numbers** P. 32

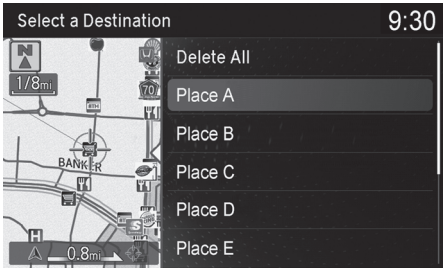
Move and rotate to select the following items:

- **Add New Address**: Adds an entry to the address book.
  - **Adding an Address Book Entry** P. 26
- **Sort**: Selects **Sort by Name** or **Sort by Distance**.
- **Delete All**: Deletes all entries in the address book.
- **Driver 1** or **Driver 2**: Displays the address book for the selected user.

Previous Destination

ENTER/MENU button ▶ **Previous Destination**

Select an address from a list of your 50 most recent destinations to use as the destination. The list is displayed with the most recent destination at the top.



1. Rotate to select a destination from the list. Press .
2. Set the route to your destination.
Calculating the Route P. 99

Previous Destination

If **Previous Destination** is grayed out, there are no previous destinations entered.

Your home address and addresses stored in your address book are not added to the list of previous destinations.

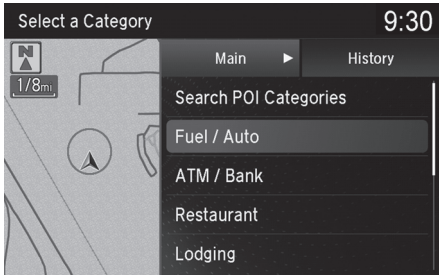
Rotate to select **Delete All** to delete all previous destinations.

You can delete unwanted previous destinations from the list.
Previous Destination P. 33

Place Category

ENTER/MENU button ▶ **Place Category**

Select the category of a place (e.g., Banking, Lodging, Restaurant) stored in the map database to search for the destination.



1. Rotate to select a category. Press .
2. Rotate to select a subcategory. Press .

Place Category

This option is convenient if you do not know the exact name of a place or if you want to narrow down the number of matches returned for places with a common name.

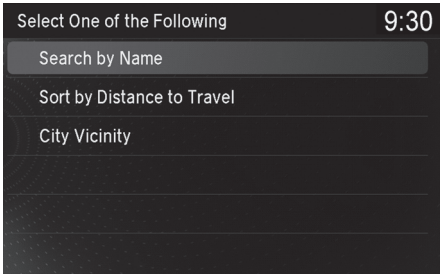
Move ◯▷ to select **History** to access your recently used place categories. Up to 30 categories can be stored.

You can also delete your recently used place categories.

Category History P. 34

Search POI Categories helps you to search the subcategory. When you enter a keyword and select **OK**, the list of appropriate subcategories is displayed.

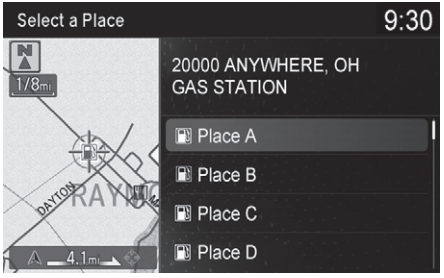
Continued



3. Rotate to select an item. Press .

The following items are available:

- **Search by Name**: Searches for a place in the subcategory by name. Enter a place name when prompted.
- **Sort by Distance to Travel**: Displays all the places in the subcategory sorted by distance from your current location. The closest place is displayed at the top.
- **City Vicinity**: Searches for a place in the subcategory within a 20 mile (32 km) radius of a specific city. Enter a city name when prompted and then select a city.



4. Rotate to select a destination from the list. Press .

5. Set the route to your destination.

Calculating the Route P. 99

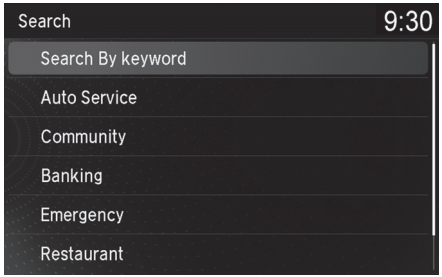
Place Category

The straight line distance (as the crow flies, not driving distance) and direction to the destination are displayed for the highlighted place.

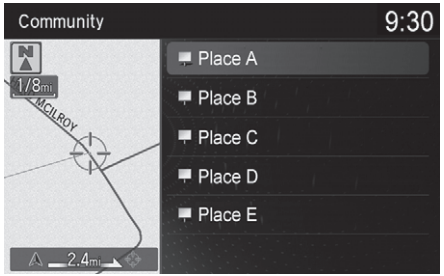
Local Search

ENTER/MENU button ▶ **Local Search**

Select a place via Local Search database as the destination.



1. Rotate to select a category (e.g., **Community**). Press .



2. Rotate to select a subcategory. Press .

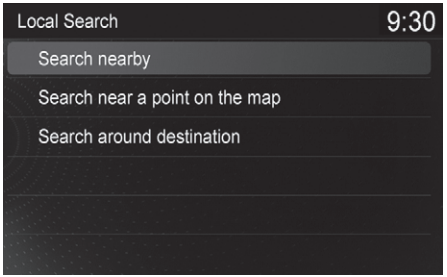
Local Search

When you select **Search by keyword**, the list of appropriate categories is displayed.

The screen in this section may differ from the actual ones.

Local Search is a subscription service. For more information, contact an Acura dealer or visit *owners.acura.com* (U.S.) or *www.acura.ca/owners/acuralink* (Canada).

Continued



3. Rotate to select an item. Press .

4. Set the route to your destination.

➔ **Calculating the Route** P. 99

The following items are available:

- **Search nearby**: Finds the nearest POI around your vehicle.
- **Search near a point on the map**: Selects a POI by scrolling the Interface Dial on the map screen.
- **Search around destination**: Selects a POI around the destination. Search the category by scrolling the Interface Dial.

Place Name

ENTER/MENU button ▶ **Place Name**

Enter the name of a place (e.g., business, hotel, restaurant) stored in the map database to use as the destination.

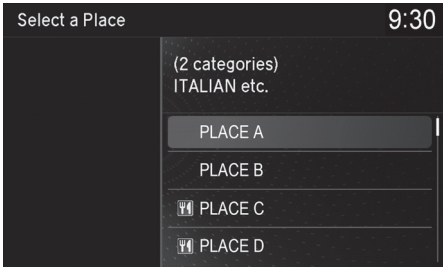
1. Enter a place name.
2. Select **Search** to display a list of matching hits.

3. Rotate to select a place name from the list. Press .
▶ If the place name is in multiple categories, the categories are displayed when you select it.
Place Name in Multiple Categories P. 90
4. Set the route to your destination.
Calculating the Route P. 99

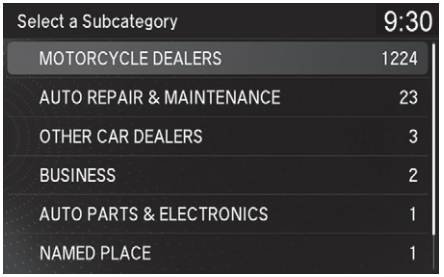
Continued

■ Place Name in Multiple Categories

If the place name is in multiple categories of the map database, the following screen is displayed.



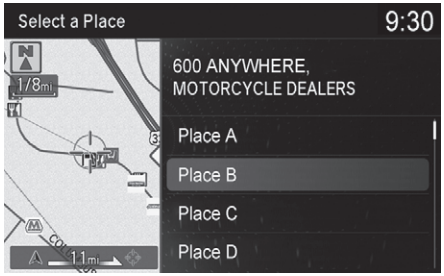
1. Rotate to select a place name. Press .



2. Rotate to select a subcategory. Press .

Place Name in Multiple Categories

Matching letters are highlighted.



3. Rotate to select a place. Press .

4. Set the route to your destination.

Calculating the Route P. 99

Place Name in Multiple Categories

Rotate to select **Sort by City** or **Sort by Distance**. Press .

Place Phone Number

ENTER/MENU button ▶ **Place Phone Number**

Select a destination by phone number. Only phone numbers in the database are recognized.

1. Enter the area code and phone number.
2. Select **OK**.
3. Set the route to your destination.
Calculating the Route P. 99

Place Phone Number

All 10 digits must be entered.

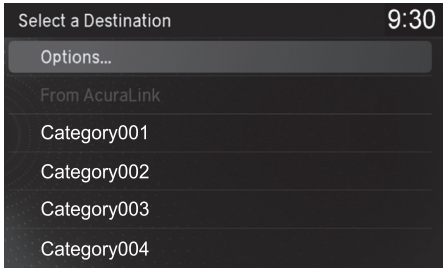
Phone numbers of private residences entered in your address book are not stored in the database and thus cannot be used when search for a destination.

A list is displayed if there are multiple locations in the database with the same phone number. Rotate to select a place from the list. Press .

Download POI

ENTER/MENU button ▶ **Download POI**

Select a place imported into the navigation system as the destination.



1. Rotate to select a category from the list. Press .

2. Rotate to select a place. Press .

3. Set the route to your destination.

➡ **Calculating the Route** P. 99

Download POI

Rotate to select **Options**. The following items are available:

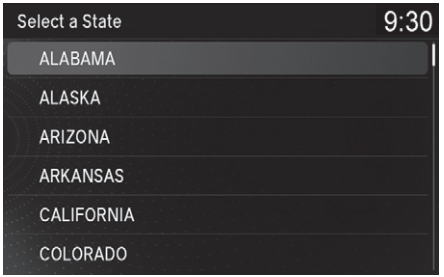
- **Import from USB**: Imports POI data into the navigation system.
  ➡ **Importing POI Categories** P. 35
- **Delete All**: Deletes all POI entries.
- **Help with Feature**: Views tips for the Download POI feature.

If you select **From AcuraLink**, you can download POI data stored on the AcuraLink® server.

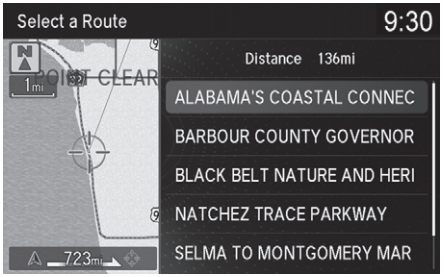
Scenic Route

ENTER/MENU button ▶ **Scenic Route**

Select a scenic road as a destination (U.S. and Canada only).



1. Rotate to select a state/province. Press .



2. Rotate to select a scenic road. Press .
3. Set the route to your destination.
Calculating the Route P. 99

Scenic Route

If you select a scenic road that runs through multiple states (U.S.) or provinces (Canada), only the portion of the road in the selected state or province is displayed.

Intersection

ENTER/MENU button ▶ **Intersection**

Select the intersection of two streets as the destination. The state (U.S.) or province (Canada) for your current location is displayed at the top of the screen (e.g., California).

1. Rotate to select the intersection search method. Press .
2. Set the route to your destination.
   Calculating the Route P. 99

The following options are available:

- **City**: Selects the city where the intersection is located. You are prompted to enter the name of the two intersecting streets.
  Selecting a City P. 79
- **Street**: Selects the two intersecting streets. The city or cities that the streets are located in are displayed.
  Selecting a Street P. 80
- **Change State** (U.S.)/**Change Province** (Canada): Selects the state or province.
  Selecting the State or Province P. 77

Intersection

It is usually easier to select **Street** to find the streets first. The city or cities that the streets are in will be displayed. If you select **City** and your city is not listed, it may be part of a larger metropolitan area. Try entering the street first.

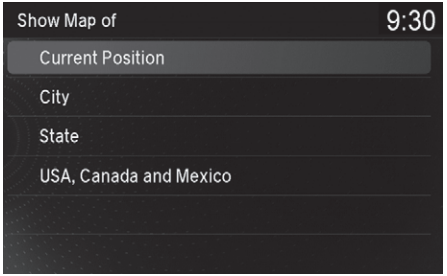
If the intersection is outside the state (U.S.) or province (Canada) you are currently in, rotate to select **Change State/Change Province**.
Selecting the State or Province P. 77

If there is more than one intersection, you are prompted to select the intersection. If the two streets that you have selected do not intersect, no intersection is entered.

Select using Map

ENTER/MENU button ▶ **Select Using Map**

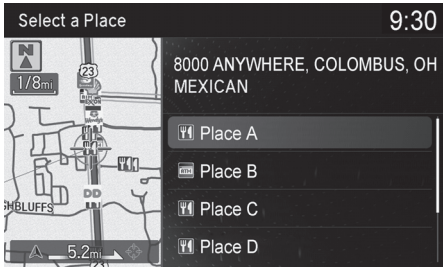
Use the Interface Dial to manually select an icon or a location on the map screen as the destination.
You are prompted to define the map area to display.



1. Rotate to select an item. Press .

The following items are available:

- **Current Position**: Your current location is centered on the map.
- **City**: You are prompted to select the city.
  Selecting a City P. 79
- **State** (U.S.)/**Province** (Canada): You are prompted to select the state or province.
  Selecting the State or Province P. 77
- **USA, Canada and Mexico**: Your current location is displayed on a map of the country.



2. Scroll the map to position the cursor over your desired destination, adjusting the map scale as necessary.
▶ If the address is not the desired location, scroll the map to another location and try again.

3. Press ⊙ to display the route calculation menu.
➡ **Calculating the Route** P. 99

4. Rotate ⟲ to select **Set as Destination**. Press ⊙.

Select using Map

Auto Zoom
Press ⊙ repeatedly on the map to zoom in (to the scale 1/4 mile (400 m)) while scrolling the map.

Information icons are displayed at scales from 1 mile to 1/4 mile (1.6 km to 400 m). Place/landmark icons are displayed at 1/8 mile (200 m) or less. Roads are displayed at 1/4 mile (400 m) or less.

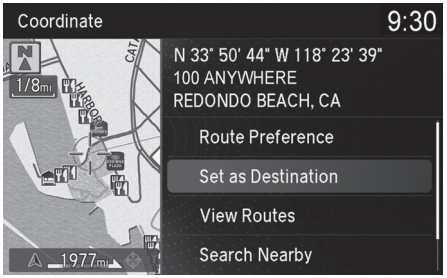
If you select multiple icons within the cursor radius, you are prompted to select one of the items from a list.
➡ **Selecting a Destination on the Map** P. 137

Coordinate

ENTER/MENU button ▶ **Coordinate**

Specify a location using latitude and longitude map coordinates.

1. Enter the latitude and select **OK**.
2. Enter the longitude and select **OK**.

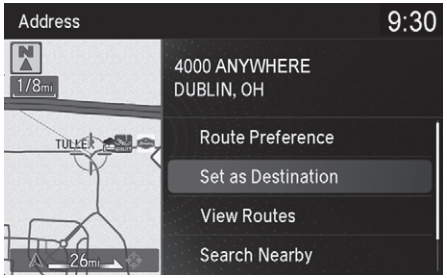


3. Scroll the map to position the cursor over your desired destination, adjusting the map scale as necessary.
   ▶ If the address is not the desired location, scroll to another location and try again.
4. Press ⟲ to display the route calculation menu.
   Calculating the Route P. 99
5. Rotate ⟲ to select **Set as Destination**. Press ⟲.

Coordinate

At least two digits must be entered into each field (degrees, minutes, seconds) when inputing the coordinates.

This section describes how to calculate your route.



1. Rotate ⟲ to select **Set as Destination**. Press ⊙.
- ▶ The system calculates and displays the route line on the map screen.
  - 🡆 **Route Line** P. 104
- ▶ Move ◁○ to scroll the map around the destination.

The following options are available:

- **Route Preference**: Changes the route preferences (calculating method).
  - 🡆 **Route Preference** P. 37
- **View Routes**: Displays three different routes.
  - 🡆 **Viewing the Routes** P. 101

Calculating the Route

The straight line distance (as the crow flies, not driving distance) and direction to the destination are displayed.

You cannot use voice commands while the system is calculating the route.

Search Nearby

You can find the nearest place/landmark (e.g., nearest gas station) by specifying a category.

🡆 **Find Nearest Place** P. 136

Call

You can place a telephone call to the destination phone number. See your Owner's Manual.

Save to Address Book

You can add the destination address to the address book.

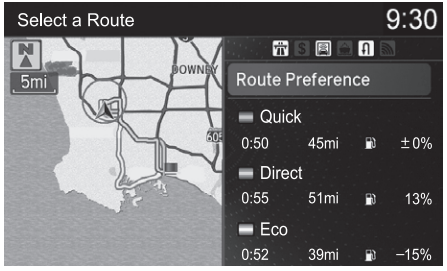
■ Using the Server Route*



The following items are available:

- **Quick**: Displays the route with the shortest travel time.
- **Direct**: Displays the route with the shortest travel distance.
- **Eco**: Displays the route with the best fuel efficiency.

Viewing the Routes

It is not unusual for some calculated route options to be identical.

Canadian models

Server Routes is a subscription service. For more information, contact an Acura dealer or visit *www.acura.ca/owners/acuralink*.

* Not available on all models

This section describes how to follow the route guidance to your destination, receive traffic information and choose the icons displayed on the map screen.

Viewing the Route

Map Screen

After calculating the route to your destination, the route is displayed on the map screen.

Map Screen Legend P. 8

As you drive, the system tracks your position on the map in real time and provides guidance as you approach each guidance point on the route.

During Route Guidance P. 9

Viewing the Route

You can change the map scale by rotating .

If you scroll the map while en route, the time and distance to destination indicators are replaced with an indicator displaying the distance from the current vehicle position.

You can display only the map screen or a split map-guidance screen.

Guidance Mode P. 46

Guidance Screen

The guidance screen offers an alternative way to view your route.

- ▶ The next guidance point is displayed as you approach each guidance point on the route.
- ▶ You can also view a list of guidance directions.

Guidance Screen

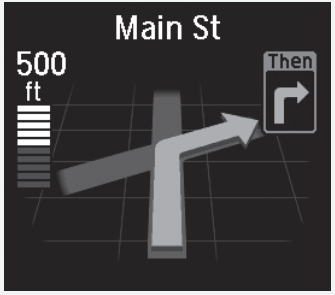
A visual guide helps you check the guidance screen.

➔ **Guidance Screen** P. 9

Turn-by-Turn Directions

The next guidance point appears on the multi-information display.

➔ **Turn-by-Turn Directions** P. 9



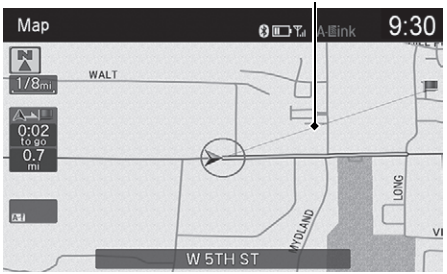
You can turn this feature on or off using the multi-information display. See the Owner's Manual for instructions.

Continued

■ Route Line

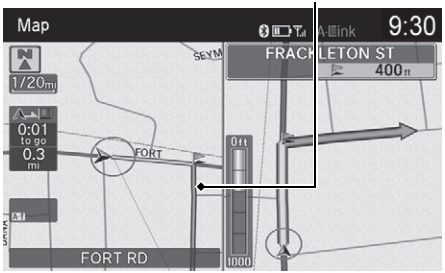
When driving on verified streets, the route line is light blue. The route line display changes when driving on unverified streets:

Straight line guide



- If **Unverified Routing** is **Off**, the route line uses verified streets only (when possible). If **Straight Line Guide** is set to **On**, a pink "vector line" pointing directly towards your destination is displayed.
  ➡ **Straight Line Guide** P. 61

Blue-pink route line



- If **Unverified Routing** is **On**, the route line changes to a blue-pink line to indicate that the route line uses unverified streets.

Route Line

You can set **Unverified Routing** to **Off** to follow your own route to the destination. If **Unverified Routing** is **On**, be aware that unverified streets may not be displayed accurately.

➡ **Unverified Routing** P. 39

The route line may also consist of red, orange, or green segments when traffic information is displayed.

➡ **Traffic Information*/AcuraLink Real-Time Traffic™*** P. 13
➡ **Traffic Rerouting™** P. 119

* Not available on all models

■ Deviating From the Planned Route

If you leave the calculated route, the system automatically recalculates a route to the desired destination based on your current location and direction.

➔ **Route Preference** P. 37

Continued

Tracking Dots

You can display a series of dots (breadcrumbs) to track the path you are taking. If needed, you can follow the dots back to the mapped road you originally left.

Display Tracking P. 62

Tracking Dots

A message "**Not on a Digitized Road**" may appear when you drive 1/2 mile (800 m) away from a mapped road.

Breadcrumbs may occasionally be displayed in urban areas, such as large parking lots in shopping malls, in new subdivisions where the roads are not yet in the database, or in areas where a GPS signal is unavailable, such as in a parking garage.

Breadcrumbs are limited to approximately 150 miles (240 km). Breadcrumbs at the beginning of the trail are deleted if you exceed that distance.

Breadcrumbs are displayed only at 1/20, 1/8, 1/4, and 1/2 mile (80, 200, 400, and 800 m) map scales.

Listening to Voice Guidance

As you approach each guidance point, a pop-up window is displayed on the map screen with instructions for you to follow. Voice guidance for each guidance point is also provided.

Typically, you hear three prompts:

- 1/2 mile (800 m) from the guidance point (2 miles (3 km) on freeway/highway)
- 1/4 mile (400 m) from the guidance point (1 mile (1.5 km) on freeway/highway)
- Just before the guidance point

To replay voice guidance, press and rotate to select **Repeat Guidance** in the **Map/Route** menu.

If you select **Repeat Guidance** between guidance points, voice guidance for the next guidance point is provided.

Listening to Voice Guidance

You can turn voice guidance OFF if you prefer. Press the **SETTINGS** button. Select **System Settings** and set **Guidance Volume** to **0**.

You can also adjust **Guidance Volume** by rotating the volume knob while the route guidance or voice command confirmations are announced.

When driving in unverified areas, the phrase "if possible" is inserted before each voice guidance prompt.

Repeat Guidance in the **Map/Route** menu may be grayed out if:

- The system is in process of gathering the route guidance information.
- The vehicle is out of the road (e.g., pulling in a parking lot).

The timing of voice guidance varies depending on the type of road you are on and the distance to the next guidance point.

Reaching a Waypoint

When you reach a waypoint, a pop-up message is displayed. You can continue or pause the route guidance.

Rotate to select **No** to pause the route guidance. Press .
▶ Select **Yes** to continue the guidance.

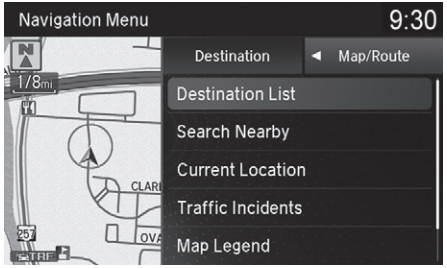
■ Resuming the Route Guidance

You can resume the route guidance in the following ways:

- Restart the engine after you stop your vehicle (e.g., to rest, stop for gas, etc.).
  ➡ **Resuming Your Trip** P. 139
- Select **Resume Guidance** from the navigation menu or the **Map/Route** menu.
  ➡ **Map/Route Menu** P. 109
  ➡ **Changing Your Route** P. 122

Displaying the Map/Route Menu

Use the **Map/Route** menu to control the icons displayed on the screen and to display traffic information and messages. You can also use the **Map/Route** menu to find locations or to cancel the route.



1. On the map screen, press .
- ▶ When en route, the **Map/Route** menu is displayed on the map screen.
- ▶ When not en route, move to select **Map/Route**.

2. Rotate to select an item. Press .

Map/Route Menu

If you scroll the map while en route, press the **NAV** (or **BACK**) button to return to the current position map screen, then press .

Map Icons and Functions

Display or hide all icons on the map screen, with the exception of Honda/Acura Dealer icons which are always displayed.

■ Landmark icon

Type	Icon display control	Icon selectable	Icon searchable
Honda/Acura dealer	Always on	Yes	Yes
Hospital	Yes	Yes	Yes
School	Yes	Yes	Yes
ATM	Yes	Yes	Yes
Gas station	Yes	Yes	Yes
Restaurants	Yes	Yes	Yes
Post office	Yes	Yes	Yes
Grocery store	Yes	Yes	Yes
Hotel/Lodging	Yes	Yes	Yes
Police station	No icon	No	Yes
Shopping, Tourist attraction, Bank	No icon	No	Yes
Parking garage	Yes	Yes	Yes
Parking lot	Yes	Yes	Yes
Freeway/Highway exit info.	Yes	Yes	N/A

Continued

Map Icons and Functions

Icon display control
Icons that can be displayed or hidden using the Interface Dial or voice command.

Icon selectable
Icons that can be selected as a destination using the Interface Dial.

Icon searchable
Icons that can be searched using the Find Nearest voice command.

■ Traffic icon

Type	Icon display control	Icon selectable	Icon searchable
Traffic incident	Yes	No	N/A

Traffic icon

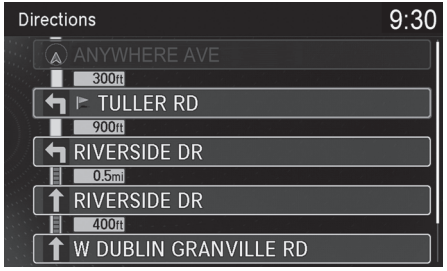
When you use the Interface Dial to position the cursor (round red circle) over the traffic incident icon, you can view the summary of the incident.

Press on the traffic incident icon to view a pop-up message describing the incident in detail.

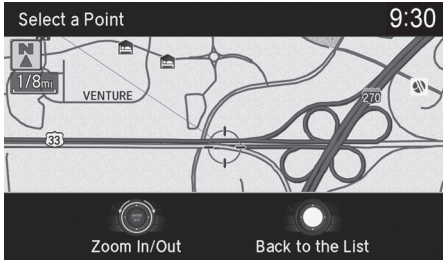
Directions

ENTER/MENU button (on map) ▶ **Map/Route** ▶ **Directions**

Display a list of the guidance points on your route for your confirmation.



1. Rotate to select a guidance point from the list. Press .
▶ The system displays a map of the guidance point.



2. Press to select **Back to the List** or press the **BACK** button to return to the previous screen.

Directions

The system provides freeway/highway exit information only in the U.S.

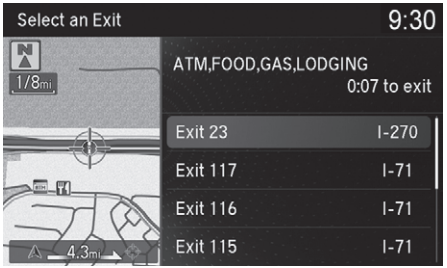
The route guidance information is automatically deleted when you reach your destination.

Continued

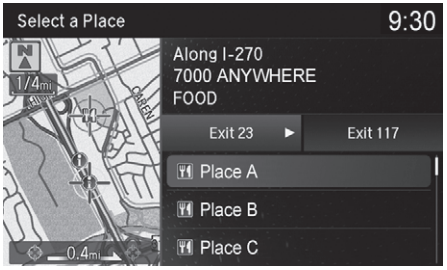
■ Freeway/Highway Exit Information

ENTER/MENU button (on map) ▶ **Map/Route** ▶ **Exit Information**

Display a list of the Freeway/highway exits for the route. You can view freeway/high way exit information (whether the exit is near gas stations, restaurants, ATMs, etc.) and add new destinations or waypoints to the calculated route.



1. Rotate to select an exit from the list. Press .



2. Rotate to select a list item. Press .
- ▶ Move ◁ or ▷ to display information for different exits.
- ▶ You can set the route to your destination.

Calculating the Route P. 99

Freeway/Highway Exit Information

You can scroll the map and select a (Freeway/ Highway exit information) icon on the map screen to display the Freeway/Highway exit information. The icon is only displayed if there is exit information available.

Icons are displayed only at 1/4, 1/2, or 1 mile (400 m, 800 m, or 1.6 km) scale.

Map Scale and Functions P. 114

The system provides freeway/highway exit information only in the U.S.

The route guidance information is automatically deleted when you reach your destination.

Traffic Rerouting™

When driving to your destination, the system automatically searches for a faster route based on traffic flow information and traffic incidents.

Traffic Information*/AcuraLink Real-Time Traffic™* P. 13
Traffic Rerouting P. 41

Traffic Rerouting™

Traffic information is only available in certain areas.

Automatic traffic rerouting may not provide a detour route depending on circumstances.

The route is recalculated only when **Traffic Rerouting** is set to **On**.

Traffic Rerouting P. 41

Canadian models

This feature requires an AcuraLink Real-Time Traffic™ subscription.
AcuraLink Real-Time Traffic™ is a subscription service. For more information, contact an Acura dealer or *www.acura.ca/owners/acuralink*.

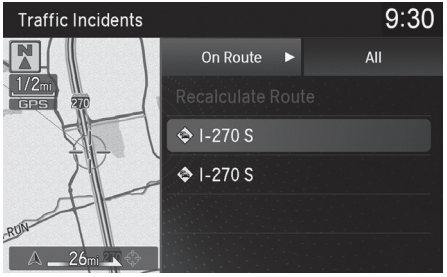
Continued

* Not available on all models

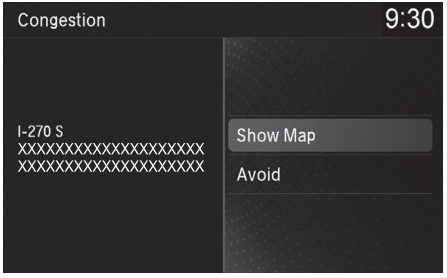
■ Traffic Rerouting™ Manually

ENTER/MENU button (on map) ▶ **Map/Route** ▶ **Traffic Incidents**

Manually avoid specific incidents and/or congestion on your route:



1. Rotate to select an incident from the list. Press .
▶ The system displays the map screen and the incident location.



2. Rotate to select **Avoid**. Press .
▶ Repeat step 1 to 2 as necessary.

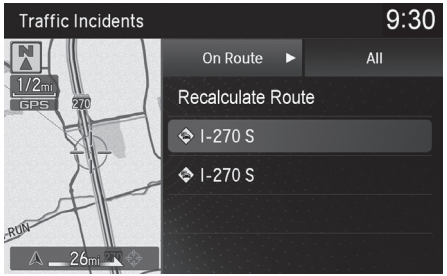
Traffic Rerouting™ Manually

You can choose to avoid up to 10 traffic incidents. It is not always possible for the system to calculate a route that avoids all traffic incidents or specific traffic incidents you select.

The "**On Route**" tab on the Traffic List screen is only available during route guidance.

You cannot select an incident to avoid from the "**All**" tab.

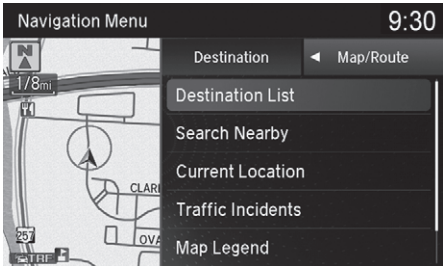
You can also detour around a traffic incident manually if you encounter an unexpected obstacle.
Taking a Detour P. 135



3. Rotate ⟲ to select **Recalculate Route**. Press ⊙.
▶ The system recalculates a detour route that avoids the traffic incidents.

ENTER/MENU button (when en route)

This section describes how to alter your route, add an interim "waypoint" (pit stop), choose a different destination, cancel your current destination, and continue your trip after stopping.



Rotate to select an item. Press .

Map/Route Menu P. 109

Changing Your Route

If you press when not en route, the **Destination** menu screen is displayed.

Entering a Destination P. 74

Pausing the Route

ENTER/MENU button (when en route) ▶ **Pause Guidance**

Pause the route guidance and return to the map screen. The destination icons and all waypoint flags remain displayed on the map. Press ⟲ when en route and select **Resume Guidance** to resume the route guidance.

Canceling the Route

ENTER/MENU button (when en route) ▶ **Cancel Route**

Cancel the route guidance and remove the destination and all waypoints from the destination list. The system then returns to the map screen.

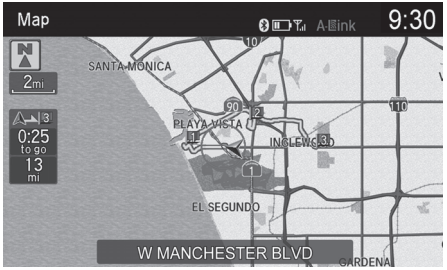
Pausing the Route

You can also pause your route from the **Map/Route** menu.

Map/Route Menu P. 109

Adding Waypoints

Add up to four waypoints (pit stops) along the route to your destination.



Waypoints are displayed on the map screen as small, numbered red flags. The route follows the waypoints in the order they are listed in the Destination List.

Adding Waypoints

Waypoints are places where you can stop for food, gas, etc. on your way to your destination.

Press the **NAV** button to return to the map screen without adding a waypoint at any time.

The search radius used for adding waypoints can be adjusted.

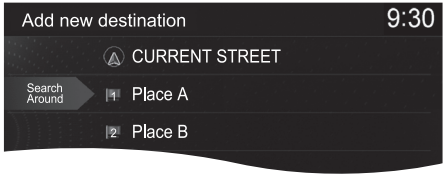
Edit POI Search Radius Along Route P. 42

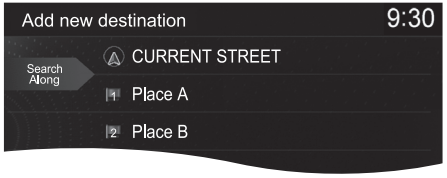
You can delete waypoints or edit the order of waypoints in the destination list.

Editing the Destination List P. 130

Adding Waypoints from the Map/Route Menu

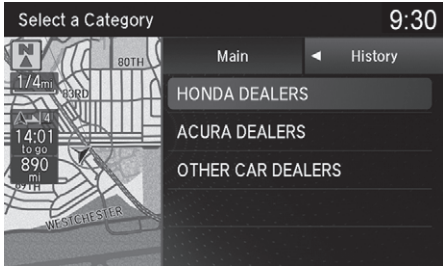
ENTER/MENU button (when en route) ▶ **Destination List** ▶ **Add New Destination** ▶ **Find Along Route**





1. Rotate to select a search method to add a waypoint. Press .

- **Search Around**: Searches in a spiral pattern around the location you select.
- **Search Along**: Searches within a "corridor" on either side of the location you select.

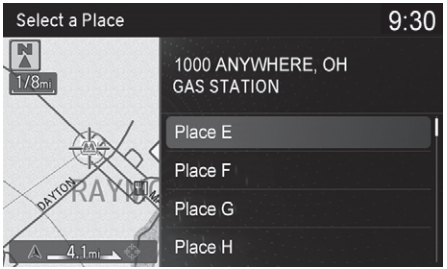


2. Rotate to select a waypoint category (e.g., GAS STATION). Press .

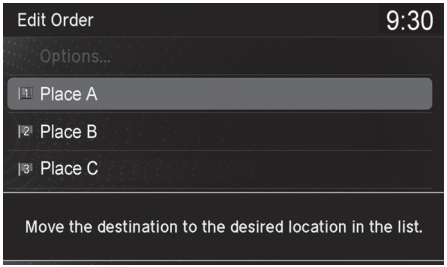
Continued

Adding Waypoints from the Map/Route Menu

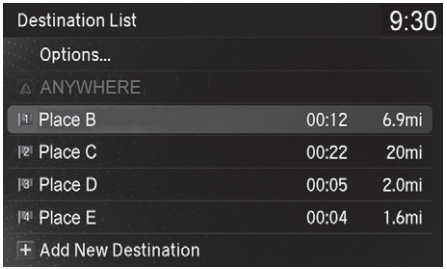
Search method



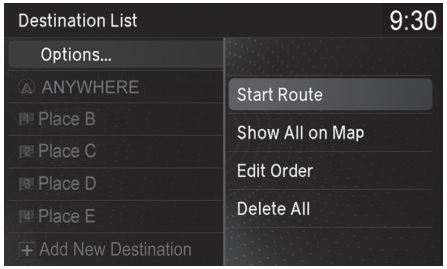
3. Rotate to select a place. Press .
▶ The waypoint is added to the Destination List.



4. Rotate to select a location and move the order of destinations. Press .



5. Rotate to select **Options**. Press .

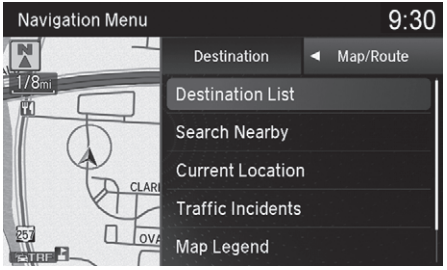


6. Rotate to select **Start Route**. Press .
▶ The route is automatically recalculated and displayed on the map screen.

Continued

■ Adding Waypoints from the Navigation Menu

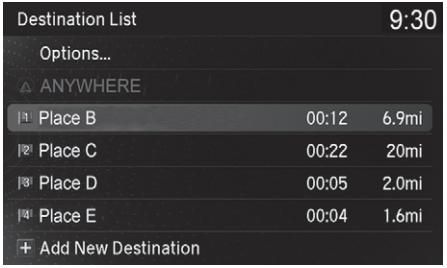
ENTER/MENU button (when en route) ▶ **Destination List** ▶ **Add New Destination** ▶ **Use Navigation Menu**



1. Rotate to select a method to enter a waypoint.

➡ **Entering a Destination** P. 74

▶ A new destination is added to the end of the Destination list.

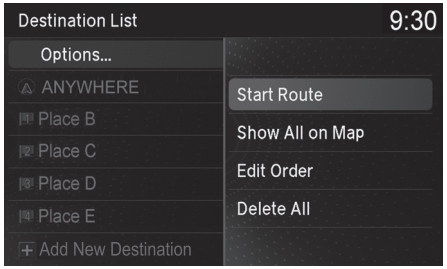


2. Rotate to select **Options**. Press .

Adding Waypoints from the Navigation Menu

You can edit the order of waypoints and destination.

➡ **Editing the Destination List** P. 130

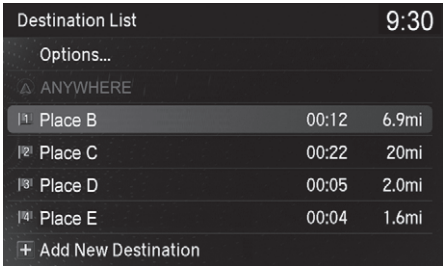


3. Rotate to select **Start Route**. Press .
▶ The route is automatically recalculated and displayed on the map screen.

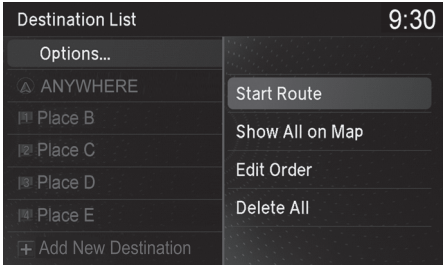
Editing the Destination List

■ Editing the Order of Waypoints

ENTER/MENU button (when en route) ▶ **Destination List**



1. Rotate to select **Options**. Press.

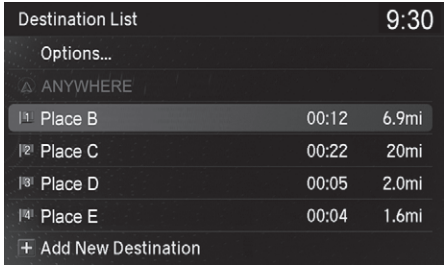


2. Rotate to select **Edit Order**. Press.

Editing the Order of Waypoints

Select **Show All on Map** to display the destination and waypoints on the map screen.

3. Rotate to select a list item to move. Press .
4. Rotate to select a new location. Press .

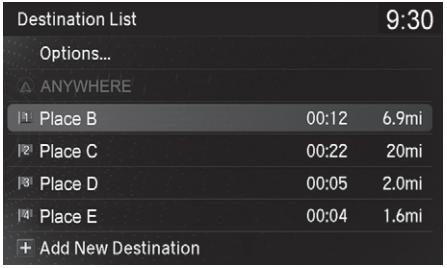


5. Rotate to select **Options**. Press .
6. Rotate to select **Start Route**. Press .
▶ The route is automatically recalculated and displayed on the map screen.

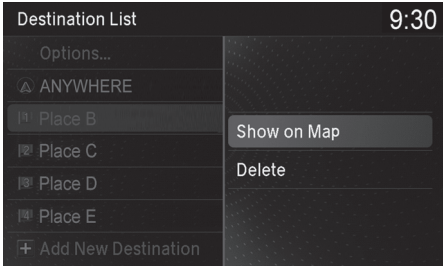
Continued

Deleting Waypoints

ENTER/MENU button (when en route) ▶ **Destination List**



1. Rotate to select a list item to delete. Press .



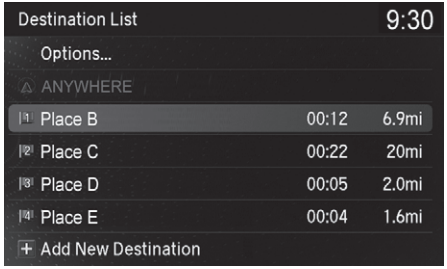
2. Rotate to select **Delete**. Press .
3. Rotate to select **Yes**. Press .

Deleting Waypoints

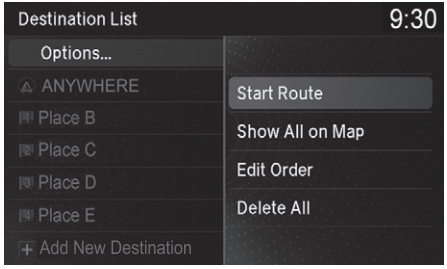
Select **Show on Map** to display the waypoint on the map screen.

Deleting All Waypoints

ENTER/MENU button (when en route) ▶ **Destination List**

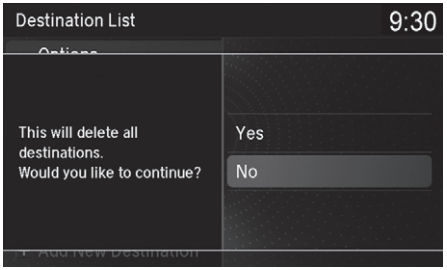


1. Rotate to select **Options**. Press.



2. Rotate to select **Delete All**. Press.

Continued



3. Rotate to select **Yes**. Press .

Taking a Detour

ENTER/MENU button (when en route) ▶ **Detour**

Calculate a detour route manually. The system attempts to calculate a new route by avoiding the next 5 miles (8 km) (while on a freeway/highway) or 1 mile (1.6 km) (while on a surface street).

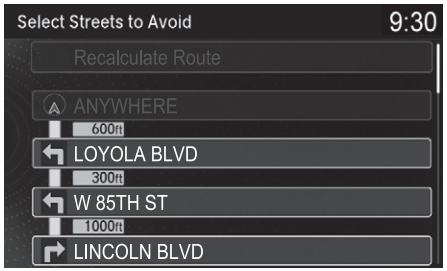
Taking a Detour

The detour option is convenient if you encounter an unexpected obstacle such as a road closure or extremely heavy traffic congestion.

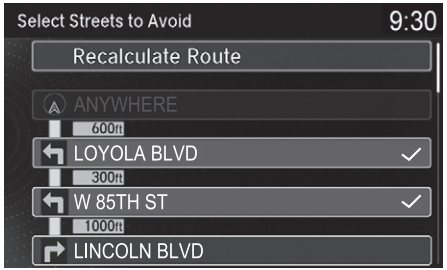
Avoiding Streets

ENTER/MENU button (when en route) ▶ **Avoid Streets**

Select a street or streets along your route to avoid.



1. Rotate to select the street you want to avoid. Press .
▶ Repeat the procedure to avoid other streets.



2. Rotate to select **Recalculate Route**. Press .
▶ The system calculates a new route.

Avoiding Streets

Avoiding certain streets is convenient if you know of road construction, road closures, or excessive traffic along the route.

You cannot choose specific streets you want to use, only those to avoid. However, you can select intersections or waypoints (places/landmarks) that the system will use in your route.

Adding Waypoints P. 124

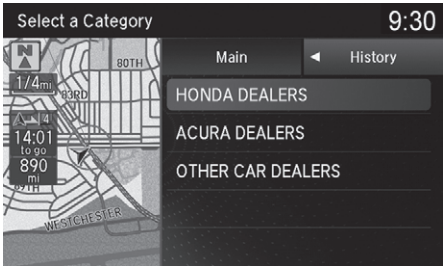
You can store up to 10 streets to avoid. You cannot avoid your current street or the streets of your waypoint(s) or destination (system beeps if selected).

There are several methods you can use to change the route destination.

Find Nearest Place

ENTER/MENU button (on map) ▶ **Map/Route** ▶ **Search Nearby**

Search for the nearest place/landmark on the map screen and set it as your destination.

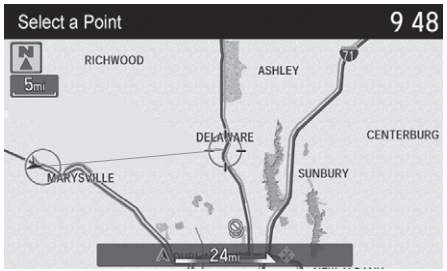


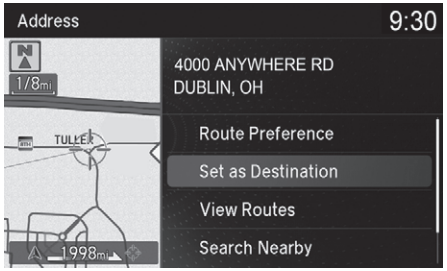
1. Rotate to select a category type. Press .
2. Rotate to select a place. Press .
3. Rotate to select **Set as Destination**. Press .

4. Rotate to select **Clear Current Route**. Press .
   ▶ The route is automatically recalculated and displayed on the map screen.
   ▶ Rotate to edit the order to set the location as a new waypoint. Press .

Selecting a Destination on the Map

Select a new destination when en route by selecting a location on the map.





1. Scroll the map to position the cursor over your desired destination, adjusting the map scale as necessary. Press .
▶ If the address displayed is not the desired location, press the **BACK** button and repeat the procedure.

2. Rotate to select **Set as Destination**. Press .
Calculating the Route P. 99

3. Rotate to select **Clear Current Route**. Press .
▶ The route is automatically recalculated and displayed on the map screen.
▶ Rotate to edit the order to set the location as a new waypoint. Press .

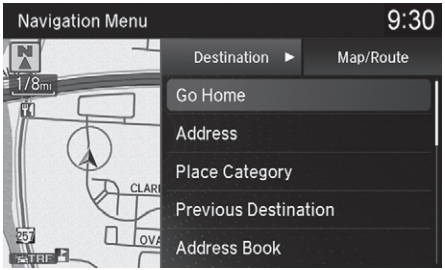
Selecting a Destination on the Map

If there is more than one icon or street under the map cursor, you are prompted to select the item from a list.
Rotate to select an item. Press .

Entering a New Destination

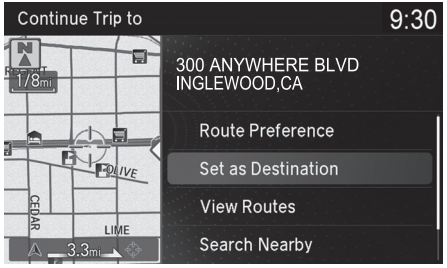
ENTER/MENU button (when en route) ▶ **Destination**

Enter a new destination using the **Destination** menu screen even when you are en route.



1. Rotate to select a method to enter a new destination.
   Entering a Destination P. 74
   ▶ After entering a new destination, the address is displayed on the searched location screen.
2. Rotate to select **Set as Destination**. Press .
3. Rotate to select **Clear Current Route**. Press .
   ▶ The route is automatically recalculated and displayed on the map screen.
   ▶ Rotate to edit the order to set the location as a new waypoint. Press .

Stop your vehicle en route (e.g., to rest, stop for gas, etc.), and then continue on your route.
If you did not complete your route, the Continue Trip screen is displayed when you restart your vehicle.



Rotate to select **Set as Destination**. Press .
- ▶ You can continue on the same route.
- ▶ Move to scroll the map around the destination.
- ▶ Press the **BACK** button to cancel your destination.

The following items are available:

- **Route Preference**: Rotate to select **Route Preference** to change the route preferences (calculating method).
  - **Route Preference** P. 37
- **View Routes**: Displays three different routes.
  - **Viewing the Routes** P. 101

Resuming Your Trip

The Continue Trip screen has the same options as when you calculate a route.
- **Calculating the Route** P. 99

You can also cancel your destination by pressing any hard button except the button.

Search Nearby
You can find the nearest place/landmark (e.g., nearest gas station) by specifying a category.
- **Find Nearest Place** P. 136

Call
You can place a telephone call to the destination phone number. See your Owner's Manual.

Save to Address Book
You can add the destination address to the address book.
- **Adding an Address Book Entry** P. 26

Edit/Delete Entry
You can edit or delete the address book entry.
- **Editing an Address Book Entry** P. 29
- **Deleting an Address Book Entry** P. 30

Edit Home Entry
You can edit your home address entry.
- **Home Address** P. 31

More Info
You can view detailed information about the destination.

Navigation System 148

Map, Voice, Entering Destinations

Problem	Solution
The Startup Confirmation screen is displayed every time I start the vehicle.	This is normal. The Startup Confirmation screen reminds you and your guest drivers to always operate the navigation system in a safe manner. The Startup Confirmation screen goes off after a certain period of time and the top screen of the last mode is displayed.
The navigation system reboots by itself (returns to the opening screen).	A reboot can be caused by extreme temperatures or shock from bumpy roads, and does not necessarily indicate a problem. If this happens frequently, please see a dealer.
How do I specify a destination when an entered city or street could not be found?	• Try entering the street first. Some cities are lumped in with a major metro area. In rural "unverified" areas or new subdivisions, streets may be missing or only partially numbered. • Try selecting the destination directly from the map. ➔ **Select using Map** P. 96
How do I delete Personal Addresses, Previous Destinations, or the Home Address?	**1.** Press the **SETTINGS** button. Select **Navigation Settings** > **Personal Info** to display the types of information. **2.** Select the type of address to delete. ➔ **Address Book** P. 25 ➔ **Home Address** P. 31 ➔ **Previous Destination** P. 33
I cannot hear the navigation system voice.	**1.** Press the **SETTINGS** button. Select **System Settings** > **Feedback** and check that **Guidance Volume** is not set to **0**. **2.** Select **System Settings** > **Voice Reco.** and set **Voice Prompt** to **On**.
Why is Call grayed out on the Calculate Route screen?	Your phone is not paired to *Bluetooth*® HandsFreeLink® or, if paired, your phone is in use. See your Owner's Manual.
The voice control system is having difficulty recognizing my voice commands.	Check that the vents are not blowing air onto the microphone on the ceiling, the vehicle is as quiet as possible, and you are using the correct command when speaking. ➔ **Voice Recognition** P. 23

Problem	Solution
I cannot give voice commands.	Make sure you pressed ⏻ at the Startup Confirmation screen. ➡ **Start-up** P. 20
I cannot select an option using the Interface Dial.	To reduce potential driver distraction, certain onscreen functions and features are limited or inoperable while the vehicle is moving. Use voice commands or pull over to proceed.
The navigation system pronunciation of street names in the guidance command or destination address sounds strange.	The basic guidance phrases use a studio-recorded voice, but street names are pronounced using a machine-generated voice. Consequently, the name may be mispronounced or sound strange at times.
The screen is bright when I drive at night.	**1.** Check that the nighttime dashboard brightness control is not set to maximum. **2.** Press the **SETTINGS** button. Select **Navigation Settings** > **Map** > **Color (Night)**. ➡ **Color** P. 56
The screen is dark when I drive during the day.	Press the **SETTINGS** button. Select **Navigation Settings** > **Map** > **Color (Day)**. ➡ **Color** P. 56
How do I change or remove my PIN?	**1.** Press the **SETTINGS** button. Select **Navigation Settings** > **Personal Info** > **PIN Number** > **Address Book PIN** or **Go Home PIN**. **2.** Enter your existing PIN. You then have the choice to change or remove the PIN. ➡ **PIN Numbers** P. 32
I have forgotten my PIN. How do I reset the PIN for Home or the PIN for personal addresses?	A dealer must reset the PIN for you.

Traffic

Problem	Solution
Traffic information is missing or is not displaying properly. What is wrong?	• Check that the traffic status indicator is available on the map screen. ➡ **Traffic Information*/AcuraLink Real-Time Traffic™*** P. 13 • Traffic information relies on a clear signal. If signal strength is low, traffic data may not be available. • Check that the traffic icons are turned on. ➡ **Showing Icons on Map** P. 54 • Check the AcuraLink® subscription status*1. See your Owner's Manual. • There may be a temporary technical problem in your metropolitan area. Call Acura Client Relations to see if there is an outage. ➡ **Acura Client Relations Contact Information** P. 154 • If the situation persists, see your Acura dealer for assistance. • Traffic information is available only in certain areas.
The navigation system sometimes provides a detour route when I am driving a route on the freeway/ highway.	If **Traffic Rerouting** is set to **On**, the navigation system provides a detour route to your destination only if it can find a significantly faster route than the original one. ➡ **Traffic Rerouting** P. 41
The navigation system routes me to an exit and an alternate freeway/highway with unknown flow speeds or surface streets.	The navigation system predicts which route should be faster based on freeway/ highway congestion along your route. Use your own experience to determine whether the alternate route would be faster.
How can I ignore the detour route and return to the original route?	Press the **SETTINGS** button. Select **Navigation Settings** > **Routing**, and set **Traffic Rerouting** to **Off**. ➡ **Traffic Rerouting** P. 41

*1: Canadian models

* Not available on all models

Guidance, Routing

Problem	Solution
The navigation system does not route me the same way I would go or the same way as other mapping systems.	The navigation system attempts to generate the optimal route. You can change the route preferences used when calculating a route. ➡ **Route Preference** P. 37
The navigation system wants to route me around potential traffic problems. How do I stop these pop-up messages?	Press the **SETTINGS** button. Select **Navigation Settings** > **Routing**, and set **Traffic Rerouting** to **Off**. ➡ **Traffic Rerouting** P. 41
The street I'm on is not shown on the map screen.	The mapping database is constantly undergoing revision. You can access the most recent information on the internet. ➡ **Map Coverage** P. 155
The vehicle position icon is not following the road and the "GPS icon" text in the upper left hand corner of the screen is white or missing.	• Check that the GPS antenna (located in the dashboard) is not blocked. For best reception, remove items from the dashboard, such as radar detectors, mobile phones, or loose articles. • Metallic tinting or other aftermarket devices can interfere with the GPS reception. Please consult a dealer. ➡ **GPS** P. 152
The blue highlighted route and voice guidance stopped or turned into a blue/pink line before I got to my destination.	Your route has entered an unverified area. ➡ **Unverified Routing** P. 39
How do I stop the map from rotating as I drive along?	Press the **SETTINGS** button. Select **Navigation Settings** > **Map** > **View** > **North-up**.
The "time to destination" display sometimes increases even though I am getting closer to my destination.	If your speed reduces due to slower traffic, the navigation system updates the "time to destination" based on your actual road speed to give you a better estimate of arrival time.

Problem	Solution
The vehicle position icon on the map "lags" a short distance behind, especially when I arrive at an intersection.	This is normal. The navigation system is unaware of the width of intersections. Large differences in vehicle position can indicate a temporary loss of the GPS signal. ➡ **GPS** P. 152
The screen is showing white dots as I drive along.	These dots are called "breadcrumbs." These are displayed if **Display Tracking** is set to **On**. ➡ **Display Tracking** P. 62
How do I remove the white dots ("breadcrumbs") from my screen?	Press the **SETTINGS** button. Select **Navigation Settings** > **Map**, set **Display Tracking** to **Off** or select **Delete Tracking** to remove the white dots from the map. ➡ **Display Tracking** P. 62
A road that I selected to avoid is being used when routing.	When you "draw" your area to avoid, make sure to select sections of roads that include at least one intersection. ➡ **Avoided Area** P. 43
My elevation (shown when I display the current position) seems to fluctuate even though my elevation has not changed.	This is normal. The elevation can vary ±100 ft (±30 m) due to GPS calculation errors. ➡ **GPS** P. 152
My elevation is missing on the "current position" screen.	The elevation is only displayed if the GPS antenna can receive signals from at least four satellites. Try moving the vehicle into an open area. The elevation is also not displayed if the calculated elevation is zero or below sea level.

Update, Coverage, Map Errors

Problem	Solution
My city is not part of a fully verified detailed coverage area.	The mapping database is constantly undergoing revision. You can access the most recent information on the internet. ➡ **Map Coverage** P. 155
Does the navigation system work outside North America?	The navigation system contains maps for the 50 U.S. states, Canada, Puerto Rico, and Mexico. The navigation system will not work in other countries. ➡ **Map Coverage** P. 155
How do I report errors I find in the database?	Minor errors are bound to occur in a large database. If you encounter major errors, see a dealer. ➡ **Visiting Your Dealer** P. 154

Display, Accessories

Problem	Solution
The display appears dim when starting the vehicle in really cold weather.	This is normal. The display will become brighter after a few minutes.

Miscellaneous Questions

Problem	Solution
My battery was disconnected or went dead and the navigation system is asking for a code.	Set the power mode to ON, and press and hold the ⏻ (Power) button for two seconds. The system should reactivate. If you have installed an aftermarket system, contact a dealer.

Navigation System

Error Message	Solution
The display temperature is too high. For protection, the system will shut off until the display cools down.	This message appears briefly when the display temperature is too high. The navigation system turns off until the display cools down. The system turns back on automatically when the display cools down.
The navigation system temperature is too low. For protection, the system will shut off until the it warms up.	The navigation system has difficulty reading the HDD when the temperature is below approximately -22°F (-30°C). The navigation system starts up automatically when the display warms up.
The navigation system atmospheric pressure is too low. For protection, the system will shut off until the pressure returns to safe levels.	The HDD is inoperable due to low atmospheric pressure. Move your vehicle to the place where the atmospheric pressure is high.
The navigation system temperature is too high. For protection, the system will shut off until it cools down.	The navigation system has difficulty reading the HDD when the temperature is high. The navigation system starts up automatically when the system cools down.
HDD access error. Please consult your dealer.	Writing of the data to the HDD failed with a cause other than low temperature, high temperature, and low atmospheric pressure. After a short wait, try to operate the system again. If this does not solve the problem, consult with the dealer.
HDD access error. The system will reset and attempt to correct the problem.

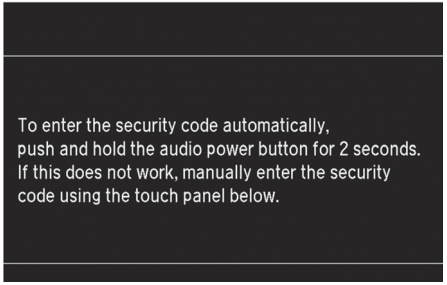
The navigation system must be initialized if power to the navigation system is interrupted for any reason (e.g., the battery was disconnected).

Entering the Security Code

In most cases, you do not need to enter a security code. Follow the steps below to reactivate the system.

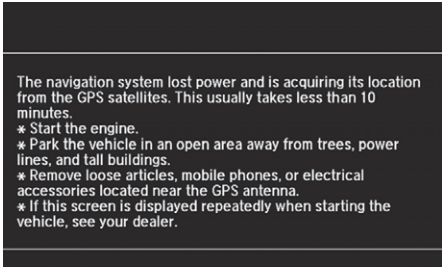


1. Set the power mode to ON, and turn on the audio system.
2. Press and hold the ⏻ (Power) button for more than two seconds.
   ▶ The system is reactivated when the system's control unit recognizes that the system is in your vehicle.

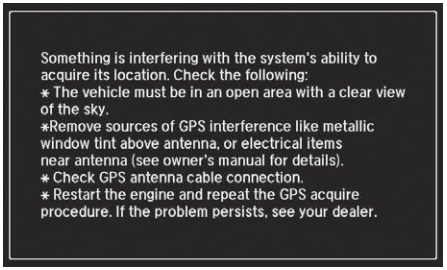
   If the control unit fails to recognize, you must go to a dealer and have the system checked.

Acquiring GPS Information

Depending on the length of time the power was interrupted, your system may require GPS initialization.



If initialization is not necessary, the system proceeds directly to the Startup Confirmation screen.
If the system fails to locate a sufficient number of satellites to locate your position within 10 minutes, the following screen is displayed.



If you are experiencing GPS reception problems:

➡ **GPS** P. 152

Startup Confirmation Screen

The Startup Confirmation screen is displayed when initialization has successfully completed. It is displayed every time you start your vehicle. Press ⟲ to continue.

Map Matching

Map matching is the process of using the acquired GPS information to locate your position on the map screen. If you are on a mapped road, the name of the road is displayed along the bottom of the map screen when map matching is completed. Do not enter a destination until the road name is displayed.

The system may initially show your location on a different street (e.g., in urban areas where streets are close together), show an incorrect elevation, or delay the display of the vehicle position icon at intersections. This is normal; the system will correct itself while you drive.

GPS

The signals received from GPS satellites are extremely weak (less than a millionth of the strength of a local FM station) and require an unobstructed view of the sky. GPS antenna is located in the dashboard. The signal reception can easily be interrupted or interfered with by the following:

- Metallic window tint on the front or side windows
- Mobile phones, PDAs, or other electronic devices docked in a cradle or lying loose on the dashboard
- Remote starters or "hidden" vehicle tracking systems mounted near the navigation unit
- Audio electronic devices mounted near the navigation unit
- Trees, tall buildings, freeway/highway overpasses, tunnels, or overhead electrical power wires

GPS is operated by the U.S. Department of Defense. For security reasons, there are certain inaccuracies built into GPS for which the navigation system must constantly compensate. This can cause occasional positioning errors of up to several hundred feet or tens of meters.

Address Calculation

The destination icon shows only the approximate location of a destination address. This occurs if the number of possible addresses is different from the number of actual addresses on a block. For example, the address 1425 on a 1400 block with 100 possible addresses (because it is followed by the 1500 block) will be shown a quarter of the way down the block by the system. If there are only 25 actual addresses on the block, the actual location of address 1425 would be at the end of the block.

Database

The digitized map database reflects conditions as they existed at various points in time before production. Accordingly, your database may contain inaccurate or incomplete data or information due to the passage of time, road construction, changing conditions, or other causes.
For example, some places/landmarks may be missing when you search the database because the name was misspelled, the place was improperly categorized, or a place/landmark is not yet in the database. This is also true for police stations, hospitals, and other public institutions. Do not rely on the navigation system if you need law enforcement or hospital services. Always check with local information sources.
In addition, the map database contains verified and unverified areas. Unverified streets may be missing from the map, in the wrong location, or have an incorrect name or address range. A message will warn you if your route includes unverified streets. Exercise additional caution when driving in unverified areas.

The database does not include, analyze, process, consider, or reflect any of the following categories of information:

- Neighborhood quality or safety
- Population density
- Availability or proximity of law enforcement
- Emergency, rescue, medical, or other assistance
- Construction work, zones, or hazards
- Road and lane closures
- Legal restrictions (such as vehicular type, weight, load, height, and speed restrictions)
- Road slope or grade
- Bridge height, width, weight, or other limits
- Traffic facilities safety
- Special events
- Pavement characteristics or conditions

Every effort has been made to verify that the database is accurate. The number of inaccuracies you experience increases the longer you go without obtaining an updated map database.

➲ **Obtaining a Navigation Update** P. 155

We assume no liability for any incident that may result from an error in the program, or from changed conditions not noted above.

Resolving Problems

If you run into a specific issue that you cannot resolve, consult the following help resources:

- For navigation system issues:
  ➔ **Troubleshooting** P. 142
- There are also FAQs available online at *acuranavi.navigation.com/acura-na* (U.S.) or *www.acuranavi.ca* (Canada).
- For traffic-related issues:
  ➔ **Traffic** P. 144
- For reporting issues with the database or places/landmarks:
  ➔ **Visiting Your Dealer** P. 154
- Call Acura Client Relations.
  ➔ **Acura Client Relations Contact Information** P. 154

Monday to Friday (Eastern time)

Visiting Your Dealer

If you have a question that you cannot resolve using the available help resources, you can consult a dealer. Please identify the specific issue (e.g., error occurs when you enter a specific address, when driving on a certain road, or just when it's cold) so that the service technician can refer the issue to the factory so that a solution can be found. Be patient, the service technician may be unfamiliar with your specific issue.

Map Coverage

The navigation system provides map coverage for the United States, Canada, Puerto Rico, and Mexico. The map coverage consists of accurately mapped (verified) metropolitan areas and a less accurate (unverified) rural database. Note that unverified areas are constantly being reviewed and converted to verified areas each year.

Map coverage update information is available from Acura Client Relations or online at *acuranavi.navigation.com/acura-na* (U.S.) or *www.acuranavi.ca* (Canada).

To find navigation system update information:

1. Visit the website.
2. Enter your vehicle model and model year.
3. The most current version of the Navi DVD Update will be listed, or you will be asked for your Database version number.

Obtaining a Navigation Update

Acura is continually expanding the scope of the navigation system. Navigation system software upgrades may be made available periodically, usually in the fall of each year. To purchase an update:

1. Obtain your vehicle's VIN number and the System/Device Information.
   System Device Information P. 65
2. Call the Acura Navigation Disc Fulfillment Center at (888) 549-3798 or order online at *acuranavi.navigation.com/acura-na* (U.S.) or *www.acuranavi.ca* (Canada).

An update is not available from a dealer. However, the dealer may assist you in obtaining one for you out of courtesy. There is no program for free updates.

Traffic Information

Continuously updated traffic information is available in certain areas across the lower 48 U.S. states, Hawaii, and some cities in Canada.

U.S. models

Visit *https://coverage.here.com/hd-coverage.html* for a complete listing of coverage areas and other information.

Canadian models

Visit *www.acura.ca/owners/acuralink* to find traffic information.

Operation in Alaska, Hawaii, Canada, Puerto Rico, and Mexico

■ Map Coverage

All roads displayed on the map screens are verified roads. Information in this manual relating to "unverified" roads or areas is not applicable.

■ Address and Place Entry Screens

Entering a destination address or place/landmark on another island may result in a screen caution message. This is because there are no ferry routes between islands in the database.

■ Puerto Rico and Mexico

If **Street Name Guidance** is set to **On**, the street names will not be read out by voice guidance. This may change in a future data update.

User Agreements

Navigation System User Agreement

In using this HDD "Satellite Linked Navigation System" (the "HDD"), which includes HONDA MOTOR CO., LTD. software, ALPINE ELECTRONICS, INC. software, and Here database contents (hereinafter referred to as "Licensors"), you are bound by the terms and conditions set forth below. By using your copy of the HDD, you have expressed your Agreement to the terms and conditions of this Agreement. You should, therefore, make sure that you read and understand the following provisions. If for any reason you do not wish to be bound by the terms of this Agreement, please return the HDD to your dealer.

- The HDD may not be copied, duplicated, or otherwise modified, in whole or in part, without the express written permission of the Licensors.
- The HDD may not be transferred or sublicensed to any third party for profit, rent or loan, or licensed for reuse in any manner.
- The HDD may not be decompiled, reverse engineered or otherwise disassembled, in whole or in part.
- The HDD may not be used in a network or by any other manner of simultaneous use in multiple systems.
- The HDD is intended solely for personal use (or internal use where the end-user is a business) by the consumer. The HDD is not to be used for commercial purposes.
- The Licensors do not guarantee to the client that the functions included in the HDD meet the specific objectives of the user.
- Licensor shall not be responsible for any damages caused by the use of the HDD to the actual user or to any third party.
- The warranty on the HDD shall not extend to an exchange or refund due to misspelling, omission of letters, or any other cosmetic discrepancy in the contents of the HDD.
- The right to use the HDD shall expire either when the user destroys the HDD or software, or when any of the terms of this Agreement are violated and the Licensors exercise the option to revoke the license to use the HDD or software.

Continued

- The terms and conditions hereof apply to all subsequent users and owners as well as to the original purchaser.
- The logos of oil companies, hotels, convenience stores, and other businesses are displayed for your information and convenience, and in no way imply any sponsorship, approval or endorsement of these companies, or their products. The logos are trademarks of their respective owners.
- The marks of companies displayed by this product to indicate business locations are the marks of their respective owners.
- The use of such marks in this product does not imply any sponsorship, approval, or endorsement by such companies of this product.

The user shall indemnify and save harmless the Licensors, and their officers, employees and agents, from and against any claim, demand or action, irrespective of the nature of the cause of the claim, demand or action, alleging loss, costs, expense, damages or injuries (including injuries resulting in death) arising out of the use or possession of the HDD or software.

Use, duplication, or disclosure of this HDD by or on behalf of the United States government is subject to "Restricted Rights" as set forth at FAR 52.227-14, -19 or DFARS 252.227-7013, as applicable. Manufacturers are the Licensors, including HONDA MOTOR CO., LTD., 2-1-1 Minami Aoyama Minato-Ku Tokyo 107-8556 JAPAN., Alpine Electronics, Inc., 20-1 Yoshima Kogyodanchi, Iwaki, Fukushima 970-1192 JAPAN., Here Corporation, 425 W Randolph St. Chicago, IL 60606, USA.

■ Navigation System END USER LICENSE AGREEMENT

You have acquired a device ("DEVICE") that includes software licensed by Alpine Electronics, Inc. (collectively "ALPINE") from an affiliate of Microsoft Corporation (collectively "MS"). Those installed software products of MS origin, as well as associated media, printed materials, and "online" or electronic documentation ("SOFTWARE") are protected by international intellectual property laws and treaties. The SOFTWARE is licensed, not sold. All rights reserved.

IF YOU DO NOT AGREE TO THIS END USER LICENSE AGREEMENT ("EULA"), DO NOT USE THE DEVICE OR COPY THE SOFTWARE INSTEAD, PROMPTLY CONTACT ALPINE FOR INSTRUCTIONS ON RETURN OF THE UNUSED DEVICE(S) FOR A REFUND. ANY USE OF THE SOFTWARE, INCLUDING BUT NOT LIMITED TO USE ON THE DEVICE, WILL CONSTITUTE YOUR AGREEMENT TO THIS EULA (OR RATIFICATION OF ANY PREVIOUS CONSENT).

- GRANT OF SOFTWARE LICENSE
  This EULA grants you the following license: You may use the SOFTWARE only on the DEVICE.
- NOT FAULT TOLERANT
  THE SOFTWARE IS NOT FAULT TOLERANT. ALPINE HAS INDEPENDENTLY DETERMINED HOW TO USE THE SOFTWARE IN THE DEVICE, AND MS HAS RELIED UPON ALPINE TO CONDUCT SUFFICIENT TESTING TO DETERMINE THAT THE SOFTWARE IS SUITABLE FOR SUCH USE.
- NO WARRANTIES FOR THE SOFTWARE
  THE SOFTWARE is provided "AS IS" and with all faults. THE ENTIRE RISK AS TO SATISFACTORY QUALITY, PERFORMANCE, ACCURACY, AND EFFORT (INCLUDING LACK OF NEGLIGENCE) IS WITH YOU. ALSO, THERE IS NO WARRANTY AGAINST INTERFERENCE WITH YOUR ENJOYMENT

OF THE SOFTWARE OR AGAINST INFRINGEMENT. IF YOU HAVE RECEIVED ANY WARRANTIES REGARDING THE DEVICE OR SOFTWARE THOSE WARRANTIES DO NOT ORIGINATE FROM, AND ARE NOT BINDING ON, MS.

- NO LIABILITY FOR CERTAIN DAMAGES. EXCEPT AS PROHIBITED BY LAW, MS, MICROSOFT CORPORATION AND THEIR AFFILIATES SHALL HAVE NO LIABILITY FOR ANY INDIRECT, SPECIAL, CONSEQUENTIAL OR INCIDENTAL DAMAGES ARISING FROM OR IN CONNECTION WITH THE USE OR PERFORMANCE OF THE SOFTWARE. THIS LIMITATION SHALL APPLY EVEN IF ANY REMEDY FAILS OF ITS ESSENTIAL PURPOSE. IN NO EVENT SHALL MS, MICROSOFT CORPORATION AND/OR THEIR AFFILIATES BE LIABLE FOR ANY AMOUNT IN EXCESS OF U.S. TWO HUNDRED FIFTY DOLLARS (U.S.$250.00).
- SPEECH RECOGNITION
  If the SOFTWARE includes speech recognition component(s), you should understand that speech recognition is an inherently statistical process and that recognition errors are inherent in the process. Neither ALPINE nor its suppliers shall be liable for any damages arising out of errors in the speech recognition process.
- LIMITATIONS ON REVERSE ENGINEERING, DECOMPILATION, AND DISASSEMBLY
  You may not reverse engineer, decompile, or disassemble the SOFTWARE, except and only to the extent that such activity is expressly permitted by applicable law notwithstanding this limitation.
- ADDITIONAL SOFTWARE/SERVICES
  The SOFTWARE may permit ALPINE, MS, Microsoft Corporation or their affiliates to provide or make available to you SOFTWARE updates, supplements, add-on components, or Internet-base service components of the SOFTWARE after the date you obtain your initial copy of the SOFTWARE ("Supplemental Components").
  ▶ If ALPINE provides or makes available to you Supplemental Components and no other EULA terms are provided along with the Supplemental Components, then the terms of this EULA shall apply.
  ▶ If MS, Microsoft Corporation or their affiliates make available Supplemental Components, and no other EULA terms are provided, then the terms of this EULA shall apply, except that MS, Microsoft Corporation or affiliate entity providing the Supplemental Component(s) shall be licensor of the Supplemental Component(s).
  ▶ ALPINE, MS, Microsoft Corporation and their affiliates reserve the right to discontinue any Internet-based services provided to you or made available to you through the use of the SOFTWARE.
- RECOVERY MEDIA
  If SOFTWARE is provided by ALPINE on separate media and labeled "Recovery Media" you may use the Recovery Media solely to restore or reinstall the SOFTWARE originally installed on the DEVICE.
- UPGRADES
  If the SOFTWARE is provided by ALPINE separate from the DEVICE on separate media or via web download or other means, and is labeled "For Upgrade Purposes Only" you may install one (1) copy of such SOFTWARE onto the

Continued

DEVICE as a replacement copy for the existing SOFTWARE, and use it in accordance with this EULA, including any additional EULA terms accompanying the upgrade SOFTWARE.

- TERMINATION
  Without prejudice to any other rights, ALPINE or MS may terminate this EULA if you fail to comply with the terms and conditions of this EULA. In such event, you must destroy all copies of the SOFTWARE and all of its component parts.
- INTELLECTUAL PROPERTY RIGHTS
  All title and intellectual property rights in and to the SOFTWARE (including but not limited to any images, photographs, animations, video, audio, music, text and "applets," incorporated into the SOFTWARE), the accompanying printed materials, and any copies of the SOFTWARE, are owned by MS, Microsoft Corporation, their affiliates or suppliers. The SOFTWARE is licensed, not sold. You may not copy the printed materials accompanying the SOFTWARE. All title and intellectual property rights in and to the content which may be accessed through use of the SOFTWARE is the property of the respective content owner and may be protected by applicable copyright or other intellectual property laws and treaties. This EULA grants you no rights to use such content. All rights not specifically granted under this EULA are reserved by MS, Microsoft Corporation, their affiliates and suppliers. Use of any on-line services which may be accessed through the SOFTWARE may be governed by the respective terms of use relating to such services. If this SOFTWARE contains documentation that is provided only in electronic form, you may print one copy of such electronic documentation.
- TRADEMARKS
  This EULA does not grant you any rights in connection with any trademarks or service marks of ALPINE MS, Microsoft Corporation, their affiliates or suppliers.
- PRODUCT SUPPORT
  Product support for the SOFTWARE is not provided by MS, its parent corporation Microsoft Corporation, or their affiliates or subsidiaries. For product support, please refer to ALPINE support number provided in the documentation for the DEVICE.
  Should you have any questions concerning this EULA, or if you desire to contact ALPINE for any other reason, please refer to the address provided in the documentation for the DEVICE.
- SOFTWARE TRANSFER ALLOWED BUT WITH RESTRICTIONS
  You may permanently transfer rights under this EULA only as part of a permanent sale or transfer of the Device, and only if the recipient agrees to this EULA. If the SOFTWARE is an upgrade, any transfer must also include all prior versions of the SOFTWARE.
- EXPORT RESTRICTIONS
  You acknowledge that SOFTWARE is of US-origin. You agree to comply with all applicable international and national laws that apply to the SOFTWARE, including the U.S. Export Administration Regulations, as well as end-user, end-use and country destination restrictions issued by U.S. and other governments. For additional information on exporting the SOFTWARE, see *http://www.microsoft.com/exporting/*.

As required by the FCC

1. This device complies with Part 15 of the FCC Rules and Canadian RSS-210/ RSSGen. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

2. The FCC requires the user to be notified that any changes or modifications made to this device that are not expressly approved by the party responsible for compliance may void the user's authority to operate the equipment.

3. This product emits radio frequency energy, but the radiated output power of this device is far below the FCC and IC radio frequency exposure limits. This equipment complies with FCC and IC RF radiation exposure limits set forth for an uncontrolled environment. Nevertheless, the device should be used in such a manner that the potential for human contact with the antenna during normal operation is minimized.
