The information and specifications included in this publication were in effect at the time of approval for printing. Honda Motor Co., Ltd., reserves the right, however, to discontinue or change specifications or design at any time without notice and without incurring any obligation.

Accessories Precautions

The GPS antenna is located in the dashboard. Metallic front or side window tinting can seriously degrade or obstruct GPS reception.

Signal noise from devices such as radar detectors, vehicle tracking devices, remote starters, and additional amplifiers can disrupt the navigation system. If you install any such item, install it away from the navigation display and antenna.

Important Safety Information

Using the navigation system while driving can take your attention away from the road, causing a crash in which you could be seriously injured or killed.

Only operate system controls when the conditions permit you to safely do so.

Avoid focusing on the screen or manually operating the system controls while driving.

Enter information before you begin driving or when stopped. As you drive, listen to the audible instructions and use voice commands when possible. Pull to the side of the road if you need more time to look at the screen or operate the controls.

Route guidance may conflict with street closures, road construction, detours, and out-of-date map data.

The system itself may also have limitations. Verify route information by carefully observing roads, signs, and signals. Always use your own judgment and obey traffic laws.

Overview—Functions at a Glance

Navigation

You can select any place/landmark as a destination by using voice control or the Interface Dial. The navigation system gives you turn-by-turn driving directions to your destination.

Store home address ← 148

Register **1** home address.

Store contacts ← P.41

Store up to **200** contacts in **2** address books.

Enter destination R90

Select your destination using **12** methods.

Select route P.115

Set route preferences and select one of **3** routes.

Track route ← P.116

Follow your route in real-time with voice guidance.

Traffic Information* P. 127

View and avoid congestion and traffic incidents.

*: Available only in certain areas.

Avoid certain areas >P.137

Set streets and areas to detour around.

Add waypoints CP.131

Add up to **4** "pit stops" along your route.

Audio

The advanced audio system provides clear, well-defined sound and makes the most of your music. Enjoy listening to a variety of audio sources, such as:

FM/AM Radio P.156

SiriusXM® Radio P.162

Compact Disc P.180

Hard Disk Drive (HDD) P.187

iPod® →R199

Internet Radio →R211

USB Flash Drive →R216

Bluetooth® Audio →R222

AcuraLink® P.272

AcuraLink® provides you with important information and messages between your vehicle and Acura.

Use voice commands for safer system control while driving. You can operate all key functions of the navigation, audio, *Bluetooth*® HandsFreeLink®, and climate control systems.

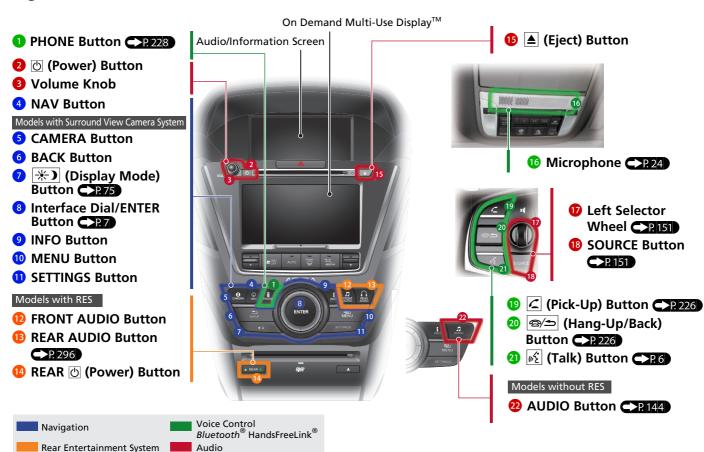

Bluetooth® HandsFreeLink® P.226

Pair a compatible cell phone to receive incoming and make outgoing calls. You can operate the phone features without ever taking your hands off the wheel.

Rear Entertainment System →R281

Rear seat passengers can enjoy a completely separate entertainment source than front passengers, including movies, games, and other audio choices.

System Controls

On Demand Multi-Use Display™ Basic Operation

- Cource

You can change the position of icons.

Shortcuts

* For detail informations about **Climate**, see your owner's manual.

Select **Presets**.

 Select and hold a desired number you want to store the station.
 Select to listen a preset station.

AM, FM, SiriusXM[®], Pandora[®], Aha[™]

- : Select the preset station (AM/FM/Pandora®/Aha™) or category (SiriusXM®). Select and hold to search that station on preset screen. (AM/FM/SiriusXM®)
- **I** Select to search the selected band for a station with a strong signal. (AM/FM) Select a song (Pandora®) or a contents (Aha™).
- : Select the channel. In channel mode, select and hold to change the channel rapidly. (SiriusXM®)

• CD, HDD, USB flash drive, Bluetooth® Audio

- : Select > to skip to the next folder, and < to skip to the beginning of the previous folder.
- : Select to change tracks. Select and hold to move rapidly within a track.

iPod[®]

Album bar: Select an album.

: Select to change tracks. Select and hold to move rapidly within a track.

More

Select to display the menu items.

Voice Control Operation

Voice Portal Screen

Press and release the
♠€
(Talk) button on the top screen of any mode.
The system prompts you to say a voice command and gives examples. Press and release the
♠€
(Talk) button again to bypass this prompt.

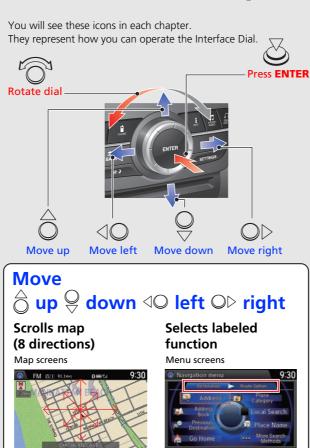

- The system beeps when ready for a command. Press the (Hang-Up/ Back) button to cancel.
- Available voice commands are highlighted on the screen.
- 2 Say a voice command. After that, follow the voice prompt and say a voice command.

- The audio system is muted during voice control mode.
- You can use other voice commands on the Voice Portal screen.
 The system recognizes only certain commands.
 Available navigation voice commands
 P.368
- Say [6] "Voice Help" to enter supported commands for the current screen. A voice help tutorial is also available.

 Voice Help > 16
- During the voice control mode, press and hold the (A) (Hang-Up/Back) button to return to the Voice Portal screen.
- Set Voice Prompt to Off to bypass the voice prompt.
 Voice Recognition Settings P. 26
- Carefully read the usage note for the voice control.
 - Voice Control System → P. 24

Interface Dial/ENTER Button Operation

Press ENTER **Selects function** Selects map icon Map screens Map menu Selecting Icon Selects highlighted option Menu screens

How to Enter Information

You can enter information (e.g., city names, street names, personal names, and business names comprising letters, numbers, and symbols) when prompted on input screens.

Using the Interface Dial

Rotate To highlight a character.

- Select 1 to display upper/lower case characters.
- Select ?%Ä to display symbols and accented characters.
- Select Edit (or move \bigcirc) to edit the entered characters.

Press 🖔 to enter the highlighted character.

- Move ○▷ to select **Space** to enter a space character.
- Move 40 to select **Delete** to remove the last entered character.

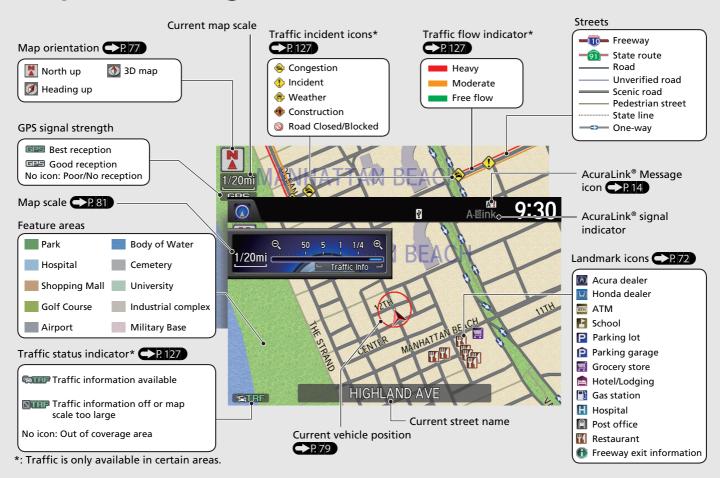

You can also use the touch screen to enter information.

Scrolling through lists or tabs is limited while the vehicle is moving.

Certain screen functions are limited or inoperable while the vehicle is moving. For these functions, use available voice commands or pull over to proceed.

Map Screen Legend

During Route Guidance

During route guidance, route information is displayed on the map screen and guidance screen. Press the **NAV** button to toggle between the map and guidance screen.

Map Screen

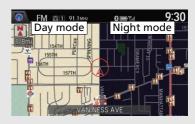

Guidance Screen

Day or Night Mode

Press the *) (Display mode) button to manually switch between day and night mode.

Multi-information Display

Turn-by-Turn Directions

The next guidance point appears on the multi-information display.

Next driving maneuver is approaching

Navigation—Home Addresses and Going Home

The "Home" feature automatically routes you to your home address from any location simply by selecting Go Home.

Storing Your Home Address

• Press the **SETTINGS** button.

2 Rotate or to select Navi Settings. Press .

3 Rotate ot to select Edit Go Home. Press .

5 Enter a name.

- 6 Rotate 🗑 to select Address. Press 💍
- Enter an address.
- **8** Rotate [™] to select **Phone No**. Press ∠.

9 Enter a phone number.

Move ♀ and rotate ♡ to select **OK**. Press ♢.

Going Home

1 From the map screen, press the MENU button.

2 Rotate or to select Go Home. Press

3 Rotate [™] to select **Set as Destination**. Press [™].

Navigation—Entering a Destination

Enter your destination using one of several methods, then follow route guidance on the map or guidance screen to your destination.

From the map screen, press the MENU button.

Rotate or to select Address. Press &.

Navigation menu 9:30

Testinator Rouse Option

3 Rotate to select Street. Press &.

5 Rotate [™] to select your destination street from the list. Press [™].

6 Enter the street number. Move

or to select **OK** when finished.

7 If there is more than one city with the specified street, a list of cities is displayed. Rotate '○' to select the desired city from the list. Press ℧.

8 Rotate [™] to select Set as Destination. Press [™]. Route guidance to the destination begins.

• View Routes: Choose one of three routes.

 Route Preference: Choose Max or Min for the five settings.

Navigation—Changing Route or Destination

You can alter your route by adding waypoints to visit, adding streets to avoid, or changing your destination during route guidance.

Adding a Waypoint ("Pit Stop")

You can add up to four waypoints along your route. **P.131**

- From the map screen, press the MENU button.
- 2 Move ○▷ to select Route Option.
- **3** Rotate [™] to select **Destination List**. Press [™].
- **4** Rotate [©] to select **Add New Destination**. Press [©].
- **5** Rotate [©] to select **Find Along Route**. Press ♂.
- 6 Rotate [™] to select location and search method. Press [™].

- Search Around: Search around a location.
- Search Along: Search between two locations.

- Select the icon category and location to add to the Destination List when prompted. Edit the order of destinations if necessary.
- 8 Move ♀ and rotate ♡ to select Start Route. Press ॆ.

Changing Your Destination

There are several methods you can use to specify a new destination during route guidance.

- Selecting an icon on the map **P[139**]
 Scroll the map to position the cursor over a place/landmark icon or a new area on the map. Press & twice.
- Entering a new destination →P.140
 Press the MENU button. Move <□ to select Destination and enter a new destination.

Canceling Your Route

1 Press the MENU button.

2 Rotate of to select Cancel Route. Press S.

AcuraLink®

AcuraLink® Messages

AcuraLink® provides a direct communication link between you and Acura. It sends and receives several kinds of messages through the Acura server.

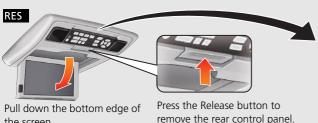

The following features are available:

- Vehicle feature guide
- Operating quick tips
- Safety and maintenance information
- Diagnostic information
- Dealer appointment and maintenance reminders

Rear Entertainment System Care

The rear passengers can enjoy a wide array of audio/visual sources with the Rear Entertainment System (RES). The rear passengers can use wireless headphones and operate the system with the rear control panel.

Overhead Screen and Rear Control Panel

the screen.

Select the audio source.

Press the buttons to select items

Press the Open button to open and pull down the screen.

Press the Release button to remove the rear control panel.

Select the audio source.

Rotate the Interface Dial to select items

- (Power) Button Turn the system on or off (when rear power is turned on).
- (\$) (Light-up) Button Illuminate the buttons on the rear control panel.

CH/FOI DFR Bar

Select a channel (Radio) or a folder (Disc/USB).

TUNE/SKIP Bar

Find stations (FM/AM). Skip to start/end of tracks, or press and hold to fast reverse/fast forward (Disc/USB/DVD).

CATEGORY Bar

Select a category (SiriusXM[®]).

▶ (Play/Pause) Button Play or pause the playback.

TITLE SCROLL Bar

Display track title, artist, and other text information

Basic Operation

- 1 Open the overhead screen.
- 2 Press the REAR (b) (Power) button on the front control panel.

- Select the audio source.
- RES: Press the desired button on the rear control panel.

 Ultrawide RES: Press the SOURCE button and rotate the Interface Dial on the rear control panel to select an audio source. Press the **ENTER** button.

Voice Help

This navigation system comes with voice help, which shows you what command to say when using the voice command functions.

Command Help

1 Press and release the € (Talk) button.

The voice help screen is displayed.

The [x] "Voice Help" command is available on most screens.

3 Say one of the options for a list of available commands by category (e.g., [62] "Navigation commands").

⑤ The system displays a list of all available commands for the category. Press ♂ to hear the list read aloud.

Getting Started Tutorial

1 Move ♀ and rotate ஂ to select Getting Started on the voice help screen. Press ᇦ.

For "Voice Settings" and "All Commands." P. 367

2 The system reads the tips for the voice control.

- Rotate 🗑 to read the tips.
- Move <□ or □▷ to display the previous/ next page.

- Why does the vehicle position icon on the map "lag" a short distance behind my actual position, especially at intersections?
- This is normal. The navigation system is unaware of the width of intersections. Large differences in vehicle position can indicate a temporary loss of the GPS signal.
- Why does the "time to destination" display sometimes increase even though I am getting closer to my destination?
- The "time to destination" is based on your actual road speed and traffic conditions to give you a better estimate of arrival time.
- How do I specify a destination when an entered city or street could not be found?
- Try entering the street first. Some cities are lumped in with a major metro area. In rural "unverified" areas or new subdivisions, streets may be missing or only partially numbered

- How do I turn on the navigation system voice guidance? Q
- On the map screen, press 🖔 to display the Map Menu. Rotate of to select **Guidance Volume**. Adjust the preferred volume level.
- My battery was disconnected or went dead, and the navigation system is asking for a code. Where do I find it?
- In most cases, you do not need to enter a code. Simply press and hold the (b) (Power) button for two seconds; the system should reactivate.

System Initialization P. 352

How to Use This Manual

This section explains different methods on how you can easily find information in this manual.

Searching the Table of Contents

Two types of Tables of Contents help you find your desired information.

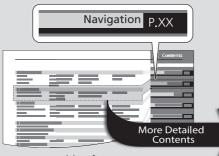

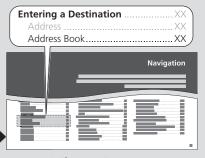

Table of Contents

First, find the general chapter related to what you are looking for (e.g., entering a destination from the Address Book). Then, go to that chapter to view a more specific table of contents.

Chapter Contents

This more detailed table of contents shows you exactly what information is listed by section and title.

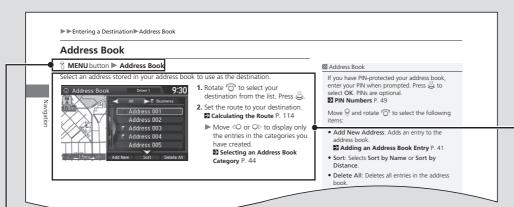

Searching the Index • P.373

Menu items displayed on the audio/ information screen (e.g., Address Book) can be found individually in the Index.

The Index consists of main terms and sub-entries. The sub-entries help you get to the desired page depending on what you are looking for.

> Go to the Next Page

 After following the menu tree, step-by-step instructions explain how to achieve the desired result.

Menu Tree

The menu tree helps guide you through the system's menu options. To get to your desired function, follow the menu tree in order of the steps shown.

NOTE:

All menu options can also be activated with voice commands.

Press the hard button on the system control panel.

Press the MENU button.

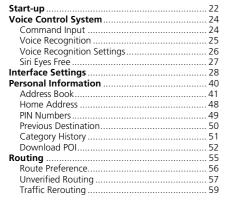

Select the menu option with the Interface Dial.

Rotate '⑦' to select Address Book. Press ℧.

Sample pages and images in this section may differ from the actual ones.

System Setup

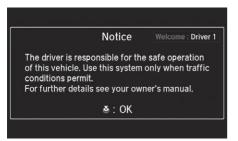

This section describes the start-up procedure and the navigation and setup functions.

Edit POI Search Radius Along Route	60
Avoided Area	
Guidance	
Guidance Mode	
Street Name Guidance	66
Non-map screens	67
Guidance Point	
Estimated Time	69
Map	70
Showing Icons on Map	
Color	74
View (Map Orientation)	77
3D Angle Adjustment	
Straight Line Guide	
Current Location	
Map Legend	80
Display Tracking	
Correct Vehicle Position	

Data Reset	86
Defaulting All the Settings	86
On Demand Multi-Use Display™	87
Changing the Screen Settings	87

The navigation system starts automatically when you set the power mode to ACCESSORY or ON. At start-up, the following Confirmation screen is displayed.

- - ► If you do not select **OK**, the map screen is displayed after a certain period of time.
 - ➤ Your current position is displayed on the map screen.

- **2.** Press the **NAV** button if a different mode is selected.
 - ➤ Your current position is displayed on the map screen.

Start-up

If the navigation system loses power at any time, you may need to press and hold the (b) (Power) button for more than two seconds, or you may be prompted for the five-digit security code.

System Initialization P. 352

At start-up, the driver's keyless access remote is automatically detected and the address book settings, setup preferences, wallpapers, and audio settings for that driver (e.g., Driver 1) are loaded.

"OK" on the Confirmation screen cannot be selected by using a voice command.

■ Limitations for Manual Operation

Disabled option

Certain manual functions are disabled or inoperable while the vehicle is in motion. You cannot select a grayedout option using the Interface Dial until the vehicle is stopped.

Voice commands are still operable while the vehicle is in motion.

Voice Control System

Your vehicle has a voice control system that allows hands-free operation of most of the navigation system functions.

The voice control system uses the [6] (Talk) and [9] (Hang-Up/Back) buttons on the steering wheel and a microphone near the map lights on the ceiling.

A "Getting Started" feature provides a tutorial that explains how to use the voice control system.

B Getting Started Tutorial P. 16

Command Input

If the system does not understand a command or you wait too long to give a command, the system asks you to repeat the command.

When you give a command, the system generally either repeats the command as a confirmation or asks you for further information. If you do not wish to hear this feedback, you can turn it off. However, listening to the feedback will help familiarize you with the way the system expects commands to be phrased.

If the system cannot perform a command or the command is not appropriate for the screen you are on, the system beeps.

You can find out which voice commands are available for a particular screen using the **Woice Help"* command. The system will display and read the list of available commands to you.

■ Voice Help P. 16

≥ (Talk) Button

When you press the 🞉 (Talk) button, the system prompts you to say a voice command and gives examples. Press and release the 🞉 (Talk) button again to bypass this prompt and give a command.

∑ Command Input

The audio system is muted while using the voice control system.

Voice Recognition

To achieve optimum voice recognition when using the navigation voice control system:

• Make sure the correct screen is displayed for the voice command that you are using.

The system recognizes only certain commands. Available navigation voice command.

Voice Commands P 368

- Close the windows and moonroof.
- Adjust the dashboard and side vents so air does not blow onto the microphone on the ceiling.
- Speak clearly in a clear, natural speaking voice without pausing between words.
- Reduce any background noise and the climate controls fan speed if possible. The system may misinterpret your command if more than one person is speaking at the same time.
- Refer to the Voice Help feature.

▶ Voice Help P. 16

>> Voice Recognition

The voice control system can only be used from the driver's seat because the microphone unit removes noises from the front passenger's side.

Voice Recognition Settings

SETTINGS button ► System Settings ► Voice Reco

Rotate to select an item. Press .

The following items are available:

- Voice Prompt: Turns the voice prompt on or off.
 On (factory default): Provides the voice prompts.
 Off: Disable the feature.
- Song by Voice: Turns the Song By Voice[™] on or off.
 Song By Voice[™] (SBV) P. 206
- Song by Voice Phonetic Modification: Modifies a voice command of music stored in the HDD or an iPod®.
 - Phonetic Modification P. 208
- Phonebook Phonetic Modification: Modifies a voice command for the phonebook.
 - Phonebook Phonetic Modification P. 241
- Guidance Volume: Adjusts the voice prompt volume level.
 - Sound and Beep Settings P. 29

Siri Eyes Free

When your iPhone is paired and linked to the system via *Bluetooth*®, you can say Sirirelated commands. Make sure Siri on your iPhone is turned on.

Pairing a Phone P. 228

- 1. Press and hold the (Talk) button for more than two seconds until you hear the Siri tone.
- 2. Talk to Siri.
 - ▶ When you hear the Siri tone, you can continue to respond without pressing any button. If the Siri tone times out, you have to press and hold the <a>(E) (Talk) button again to reactivate Siri Eves Free.
 - ► Press the <a>→ (Hang-Up/Back) button to cancel Siri Eyes Free.

Siri Eyes Free

iPhone and Siri are trademarks of Apple, Inc.

Siri Eyes Free is available only on iPhone with iOS 6.0 and above.

Some commands work only on specific phone features or apps.

Some features may not be available for all countries or all areas. For details about Siri, refer to http://www.apple.com.

We recommend against using Siri other than in Eyes Free mode while operating a vehicle.

On Siri Eyes Free, the display remains the same and no feedback or commands appear.

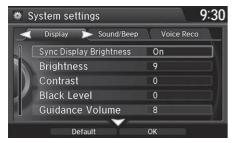

While using Siri, you cannot operate the system with the built-in voice recognition.

Interface Settings

Display Settings

§ SETTINGS button ► System Settings ► Display

Adjusts the screen's preferences.

- **1.** Rotate $^{\prime} \bigcirc$ to select an item. Press $^{\prime} \bigcirc$.
- **2.** Rotate ^l to make the adjustment. Press ८.

The following items are available:

- Sync Display Brightness: Selects whether the display brightness synchronizes with the instrument panel brightness.
- Brightness: Adjusts the screen's brightness.
- Contrast: Adjusts the screen's contrast.
- Black Level: Adjusts the screen's black level.

Display Settings

You can set separate daytime and nighttime settings for **Brightness**, **Contrast**, and **Black Level**. Adjust each setting when the display is in either daytime or nighttime mode.

Sound and Beep Settings

§ SETTINGS button ► System Settings ► Sound/Beep

Changes the system sound and beep settings.

Rotate 🗑 to select an item. Press 🕹.

The following items are available:

- Guidance Volume: Adjusts the navigation system volume level.
- Verbal Reminder: Turns the verbal reminders on and off.

On: Sets the verbal reminders.

Off: Disables the feature.

Sound and Beep Settings

Guidance Volume

If you set **Guidance Volume** to **0**, you will not hear route guidance or voice command confirmations.

You can also adjust **Guidance Volume** by rotating the volume knob while the route guidance or voice command confirmations is announced.

If you then select **Voice** in the Map Menu, you will hear route guidance at the default volume.

Clock Adjustment

§ SETTINGS button ➤ System Settings ➤ Clock

Set the automatic adjustment of the system clock for daylight saving and international time zones.

Rotate 🗇 to select an item. Press 🕹.

The following items are available:

- Clock/Wallpaper Type: Changes the clock display type and the wallpaper type.

 Setting the Clock Type P. 31
- Clock Adjustment: Adjust the current time manually.
 Setting the Clock P. 31
- Clock Format: Sets the time notation to either 12-hour clock (12H, factory default) or 24-hour clock (24H).
- Auto Time Zone: The navigation system automatically adjusts the clock when driving through different time zones.

On (factory default): Adjusts the clock automatically. Off: Disables the feature.

- Auto Daylight: The navigation system automatically adjusts the clock ("spring ahead" or "fall back" by one hour) when a daylight saving time change occurs.
 On (factory default): Adjusts the clock automatically.
 Off: Disables the feature
- Clock Reset: Resets the settings of all items in the Clock group.

Clock Adjustment

Auto Time Zone

If you live and work in two different time zones, you may want to turn **Auto Time Zone** to **OFF**. When driving near a time zone boundary, the displayed time zone may fluctuate between the two zone times.

Auto Daylight

This function is not activated in areas that have not adopted daylight saving time, even if you have set **Auto Daylight** to **ON**.

You can turn the clock display in the audio/information screen on and off.

Header Clock Display P. 39

■ Setting the Clock Type

SETTINGS button ► System Settings ► Clock ► Clock/Wallpaper Type ►
 Clock

- **1.** Rotate 'O' to select an option to change the design. Press 🕹.
- **2.** Move ♀ to select **OK**. Press ♂.

Setting the Clock

§ SETTINGS button ► System Settings ► Clock ► Clock Adjustment

- **1.** Rotate ^t or select an item. Press ⊗.
- 2. Rotate or to select a minute. Press

Wallpaper Settings

Select, delete, and import wallpaper pictures for display on the screen.

■Import wallpaper

* Add new wallpaper

§ SETTINGS button ► System Settings ► Clock ► Clock/Wallpaper Type

9:30

Start Import

- **1.** Connect the USB flash drive to the USB port.
- **2.** Move ○▷ to select **Wallpaper**.
 - ► The screen will change to the wallpaper list.
- **3.** Move ♀ and rotate ఄ to select Add New Wallpaper. Press ౿.
- **4.** Rotate '♥ to select a desired picture. Press ♥.
 - ► The preview is displayed on the left side on the screen.
- **5.** Move ♀ and rotate ♥ to select **Start Import**. Press ౿.
 - ➤ The confirmation message will appear. Then the display will return to the wallpaper list.

- When importing wallpaper files, the image must be in the USB flash drive's root directory.
 Images in a folder cannot be imported.
- The file name must be fewer than 255 characters.
- The file format of the image that can be imported is BMP (bmp) or JPEG (jpg).
- The individual file size limit is 10 MB.
- The maximum image size is 5,800 x 5,800 pixels.
- Up to 10 files can be saved for each driver (Driver1 and Driver2).
- If the USB flash drive does not have any pictures, the No files detected message appears.

■ Select wallpaper

SETTINGS button **System Settings Clock Clock/Wallpaper Type Wallpaper**

- **1.** Rotate ^{*}♥ to select a desired wallpaper. Press ^{*}♥.
 - ► The preview is displayed on the left side on the screen.
 - The pop-up menu appears on the screen.

- **2.** Rotate 🗑 to select **Set**. Press 💆.
 - ► The display will return to the wallpaper list.

Select wallpaper

From the pop-up menu, rotate to select **Preview** and press to see a preview at full-size screen.

To go back to the previous screen, press to select **OK**, or press the **BACK** button.

When the file size is large, it takes a while to be previewed.

Personal Information

Personal information cannot be backed up or moved to another navigation system.

Address Book

§ SETTINGS button ► Navi Settings ► Personal Info ► Address Book

Store up to 200 address entries in two address books (Driver 1 and Driver 2). You can add, edit, and delete information in the address books.

Move $\triangleleft \bigcirc$ or $\bigcirc \triangleright$ to display only the addresses in the selected category.

Move

to change the user address book (DRIVER 1 or DRIVER 2).

Output

Description:

■ Adding an Address Book Entry

§ SETTINGS button ► Navi Settings ► Personal Info ► Address Book

This section explains how to enter the name and address.

1. Move ♀ and rotate ♥ to select Add New Address. Press ❖.

Address Book

Up to 200 addresses can be stored to each address book of Driver 1 and Driver 2 separately.

If you have PIN-protected your address book, enter your PIN when prompted. Press 🖔 to select **OK**. PINs are optional.

PIN Numbers P. 49

Any address book categories you create are also displayed.

Selecting an Address Book Category P. 44

■ Adding an Address Book Entry

If you do not give the address a name, one is automatically assigned (e.g., Address 001). You can re-enter, edit, or make changes to any entry. "Address" is the only required field.

2. Rotate or to select an item. Press

The following items are available:

- Name: Edits the name of the entry.
- Address: Edits the address of the entry.
- Phone No.: Edits the phone number of the entry.
- Category: Specifies the category of the entry.
- Alert: Alerts you when you approach the address entry.
 On: Beeps and displays a message when your vehicle gets near the entry.
 Off (factory default): Disables the feature.

- **3.** Rotate or to select **Name**. Press ...
- **4.** Enter a name or title. Move \bigcirc to select **OK**.
- **5.** Rotate of to select **Address**. Press of.
- **6.** Rotate ♥ to select an item for specifying the address. Press ♥.

The following items are available:

- Current Position: Select your current location.
- Address: Enter an address on the character input screen when prompted.
 Address P 92
- Previous Destinations: Select a previous destination.
 Previous Destination P. 99
- Place Name: Enter the name of a place/landmark.

 ▶ Place Name P. 104
- Local Search: Sets a destination by using Local Search.

 ▶ Local Search P 102
- Place Category: Select a category to search for a place/landmark (e.g., Banking, Lodging).

Place Category P. 100

More Search Methods: Displays additional search method entries.
 Entering a Destination P. 90

■ Editing an Address Book Entry

§ SETTINGS button ► Navi Settings ► Personal Info ► Address Book

- **1.** Rotate ^t or select the address to edit. Press ⊗.
- **2.** Enter the name, address, phone number, and category fields.
 - Adding an Address Book Entry P. 41
- **3.** Move ♀ and rotate ♥ to select OK. Press ఆ.

■ Adding an Address Book Entry

When you use **Place Name** or **Place Category**, the phone number is automatically entered.

You can also add a phone number and category.

■ Editing an Address Book Entry

The entered contents are displayed on the Edit address screen

■ Selecting an Address Book Category

§ SETTINGS button ► Navi Settings ► Personal Info ► Address Book

- **1.** Rotate ^{*} To select an address. Press [™].
- **2.** Rotate or to select **Category**. Press o.
- **3.** Rotate ♥ to select a category. Press ♥.
 - ➤ Create a category in advance.

 ➤ Creating a New Category
 P. 44

■ Creating a New Category

- **1.** Move $\begin{cases}\end{cases}$ and rotate $\begin{cases}\end{cases}$ to select **New Category**. Press $\begin{cases}\end{cases}$.
- 2. Enter a name and select an icon when prompted.
 - ▶ The created category is displayed in the list of categories.

■ Deleting or Editing a Category

- **1.** Move \mathbb{Q} and rotate \mathfrak{T} to select **Delete** or **Edit**. Press \mathfrak{D} .
- **2.** Delete an existing category, or change the name and icon.
 - ▶ The selected category to delete is indicated with a trash icon. Move $\stackrel{\bigcirc}{\Rightarrow}$ and rotate $\stackrel{\frown}{\bigcirc}$ to select **OK**.

Selecting an Address Book Category

Up to 100 categories (including "Unfiled") can be stored to each address book of Driver 1 and Driver 2 separately.

If you delete a category that is used by other addresses, the category type for those addresses changes to "Unfiled."

■ Deleting an Address Book Entry

§ SETTINGS button ► Navi Settings ► Personal Info ► Address Book

- **1.** Rotate ^t or select the address to delete. Press ♂.
- **2.** Move ♀ and rotate ♠ to select **Delete**. Press ᇦ.
- **3.** Rotate ^{*}○ to select **Yes**. Press to delete the address.

Deleting an Address Book Entry

When you transfer the vehicle to a third party, delete all address book entries.

Continued 45

■ Setting Place Shortcuts

You can store up to six addresses previously stored in your Address Book, and a home address for your preset destinations.

■ Storing an address on the Shortcut

- 1. Select Shortcuts.
- 2. Select Places.
- 3. Select Edit or No Entry.
 - If you select No Entry, go to step
- 4. Select Add.
 - ► All six preset icons appear.
- **5.** Select the preset number to which you want to store an address.
 - ➤ The screen changes to a list of addresses stored in your address book.

6. Select an address you want to store as a preset.

- Deleting a preset address
- 1. Select Shortcuts.
- 2. Select Places.
- 3. Select Edit.
- 4. Select Delete.
- **5.** Select the preset number with the destination you want to delete.

Home Address

§ SETTINGS button ▶ Navi Settings ▶ Personal Info ▶ Edit Go Home
Set a home address that you frequently use.

- Edit the name, address, and phone number the same way as an address in the address book.
 Adding an Address Book Entry P. 41
- 2. Move ♀ and rotate ఄ to select OK. Press ♂.

If you have PIN-protected your home addresses, enter your PIN when prompted. Press 5 to select **OK**. PINs are optional.

PIN Numbers P. 49

If your home street is not in the system database, park on the nearest verified street to your home. When entering the "Address" field, rotate to select **Current Position** to use your current location as the home address and press ...

You can delete a home address if necessary. Move \mathbb{Q} and rotate \mathbb{Q} to select **Clear Home Entry**. Press \mathbb{Z} . Rotate \mathbb{Q} to select **Yes**. Press \mathbb{Z} .

When you transfer the vehicle to a third party, delete all home addresses.

The home icon is shown on the map screen on the 1/20 and 1/8 mile scales.

PIN Numbers

§ SETTINGS button ► Navi Settings ► Personal Info ► PIN Number

Set a four-digit PIN for protecting personal addresses and your home address. Once you set a PIN, you are prompted to enter it whenever you access a personal address or a home address.

1. Rotate '⑦' to select the PIN to create. Press ❷.

- 2. Rotate 'ô to select a digit to enter. Press ॐ to select OK.
 Repeat to enter a new four-digit PIN.
- - ► If you have not entered the same number both times, an "INCORRECT PIN" message is displayed. Enter your PIN again.

PIN Numbers

PIN

Personal Identification Number (PIN) is a password used to access personal data.

PINs are optional. If you choose to use a PIN, keep a note of the number in a secure location. If you forget your PIN, a dealer will have to reset the navigation system and all of your stored information will be erased. The factory default is no PIN.

If you want to stop using a PIN, move $\begin{cases} \end{cases}$ to select **Turn off PIN entry**. Press \end{cases} .

Previous Destination

§ SETTINGS button ► Navi Settings ► Personal Info ► Previous Destination

The navigation system maintains a list of your previously routed destinations as a shortcut for entering the same destination in the future. You can delete some or all of your previous destinations from the list.

- **1.** Rotate ¹ to select the destination to delete. Press ♂.
 - Repeat the procedure as necessary.
 - ltems to be deleted are indicated with a trash icon.

Trash icon

Move ♀ and rotate ☒ to select
 OK to delete the selected destinations.

Previous Destinations

Up to 50 destinations can be stored.

To cancel the selection of a previous destination, rotate \bigcirc to highlight the destination again. Press \bigotimes to de-select it.

Category History

§ SETTINGS button ► Navi Settings ► Personal Info ► Category History

The navigation system maintains a list of your recently used place categories as a shortcut for selecting the same categories in the future. You can delete some or all of your recently used categories from the list.

Trash icon

- **1.** Rotate ^t o select the category to delete. Press ♂.
 - Repeat the procedure as necessary.
 - ► Items to be deleted are indicated with a trash icon
- 2. Move ♀ and rotate ♥ to select OK to delete the selected categories.

∑ Category History

Up to 50 categories can be stored.

To cancel the selection of a category, rotate \circ to highlight the category again. Press $\overset{}{\overset{}{\overset{}{\bigcirc}}}$ to deselect it.

Download POI

Import custom Points of Interest (POI) into the navigation system and set the POI as a destination. You can also add, edit, and delete POIs.

■Importing POI Categories

MENU button (on map) ► More Search Methods ► Download POI

- Connect a USB flash drive with stored POI data to the USB connector.
- **2.** Move ♀ and rotate □ to select Import from USB. Press ☒.

For more information about connecting a USB flash drive.

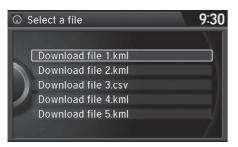

☑ Connecting a USB Flash Drive P. 216

POI data in csv and kml formats can be imported.

You can download POI data from various POI websites.

If you select **From AcuraLink**, you can download POI data from the AcuraLink® server.

AcuraLink® P. 272

3. Rotate ^{*}⑦ to select a category to import. Press ☑.

■ Editing POI Categories

§ SETTINGS button ► Navi Settings ► Personal Info ► Download POI

1. Rotate '♥ to select the downloaded POI category to edit. Press ♥.

■ Editing POI Categories

If you select **From AcuraLink**, you can edit **Alert** only.

2. Rotate '♥ to select an item. Press

The following items are available:

• Alert Setting: Alerts you when you approach the places/landmarks in the category.

On: Beeps and displays a message when your vehicle gets near the places/landmarks in the category.

Off (factory default): Disables the feature.

- Delete Category: Deletes all places/landmarks and icon in the selected category.
- Edit Icon: Changes the category icon.

Routing

§ SETTINGS button ► Navi Settings ► Routing

Choose various settings that determine the navigation system functionality during route calculation.

Rotate or to select an item. Press &.

The following items are available:

- Route Preference: Changes the route preferences (calculating method).
 ▶ Route Preference P 56
- Unverified Routing: Sets whether you use the route guidance in unverified areas.
 - Unverified Routing P. 57
- Traffic Rerouting: Sets whether you use automatic recalculation based on traffic information.
 - Traffic Rerouting P. 59
- Edit POI Search Radius Along Route: Sets the distance from the route to find waypoints.
 - **Edit POI Search Radius Along Route** P. 60
- Avoided Area: Specifies areas to avoid when calculating a route.
 - Avoided Area P. 61

Route Preference

§ SETTINGS button ► Navi Settings ► Routing ► Route Preference

Change the route preference by selecting minimum or maximum driving methods.

- **1.** Rotate '♥ to select an item. Press ♥.
- **2.** Rotate '♥ to select **Min** or **Max**. Press ♥.
 - ► Repeat step 1 and 2 as necessary.
- **3.** Move $\ensuremath{\bigcirc}$ to select **OK**. Press $\ensuremath{\bigcirc}$.

■ Route Preference

The calculated route may be the shortest route or the route you would choose. For safety reasons, the system generally applies the following rules to your route:

- Shortcuts through residential areas are avoided.
- Right turns are favored over left turns or Uturns.
- Time-restricted turns (turns prohibited at certain times of the day) are not used.

Check the ferry schedule when the calculated route includes ferry route.

ETC is short for the Electronic Toll Collection system.

Unverified Routing

§ SETTINGS button ► Navi Settings ► Routing ► Unverified Routing

Receive turn-by-turn map and voice guidance in unverified areas.

Rotate to select **On** or **Off**. Press

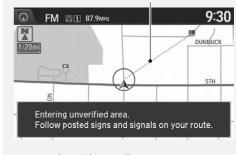

Differences	Off	On (factory default)
On or Off?	The driver wishes to manually navigate using the navigation map and choose the streets that lead to the destination.	The driver chooses to let the navigation system suggest possible routing, knowing that the guidance may not be accurate.
Route calculation	Route is usually longer, using verified roads whenever possible.	Route is shorter, but uses unverified (purple) streets that may not be accurate.
Route line	The route line uses verified streets only (when possible). If Straight Line Guide is set to On, a pink vector line is displayed on the map that continually points to your destination. ■ Straight Line Guide P. 78	A blue-pink route line highlights suggested unverified streets on the map while traveling to your destination.

■ Unverified Routing

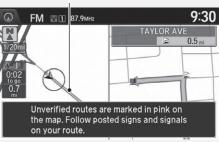

Unverified roads are found in rural areas, and typically include residential streets away from the center of a town. They may not be accurate, and can contain errors in location, naming, and address range.

Unverified roads are shown only when viewing the map in the 1/20, 1/8, 1/4, 1/2, 1 and 2 mile map scales.

Straight line guide

Blue-pink route line

Differences	Off	On (factory default)
Cautionary messages	Cautionary pop-up screens and voice announcements remind you to obey all traffic restrictions when starting route guidance, approaching an unverified area, and entering an unverified street.	Cautionary pop-up screens and voice announcements remind you to obey all traffic restrictions when entering an unverified street.
Guidance (map/voice)	There is no turn-by-turn map or voice guidance.	Voice guidance commands end with the phrase "if possible" to remind you to verify all traffic restrictions.
Directions list	A direction list is typically not available. However, depending on your route, directions are provided to help you reach the first available verified road.	A direction list is provided showing street names and turn symbols in pink.

Traffic Rerouting

§ SETTINGS button ► Navi Settings ► Routing ► Traffic Rerouting

A faster route can be calculated based on continuously updated traffic information.

▶ Traffic Rerouting™ P. 127

Rotate to select an option. Press

The following options are available:

- On: The system reroutes automatically based on traffic information.
- Off (factory default): Disables the feature.

>> Traffic Rerouting

You must be in or near a traffic-enabled city to receive coverage for that area. Traffic information is available in certain areas in the lower 48 states, Hawaii, and some cities in Canada

Traffic Information P. 358

Automatic traffic rerouting may not provide a detour route depending on circumstances.

Edit POI Search Radius Along Route

SETTINGS button ► Navi Settings ► Routing ► Edit POI Search Radius Along Route

Select the distance from your highlighted route line (on either side of your route) that the system will search for a waypoint.

Adding Waypoints P. 131

You can specify a different search distance for freeways and surface streets.

- **1.** Rotate *♥ to select an item. Press ♣.
- **2.** Rotate [™] to select a search distance. Press [™].

The following items are available:

- On Freeways: 1, 2, 5, or 10 miles can be set. Factory default is 2 miles.
- On Surface Streets: 1/2, 1, 2, or 5 miles can be set. Factory default is 1/2 mile.

Avoided Area

§ SETTINGS button ► Navi Settings ► Routing ► Avoided Area

Specify up to five areas to avoid (e.g., road construction, closures), if possible, when the system calculates routes to your destination.

1. Move ♀ and rotate ఄ to select **New Area**, or rotate ் to select an existing area to edit.

- **2.** Rotate of to select **Name** to label the area to avoid. Press .
- **3.** Enter a name or title. Move ♀ to select **OK**.
- **4.** Rotate ♥ to select **Area** to define the area to avoid. Press ♥.

The following options are available (after an area is set):

- View Area: Displays the selected avoid area on the map.
- Delete: Deletes the selected avoid area.

Avoided Area

The maximum size of an "avoid area" is approximately 1/2 mile.

If your selected area contains a freeway, you are asked "Do you want to avoid freeways?" Answering "No" allows you to use a route through an avoid area on a freeway without any pop-up messages.

You can select areas to avoid, however you cannot select roads or areas that you want the system to use for routing.

You can enter up to 25 characters for the name.

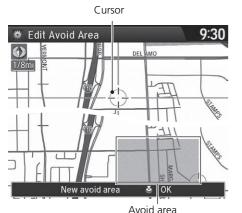

5. Rotate 👸 to select a method for specifying the area. Press ዿ.

The following options are available:

- Address: Specify the general area by entering an address.

 ▶ Address P. 92
- Map Input: Specify the general area by map input.

 ▶ Map Input P. 111

6. If you select **Map Input**, scroll the map to position the cursor over your desired start point, adjusting the map scale as necessary. Press 5 to mark the start point.

- ► To redo the area selection, press the **BACK** button
- **8.** Press 🖔 to select **OK**.
 - The area you specify is displayed in the list of areas to avoid.

Avoided Area

Avoid area can be set in the 1/20, 1/8, or 1/4 mile map scales.

Guidance

§ SETTINGS button ► Navi Settings ► Guidance

Choose various settings that determine the navigation system functionality during route guidance.

Rotate 'ô' to select an item. Press &.

The following items are available:

- Guidance Mode: Sets whether to display only the map screen or a split mapguidance screen.
 - Guidance Mode P. 64
- Street Name Guidance: Sets whether to read out the street names during voice guidance.
 - Street Name Guidance P. 66
- Non-map screens: Sets whether the guidance screen interrupts the screen display.
 - Non-map screens P. 67
- **Guidance Point**: Sets whether to display the guidance information to the destination or the next waypoint.
 - Guidance Point P. 68
- **Estimated Time**: Sets whether to display the remaining time or arrival time to the guidance point.
 - Estimated Time P. 69

Guidance Mode

§ SETTINGS button ➤ Navi Settings ➤ Guidance ➤ Guidance mode

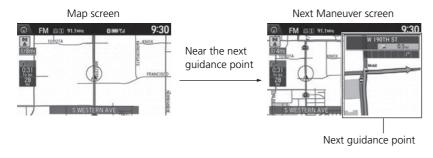

Select the display mode for the map and guidance screens.

Rotate to select an option. Press

The following options are available:

Map (factory default): Displays only the map screen. When you approach a
quidance point, the next guidance point appears.

■ Guidance Mode

The guidance mode can also be selected from the map menu.

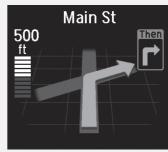

▶ Map Menu P. 122

Press the **NAV** button to switch between the map, next guidance direction, and a list of guidance directions.

Turn-by-Turn Directions

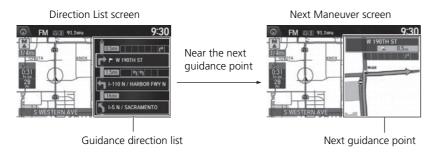

The next guidance point appears on the multiinformation display.

Turn-by-Turn Directions P. 10

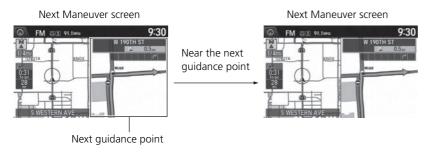

You can turn this feature on or off using the multi-information display. See the Owner's Manual for instructions.

• **Direction List**: Displays the map and direction list simultaneously on the map screen. When you approach a guidance point, the next guidance point appears.

• **Next Maneuver**: Displays the map and next guidance point simultaneously on the map screen.

Street Name Guidance

§ SETTINGS button ► Navi Settings ► Guidance ► Street Name Guidance

The navigation system includes the street names during voice guidance (e.g., "Turn right on Main Street").

Rotate to select an option. Press

The following options are available:

- On (factory default): Voice guidance includes the street names.
- Off: Disables the feature.

Street Name Guidance

This feature is only available when the system language is set to **English**.

This feature may not be available in non-English speaking areas.

Non-map screens

§ SETTINGS button ► Navi Settings ► Guidance ► Non-map screens

The navigation system temporarily interrupts the screen display to view the guidance screen as you approach a guidance point.

Rotate to select an option. Press

- **On**: The guidance screen interrupts other mode screens (e.g., audio, phone, etc, except the rear view camera mode).
- Off (factory default): Disables the feature.

Guidance Point

§ SETTINGS button ➤ Navi Settings ➤ Guidance ➤ Guidance Point

Set the guidance point to display on the map screen.

Rotate to select an option. Press

- **Destination** (factory default): Displays the remaining/arrival time and distance to the destination.
- **Next Point**: Displays the remaining/arrival time and distance to the next waypoint.

Estimated Time

§ SETTINGS button ▶ Navi Settings ▶ Guidance ▶ Estimated Time

Select the estimated time to display on the screen.

Rotate ${}^t {}^{\bigcirc}$ to select an option. Press ${}^{\bigcirc}$.

- Arrival: Displays the arrival time to the destination or the next waypoint.
- **Remaining** (factory default): Displays the remaining time to the destination or the next waypoint.

§ SETTINGS button ► Navi Settings ► Map

Select the landmark icons to display on the map, change the orientation of the map, display your current location, and learn the meaning of the icons, colors, and symbols displayed on the map.

Rotate 🗑 to select an item. Press 💆.

The following items are available:

- Show Icon on Map: Selects the icons to display on the map.
 Showing Icons on Map P. 72
- Color (Day): Selects the color of the map for the Day mode.

 Color P 74
- View: Selects the map orientation (North-up, Heading-up, or 3D map). ▶ View (Map Orientation) P. 77

• **Delete Tracking**: Deletes the tracking dots on the map.

Deleting Tracking Dots P. 84

• Correct Vehicle Position: Adjusts the position of the vehicle on the map.

Correct Vehicle Position P. 85

 System Device Information: Views database, software, device, and vehicle identification information.

System Device Information P. 306

• Map Data Update: Checks the map data update status when updating the map database.

Map Data Update P. 306

Showing Icons on Map

§ SETTINGS button ► Navi Settings ► Map ► Show Icon on Map

Select the icons that are displayed on the map.

1. Rotate *♥ to select an item. Press ♥.

2. Rotate ^{*}○ to select an option. Press ^{*}○.

- ► Repeat step 1 and 2 as necessary.
- **3.** Move $\ensuremath{\bigcirc}$ to select **OK**. Press $\ensuremath{\bigcirc}$.

Showing Icons on Map

If you have PIN-protected your address book, enter your PIN when prompted. Move \bigcirc to select **OK**. PINs are optional.

PIN Numbers P. 49

The following options are available:

- All On: Displays the landmark icons.
 Map Screen Legend P. 9
- **Customize**: Fine-tunes the icon display. **▶ Fine-tuning the Icons** P. 73
- Off: Hides the landmark icons.

■ Fine-tuning the Icons

Icons in some categories can be fine-tuned to display or hide.

- **1.** Rotate ^t or select the icons to display on the map. Press ♂.
 - ▶ Pressing 💍 toggles the icon display on or off.
 - ► Repeat the procedure as necessary.
- **2.** Move $\begin{cases} \end{cases}$ and rotate $\begin{cases} \end{cases}$ to select OK. Press $\begin{cases} \end{cases}$.

Color

Set separate map colors for Day and Night modes.

■ Color (Day)

§ SETTINGS button ► Navi Settings ► Map ► Color (Day)

■Color (Night)

§ SETTINGS button ► Navi Settings ► Map ► Color (Night)

∑ Color (Day)

The factory default is set to Beige.

∑ Color (Night)

The factory default is set to Blue.

■ Switching Display Mode Manually

Set the screen brightness separately for Day and Night modes. Press the (Display mode) button to cycle through the display modes (Day to Night to Off).

- 1. Press the * button.
 - ► The Brightness bar is displayed for a few seconds.
 - ▶ Rotate 📆 to adjust the brightness. Press 🕹.
- 2. Press the * button again.
 - Repeat the procedure to switch the display modes.

Switching Display Mode Manually

A visual guide helps you see the difference between Day and Night modes.

Day or Night Mode P. 10

Illumination control	Priority	Operation
*) button	1	Selects Day, Night, or Off display mode. This button has the highest priority and overrides all other display control adjustments listed below. Remember: Once you press this button, you assume full manual control of the display mode until the power mode is set to VEHICLE OFF (LOCK).
Sunlight sensor (see your Owner's Manual for location)	2	If the sunlight sensor detects daylight and the headlights are turned on, the system automatically overrides the Night display and displays the Day display mode. Remember: If desired, use the *D button to override this automatic choice.
Dash illumination adjustment buttons (see your Owner's Manual for location)	3	When headlights are turned on, and you wish to have the Day display mode, adjust the illumination to the full brightness setting (beeps). Remember: Adjust the dash brightness back to mid-range to allow auto switching by sensing the headlights are on or off.
Headlights (Auto/On/Off)	4	When turned on, the display changes to Night display mode. The previous three controls listed above can "cancel" this function. Remember: Use the ** button, or adjust the dash illumination to full brightness, to set the display to your desired choice.
Screen color choice	N/A	The user can select the color of the screen that will be displayed for the Day and Night display modes described above. Remember: For best contrast, ensure that the map color is white for Day and black for Night.

View (Map Orientation)

§ SETTINGS button ► Navi Settings ► Map ► View

Select the map orientation.

Rotate to select an option. Press

The following options are available:

- North-Up: Displays the map with North always pointing up.
- **Heading-Up**: Displays the map so that the direction you are traveling is always pointing up.
- 3D Map: Displays the bird's eye view map.

∑ View (Map Orientation)

The red arrow in the symbol always points North.

Heading-up and 3D map view switch to the North-up view on the maximum map scale.

The bird's eye view map switches to the Heading-up map while scrolling the map.

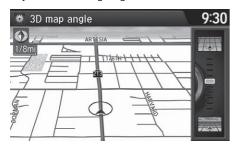

The viewing angle for the bird's eye view can be adjusted.

≥ 3D Angle Adjustment P. 78

3D Angle Adjustment

Traffic incident	Yes	No	N/A	

▼ Traffic Incident

When you use the Interface Dial to position the cursor (round red circle) over the traffic incident icon, you can view the summary of the incident.

Press 🗟 on the traffic incident icon to view a pop-up message describing the incident in detail.

Display Tracking

§ SETTINGS button ► Navi Settings ► Map ► Display Tracking

The navigation system can be set to display white tracking dots ("breadcrumbs") on the map screen.

The following options are available:

- On: The system displays the white tracking dots.
 Tracking Dots P. 119
- Off (factory default): Disables the feature.

■ Deleting Tracking Dots

§ SETTINGS button ▶ Navi Settings ▶ Map ▶ Delete Tracking

Rotate 🗑 to select **Yes**. Press 💆.

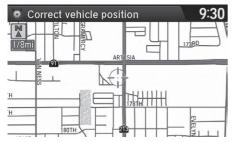

▶ Deleting Tracking Dots

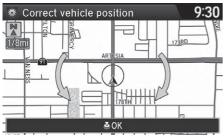

When you transfer the vehicle to a third party, delete the tracking dots.

Correct Vehicle Position

§ SETTINGS button ► Navi Settings ► Map ► Correct Vehicle Position

Manually adjust the current position of the vehicle as displayed on the map screen if the position appears to be incorrect.

- **1.** Put the vehicle in Park.
- **2.** Rotate ^{*}⑦ to select **Correct Vehicle Position**. Press [™]⊘.
- **3.** Scroll the map to position the cursor over at your correct position. Press ♂.
- **4.** Rotate 'O' to position the arrowhead in the correct direction the vehicle is facing.

○ Correct Vehicle Position

An apparent position error can occur where buildings, tunnels, and other objects block or reflect the GPS signals, forcing the system to use "dead reckoning" to determine your location and direction.

Using this function to adjust vehicle position is not recommended. When the system reacquires a GPS signal, it will automatically place the vehicle in the correct location.

If you continually have to adjust the vehicle position, you may have problems with the GPS reception or there may be database errors.

System Limitations P. 354

Data Reset

Defaulting All the Settings

§ SETTINGS button ► System Settings ► Factory Data Reset

Reset all the menu and customized settings as the factory defaults.

- **1.** Rotate 🗑 to select **Yes**. Press 💆.
 - ► The confirmation message will appear.
- **2.** Rotate or to select **Yes**. Press again to reset the settings.
 - ► The confirmation message will appear. Press to select **OK**.

Defaulting All the Settings

When you transfer the vehicle to a third party, reset all settings to default and delete all personal data.

On Demand Multi-Use Display™

Changing the Screen Settings

Adjusts the screen settings of the On Demand Multi-Use Display™.

- 1. Select More.
- 2. Select Screen Settings.
- **3.** Use ★, ☐ or other icons to adjust the setting.
 - ► Use the <a>/≫/<a>/<a> icons to turn the page.
 - ► Select **X** to go back to the previous screen.

The followings are adjustable screen settings:

- Sync Display Brightness: Selects whether the screen brightness synchronizes with the instruments panel brightness.
- Brightness: Adjusts the screen's brightness.
- Contrast: Adjusts the screen's contrast.
- Black Level: Adjusts the screen's black level.
- **Display**: Changes between the daytime or nighttime modes.
- Beep: Turns on or off the beep that sounds every time you touch the screen.
- **Keyboard**: Changes the on-screen keyboard from the alphabetical order to the gwerty type.
- Vibration: Turns on or off the vibration when you touch the screen.
- Fade Timer: Sets the screen black out timing.

Entering a Destination

§ MENU button (on map)

This section describes how to enter a destination for route guidance.

Rotate 🗑 to select an item. Press 🕹.

Select More Search Methods to display additional menu entries.

The following items are available:

- Address: Sets a destination by entering an address.
 - Address P. 92
- Address Book: Sets a destination by selecting an address stored in your Address Book.
 - Address Book P. 98
- Previous Destination: Sets a destination by selecting a previous destination.
 Previous Destination P. 99

Entering a Destination

If you press the **MENU** button when en route, the Route Option screen is displayed.

≧ Changing Your Route P. 129

Prior to departure, you can set areas along your route to avoid.

■ Avoiding Streets P. 137

• Go Home: Sets your home address as a destination.

☑ Going Home P. 11

• Place Category: Sets a destination by selecting a place/landmark.

▶ Place Category P. 100

• Local Search: Sets a destination by using Local Search.

Local Search P. 102

• Place Name: Sets a destination by entering a place name.

Place Name P. 104

 Place Phone No.: Sets a destination by entering the phone number of a place/ landmark

Place Phone Number P. 107

 Download POI: Sets a destination by using a list of the imported POI (category and places) data you created.

Download POI P. 108

• Scenic Route: Sets a destination by using a list of scenic roads for each state (U.S. and Canada only).

Scenic Route P. 109

• Intersection: Sets a destination (intersection) by entering two streets.

▶ Intersection P. 110

• Map Input: Sets a destination by scrolling through the map.

▶ Map Input P. 111

• Coordinate: Sets a destination by entering latitude and longitude.

2 Coordinate P. 113

Address

MENU button ► Address

Enter an address to use as the destination. The state or province you are currently in is displayed (e.g., California).

Rotate $^{\prime}$ to select an item. Press $\stackrel{\smile}{\otimes}$.

The following items are available:

- City: Selects your destination city.
- Selecting a City P. 94
- Street: Selects your destination street.
 - **Selecting a Street** P. 95
- House Number: Enters the house number to select the street.
 - Selecting a Street by House Number P. 97
- **ZIP Code**: Enters the zip code to select the city.
 - Selecting a City by Zip Code P. 93
- Change State: Selects the state or province.
 - **Selecting the State or Province** P. 93

■ Selecting the State or Province

§ MENU button ► Address ► Change State

Rotate $^{\prime}\bigcirc$ to select a state from the list. Press \bigcirc .

■ Selecting a City by Zip Code

8 MENU button ▶ Address ▶ ZIP Code

- **1.** Enter the zip code of your destination.
- **2.** Move \mathbb{Q} to select **OK**. Press \mathfrak{D} .

Selecting the State or Province

Move <□ or □ to select the following areas:

- USA for the U.S. mainland, Alaska, Hawaii, and Puerto Rico
- Canada
- Mexico

Selecting a City by Zip Code

If your city is not listed, it may be part of a larger metropolitan area. Try entering the street first.

- **3.** Rotate ¹ to select the destination city from the list. Press ♂.
 - Next, you are prompted to enter a street name.
 - Selecting a Street P. 95

■ Selecting a City

§ MENU button ► Address ► City

The name of the city where you are currently located is displayed.

 Enter the name of a different city, or move

to select OK for the current city. Press

.

■ Selecting a City

Vehicle position may not be displayed when:

- The automobile is traveling off-road.
- The vehicle position data cannot be updated.

You do not need to enter spaces or symbols (e.g., &, -, %). Partial matches are supported (e.g., "ANGELES" to find "LOS ANGELES").

If your city is not listed, it may be part of a larger metropolitan area. Try entering the street first.

Non-detailed area mark: Try entering the street first and then select the city.

- 2. Rotate [™] to select your destination city from the list. Press [™] .
 - ➤ A list of matching hits is automatically displayed after you enter several letters, with the closest match at the top of the list. Matching letters are highlighted.
 - Next, you are prompted to enter a street name.
 - Selecting a Street P. 95

■ Selecting a Street

MENU button ► Address ► Street

- **1.** Enter the name of your destination street.
 - ➤ Do not enter the street type (e.g., street, road, avenue) or direction (e.g., north, south, east, west).
 - Move $\begin{cases} \bigcirc$ to select **OK** to display a list of streets. Press $\begin{cases} \bigcirc$.

Selecting a Street

When entering the names of major freeways, you can use the following abbreviations. For interstates, use an "I" (e.g., I-10). For U.S. freeways, use "US" (e.g., US-18). For state freeways, use the two-character state designation (e.g., CA-101). For county roads, use the appropriate designation (e.g., G-2).

Continued 95

- 2. Rotate [™] to select your destination street from the list. Press [™].
 - ➤ A list of matching hits is automatically displayed after you enter several letters, with the closest match at the top of the list. Matching letters are highlighted.
- **3.** Enter the street number.
 - Only valid street numbers can be entered.
- **4.** Move ♀ to select **OK**. Press ♂.
- **5.** Set the route to your destination. **Calculating the Route** P. 114

Selecting a Street

If you did not select a city first and there is more than one city with the specified street, a list of cities is displayed.

■ Selecting a Street by House Number

8 MENU button ▶ Address ▶ House Number

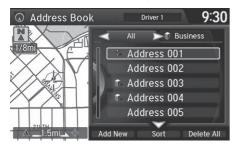

- **1.** Enter the house number.
 - ► Only a valid house number can be entered.
- **2.** Move \mathbb{Q} to select **OK**. Press \mathfrak{S} .
 - ► If you did not yet select a street name, enter a street name when you are prompted.
- **3.** Rotate [™] to select your destination street from the list. Press [™].
 - Select a city when you are prompted.
- **4.** Set the route to your destination. **Calculating the Route** P. 114

Address Book

MENU button ► Address Book

Select an address stored in your address book to use as the destination.

- **1.** Rotate 🗑 to select your destination from the list. Press 🕹.
- **2.** Set the route to your destination.
 - **Calculating the Route** P. 114
 - Move d○ or O▷ to display only the entries in the categories you have created.

Selecting an Address Book Category P. 44

Address Book

If you have PIN-protected your address book, enter your PIN when prompted. Press 🖔 to select **OK**. PINs are optional.

PIN Numbers P. 49

Move $\stackrel{Q}{\Rightarrow}$ and rotate $\stackrel{\iota}{\bigcirc}$ to select the following items:

- Add New Address: Adds an entry to the address book.
 - Adding an Address Book Entry P. 41
- Sort: Selects Sort by Name or Sort by Distance.
- **Delete All**: Deletes all entries in the address book.
- **Driver 1** or **Driver 2**: Displays the address book for the selected user.

Previous Destination

§ MENU button ▶ Previous Destination

Select an address from a list of your 50 most recent destinations to use as the destination. The list is displayed with the most recent destination at the top.

- **1.** Rotate '♥ to select a destination from the list. Press ♥.
- 2. Set the route to your destination.

 ☐ Calculating the Route P. 114

>> Previous Destination

If **Previous Destination** is grayed out, there are no previous destinations entered.

Your home address and addresses stored in your address book are not added to the list of previous destinations.

Move \mathbb{Q} and rotate \mathbb{Q} to select **Delete All** to delete all previous destinations.

You can delete unwanted previous destinations from the list.

Previous Destination P. 50

Place Category

§ MENU button ▶ Place Category

Select the category of a place (e.g., Banking, Lodging, Restaurant) stored in the map database to search for the destination.

1. Rotate 🛜 to select a category. Press ℧.

2. Rotate '♥ to select a subcategory. Press ♥.

Place Category

This option is convenient if you do not know the exact name of a place or if you want to narrow down the number of matches returned for places with a common name.

Move ○▷ to select **Category History** to access your recently used place categories. Up to 30 categories can be stored.

You can also delete your recently used place categories.

■ Category History P. 51

Search POI Categories helps you to search the subcategory. When you enter a keyword and select **OK**, the list of appropriate subcategories is displayed.

3. Rotate 👸 to select an item. Press 💆.

The following items are available:

- Search by Name: Searches for a place in the subcategory by name. Enter a city name when prompted.
- City Vicinity: Searches for a place in the subcategory within a 20-mile radius of a specific city. Enter a city name and then a place name when prompted. Only the first 1000 matching places/landmarks are displayed.
- **Sort by Distance to Travel**: Displays all the places in the subcategory sorted by distance from your current location. The closest place is displayed at the top.

- **4.** Rotate '♥ to select a place name from the list. Press ♥.
- **5.** Set the route to your destination. **■** Calculating the Route P. 114

▶ Place Category

The straight line distance (as the crow flies, not driving distance) and direction to the destination are shown for the highlighted place.

Local Search

MENU button ► Local Search

Select a place via Local Search database as the destination.

1. Rotate or to select a category (e.g., **Community**). Press .

2. Rotate '♥ to select a subcategory. Press ♥.

∑ Local Search ☐

When you select **Search by keyword**, the list of appropriate categories is displayed.

The screen in this section may differ from the actual ones.

Local Search is a subscription service. For more information, contact an Acura dealer or visit *owners.acura.com*.

3. Rotate [™] to select an item. Press

The following items are available:

- Search nearby: Finds the nearest POI around your vehicle.
- Search from Map: Selects a POI by scrolling the Interface Dial on the map screen.
- Search from Destination: Selects a POI around the destination. Search the category by scrolling the Interface Dial.
- **4.** Set the route to your destination.
 - **≥** Calculating the Route P. 114

Place Name

§ MENU button ▶ Place Name

Enter the name of a place (e.g., business, hotel, restaurant) stored in the map database to use as the destination.

- 1. Enter a place name.
- **2.** Move

 ⊕ to select **OK** to display a list of matching hits. Press

 ⊕.

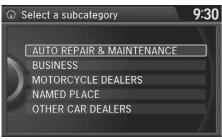

- **3.** Rotate '♥ to select a place name from the list. Press ♥.
 - ▶ If the place name is in multiple categories, the categories are displayed when you select it.
 - **▶ Place Name in Multiple Categories** P. 105
- **4.** Set the route to your destination.
 - **Calculating the Route** P. 114

■ Place Name in Multiple Categories

If the place name is in multiple categories in the map database, the following screen is displayed.

1. Rotate \bigcirc to select a place name. Press \bigcirc .

2. Rotate ^t⊘¹ to select a subcategory. Press ⊘.

▶ Place Name in Multiple Categories

Matching letters are in highlighted.

- **3.** Rotate $^{\begin{subarray}{c} \end{subarray} }$ to select a place. Press $\end{subarray} \end{subarray}$
- **4.** Set the route to your destination. **Calculating the Route** P. 114

▶ Place Name in Multiple Categories

Move \bigcirc to select **Sort by City** or **Sort by Distance**.

Place Phone Number

MENU button ► More Search Methods ► Place Phone Number

Select a destination by phone number. Only phone numbers in the database are recognized.

- **1.** Enter the area code and phone number.
- **2.** Rotate [™] to select **OK**. Press [™].
- 3. Set the route to your destination.

 ☐ Calculating the Route P. 114

All 10 digits must be entered.

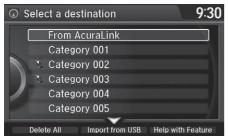

Phone numbers of private residences entered in your address book are not stored in the database and thus cannot be used to search for a destination.

A list is displayed if there are multiple locations in the database with the same phone number. Rotate $^{\prime}\bigcirc$ to select a place from the list. Press $^{\prime}\bigcirc$.

Download POI

MENU button ► More Search Methods ► Download POI

Select a place imported into the navigation system as the destination.

1. Rotate '♥ to select a category from the list. Press ♥.

- 2. Rotate or to select a place. Press S.
- 3. Set the route to your destination.

 Calculating the Route P. 114

Download POI

Move $\stackrel{\mathbb{Q}}{\Rightarrow}$ and rotate $^t\mathbb{Q}^t$ to select the following items:

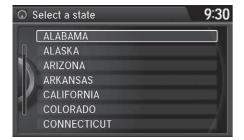

- Import from USB: Imports POI data into the navigation system.
 - **▶ Importing POI Categories** P. 52
- Delete All: Deletes all POI entries.
- Help with Feature: Views tips for the Download POI feature.

If you select **From AcuraLink**, you can download POI data stored on the AcuraLink® server.

Scenic Route

§ MENU button ► More Search Methods ► Scenic Route

Select a scenic road as a destination (U.S. and Canada only).

1. Rotate or to select a state. Press S.

- **2.** Rotate ^r♥ to select a scenic road. Press &.
- **3.** Set the route to your destination. **■** Calculating the Route P. 114

Scenic Route

If you select a scenic road that runs through multiple states, only the portion of the road in the selected state is displayed.

Intersection

MENU button ► More Search Methods ► Intersection

Select the intersection of two streets as the destination. The state or province for your current location is displayed at the top of the screen (e.g., California).

- **1.** Rotate '♥ to select the intersection search method. Press ♥.
- 2. Set the route to your destination.

 ☐ Calculating the Route P. 114

The following options are available:

- **City**: Selects the city where the intersection is located. You are prompted to enter the name of the two intersecting streets.
 - Selecting a City P. 94
- Street: Selects the two intersecting streets. The city or cities that the streets are located in are displayed.
 - **Selecting a Street** P. 95
- Change State: Selects the state or province.
 - Selecting the State or Province P. 93

It is usually easier to select **Street** to find the streets first. The city or cities that the streets are in will be displayed. If you select **City** and your city is not listed, it may be part of a larger metropolitan area. Try entering the street first.

If the intersection is outside the state you are currently in, rotate to select Change State. ■ Selecting the State or Province P. 93

If there is more than one intersection, you are prompted to select the intersection. If the two streets that you have selected do not intersect,

no intersection is entered

Map Input

§ MENU button ► More Search Methods ► Map Input

Use the Interface Dial to manually select an icon or a location on the map screen as the destination.

You are prompted to define the map area to display.

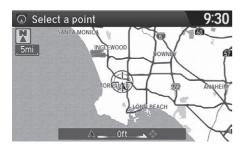

1. Rotate '♥ to select an item. Press

The following items are available:

- Current Position: Your current location is centered on the map.
- State: You are prompted to select the state.

 ▶ Selecting the State or Province P. 93
- City: You are prompted to select the city.
 Selecting a City P. 94
- USA, Canada and Mexico: Your current location is displayed on a map of the country.

Continued 111

- **2.** Scroll the map to position the cursor over your desired destination, adjusting the map scale as necessary.
 - ► If the address is not the desired location, scroll the map to another location and try again.
- **3.** Press 5 to display the route calculation menu.
 - **Calculating the Route** P. 114
- **4.** Rotate or to select **Set as Destination**. Press .

Map Input

Auto Zoom

Press or repeatedly on the map to zoom in (to the scale 1/4 mile) while scrolling the map.

Information icons are displayed at scales from 1 mile to 1/4 mile. Place/landmark icons are displayed at 1/8 mile or less. Roads are displayed at 1/4 mile or less.

If you select multiple icons within the cursor radius, you are prompted to select one of the items from a list.

Selecting a Destination on the Map P. 139

Coordinate

§ MENU button ► More Search Methods ► Coordinate

Specify a location using latitude and longitude map coordinates.

- 1. Enter the latitude and select OK.
- 2. Enter the longitude and select OK.

- **3.** Move [∢]○ to scroll the map to position the cursor over your desired destination, adjusting the map scale as necessary.
 - ► If the address is not the desired location, scroll to another location and try again.
- **4.** Press 3 to display the route calculation menu.
 - **≧** Calculating the Route P. 114
- **5.** Rotate '♥ to select **Set as Destination**. Press ♥.

Coordinate

Latitude and longitude must be entered up to the seconds' value.

Calculating the Route

This section describes how to calculate your route.

- **1.** Rotate or to select **Set as Destination**. Press .
 - ➤ The system calculates and displays the route line on the map screen.
 - Route Line P. 118
 - ► Move <□ to scroll the map around the destination.

The following options are available:

- View Routes: Displays three different routes.
 - **▶** Viewing the Routes P. 115
- Route Preference: Move \bigcirc to select Route Preference to change the route preferences (calculating method).
 - Route Preference P. 56

- **2.** Follow the route guidance to your destination.
 - **Driving to Your Destination** P. 116
 - ➤ The system provides you with pop-up messages if your route passes through unverified areas, avoid areas, or areas with traffic restrictions.

■ Calculating the Route

The straight line distance (as the crow flies, not driving distance) and direction to the destination are shown.

You cannot use voice commands while the system is calculating the route.

Search Nearby

You can find the nearest place/landmark (e.g., nearest gas station) by specifying a category.

Find Nearest Place P. 138

Call

You can place a telephone call to the destination phone number.

Bluetooth® HandsFreeLink® P. 226

Save to Address Book

You can add the destination address to the address book.

Adding an Address Book Entry P. 41

Edit/Delete Entry

You can edit or delete the address book entry.

Editing an Address Book Entry P. 43

Edit Home Entry

You can edit your home address entry.

Home Address P. 48

More Info

You can view detailed information about the destination.

Viewing the Routes

View three different routes to your destination.

Rotate $^{\prime} \bigcirc$ to select a route. Press $\stackrel{\smile}{ \bigcirc}$.

- ➤ The travel distance and estimated travel time is displayed for each route.
- ➤ The system calculates and displays the route line on the map screen.
 - Route Line P. 118

➤ Viewing the Routes

It is not unusual for some calculated route options to be identical.

Driving to Your Destination

This section describes how to follow the route guidance to your destination, receive traffic information and choose the icons displayed on the map screen.

Viewing the Route

■ Map Screen

After calculating the route to your destination, the route is displayed on the map screen.

Map Screen Legend P. 9

As you drive, the system tracks your position on the map in real time and provides guidance as you approach each guidance point on the route.

During Route Guidance P. 10

∑ Viewing the Route

You can change the map scale by rotating 📆.

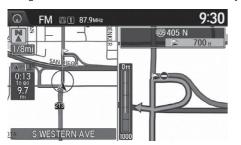

If you scroll the map while en route, the time and distance to destination indicators are replaced with an indicator showing distance from the current vehicle position.

You can display only the map screen or a split map-guidance screen.

Guidance Mode P. 64

■ Guidance Screen

The guidance screen offers an alternative way to view your route.

- ► The next guidance point is displayed as you approach each guidance point on the route.
- ➤ You can also view a list of guidance directions.

■ Guidance Screen

A visual guide helps you check the guidance screen.

Guidance Screen P. 10

Turn-by-Turn Directions

The next guidance point appears on the multiinformation display.

Turn-by-Turn Directions P. 10

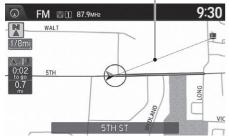

You can turn this feature on or off using the multi-information display. See the Owner's Manual for instructions.

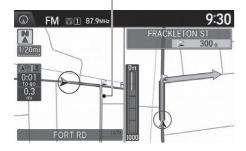

■ Route Line

When driving on verified streets, the route line is light blue. The route line display changes when driving on unverified streets:

Straight line guide

Blue-pink route line

- If Unverified Routing is Off, the route line uses verified streets only (when possible). If Straight Line Guide is set to On, a pink "vector line" pointing directly towards your destination is displayed.
 - Straight Line Guide P. 78

 If Unverified Routing is On, the route line changes to a blue-pink line to indicate that the route line uses unverified streets.

■ Route Line

You can set **Unverified Routing** to **Off** to follow your own route to the destination. If **Unverified Routing** is **On**, be aware that unverified streets may not be displayed accurately.

▶ Unverified Routing P. 57

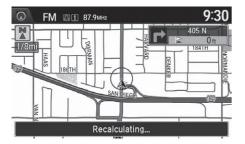

The route line may also consist of red, orange, or green segments when traffic information is displayed.

- Map Screen Legend P. 9
- **Traffic Rerouting™** P. 127

■ Deviating From the Planned Route

If you leave the calculated route, the system automatically recalculates a route to the desired destination based on your current location and direction.

Route Preference P. 56

■ Tracking Dots

You can display a series of dots (breadcrumbs) to track the path you are taking. If needed, you can follow the dots back to the mapped road you originally left.

Display Tracking P. 84

A message "Not on a digitized road" may appear when you drive 1/2 mile away from a mapped road.

Breadcrumbs may occasionally be displayed in urban areas, such as large parking lots in shopping malls, in new subdivisions where the roads are not yet in the database, or in areas where a GPS signal is unavailable, such as in a parking garage.

Breadcrumbs are limited to approximately 150 miles. Breadcrumbs at the beginning of the trail are deleted if you exceed that distance.

Breadcrumbs are displayed only at 1/20, 1/8, 1/4, and 1/2 mile map scales.

Listening to Voice Guidance

§ ENTER button (on map) ► Voice

As you approach each guidance point, a pop-up window is displayed on the map screen with instructions for you to follow. Voice guidance for each guidance point is also provided.

Typically, you hear three prompts:

- 1/2 mile from the guidance point (2 miles on freeway)
- 1/4 mile from the guidance point (1 mile on freeway)
- Just before the guidance point

To replay voice guidance, rotate or to select **Voice** in the Map Menu.

If you select **Voice** between guidance points, voice guidance for the next guidance point is provided.

∑ Listening to Voice Guidance

You can turn voice guidance OFF if you prefer. Press the **SETTINGS** button. Select **System Settings** and set **Guidance Volume** to **0**. You can also adjust **Guidance Volume** by rotating the volume knob while the route guidance or voice command confirmations is announced.

When driving in unverified areas, the phrase "if possible" is inserted before each voice guidance prompt.

Voice in the Map Menu may be grayed out if:

- The system is in process of gathering the route guidance information.
- The vehicle is out of the road (e.g., pulling in a parking lot).

The timing of voice guidance varies depending on the type of road you are on and the distance to the next guidance point.

Reaching a Waypoint

When you reach a waypoint, a pop-up message is displayed. You can continue or pause the route guidance.

Rotate $^{\prime}\bigcirc$ to select **No** to pause the route guidance. Press $\stackrel{\smile}{\triangle}$.

Select **Yes** to continue the guidance.

■ Resuming the route guidance

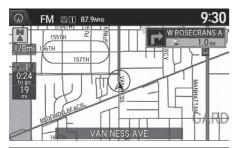

You can resume the route guidance in the following ways:

- Restart the engine when you stop your car (e.g., to rest, stop for gas, etc.).
 Resuming Your Trip P. 141
- $\bullet\,$ Select Resume~Guidance~from~the~navigation~menu~or~the~map~menu.
 - ▶ Map Menu P. 122
 - **≧** Changing Your Route P. 129

Map Menu

Displaying the Map Menu

Use the Map Menu to control the icons displayed on the screen and to display traffic information and messages. You can also use the Map Menu to find locations or to cancel the route.

- **1.** On the map screen, press $\stackrel{\smile}{\otimes}$.
 - ► The Map Menu is displayed on the map screen.

2. Rotate ^t oselect an item. Press ⊗.

Map Menu

If you scroll the map while en route, press the **NAV** (or **BACK**) button to return to the current position map screen, then press .

The following items are available:

Voice: Select to hear the voice guidance when en route.
 Listening to Voice Guidance P. 120

- Guidance Volume: Adjusts the navigation system volume level.
- Map/Guidance: Allows you to select the map and guidance settings (display mode, icons to display on the map, map orientation, map color, and 3D view angle), display your current location and an overview of the map features.

■ Guidance Mode P. 64

Hide Traffic Flow

§ ENTER button (on map) ► Hide Traffic Flow

Hide the traffic flow indicator on the map screen. Press the **ENTER** button and select **Display Traffic Flow** to display the traffic flow indicator on the map screen.

Directions

§ ENTER button (on map) ▶ Directions

Display a list of the guidance points on your route for your confirmation.

Select a point

9:30

| 1/8m| | 1/12TH | 1/12TH

- **1.** Rotate '♥ to select a guidance point from the list. Press ♥.
 - ► The system displays a map of the guidance point.

2. Press to select Back to list or press the BACK button to return to the previous screen.

Directions

Guidance points with exit information are indicated by a ① (freeway exit information) icon. Move \bigcirc to select **Exit Info** to display the exit information.

▶ Freeway Exit Information P. 126

The system provides freeway exit information only in the U.S.

The route guidance information is automatically deleted when you reach your destination.

■ Freeway Exit Information

§ ENTER button (on map) ▶ Directions ▶ Exit Info

Display a list of the freeway exits for the route. You can view freeway exit information (whether the exit is near gas stations, restaurants, ATMs, etc.) and add new destinations or waypoints to the calculated route.

1. Rotate *♥ to select an exit from the list. Press ♥.

- 2. Rotate [™] to select a list item. Press [™].
 - ► Move <□ or □▷ to display information for different exits.
 - You can set the route to your destination.
 - **≧** Calculating the Route P. 114

▶ Freeway Exit Information

You can scroll the map and select a ① (freeway exit information) icon on the map screen to display the freeway exit information. The ① icon is only displayed if there is exit information available.

Icons are displayed only at 1/4, 1/2, or 1 mile scale.

Map Scale and Functions P. 81

The system provides freeway exit information only in the U.S.

The route guidance information is automatically deleted when you reach your destination.

Traffic Rerouting™

When driving to your destination, the system automatically searches for a faster route based on traffic flow information and traffic incidents.

- **Map Screen Legend** P. 9
- Traffic Rerouting P. 59

■ Traffic Rerouting™ Manually

§ ENTER button (on map) ► Traffic Incidents

Manually avoid specific incidents and/or congestion on your route:

- **1.** Rotate '♥ to select an incident from the list. Press ♥.
 - ► The system displays the map screen and the incident location.

Traffic Rerouting™

Traffic information is only available in certain areas.

Automatic traffic rerouting may not provide a detour route depending on circumstances.

The route is recalculated only when **Traffic Rerouting** is set to **On**.

▶ Traffic Rerouting P. 59

∑ Traffic Rerouting™ Manually

Traffic rerouting is only available in certain areas.

You must be in or near a traffic-enabled city to receive coverage for that area. Traffic information is available in certain areas in the lower 48 states, Hawaii, and some cities in Canada.

Traffic Information P. 358

- 2. Rotate or to select Avoid. Press ...
 - ▶ Repeat step 1 to 2 as necessary.

- **3.** Move \mathbb{Q} to select **Reroute**. Press \mathfrak{S} .
 - ➤ The system recalculates a detour route that avoids the traffic incidents.

You can choose to avoid up to 10 traffic incidents. It is not always possible for the system to calculate a route that avoids all traffic incidents or specific traffic incidents you select.

The "On Route" tab on the Traffic List screen is only available during route guidance.

You cannot select an incident to avoid from the "All" tab.

You can also detour around a traffic incident manually if you encounter an unexpected obstacle.

► Taking a Detour P. 137

Changing Your Route

§ MENU button (when en route)

This section describes how to alter your route, add an interim "waypoint" (pit stop), choose a different destination, cancel your current destination, and continue your trip after stopping.

Rotate 🗑 to select an item. Press 🕹.

The following items are available:

- Voice: Select to hear the voice guidance when en route.
 - Listening to Voice Guidance P. 120
- Destination List: Shows a list of waypoints. You can delete waypoints or edit the
 order of them.
 - **B** Editing the Destination List P. 135
- Pause Guidance: Pauses your current route.
 - Pausing the Route P. 130
- **Resume Guidance**: Resumes your current route. This item is displayed while the route guidance is paused.
- Cancel Route: Cancels the route guidance.
 - **≧** Canceling the Route P. 130
- View Routes: Displays three different routes.
 - **▶ Viewing the Routes** P. 115

○ Changing Your Route

If you press the MENU button when not en route, the Destination Menu screen is displayed.

₹ Taking a Detour P. 137

• Avoid Streets: Avoids streets along your route.

Avoiding Streets P. 137

Pausing the Route

MENU button (when en route) ▶ Pause Guidance

Pause the route guidance and return to the map screen. The destination icons and all waypoint flags remain displayed on the map. Press the **MENU** button when en route and select **Resume Guidance** to resume the route guidance.

Canceling the Route

§ MENU button (when en route) ► Cancel Route

Cancel the route guidance and remove the destination and all waypoints from the destination list. The system then returns to the map screen.

Pausing the Route

You can also pause your route from the Map Menu.

▶ Map Menu P. 122

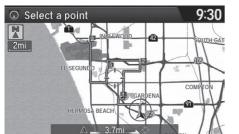

○ Canceling the Route

You can also cancel your route from the Map Menu.

Map Menu P. 122

Adding Waypoints

Add up to four waypoints (pit stops) along the route to your destination.

Waypoints are displayed on the map screen as small, numbered red flags. The route follows the waypoints in the order they are listed in the Destination List.

Adding Waypoints

Waypoints allow you to stop for gas or food, for example, and then continue on to your destination.

Press the **NAV** button to return to the map screen without adding a waypoint at any time.

The search corridor used for adding waypoints can be adjusted.

Edit POI Search Radius Along Route P. 60

You can delete waypoints or edit the order of waypoints in the destination list.

■ Editing the Destination List P. 135

■ Adding Waypoints from the Route Menu

MENU button (when en route) ▶ Destination List ▶ Add New Destination ▶ Find Along Route

1. Rotate * to select a search method to add a waypoint. Press ♂.

The following items are available:

- Search Around: Searches in a spiral pattern around the location you select.
- Search Along: Searches within a "corridor" on either side of the locations you select.

2. Rotate ' to select a waypoint category (e.g., GAS STATION).

Press .

Adding Waypoints

Search method

"Search around" method

"Search along" method

Move the destination to the desired

location in the list.

- **3.** Rotate or to select a place. Press .
 - ► The waypoint is added to the Destination List.

4. Rotate [™] to select a location and move the order of destinations. Press [™].

- **5.** Move ♀ and rotate ఄ to select **Start Route**. Press ౿.
 - ➤ The route is automatically recalculated and displayed on the map screen.

■ Adding Waypoints from the Navigation Menu

MENU button (when en route) ► Destination List ► Add New Destination

► Use Nay Menu

1. Rotate ^t or select a method to enter a waypoint.

Entering a Destination P. 90

► A new destination is added to the end of the Destination list.

- 2. Move ♀ and rotate ఄ to select Start Route. Press ఆ.
 - ➤ The route is automatically recalculated and displayed on the map screen.

Maypoints from the Navigation Menu

You can edit the order of waypoints and destination.

Editing the Destination List P. 135

Editing the Destination List

■ Editing the Order of Waypoints

MENU button (when en route) ► Destination List

1. Move ♀ and rotate ♥ to select **Edit Order**. Press ఆ.

- 2. Rotate *♥ to select a list item to move. Press ♥.
- **3.** Rotate '♥ to select a new location. Press ♥.
- **4.** Move ♀ and rotate ♥ to select Start Route. Press ఆ.
 - ➤ The route is automatically recalculated and displayed on the map screen.

■ Editing the Order of Waypoints

Move \bigcirc to rotate \bigcirc to select **Show All on Map** to display the destination and waypoints on the map screen.

■ Deleting Waypoints

§ MENU button (when en route) ▶ Destination List

1. Rotate ^t or select a list item to delete. Press or . Since the delete item is to select a list item to delete.

- 2. Rotate ot to select Delete. Press
- **3.** Rotate 🗑 to select **Yes**. Press 💆.

Deleting Waypoints

Move $\begin{cases} \end{cases}$ and rotate $\begin{cases} \end{cases}$ to select **Delete All** to delete the destination and all the waypoints.

Select **Show on Map** to display the waypoint on the map screen.

Taking a Detour

§ MENU button (when en route) ▶ Detour

Calculate a detour route manually. The system attempts to calculate a new route by avoiding the next 5 miles (while on a freeway) or 1 mile (while on a surface street).

Avoiding Streets

MENU button (when en route) ► Avoid Streets

Select a street or streets along your route to avoid.

- **1.** Rotate to select the street you want to avoid. Press \circlearrowleft .
 - ► Repeat the procedure to avoid other streets.

- **2.** Move ♀ to select **Recalculate Route**. Press ☒.
 - ➤ The system calculates a new route.

∑ Taking a Detour

The detour option is convenient if you encounter an unexpected obstacle such as a road closure or extremely heavy traffic congestion.

Avoiding Streets

Avoiding certain streets is convenient if you know of road construction, road closures, or excessive traffic along the route.

You cannot choose specific streets you want to use, only those to avoid. However, you can select intersections or waypoints (places/landmarks) that the system will use in your route.

Adding Waypoints P. 131

You can store up to 10 streets to avoid. You cannot avoid your current street or the streets of your waypoint(s) or destination (system beeps if selected).

Changing Your Destination

There are several methods you can use to change the route destination.

Find Nearest Place

 \S ENTER button (on map) \blacktriangleright Search Nearby

Search for the nearest place/landmark on the map screen and set it as your destination.

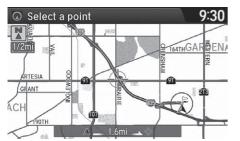

- **1.** Rotate 🛜 to select **Search Nearby**. Press ℧.
- **2.** Rotate '♥ to select a category type. Press ♥.
- **3.** Rotate 😙 to select a place. Press 💍.
- **4.** Rotate ¹ to select **Set as Destination**. Press △.
- **5.** Move ♀ to select **Clear Current Route**. Press ఆ.
 - ➤ The route is automatically recalculated and displayed on the map screen.
 - ► Rotate 🛜 to edit the order to set the location as a new waypoint. Press 🕹.

Selecting a Destination on the Map

Selecting a Destination on the Map

Select a new destination when en route by selecting a location on the map.

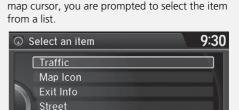

- 1. Scroll the map to position the cursor over your desired destination, adjusting the map scale as necessary. Press 🕹.
 - ▶ If the address displayed is not the desired location, press the BACK button and repeat the procedure.
- 2. Rotate To select Set as **Destination**. Press 💍.
 - **Calculating the Route** P. 114

- **3.** Move $\begin{cases} \end{cases}$ to select **Clear Current** Route. Press 💍
 - ► The route is automatically recalculated and displayed on the map screen.
 - ▶ Rotate 🛱 to edit the order to set the location as a new waypoint. Press 💍.

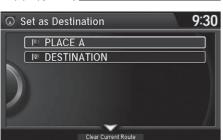

If there is more than one icon or street under the

Rotate To select an item. Press .

Address Book/Home

Place Category

Entering a New Destination

§ MENU button (when en route) ▶ Destination

Enter a new destination using the Destination Menu screen even when you are en route.

- **1.** Rotate or to select a method to enter a new destination.
 - **Entering a Destination** P. 90
 - ➤ After entering a new destination, the address is displayed on the Calculate Route screen.
- **2.** Rotate '♥ to select **Set as Destination**. Press ♥.
- **3.** Move ♀ to select Clear Current Route. Press ☒.
 - ► The route is automatically recalculated and displayed on the map screen.
 - ► Rotate 🗑 to edit the order to set the location as a new waypoint. Press 💆.

Resuming Your Trip

Stop your vehicle en route (e.g., to rest, stop for gas, etc.), and then continue on your route.

If you did not complete your route, the Continue Trip screen is displayed when you restart your vehicle.

Rotate of to select **Set as Destination**. Press of.

- You can continue on the same route.
- ► Move <□ to scroll the map around the destination.
- ► Press the **BACK** button to cancel your destination.
- Route Preference: Move $\begin{cal}egin{cal}$ to select Route Preference to change the route preferences (calculating method).
 - Route Preference P. 56

Audio System

About Your Audio System

The audio system features AM/FM radio and the SiriusXM® Radio service. It can also play audio CDs, WMA/MP3/AAC files, Hard Disc Drive (HDD) audio, USB flash drives, and iPod®, iPhone® and Bluetooth® devices.

You can operate the audio system from the buttons and switches on the panel or the remote controls on the steering wheel, or the icons on the On Demand Multi-Use $Display^{TM}$.

■ About Your Audio System

SiriusXM® Radio is available on a subscription basis only. For more information on SiriusXM® Radio, contact a dealer.

→ SiriusXM® Radio Service P. 179

SiriusXM® Radio is available in the United States and Canada, except Hawaii, Alaska, and Puerto Rico.

SiriusXM® is a registered trademark of SiriusXM Radio, Inc.

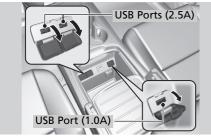

Video CDs, DVDs, and 3-inch (8-cm) mini CDs are not supported.

iPod® and iPhone® are registered trademarks owned by Apple Inc.

State or local laws may prohibit the operation of handheld electronic devices while operating a vehicle.

When the screen is viewed through polarized sunglasses, a rainbow pattern may appear on the screen due to optical characteristics of the screen. If this is disturbing, please operate the screen without polarized sunglasses.

USB Ports

■ In the front console compartment

The USB port (1.0A) is for playing audio files on a USB flash drive and connecting a cellular phone and charging device.

The USB ports (2.5A) are only for charging devices.

■ On the back of the front console compartment*

The USB ports (2.5A) are only for charging devices.

USB Ports

- Do not leave the iPod® or USB flash drive in the vehicle. Direct sunlight and high temperatures may damage it.
- We recommend using an extension cable with the USB port.
- Do not connect the iPod® or USB flash drive using a hub.
- Do not use a device such as a card reader or hard disk drive, as the device or your files may be damaged.
- We recommend backing up your data before using the device in your vehicle.
- Displayed messages may vary depending on the device model and software version

If the audio system does not recognize the iPod®, try reconnecting it a few times or reboot the device. To reboot, follow the manufacturer's instructions provided with the iPod® or visit www.apple.com/ipod.

■ In the rear console compartment*

The USB ports (2.5A) are only for charging devices.

■ On the back of the rear console compartment*

The USB ports (2.5A) are only for charging devices.

≥ USB Ports

The USB port can supply up to 1.0A or 2.5A of power. It does not output 1.0A or 2.5A unless requested by the device.

For amperage details, read the operating manual of the device that needs to be charged.

Set the power mode to ACCESSORY or ON first.

USB Ports (2.5A)

This port is for battery charge only. You cannot play music even if you have connected a music player to it.

Under certain conditions, a device connected to the port may generate noise in the radio you are listening to.

Auxiliary Input Jack

Use the jack to connect standard audio devices.

- **1.** Open the AUX cover.
- **2.** Connect a standard audio device to the input jack using a 1/8 inch (3.5 mm) stereo miniplug.
 - ► The audio system automatically switches to the AUX mode.

Auxiliary Input Jack

You can return to the AUX mode by selecting Change Source on the Audio menu screen or Source on the On Demand Multi-Use Display™.

Audio System Theft Protection

The audio system is disabled when it is disconnected from the power source, such as when the battery is disconnected or goes dead. In certain conditions, the system may display a code entry screen. If this occurs, reactivate the audio system.

■ Reactivate the audio system

- 1. Set the power mode to ON.
- 2. Turn on the audio system.
- 3. Press and hold the audio system power button for more than two seconds.
 - ▶ The audio system is reactivated when the audio control unit establishes a connection with the vehicle control unit. If the control unit fails to recognize the audio unit, you must go to a dealer and have the audio unit checked.

Setting Audio Shortcuts

You can store up to six radio stations, and HDD audio album/play lists when playing AM, FM, or SiriusXM[®] radio, or HDD audio.

Storing a station or song

- 1. Select Shortcuts.
- **2.** Tune to a radio station or select a song.
 - ▶ Playing FM/AM Radio P. 156
 - **▶ Playing SiriusXM® Radio** P. 162
 - Playing Hard Disc Drive (HDD)

 Audio P. 187
- 3. Select Audio.
- 4. Select Edit or No Entry.
 - If you select No Entry, go to step 6.
- 5. Select Add.
- **6.** Select the preset icon you want to store the station or song to.

≥ Setting Audio Shortcuts

You can also preset a station or song by pressing and holding the preset icon you want to store that station or song after step 3.

■ Deleting a preset station or song

- 1. Select Shortcuts.
- 2. Select Audio.
- 3. Select Edit.
- 4. Select Delete.
- **5.** Select the preset icon with the radio station or a song you want to delete.

Customizing Audio Source

You can customize order of the source list icons.

- 1. Select Source
- 2. Select Edit Order.
- **3.** Select two icons you want to swap.
- 4. Select Done.
 - Select **Default** to reset the customized order.

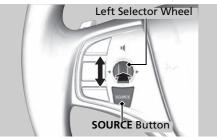

∑ Customizing Audio Source

This operation is not allowed while the vehicle is in motion.

Audio Remote Controls

Steering Wheel Controls

Allows you to operate the audio system while driving.

▶ Playing SiriusXM® Radio

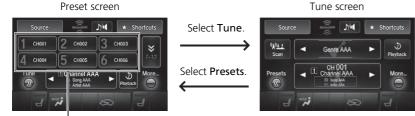

You can control the SiriusXM® radio using voice commands.

▶ Voice Control Operation P. 6

In the channel mode, all available channels are selectable. In the category mode, you can select a channel within a category (Jazz, Rock, Classical, etc.).

There may be instances when SiriusXM® Radio does not broadcast all the data fields (artist name, title). This does not indicate a problem with your audio system.

SiriusXM® Radio station load in ascending order, which can take about a minute. Once they have loaded, you can scroll up or down to make your selections.

Preset Number

The following items are available:

- Category bar (Tune screen): Select ◀ or ▶ to search a category.
- Channel bar: Select ◀ or ▶ to search a channel. Select and hold ◀ or ▶ to search up or down 10 channels.
- Preset Number (Preset screen): Select and hold a desired number where you want to store the station. Select to listen a preset channel(s).
- Playback: Display the Playback screen.
 - Replay Function P. 166
- More: Display the menu items.
 - **Audio Menu** P. 176
- Scan: Select the scan type. Scans for channels and plays a 10-second sample. Select **Stop Scan** to stop scanning and play the current channel.

Scan Channels: Scans for categories or channels with a strong signal in the selected mode.

Scan Songs in Presets: Scans for desired preset channel by songs. Select ▶ or to skip to the next/previous stored selection.

■ Preset Memory

Interface Dial

To store a channel:

- 1. Tune to the desired channel.
- 2. Move ○▷ to select Presets.
- **3.** Rotate ' to select a desired number.

To listen to a stored channel, rotate \bigcirc to select the preset number. Press \bigcirc .

On Demand Multi-Use Display™

To store a channel:

- 1. Tune to the desired channel.
- **2.** Select and hold a desired number.

To listen to a stored channel, select the preset number.

Preset Memory

You can store 12 SiriusXM® channels into the preset memory.

■ Multi-channel preset (for music channels only)

On Demand Multi-Use Display™

You can store up to four of your preferred music channels per preset. When multiple channels exist, the music randomly skips between channels.

- **1.** Select a channel you want to store.
- 2. Select More.
- 3. Select Save Preset.
- 4. Select Edit TuneMix.
- **5.** Select a preset number where you want to add a music channel.
- 6. Select Add.
 - Select **OK** or X to return the previous screen.

Multi-channel preset (for music channels only)

Not all SiriusXM® channels are available to add to multi-channel preset.

To delete a multi-channel preset:

- 1. Select More.
- 2. Select Save Preset.
- 3. Select Edit TuneMix.
- **4.** Select a multi-channel preset number.
- 5. Select Delete.
- 6. Select channel icon.
 - ► Select **OK** or X to return the previous screen.

■ Replay Function

§ MENU button (in SiriusXM® mode) ▶ Playback

The system can record up to the last 60 minutes broadcast of your currently tuned channel as well as the last 30 minutes broadcast of preset channels, starting from the moment you turn the vehicle on. If you tuned to preset channel, the system records up to 60 minutes of a broadcast instead of up to 30 minutes. You can rewind and replay the last 30 or 60 minutes of a broadcast.

Select an option.

The following options are available:

- OK: Returns to previous channel.
- Play/Pause: Pauses or plays a storing broadcast.
- Go to Live: Returns to real-time broadcast.
- Skip Down: Skips to the previously stored channel.
- Skip Up: Skips to the next channel.
- 15sec Back: Select to skip back 15 seconds in the current selection. Select and hold to fast-rewind the current selection.
- 15sec Skip: Select to skip forward 15 seconds in the current selection. Select and hold to fast-forward the current selection.

■ Replay Function

The system starts storing broadcast in memory when the vehicle is turned on. You can go back to the program from that point.

You can no longer replay any program once the vehicle is turned off or if the non-preset channel has been changed.

The audio/information screen displays how long the station has been recording in the replay status bar.

To play or pause in playback mode:

Interface Dial

Rotate of to select Play/Pause, press .

On Demand Multi-Use Display™

Select Play/Pause.

■ Returning to real-time broadcast

Interface Dial

Rotate $^{\leftarrow}$ to select **Go to Live**, press $\stackrel{\smile}{ \circlearrowleft}$ while listening to the playback channel.

On Demand Multi-Use Display™

Select **Go to Live** while listening to the playback channel.

- 1. Select Playback.
- 2. Select an option.

The following options are available:

- **(15sec Back)**: Select to skip back 15 seconds in the current selection. Select and hold to fast-rewind the current selection.
- **(d)** (15sec Skip): Select to skip forward 15 seconds in the current selection. Select and hold to fast-forward the current selection.
- **K** (Skip Down): Skips to the previously stored channel.
- (Skip Up): Skips to the next channel.
- | Pauses or plays a storing broadcast.
- LIVE: Returns to real-time broadcast.
- **OK**: Returns to previous channel.

■ Replay status display

Interface Dial

Display the replay status on the navigation screen when you listen to the playback.

Shows how much time the replayed segment is behind the real-time broadcast

On Demand Multi-Use Display™

Shows how much time the replayed segment is behind the real-time broadcast

■SportsFlashTM Alert

While listening to other channels, you can receive sports alerts such as scores from up to five of your favorite teams. The notification message appears on the navigation screen and On Demand Multi-Use DisplayTM when receiving sports alerts.

Interface Dial

- **1.** A pop-up appears and notifies you of a sports alert.
- 2. Select Listen Now.
 - ► Press the **BACK** button to return the previous screen.
 - ▶ If no operations are performed for 10 seconds, the system returns to the previous audio mode automatically.

The following items are available:

- Check Later: Returns to the previous screen and stores the received sports alert in the audio system. If other sports alerts are received in the same game, the notification message appears again.
- Ignore this Game: Returns to the previous screen and stores the received sports alert in the audio system. If other sports alerts are received in the same game, the notification message does not appear.

SportsFlash[™] Alert

The notification message does not appears on the navigation screen under the following circumstances:

- When you select other than the SiriusXM[®] Mode.
- When the start-up screen and Multi-view Rear Camera screen are displayed.

When a sports alert is received, the SportsFlash[™] Listen indicator appears on the navigation screen.

You can change the SportsFlash[™] setting. **D** Audio Settings P. 152

■ Receiving SiriusXM® Radio

The SiriusXM® satellites are in orbit over the equator; therefore, objects south of the vehicle may cause satellite reception interruptions. Satellite signals are more likely to be blocked by tall buildings and mountains the farther north you travel from the equator.

You may experience reception problems under the following circumstances:

- In a location with an obstruction to the south of your vehicle.
- In tunnels
- On the lower level of a multi-tiered road
- Large items carried on the roof rack

Playing a Disc

Your audio system supports audio CDs, CD-Rs and CD-RWs in either MP3, WMA, or AAC format. With the CD loaded, select the CD mode.

Selecting Disc Mode

- 1. Insert a disc into the disc slot.
 - ► The disc automatically being playing.

Interface Dial

- 2. Press the MENU button. (in AUDIO mode)
- **3.** Rotate $^{t} \bigcirc$ to select **Change Source**. Press \bigcirc .
- **4.** Rotate ^t or select **CD**. Press ⊗.

On Demand Multi-Use Display™

- 2. Select Source.
- 3. Select the CD icon.

▶ Playing a Disc

NOTICE

Do not use CDs with adhesive labels. The label can cause the CD to jam in the unit.

WMA and AAC files protected by digital rights management (DRM) cannot be played. The audio system displays Unplayable File, then skips to the next file.

Text data appears on the display under the following circumstances:

- When you select a new folder, file, or track.
- When you change the audio mode to CD.
- When you insert a CD.

If you eject the CD but do not remove it from the slot, the system reloads the CD automatically after several seconds.

You can control a CD audio using voice commands.

■ Protecting CDs

Follow these precautions when handling or storing CDs:

- Store a CD in its case when it is not being played.
- When wiping a CD, use a soft clean cloth from the center to the outside edge.
- Handle a CD by its edge. Never touch either surface.
- Never insert foreign objects into the CD player.
- Keep CDs out of direct sunlight and extreme heat.
- Do not place stabilizer rings or labels on the CD.
- Avoid fingerprints, liquids, and felt-tip pens on the CD.

Protecting CDs

NOTICE

Do not insert a damaged CD. It may be stuck inside and damage the audio unit.

Examples:

 Bubbled, wrinkled, labeled, and excessively thick CDs

Playing Hard Disc Drive (HDD) Audio

The Hard Disc Drive (HDD) Audio function plays tracks from music CDs that have been recorded onto the built-in HDD. You can arrange the tracks in playlists or play the tracks using various search methods.

Selecting HDD Mode

Interface Dial

- **1.** Press the **MENU** button. (in AUDIO mode)
- **2.** Rotate of to select **Change Source**. Press .
- **3.** Rotate to select **HDD**. Press to play tracks stored on the HDD.
 - ► Title information is displayed if found in the Gracenote® Album Info (Gracenote® Media Database) stored on the HDD.
 - ▶ The HDD has two types of playlists: original playlists and user playlists. An original playlist is automatically created for each album when a music CD is recorded. You can customize up to six user playlists provided on the HDD by adding tracks from your original playlists.

On Demand Multi-Use Display™

- 1. Select Source.
- **2.** Select the **HDD** icon to play tracks stored on the HDD.

Playing Hard Disc Drive (HDD) Audio

You can control the HDD audio using voice commands.

Noice Control Operation P. 6 Song By Voice™ (SBV) P. 206

Music tracks recorded on HDD cannot be recorded onto CDs or other devices.

Tracks are recorded at four times the playback speed using ultra-efficient compression technology; therefore, sound quality may vary slightly from the original.

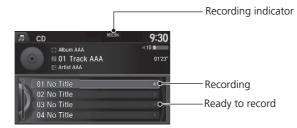

If the HDD is ever replaced, all music data is lost and cannot be recovered.

If there is a problem, you may see an error message on the display.

▶ Hard Disc Drive (HDD) Audio P. 344

Recording a Music CD to HDD

The songs on music CDs are automatically recorded by factory default to the HDD the first time you play each disc. You can then play the songs directly from the HDD.

■ Stopping Recording

- **1.** Press the **MENU** button. (in CD mode)
- **2.** Rotate ' to select **Cancel Record to HDD**. Press .

■ Recording a CD Manually

- **1.** Press the **MENU** button. (in CD mode)
- **2.** Rotate 🗑 to select **Rec to HDD**. Press 🗸.

■ Recording a Music CD to HDD

You can add tracks to user playlists, where you can mix and match tracks from other CDs recorded on the HDD

Editing an Album or Playlist P. 193 **Editing Track Information** P. 195

If you stop the engine or the power system is turned off while recording a CD, there may be pauses between songs when you play back from the HDD.

Repeat, random, and scan functions are not available during recording.

You can play music from other sources (e.g., SiriusXM[®], HDD, etc.) while recording.

Please note that there is no compensation offered in the case of unsuccessful recording of audio data or the loss of audio data due to any cause whatsoever

Clearing the HDD

Any music tracks stored on the HDD can be deleted

Audio Screen Control

Bluetooth[®] HandsFreeLink[®] (HFL) allows you to place and receive phone calls using your vehicle's navigation system, without handling your cell phone.

Using HFL

■ HFL Buttons

(Pick-up) button: Press to go to the **Speed Dial/Call History** on the multi-information display or to answer an incoming call.

(Hang-up/back) button: Press to end a call, to cancel a command or to clear the phone information on the multi-information display.

(Talk) button: Press to give HFL voice commands.

PHONE button: Press to go directly to the Phone screen.

Interface dial: Rotate $^{\prime}\bigcirc$ to select an item on the screen, then press $^{\circlearrowleft}$. Move $^{\circlearrowleft}$, $^{\circlearrowleft}$ or $^{\circlearrowleft}$ to select secondary menu.

Bluetooth[®] HandsFreeLink[®]

To use HFL, you need a *Bluetooth*®-compatible cell phone. For a list of compatible phones, pairing procedures, and special feature capabilities:

Visit www.acura.com/handsfreelink, or call 1-888-528-7876.

Voice control tips:

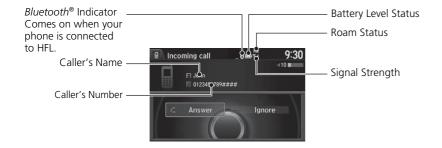

- Aim the vents away from the ceiling and close the windows, as noise coming from them may interfere with the microphone.
- Press and release the button when you want to call a number using a stored voice tag, a phonebook name, or a number. Speak clearly and naturally after a beep.
- If the microphone picks up voices other than yours, the command may be misinterpreted.
- To change the volume level, use the audio system's volume knob or the remote audio controls on the steering wheel.

State or local laws may prohibit the operation of handheld electronic devices while operating a vehicle

If you receive a call while using the audio system, the system resumes its operation an after ending the call

■ HFL Status Display

The audio/information screen notifies you when you have an incoming call.

Limitations for Manual Operation

Certain manual functions are disabled or inoperable while the vehicle is in motion.

You cannot select a grayed-out option until the vehicle is stopped.

Only previously stored speed dial entries with voice tags, phonebook names, or numbers can be called using voice commands while the vehicle is in motion.

Setting Up Speed Dialing P. 235

Bluetooth[®] HandsFreeLink[®]

Bluetooth® Wireless Technology

The *Bluetooth*® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc., and any use of such marks by Honda Motor Co., Ltd., is under license. Other trademarks and trade names are those of their respective owners.

HFL Limitations

An incoming call on HFL will interrupt the audio system when it is playing. It will resume when the call is ended.

Bluetooth® HandsFreeLink® (HFL) allows you to place and receive phone calls using your vehicle's navigation system, without handling your mobile phone.

► MFL Status Display

The information that appears on the audio/ information screen varies between phone models.

You can change the system language to English, French, or Spanish.

≥ Language Settings P. 36

Pairing a Phone

PHONE button

When no *Bluetooth*®-compatible phone is paired, the following screen appears:

- **1.** Rotate ' to select **Yes**. Press .
- **2.** Make sure your phone is in search or discoverable mode. Press ♂.
 - ► HFL automatically searches for a Bluetooth® device.

- **3.** When your phone appears on the list, select it by pressing ♂.
 - ▶ If your phone does not appear, you can select Refresh to search again.
 - ▶ If your phone still does not appear, move ♀ to select Phone not Found? and search for Bluetooth® devices using your phone. From your phone, select HandsFreeLink.

Pairing a Phone

Your Bluetooth®-compatible phone must be paired to HFL before you can make and receive hands-free calls.

Phone Pairing Tips:

- You cannot pair your phone while the vehicle is moving.
- Up to six phones can be paired.
- Your phone's battery may drain faster when it is connected to HFL.
- If your phone is not ready for pairing or not found by the system within three minutes, the system will time out and returns to idle.

Once you have paired a phone, you can see it displayed on the screen with one or two icons on the right side.

These icons indicate the following:

: The phone can be used with HFL.

: The phone is compatible with *Bluetooth®* Audio.

- **4.** HFL gives you a pairing code on the audio/information screen.
 - Confirm if the pairing code on the screen and your phone match.
 This may vary by phone.
- **5.** You will receive a notification on the screen if pairing is successful.

▶ Pairing a Phone

When pairing is completed, an **Automatic Phone Sync** prompt appears. Select **On** if you want your call history and phonebook automatically imported to HFL.

► Automatic Phone Sync setting P. 250

Some phones may have an additional setting to allow the phone to auto connect each time you turn on your vehicle.

■ Pairing from Phone Setup

SETTINGS button ► Phone Settings ► Connect Phone

- **1.** Rotate oto select Add Bluetooth Device.
- **2.** Make sure your phone is in search or discoverable mode. Press **3**.
 - ► HFL automatically searches for a Bluetooth® device.

Continued 229

- **3.** When your phone appears on the list, select it by pressing *℧*.
 - ► If your phone does not appear, you can select **Refresh** to search again.
 - If your phone still does not appear, move

 to select Phone not Found? and search for Bluetooth® devices using your phone. From your phone, select HandsFreeLink.
- **4.** HFL gives you a pairing code on the audio/information screen.
 - ➤ Confirm if the pairing code on the screen and your phone match. This may vary by phone.
- **5.** You will receive a notification on the screen if pairing is successful.

■ Changing the Pairing Code

Settings button **System Settings Edit Pairing Code**

Rotate or Random. Press .

∑ Changing the Pairing Code

The pairing code may be six or four digits depending on your phone.

The default pairing code is **0000** until you change the setting.

To create your own, select **Fixed**, and delete the current code, then enter a new one.

For a randomly generated pairing code each time you pair a phone, select **Random**.

■ Changing the Currently Paired Phone

§ SETTINGS button ▶ Phone Settings ▶ Bluetooth Device List

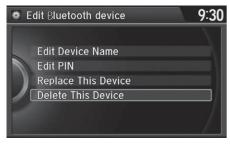

- 2. Rotate or to select Replace This Device. Press .
- **3.** HFL enters the pairing process and searches a new phone.
 - Follow the prompts to pair a new phone.
- **4.** You will receive a notification on the screen if pairing is successful.

∑ Changing the Currently Paired Phone

The replaced phone will keep the same speed dial entries, and security PIN information from the previously paired phone.

■ Deleting a Paired Phone

§ SETTINGS button ▶ Phone Settings ▶ Bluetooth Device List

- **1.** Rotate '♥ to select a paired phone you want to replace. Press ♥.
- 2. Rotate ^t⊙ to select **Delete This Device**. Press ⊖.

- **3.** You will receive a confirmation message on the screen. Rotate [™] to select **Yes**. Press [™].
- **4.** You will receive a notification on the screen if deletion is successful.

Importing Phonebook Data

When your phone is paired, the contents of its phonebook and call history are automatically imported to HFL.

When you select a person from the list in the cellular phonebook, you can see up to three category icons. The icons indicate what types of numbers are stored for that name.

Pref

Fax

Home

Car

Mobile

Other

Work

Message

Pager

Voice

On some phones, it may not be possible to import the category icons to HFL.

The phonebook is updated after every connection. Call history is updated after every connection or call.

Setting Up Speed Dialing

§ MENU button (on Phone screen) ► Speed Dial

Up to 20 speed dial numbers can be stored per phone.

1. Rotate '♥ to select **New Entry**. Press ♥.

2. Rotate '♥ to select a number entry method. Press ♥.

The following options are available:

- Import from Call History: Select a number from the call history.
- Manual Input: Input the number manually.
- Import from Phonebook: Select a number from the linked cell phone's imported phonebook.

Setting Up Speed Dialing

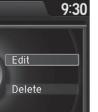

When a voice tag is stored, press the <u>\lambda</u> button to call the number using the voice tag. Say "Call" and the voice tag name.

Voice tags allow you to call speed dial entries from the **Voice Portal** screen or **Phone call** screen by saying the voice tag name.

■ Registering a Voice Tag to a Speed Dial Entry

§ SETTINGS button ▶ Phone Settings ▶ Edit Speed Dial

- **1.** Select an existing speed dial entry.
- **2.** From the pop-up menu, rotate $^{\prime} \bigcirc$ to select **Edit**. Press 💍
- **3.** Rotate or to select Voice Tag. Press \boxtimes .
- **4.** From the pop-up menu, rotate $^t \bigcirc$ to select **Record**. Press 💍.
- **5.** Press ⊘.
 - ▶ Using the 🖟 (Talk) button, follow the prompt to enter a voice tag.

■ Registering a Voice Tag to a Speed Dial Entry

Avoid using duplicate voice tags.

Avoid using "home" as a voice tag.

It is easier for HFL to recognize a longer name. For example, use "John Smith" instead of "John."

■ To delete a voice tag

- **1.** Select an existing speed dial entry.
- 2. From the pop-up menu, rotate to select Edit. Press .
- **3.** Rotate ^{*}⑦ to select Voice Tag. Press ⊗.
- **4.** From the pop-up menu, rotate of to select **Clear**. Press ♂.
- **5.** You will receive a confirmation message on the screen. Rotate to select **Yes**. Press *⋈*.

■ To delete a speed dial

- **1.** Select an existing speed dial entry.
- 2. From the pop-up menu, rotate 'or' to select Delete. Press ℧.
- **3.** You will receive a confirmation message on the screen. Rotate to select **Yes**. Press ♂.

■ Setting Phone Shortcuts

You can preset five previously stored speed dial entries, and make a call from one of the preset numbers, or call history when the phone is paired and connected to the vehicle's *Bluetooth*[®] HandsFreeLink[®] (HFL) system.

Setting Up Speed Dialing P. 235

- To preset a speed dial
- 1. Select Shortcuts
- 2. Select Phone.
- 3. Select Speed Dial.
- **4.** Select **Edit** or **No Entry**.
 - ► If you select **No Entry**, go to step 6.
- 5. Select Add.
 - Five presets appear. Select a **No Entry** preset or an existing preset.
 - ➤ The screen changes to a list of previously stored speed dial entries.

≥ Setting Phone Shortcuts

Dial icon

You can make a call using the keyboard on the On Demand Multi-Use Display™ to input numbers.

Entering a Phone Number P. 253

6. Select a number you want to store as a shortcut.

- To make a call from a speed dial entry
- 1. Select Shortcuts.
- 2. Select Phone.
- 3. Select Speed Dial.
- **4.** Select a preset number.
 - ▶ Dialing starts automatically.

Continued 239

- To delete a speed dial
- 1. Select Shortcuts
- 2. Select Phone.
- 3. Select Speed Dial.
- 4. Select Edit.
- 5. Select Delete
- **6.** Select the preset number with the phone number you want to delete.
- To make a call from call history
- 1. Select Shortcuts.
- 2. Select Phone.
- 3. Select Call History.
- **4.** Select a phone number.
 - ▶ Dialing starts automatically.

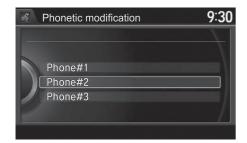

>> To make a call from call history

The call history displays the last six dialed, received, or missed calls.

Phonebook Phonetic Modification

§ SETTINGS button ► System Settings ► Phonebook Phonetic Modification

Add phonetic modifications or a new voice tag to the phone's contact name so that it is easier for HFL to recognize voice commands.

■ To add a new voice tag

1. Rotate '♥ to select the phone you want to add phonetic modification to. Press ♥.

2. Rotate ♥ to select **New Voice** Tag. Press ♥.

You can store up to 20 phonetic modification items.

- **3.** Move <□ or □▷ and rotate '□' to select a contact name. Press 🕹.
 - ► The pop-up menu appears on the screen.

- **4.** Rotate or to select **Modify**. Press
- **5.** Using the we button, follow the prompts to complete the voice tag.
- **6.** You will receive a confirmation message on the screen. Rotate 'T to select **OK**. Press 💍.
- 7. The screen returns to the New Voice Tag screen. Move ♀ and rotate ♂ to select **OK**. Press ఆ.

■ To modify a voice tag

- **1.** Rotate '♥ to select the phone you want to add phonetic modification to. Press ♥.
- 2. Rotate or to select a contact name you want to modify. Press ...
 - The pop-up menu appears on the screen.
- **3.** Rotate 🗑 to select **Modify**. Press 💍.
- **4.** Using the button, follow the prompts to complete the voice tag.
- **5.** You will receive a confirmation message on the screen. Rotate '○' to select **OK**. press ⑤.

Management Phonetic Modification

You can only modify or delete contact names for the currently connected phone.

Continued 243

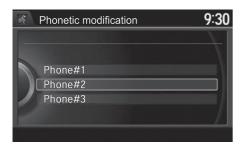

■ To delete a modified voice tag

- **1.** Rotate 'ô' to select the phone you want to delete phonetic modification. Press ♂.
- 2. Rotate 'ô' to select a contact name you want to delete. Press ♂.
 - The pop-up menu appears on the screen.
- **3.** Rotate ^r to select **Delete**, then press ♂.
 - ltems to be deleted are indicated with a trash icon.

4. Move $\begin{cases} \end{cases}$ and rotate $\begin{cases} \end{cases}$ to select OK. Press $\begin{cases} \end{cases}$.

■ To delete all modified voice tags

- **1.** Rotate ^{*} To select the phone you want to delete phonetic modification. Press ℧.
 - ► The contact name list appears.
- 2. Move ♀ and rotate ♥ to select Delete All. Press ゼ.
- **3.** You will receive a confirmation message on the screen. Rotate *♥ to select OK. press ♥.

Phone Settings

§ **SETTINGS** button ▶ **Phone Settings**

Set HFL options and features.

■ Editing a Security PIN

§ SETTINGS button ▶ Phone Settings ▶ Bluetooth Device List

You can protect each of the six cell phones with a security PIN.

- **1.** Rotate to select the phone you want to add a security PIN to. Press .
- 2. Rotate ^t⊘ to select Edit PIN. Press ⊗.

- **3.** Enter a new four-digit number. Rotate ot to select **OK** to enter the security PIN.
 - ► Move <□ to delete.
- 4. Re-enter the four-digit number.
 - ► The screen returns to the screen in step 4.

Editing a Security PIN

If the phone is already security PIN protected, you need to enter the current security PIN before clearing the PIN or creating a new one.

You can use the keyboard on the On Demand Multi-Use Display $^{\text{TM}}$ to input numbers. Select numbers, then \mathbf{OK} .

■ Editing User Name

§ SETTINGS button ▶ Phone Settings ▶ Bluetooth Device List

Edit the user name of a paired phone as follows:

- **1.** Rotate '♥ to select a phone you want to edit. Press ♥.
- 2. Rotate of to select Edit Device Name. Press .

- **3.** Enter a new name of the phone.
 - ► Rotate 🗑 or move 🦃 to select OK to enter the name. Press 🕹.
 - ► Move <□ to delete.

■ Editing User Name

You can use the keyboard on the On Demand Multi-Use Display™ to input numbers.

■ Automatic Transferring

§ **SETTINGS** button ▶ **Phone Settings** ▶ **Auto Transfer**

If you get into the vehicle while you are on the phone, the call can be automatically transferred to HFL.

Rotate 'O' to select **On**. Press 🕹.

Auto Answer

§ SETTINGS button ▶ Phone Settings ▶ Auto Answer

You can set HFL to automatically answer an incoming call in four seconds.

Rotate 🗇 to select **On**. Press 🕹.

■ Ring Tone

§ SETTINGS button ▶ Phone Settings ▶ Ring Tone

You can change the ring tone setting.

Rotate \bigcirc to select your desired setting item. Press \bigcirc .

The following items are available:

- **Fixed**: The fixed ring tone sounds from the speaker.
- **Mobile Phone**: The ring tone stored in the connected cell phone sounds from the speaker.
- Off: No ring tones sound from the speaker.

■ Automatic Phone Sync setting

§ SETTINGS button ▶ Phone Settings ▶ Automatic Phone Sync

Rotate ${}^{t} \bigcirc^{t}$ to select **On** or **Off**. Press

■ Use Contact Photo

§ SETTINGS button ▶ Phone Settings ▶ Use Contact Photo

You can display a caller's picture on an incoming call screen.

Rotate 🗑 to select **On**. Press 💆.

Select **On** if you want your call history and phonebook automatically imported to HFL. If prompted by your phone, please accept the import request.

Not all phones require this additional step.

Making a Call

You can make calls by inputting any phone number, or by using the imported phonebook, call history, speed dial entries, or redial.

Making a Call

Any voice-tagged speed dial entry, phonebook name, or number can be dialed by voice from most screens. Press the 🚱 button and say "Call" and the voice tag name, "Call by name" and the phonebook name, or "Call" and the phone number.

The maximum range between your phone and vehicles is 30 feet (10 meters).

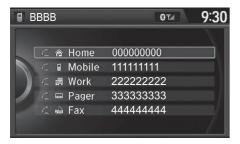

Once a call is connected, you can hear the voice of the person you are calling through the audio speakers.

■ Using the Phonebook

§ MENU button (on Phone screen) ▶ Phonebook

- **1.** The phonebook is stored alphabetically. Move \mathbb{Q} to **Search**.
 - You can use the keyboard on the touch screen for an alphabetical search.

- 2. Rotate * to select a number.
 Press ♥.
 - ▶ Dialing starts automatically.

≥ Using the Phonebook

This function is disabled while the vehicle is moving. However, you can call a stored voice-tagged speed dial number, phonebook name, or number using voice commands.

■ Limitations for Manual Operation P. 227 **■ Setting Up Speed Dialing** P. 235

You can use the keyboard on the On Demand Multi-Use Display™ for an alphabetical search.

■ Entering a Phone Number

§ MENU button (on Phone screen) ▶ Dial

- **1.** Rotate '♥ to select a number. Press ♥.
- **2.** Rotate 🗑 to select 🗷. Press 💆.

■ Using Redial

§ MENU button (on Phone screen) ► Redial

You can display a caller's picture on an incoming call screen.

Rotate ' to select Dial. Press ८.

▶ Dialing starts automatically.

This function is disabled while the vehicle is moving. However, you can call a stored voice-tagged speed dial number, phonebook name, or number using voice commands.

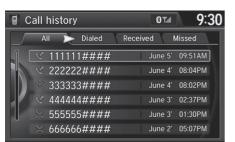

- Limitations for Manual Operation P. 227
- Setting Up Speed Dialing P. 235

■Using Call History

§ MENU button (on Phone screen) ► Call History

Call history is stored by All, Dialed, Received, and Missed.

- **1.** Move <a>□ or <a>□ to select All, <a>Dialed, Received, and Missed.
- 2. Rotate [™] to select a number. Press [™].
 - ▶ Dialing starts automatically.

Multi-information Display

- **1.** Press the **4** button.
- **2.** Move the left selector wheel right to select **Call History**.
- **3.** Roll the left selector wheel to select a number.
- **4.** Push the left selector wheel or the button.
 - ▶ Dialing starts automatically.

Using Call History

The call history displays the last 20 dialed, received, or missed calls.

(Appears only when a phone is connected to HFL.)

These icons next to the number indicate the following:

: Dialed calls

: Received calls

: Missed calls

Multi-information Display

The call history displays the last 12 dialed, received, or missed calls.

■ Using Speed Dial

§ MENU button (on Phone screen) ► Speed Dial

Rotate to select a number. Press

▶ Dialing starts automatically.

Multi-information Display

- **1.** Press the **\(\sigma** button.
- **2.** Move the left selector wheel left to select **Speed Dial**.
- **3.** Roll the left selector wheel to select a number.
- **4.** Push the left selector wheel or the button.
 - ▶ Dialing starts automatically.

■ Using Speed Dial

Move \mathbb{Q} to select **More Speed Dials** to view another paired phone's speed dial list. You can make a call from that list using the currently connected phone.

When a voice tag is stored, press the button to call the number using the voice tag.

Setting Up Speed Dialing P. 235

Any voice-tagged speed dial entry, phonebook name or number can be dialed by voice from any screen. Press the fig. button and follow the prompts.

Multi-information Display

The speed dial displays the 20 speed dial entries.

Receiving a Call

When there is an incoming call, an audible notification sounds (if activated) and the Incoming call screen appears.

- **1.** Press the button to answer the call.
- 2. Press the button to decline or end the call.

■ Receiving a Call

Call Waiting

Press the **L** button to put the current call on hold to answer the incoming call.

Press the button again to return to the current call.

Ignore the incoming call if you do not want to answer it.

Press the button if you want to hang up the current call.

You can select the icons on the On Demand Multi-Use Display™ instead of the ☑ and ⇒ buttons.

■ Options During a Call

The available options are shown on the Phone screen.

➤ The mute icon appears when Mute is selected. Select Mute again to turn it off.

The following options are available during a call:

- Mute: Mute your voice.
- Transfer: Transfer a call from HFL to your phone.
- **Touch Tones**: Send numbers during a call. This is useful when you call a menudriven phone system.

■ Options During a Call

Touch Tones: Available on some phones.

You can select the icons on the On Demand Multi-Use $\mathsf{Display}^\mathsf{TM}$.

Text/E-mail Message

Setting a Text/E-mail Message

■ To turn on or off the text/E-mail message function

§ SETTINGS button ▶ Phone Settings ▶ Enable Text/Email

Rotate to select **On** or **Off**. Press

■To turn on or off the text/E-mail message notice

§ SETTINGS button ▶ Phone Settings ▶ New Text/Email Alert

Rotate \bigcirc to select **On** or **Off**. Press

The following items are available:

- On: A pop-up notification comes on every time you receive a new text message.
- Off: The message you receive is stored in the system without notification.

▼ Text/E-mail Message

Some text/e-mail features may not be available depending on a cellular phone.

Selecting a Mail Account

§ SETTINGS button ▶ Phone Settings ▶ Select Account

If a paired phone has text message or mail accounts, you can select one of them to be active and receive notifications.

Rotate of to **Text Messages** or an E-mail account you want. Press of.

You can also select a mail account from the folder list screen or the message list screen. Move $\begin{cal}Q\end{cal}$ to select **Select Account**, then press $\begin{cal}D\end{cal}$

You can only receive notifications from one text message or mail account at a time.

Receiving a Text/E-mail Message

HFL can display newly received text and E-mail messages as well as 20 of the most recently received messages on a linked cell phone. Each received message can be read aloud and replied to using a fixed common phrase.

- **1.** A pop-up appears and notifies you of a new text or E-mail message.
- **2.** Rotate ^t or select **Read** to listen to the message. Press ♂.
 - ➤ The text or E-mail message is displayed. The system automatically starts reading out the message.
- **3.** To discontinue the message readout. Press ♂.

■ Receiving a Text/E-mail Message

The system does not display any received messages while you are driving. You can only hear them read aloud.

With some phones, you may be able to display up to 20 most recent text and E-mail messages.

State or local laws may limit your use of the HFL text/E-mail message feature. Only use the text/E-mail message feature when conditions allow you to do so safely.

When you receive a text or E-mail message for the first time since the phone is paired to HFL, you are asked to turn the **New Text/Email Alert** setting to On.

▶ To turn on or off the text/E-mail message notice P. 258

Displaying Messages

Displaying text messages

MENU button (on Phone screen) ► Text/Email

- 1. Select account if necessary.
- **2.** Rotate [©] to select a message. Press [⊗].
 - ➤ The text message is displayed. The system automatically starts reading the message aloud.

Displaying Messages

The icon appears next to an unread message.

If you delete a message on the phone, the message is also deleted in the system. If you send a message from the system, the message goes to your phone's outbox.

To see the previous or next message, move $\triangleleft \bigcirc$ or $\bigcirc \triangleright$ on the text message screen.

Some phones may have an additional setting to enable this feature.

■ Displaying E-mails

§ MENU button (on Phone screen) ► Text/Email

1. Rotate ${}^{t} \bigcirc^{t}$ to select a folder. Press \boxtimes .

- **2.** Rotate ^{*}♥ to select a message. Press ♥.
 - ➤ The text message is displayed. The system automatically starts reading the message aloud.

Displaying E-mails

Received text and E-mail message may appear in the message list screen at the same time. In this case, text messages are titled **No subject**.

■ Read or stop reading a message

- **1.** Go to the text or E-mail message screen.
 - ► The system automatically starts reading the message aloud.

 ▶ Displaying Messages P. 261
- 2. Press 💆 to stop reading.

 Press 💆 again to start reading the message from the beginning.

■ Reply reading a message

- **1.** Go to the text or E-mail message screen.
 - ► The system automatically starts reading the message aloud.
 ▶ Displaying Messages P. 261
- 2. Move ♀ and rotate * to select Reply. Press ♂.

Continued 263

- **3.** Rotate '♥ to select the reply message. Press ♥.
 - The pop-up menu appears on the screen.
- **4.** Select **Send** to send the message.
 - ► Message Sent appears on the screen when the reply message was successfully sent.

■ Making a call to a sender

- **1.** Go to the text message screen. The system automatically starts reading the message aloud.
 - Displaying text messages P. 261
- 2. Move ♀ and rotate ♥ to select Call. Press ♂.

Reply to a message

The available fixed reply messages are as follows:

- Talk to you later, I'm driving.
- I'm on my way.
- I'm running late.
- OK
- Yes
- No

You cannot add, edit, or delete reply messages.

Only certain phones receive and send messages when paired and connected. For a list of compatible phones:

- U.S.: Visit www.acura.com/handsfreelink, or call 1-888-528-7876.
- Canada: Visit www.handsfreelink.ca, or call 1-888-528-7876.

Roadside Assistance*

§ MENU button (on Phone screen) ► Roadside Assistance

Provides a nationwide service for unexpected incidents. You can call for assistance using a phone paired and connected to *Bluetooth*® HandsFreeLink®.

Rotate $^{\prime}$ to select a phone number. Press $\stackrel{\smile}{\otimes}$.

▶ Dialing starts automatically.

If you are subscribed to a paid AcuraLink® package, you can call the roadside assistance using the LINK button instead of your phone.

^{*:} Not available on all models

HFL Menus

The power mode must be in ACCESSORY or ON to use HFL.

■ Phone Settings screen

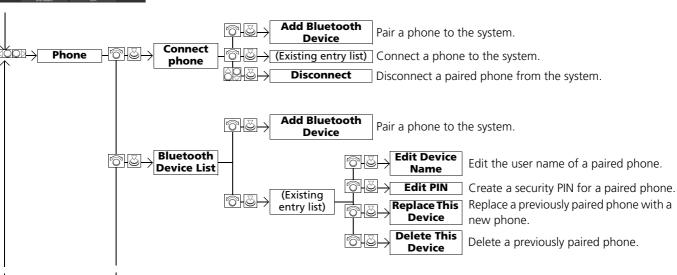

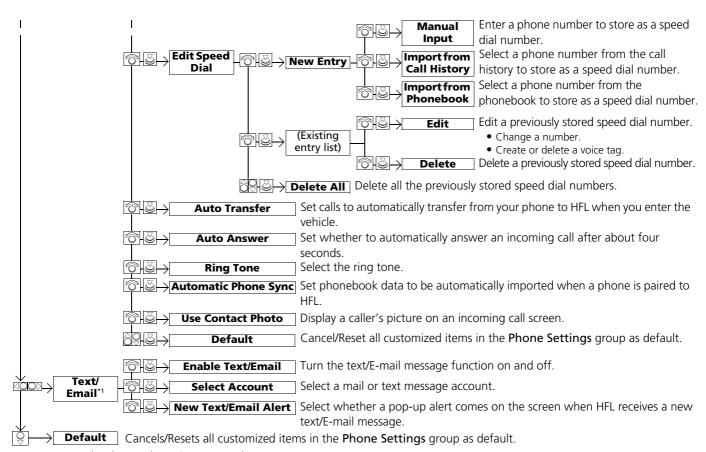

- 1. Press the **SETTINGS** button.
- **2.** Rotate '♥ to select **Phone Settings**, then press ♥.

>> HFL Menus

To use HFL, you must first pair your *Bluetooth®*-compatible cell phone to the system while the vehicle is parked.

Some functions are limited while driving. A message appears on the screen when the vehicle is moving and the operation is canceled.

■ Phone screen

- 1. Press the PHONE button.
- **2.** Press the **MENU** button to display the menu items.

*1: Appears only when a phone is connected to HFL.

- *1: Appears only when a phone is connected to HFL.
- *2: Not available on all models
- *3: This function is not available if your phone is not supported.

AcuraLink®

This section describes how Acura directly communicates important information to you regarding your vehicle.

\curaLink [®]	272
In Case of Emergency	272
Security Features	274
Operator Assistance	27!
AcuraLink® Message	276
AcuraLink® Subscription Status	279

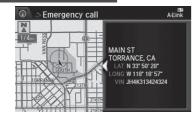

AcuraLink®

Is a subscription-based service that provides convenient features such as voice communication in case of emergency, online security, one-on-one operator assistance, and the transmission of important messages regarding your vehicle's status.

In Case of Emergency

Automatic collision notification

Audio/Information Screen

On Demand Multi-Use Display™

If your vehicle's airbags deploy or if the unit detects that the vehicle is severely impacted, your vehicle automatically will attempt to connect to the AcuraLink® operator. Once connected, information about your vehicle, its positioning, and its condition will be sent to the operator; you also can speak to the operator when connected

AcuraLink® also provides services you can operate from the Internet or your smartphone.

To subscribe to AcuraLink®, or to get more information about all of its features, contact an Acura dealer or visit owners.acura.com.

In Case of Emergency

Your vehicle may not be able to connect to the operator if the battery level is low, the line is disconnected or you do not have adequate cellular coverage.

You cannot use emergency services when:

- You travel outside the AcuraLink® service coverage areas.
- There is a problem with the connecting devices, such as the ASSIST button, microphone, speakers, or the unit itself.
- You are not subscribed to the service or your subscription is no longer valid.

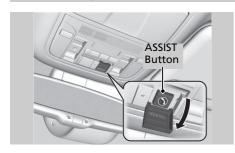

You cannot operate other navigation- or phonerelated functions using the screens while talking to the operator.

Only the operator can terminate the connection to your vehicle.

Matter Automatic collision notification

If the unit fails to connect to the operator, it repeatedly tries until it succeeds.

■ Manual operator connection

If you need to talk to the AcuraLink® operator in an emergency situation, you can manually connect to them by pressing the **ASSIST** button with the power mode in ACCESSORY or ON.

- **1.** Open the cover attached to the ceiling console.
- **2.** Press the **ASSIST** button.
 - ➤ You are connected to the AcuraLink® operator.

Manual operator connection

Do not press the button while driving. When you need to contact the operator, park the vehicle in a safe place.

If the unit fails to connect to the operator, it automatically cancels the action after three minutes.

In an emergency, the cover can be broken through to press the **ASSIST** button.

Security Features

Your subscribed telematics service provider can track your vehicle's location, remotely lock or unlock doors, and help you find your vehicle.

To use these features, you need your user ID and personal identification number (PIN).

■ Stolen vehicle tracking

This feature searches and tracks down your vehicle position even if it is on the move. If you believe that your vehicle has been stolen, contact the police as well as the provider.

■ Remote door lock/unlock

The provider can remotely lock or unlock doors upon your request.

■ Vehicle finder

This feature is convenient to use when trying to locate your vehicle in large areas, such as a crowded parking lot. If you cannot locate your vehicle after using the remote transmitter's answerback function, you can contact the provider which can then flash your vehicle's exterior lights and sound the horn.

■ Security alarm notification

If the security system in your vehicle detects an abnormal condition, such as someone tampering with the lock on your vehicle, the provider notifies you by your preferred method.

Security Features

The contact information of your provider, your user ID and PIN will be given when you subscribe to AcuraLink®. If you forget any of the above, contact a dealer or go to *owners.acura.com*.

You can also activate the remote door lock/ unlock and vehicle finder features from the Internet or using your smartphone app. Ask a dealer or visit owners.acura.com for details.

>> Vehicle finder

The lights will stop flashing and horn will stop sounding under the following conditions:

- When 30 seconds have elapsed.
- You unlock the doors using the remote transmitter.
- You unlock the doors using the keyless access system.
- You unlock the doors using the built-in key.
- The power mode is set to ACCESSORY or ON.

Operator Assistance

Connect to the AcuraLink® operator when trying to find a destination or for roadside assistance.

Command menu

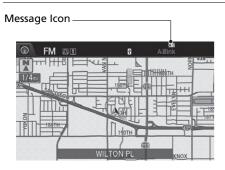

1. Roadside Assistance
2. New Destination

- 1. Press the LINK button.
 - Connection to the operator begins.

- **2.** Talk to the operator.
 - ➤ To disconnect, rotate 🕝 to select Hang Up, select End Call on the On Demand Multi-Use DisplayTM, or press the Hang-up button.

Remain attentive to road conditions and driving during operator assistance.

AcuraLink® Message

AcuraLink® sends you messages on vehicle features, safety and emissions recall campaigns, maintenance reminders, and diagnostic information.

When you receive a new message, an icon appears on the upper right corner of the audio/information screen.

■ AcuraLink® Message

Messages may not appear immediately after your vehicle purchase. It can take several days for your dealer to register your vehicle's ID.

If an icon includes an exclamation point, it indicates that Acura gives high priority to this message compared to the one without.

- All: An unread message with high priority
- An unread message

Message category

There are six message categories.

- Feature Guide: Messages about your vehicle and its features are sent daily for the first 90 days.
- Quick Tips: Supplements your Owner's Manual with updated vehicle information.
- **Diagnostic Info**: Appears when a warning indicator or message comes on. Rotate of to select **Check Later** or **Check Now**.
 - Selecting Check Now lets you know if you should see a dealer immediately or later in accordance with the warning severity level.
- Scheduled Dealer Appointment: An appointment made through the Acura server or Acura Owners website can be rescheduled or canceled from this option.
 Dealer Appointments P. 278
- Maintenance Minder: Lets you know which maintenance item is due along with a reminder message.
- Recalls/Campaigns: Reminds you of a recall or important safety information. You should also be notified by mail.

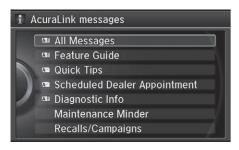

Message category

The types of messages you receive can be modified. Ask a dealer or visit owners.acura.com.

You can call your dealer, find the nearest dealer, or schedule appointments from the message options in Maintenance Minder, Recalls/ Campaigns, and Diagnostic Info.

Message Options P. 277

Reading a message

- 1. Press the INFO button, rotate [™] to select AcuraLink/Messages, then press [™].
 - ► If your display has changed from Info menu to Current Drive, press the MENU button.
 - ► Select AcuraLink messages.
- **2.** Rotate [™] to select a category, then press [™].
 - ► If there are unread messages in a category, a message icon appears next to that category.
- **3.** Rotate [™] to select a message you want to read, then press [™].

Message Options

While a message is displayed, you can use options to take immediate action to the message.

Available options are:

• Voice: Reads the message aloud. Select Stop to cancel it.

Reading a message

If there is no message listed on the menu, **AcuraLink/Messages** is grayed out and cannot be selected.

The message icon disappears once you read the message.

However, the exclamation mark that indicates that the message has a high priority remains.

• I : A read message with high priority.

Message Options

The available options vary by message category.

You can delete all messages in a category at once.

- Find Acura Dlr.: Searches for the nearest Acura dealer.
- **Delete**: Deletes the displayed message.
- Call Your Dealer: Calls your Acura dealer using HFL.
- Schedule Dealer Appointment: Automatically sets an appointment date at your dealer.
- Phone number: Dials a number displayed in the message via HFL.
- **Diagnostic Info**: Updates the current diagnostic message by connecting to the Acura server using HFL.

■ Dealer Appointments

You can confirm the scheduled appointment date when you receive a **Maintenance Minder** or **Recalls/Campaigns** message, or reschedule any existing appointments.

- 1. Select a Maintenance Minder, Recalls/Campaigns, or Scheduled Dealer Appointment message.
- 2. Rotate oto select Scheduled
 Dealer Appointment or
 Reschedule Appointment
 (depending on the screen). Press
 ...
 - A suggested time and date are displayed.
- **3.** Rotate ¹⊘¹ to select **Confirm Appointment**. Press ♂ to accept the time and date.
- **4.** Press \circlearrowleft to select **OK**.

Dealer Appointments

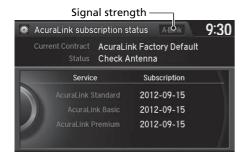

To set up an automated dealer appointment when a regular maintenance is due, visit the Acura Owners website at *owners.acura.com* and set the required option. A reminder message will be sent as the date for the dealer appointment approaches. A reminder message will also be sent if you schedule an appointment online using the **Schedule Service Appointment** function.

If you are not satisfied with the proposed appointment date and time, call your dealer directly.

To cancel the scheduled appointment, select **Cancel Appointment** when a message is displayed.

AcuraLink® Subscription Status

§ SETTINGS buttons (in FM mode) ► Info Settings ► AcuraLink Subscription Status

Confirm your AcuraLink® subscription status.

Item	Information
A- ink	You can check the signal strength.
Current Contract	The AcuraLink® subscription number and subscription level is displayed.
Service	You can confirm the type of service.
Subscription	You can confirm the expiration date.
Status	 The following message can be displayed: Check Antenna: There is a problem with the AcuraLink® antenna. Contact a dealer. No data: The signal is received, but some error has occurred in the system. OK: The system is receiving the signal.

Rear Entertainment System

Rear seat passengers can enjoy a completely separate entertainment source than front passengers, including movies, games, and other audio choices.

Rear Entertainment System	282

- Language Settings: Selects a menu language of the DVD (top) menu.
 Selecting the DVD Menu Language P. 293
- Dynamic Range: Sets whether to control the range of the loud and low sounds.
 On: Adjusts the dynamic range to easily hear the low sound.
 Off (factory default): Disables the feature.
- Angle Mark: Sets whether to display the angle symbol.
 On: Displays the angle symbol when playing the multiple angle scenes.
 Off (factory default): Disables the feature.

■ Selecting the DVD Menu Language

MENU button (in the DVD mode) ► Initial Settings ► Language Settings

- **1.** Select an item. Press the **ENTER** button.
- **2.** Select a language. Press the **ENTER** button.

Selecting the DVD Menu Language

When you select **Other**, enter a 4-digit language code.

Dual Screen Mode (Ultrawide RES only)

Select between the two screen modes, single or dual.

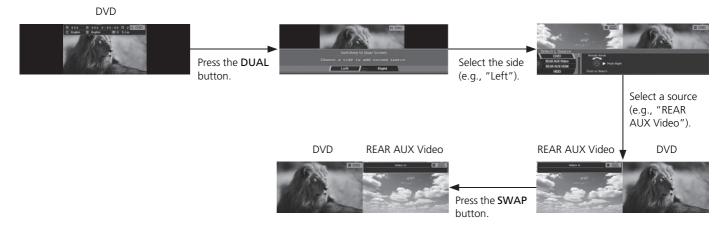

■ Single Mode

The selected source is displayed in the center of the screen.

■ Dual Mode

Two separate screens are displayed side by side. You can only select one output source from the front audio system. The other source must come from "REAR AUX Video" or "REAR AUX HDMI".

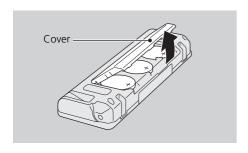

■ Single mode to Dual mode

■ Dual mode to Single mode

Replacing the Batteries

- Remove the rear control panel.
 Overhead Screen and Rear Control Panel P. 15
- 2. Open the cover.
- **3.** Change the batteries.
 - ▶ Battery type: BR3032

■ Replacing the Batteries

An improperly disposed of battery can hurt the environment. Always confirm local regulations for battery disposal.

Front Control Panel Operation

Operate the Rear Entertainment System (RES) from the front control panel.

Selecting the Audio Source using front control panel

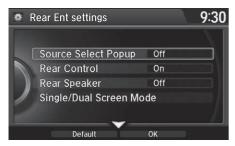

- **1.** Press the Rear (Power) button on the front control panel.
- 2. Press the REAR AUDIO button.
 - The rear source is displayed on the front audio/information screen and the On Demand Multi-Use Display™.
 - ► The rear source is heard from the front speakers.
- **3.** Select **Rear Source** on the On Demand Multi-Use Display™.
- **4.** Select the audio source icon on the On Demand Multi-Use Display™.
- **5.** Select a station, channel, track, or chapter in the same way as the front audio system.

■ Audio P. 143

Rear System Setup

§ SETTINGS button ► Rear Ent Settings

- **1.** Rotate 🗑 to select an item. Press 💍.
- **2.** Rotate oto select an option. Press .

- Source Select Popup: Selects whether the list of selectable audio sources comes on when the AUDIO button is pressed.
- Rear Control: Sets whether to use the rear control panel to control the RES.
 On (factory default): Operates the RES using the rear control panel.
 Off: Disables the feature.
- Rear Speaker: Sets the front audio source to play through the rear speakers, even when the RES is on. The RES source can only be heard through the wireless headphones.
 - On (factory default): Outputs the sound of the front source to the rear speakers. Off: Disables the feature.
- Single/Dual Screen Mode (Ultrawide RES only): Selects a source to continue playing when you switch from dual mode to single mode on the overhead screen. Rotate 👸 to select a source and press 💆.

Setting the DVD Menu

Interface Dial

MENU button (in DVD mode)

- **1.** Rotate [™] to select an item. Press [™] .
 - Select Advanced Function to display additional menu entries.

2. Rotate or to select an option. Press .

The following items are available:

- Sound: Adjusts the settings of the audio speaker's sound.

 ■ Adjusting the Sound P. 154
- Top Menu: Displays the top menu of the DVD.
- Menu: Displays the menu of the DVD.
- Repeat:

Repeat Title: Repeats the current title.

Repeat Chapter: Repeats the current chapter.

- Change Source: Changes the audio source mode.
- Play/Pause: Pauses or resume the playback.
- **Stop**: Stops the playback.
- Audio/Subtitle: Selects the language of the DVD audio and the DVD subtitle.
- Angle: Selects the angle of a scene shot with multiple cameras.
- Return: Hides the DVD menu.
- Number Input: Enters a number of a title or chapter to skip.
- Chapter/Title Search: Skips to a title or chapter by Interface Dial.

On Demand Multi-Use Display™

- 1. Select More.

 Adjusting the Sound P. 154
- Screen Settings: Displays the screen preferences screen.
 Changing the Screen Settings P. 87

Wireless Headphones

Using the Wireless Headphones

Audio for the Rear Entertainment System is sent to the wireless headphones that come with the system.

1. Pivot the earpieces outward.

- **2.** Adjust the volume by turning the dial on the bottom of the right earpiece.
- **3.** Wear the headphones correctly with the left and right earpieces on the correct sides.
 - L (left) and R (right) are marked on the sides of the frame.

□ Using the Wireless Headphones

When you remove the headphones, the earpieces automatically pivot inward, and the headphones turn off. When not in use, store the headphones in the back pocket of either front seat.

Some state and local government agencies prohibit the use of headphones by the driver of a motor vehicle. Always obey applicable laws and regulations.

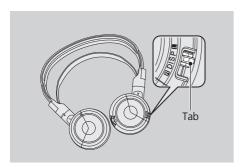

You can use wired headphones through the auxiliary input jacks.

■ Auxiliary Console Panel P. 282

Changing the Sound Source (Ultrawide RES only)

■Wireless Headphone

In dual screen mode, you can switch the sound source of the wireless headphones between the left and right side screens.

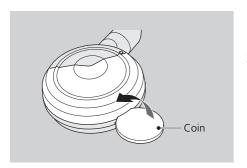

Slide the tab to "L" for the left side, or "R" for the right side.

∑ Changing the Sound Source (Ultrawide RES only)

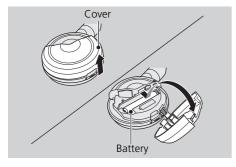

You can switch the sound source from the setup menu if you connected a set of wired headphones.

- **1.** Press the **SETUP** button on the rear control panel.
- 2. Select Wired Headphones. Press the ENTER button.
- **3.** Select **Left** or **Right** to switch the sound source. Press the **ENTER** button.

Replacing the Batteries

- **1.** Insert a coin in the slot and twist it slightly to pry the cover away from the earpiece.
- **2.** Pull the cover outward, and pivot it out of the way.

- **3.** Remove the battery.
- **4.** Install the new battery in the earpiece as shown in the diagram next to the battery slot.
 - ► Battery Type: AAA battery
- **5.** Slide the cover back into place on the earpiece, then press down on the back edge to lock it in place.

■ Replacing the Batteries

The battery is under the cover on the left earpiece.

An improperly disposed of battery can hurt the environment. Always confirm local regulations for battery disposal.

If static is heard in the headphones, try replacing the battery.

Multi-view Rear Camera*

About Your Multi-View Rear Camera

The audio/information screen can display your vehicle's rear view. The display automatically changes to the rear view when the gear position is changed to \mathbf{R} .

■ Multi-View Rear Camera Display Area

You can view three different camera angles on the rearview display. Press the interface dial to switch the angle.

If Top View is last used before you turn the power mode to OFF, Wide mode is selected next time you turn the power on and change to $\boxed{\mathbf{R}}$.

Malant About Your Multi-View Rear Camera

The rear camera view is restricted. You cannot see the corner ends of the bumper or what is underneath the bumper. Its unique lens also makes objects appear closer or farther than they actually are.

Visually confirm that it is safe to drive before backing up. Certain conditions (such as weather, lighting, and high temperatures) may also restrict the rear view. Do not rely on the rearview display which does not give you all information about conditions at the back of your vehicle.

If the camera lens is covered with dirt or moisture, use a soft, moist cloth to keep the lens clean and free of debris.

■ Multi-View Rear Camera Settings

§ SETTINGS button **▶ Camera Settings**

Rotate 🗑 to select an item. Press 🔊.

The following items are available:

• Fixed Guideline:

On (factory default): Guidelines appear when you shift into Reverse.

Off: Guidelines do not appear when the dynamic guideline is off.

• Dynamic Guideline:

On (factory default): Guidelines move according to the steering wheel direction.

Off: Guidelines do not move.

Surround View Camera*

The Surround View Camera System allows the driver to check the blind spots through the images displayed on the audio/information screen.

Using this support system will reduce the driver's stress in the following situations.

- Backing up the vehicle into a parking space marked with parking lines.
- Checking both ways at intersections with poor visibility.
- Parallel-parking in a parking space marked with parking lines.
- Checking for obstacles in front of the vehicle.
- Checking for obstacles at the rear of the vehicle.
- Checking for obstacles around the front right and left sides of the vehicle.

Surround View Camera*

Always keep the camera lens clean and unobstructed. The rearview camera has a lens that makes distances appear different than they actually are. Always take care when backing up, and look behind you for obstacles.

Navigation controls are disabled when in Reverse.

Adjusting the brightness for the camera display does not affect the brightness of the audio/information screen.

If you turn the guide lines off, they remain off until you turn them back on.

The Surround View Camera System is designed to reduce the driver's stress of operating the vehicle. Use this system as support for visual checks to confirm the safety in areas likely to be blind spots.

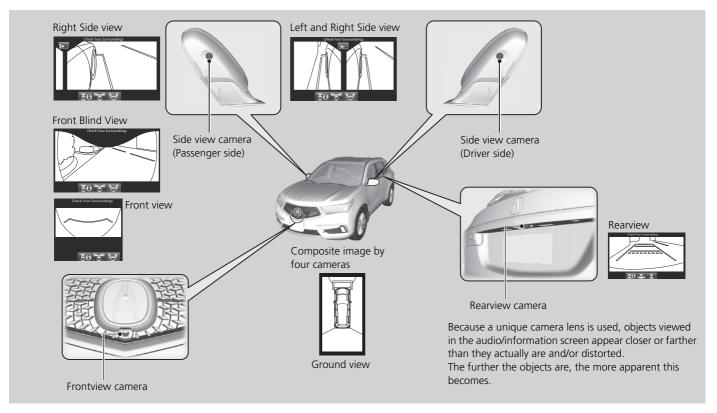

The Surround View Camera System does not eliminate all blind spots. Visually confirm safety around the vehicle with your own eyes and the mirrors. Do not rely on the camera view.

Camera locations and images

Your vehicle is equipped with four cameras.

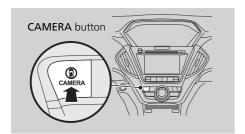

They provide different views and also a synthetically combined ground view.

The views appear differently during the day and at night.

Displaying the Surround View Camera Screen

■ Using the CAMERA Button

Press the **CAMERA** button while the vehicle is stopped or running slower than 7 mph (12 km/h).

 Displays the front view. To switch the screen, press the CAMERA button.
 Press other mode buttons to exit the Surround View Camera System.

Displaying the Surround View Camera screen

Operating the navigation system or audio system while the Surround View Camera System screen is displayed closes the Surround View Camera System screen and starts up the navigation system screen.

Using the CAMERA button

Even when the Surround View Camera System screen is displayed, the display automatically switches to the audio/information screen if the vehicle speed exceeds 9 mph (15 km/h), and it switches back to the multi-view camera system screen if the speed is reduced to below 7 mph (12 km/h).*1

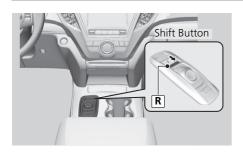

When the vehicle is decelerating rapidly, it may appear before it reaches 7 mph (12 km/h).

If you press the **CAMERA** button while the vehicle speed is more than 7 mph (12 km/h), a message screen appears. When the vehicle speed is less than 7 mph (12 km/h), it switches to the Surround View Camera System screen.

*1: For the rear view, the screen does not automatically switch based on the vehicle speed.

■ Using the Shift Button

Change the gear position to **R** with the brake pedal depressed.

➤ Displays the rear view. To switch the screen, press the **CAMERA** button.

■ Using the Shift Button

If you do not touch any switch after changing the gear position to the $\boxed{\mathbf{R}}$ position, the display switches from the Rear View screen to the previous screen when the gear position is changed out of $\boxed{\mathbf{R}}$. If you touch any switch while the gear position is in $\boxed{\mathbf{R}}$, the display switches from the Rear View screen to the Front View screen when the gear position is changed out of $\boxed{\mathbf{R}}$.

You can customize the display setting.

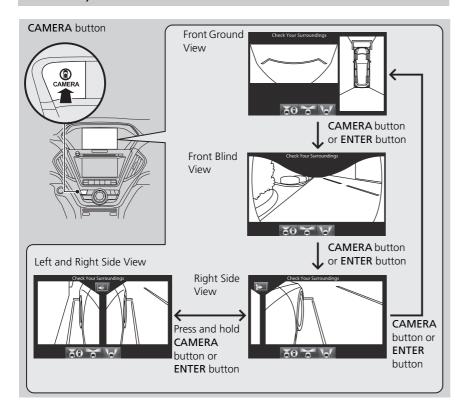

► Customized Surround View CameraSystem P. 330

You can adjust the brightness of the rearview camera.

Display Settings P. 28

Switching the Screen

Front View Screen (When Gear Position is in Other than R Position)

Switching the Screen

In the view image fixed guidelines are displayed which help the driver get a sense of distance between the vehicle and objects.

Dynamic guidelines are displayed which help the driver confirm the projected vehicle path.

The guidelines can be turned ON/OFF to setup.

The positions/distances indicated by the guide lines and camera views on the display may differ from the actual positions/distances due to the changes in the vehicle height, road conditions, and other factors.

The guide lines should be used as a reference only.

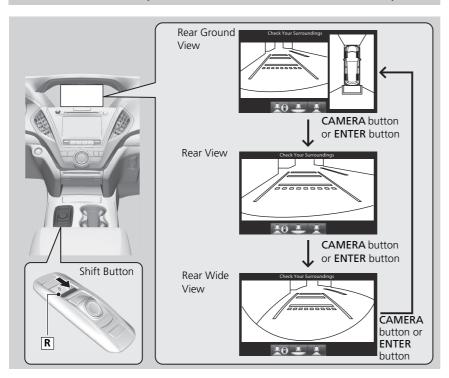

You can also select to switch the display for the following marks on the screen.

:Front Ground View

:Front Blind View

:Right Side View/Left and Right Side View

■ Rear View Screen (When Gear Position is in R Position)

Rear View Screen (When Gear Position is in R Position)

ACAUTION

Visually confirm safety around the vehicle with your own eyes and/or using the mirrors.

The view area displayed on the screen is restricted. It may not show all people or obstacles around you. Relying only on the view on the screen may cause an accident.

Minimize the time spent looking at the view screen while driving.

Failure to do so may cause an accident as you cannot pay sufficient attention to your surroundings.

You can also select to switch the display for the following marks on the screen.

🗐 : Rear Ground View

🙎 : Rear Normal View

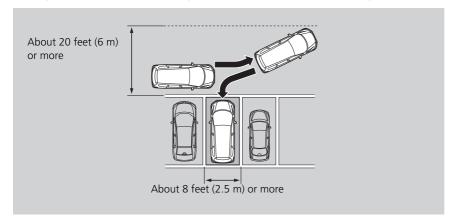

🖭 : Rear Wide View

Backing Up The Vehicle into a Parking Space Marked with Parking Lines

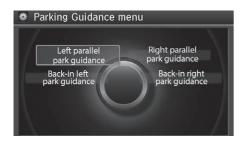

When backing up the vehicle into a parking space with parking lines, the parking guide lines of the Surround View Camera System provide support to the driver during parking.

■ Before Parking

The rear reference guide lines of the Surround view camera system can be used in a parking space marked with parking lines, such as that shown in the figure below.

■ Selecting Rear Reference Lines

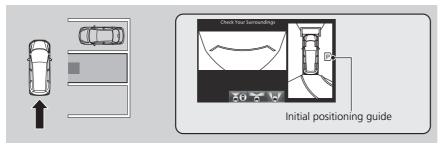

- **1.** Press the **CAMERA** button while the vehicle is stopped.
- 2. Press the MENU button.
- **3.** Select Back-in left park guidance or Back-in right park guidance.

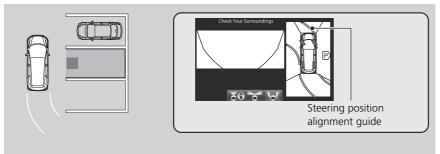

Continued 317

■ How to park

The following section describes how to back up the vehicle into a parking space with the rear right of the vehicle in first.

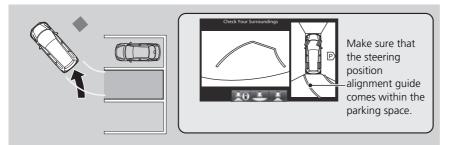

1. Move the vehicle forward perpendicular to the parking space and stop where the initial positioning guide comes to the center of the parking space.

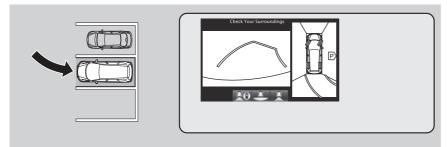

- **2.** Turn the steering wheel fully to the left while stopped.
 - ► The steering position alignment guide is displayed.

When you need operation instruction, press and hold the CAMERA button while the parking guide screen is displayed. The instruction screen appears on the screen. To close the Instruction screen, press the BACK button or press and hold the CAMERA button.

3. Slowly move the vehicle forward with the steering wheel turned fully to the left.

4. Stop the vehicle when the steering position alignment guide enters the parking space.

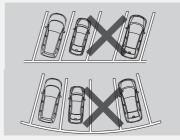

- **5.** Turn the steering wheel fully to the left while stopped and back up the vehicle slowly.
- **6.** Stop the vehicle when it is parallel to the parking lines.
- **7.** Straighten the steering wheel, and then back up and park the vehicle at the proper position.

If the steering position alignment guide does not fit in the parking lines, the parking space is too small for the vehicle.

This system does not work for:

• Parking spaces with crooked parking lines.

• Parking spaces where the surrounding vehicles are parked off the parking lines.

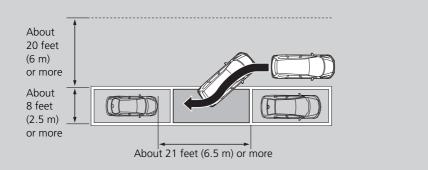

Parallel Parking the Vehicle into a Parking Space Marked with Parking Lines.

The parallel parking guide lines of the Surround View Camera System provide support to the driver while parking in parking spaces, such as that shown in the figure below.

■ Before Parking

The rear reference guide lines of the Surround View Camera System can be used in a parking space marked with parking lines, such as that shown in the figure below.

You may need to try more than once before parking the vehicle in the parking space properly depending on the condition of the space.

In such a case, adjust the vehicle position while looking around the vehicle to park the vehicle in the proper parking position.

■ Selecting Parallel Park Reference Lines

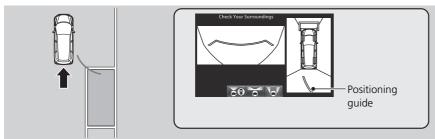

- **1.** Press the **CAMERA** button while the vehicle is stopped.
- 2. Press the MENU button.
- **3.** Select Left parallel park guidance or Right parallel park guidance.

Continued 321

■ How to park

The following section describes how to parallel-park the vehicle into a parking space at the right side of the street.

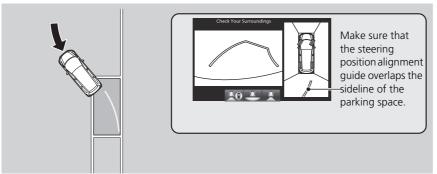

1. Move the vehicle forward parallel to the parking space and stop where the initial positioning guide overlaps the front corner of the parking space.

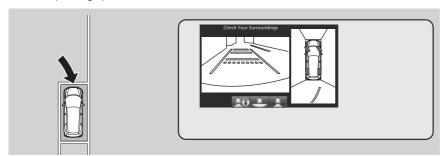

- 2. Turn the steering wheel fully to the right while stopped.
 - ▶ The steering position alignment guide is displayed.

When you need operation instruction, press and hold the CAMERA button while the parking guide screen is displayed. The instruction screen appears on the screen. To close the Instruction screen, select press the BACK button or press and hold the CAMERA button.

3. Slowly back up the vehicle with the steering wheel turned fully to the right.

4. Stop the vehicle when the steering position alignment guide overlaps the sideline of the parking space.

- **5.** Turn the steering wheel fully to the left while stopped and back up the vehicle slowly.
- **6.** Stop the vehicle when it is parallel to the parking lines.
- **7.** Straighten the steering wheel, and then back up and park the vehicle at the proper position.

Always take care when backing up, and look behind you for obstacles.

This system does not work for:

• Parking spaces with crooked parking lines.

• Parking spaces where the surrounding vehicles are parked off the parking lines.

• Parking spaces without parking lines.

Checking for Obstacles at the Rear of the Vehicle

Display the rear view screen to check for any obstacles at the rear of the vehicle when backing up the vehicle into a garage or the like.

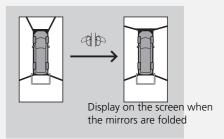

Switch between the rear view and ground view and rear view and mirror view accordingly.

∑ Checking for Obstacles at the Rear of the Vehicle

Each guide line display can be turned ON/OFF.

The four cameras provide the ground view on the screen even when the door mirrors are folded.

Note that the view area and blind spots change when the door mirrors are folded.

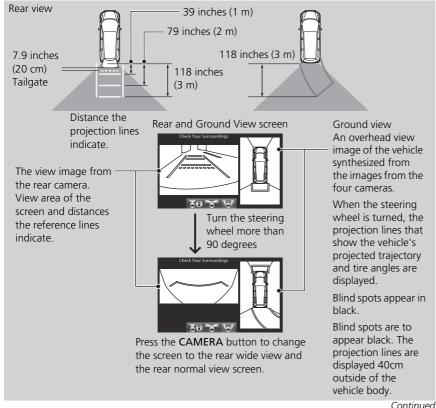

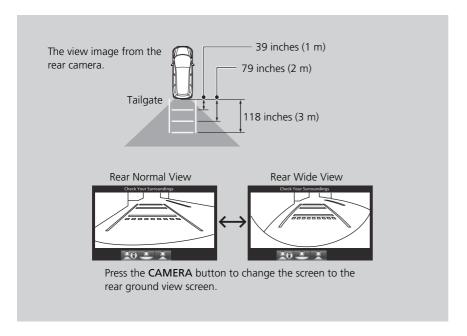

ACAUTION

Do not drive the vehicle with the door mirrors folded.

The view displayed on the screen when the door mirrors are folded is for confirming the safety around the vehicle during parking.

- Description and operation of the screens
- Change the gear position to **R**.
 - ▶ Display the rear ground view screen.

∑ Checking for Obstacles at the Rear of the Vehicle

Each side view is not displayed when the door mirrors are folded.

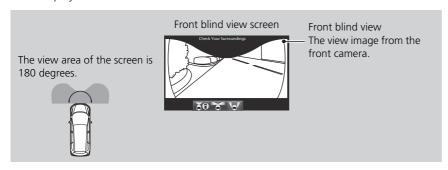

Checking the Right and Left Sides of the Vehicle at Intersections with Poor Visibility

Display the front blind view screen when conforming the right and left sides of the vehicle at intersections with poor visibility.

■ Description and Operation of the Screens

To switch the screens, press the **CAMERA** button when the vehicle speed is below 7 mph (12 km/h).

▶ Display the front blind view screen.

Checking the Right and Left Sides of the Vehicle at Intersections with Poor Visibility

As the system uses a wide-angle view, the displayed images on the screen will be largely distorted and different from the actual distance.

The front blind view screen is switched in the order shown in the figure on P.314.

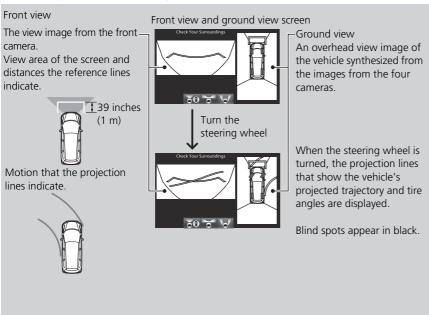

Checking for Obstacles in Front of the Vehicle

Display the front view and ground view screen to check for any obstacles in front of the vehicle when parking the vehicle in a garage or the like.

■ Description and Operation of the Screens

To switch the screens, press the **CAMERA** button when the vehicle speed is below 7 mph (12 km/h).

▶ Display the front view and ground view screen.

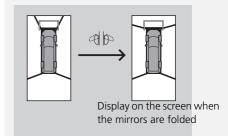

∑ Checking for Obstacles in Front of the Vehicle

Each guide line display can be turned ON/OFF.

The front view and ground view screen are switched to in the order shown in the figure on P 314

The four cameras provide the ground view on the screen even when the door mirrors are folded

Note that the view area and blind spots change when the door mirrors are folded.

ACAUTION

Do not drive the vehicle with the door mirrors folded.

The view displayed on the screen when the door mirrors are folded is for confirming the safety around the vehicle during parking.

Checking for Obstacles Around the Front Sides of the Vehicle

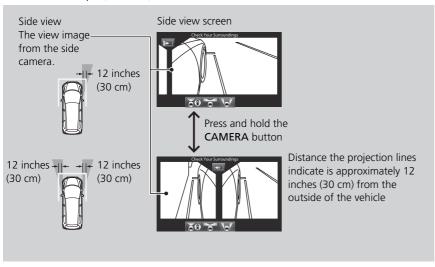

Display the side view screen to check the right and left sides of the vehicle when pulling up the vehicle to a curve or tollbooth or passing an oncoming car in a narrow driving condition.

The left side view screen displays only the left side view, and the right and left side view screen display the views of both sides. Switch the screens accordingly.

■ Description and Operation of the Screens

Display the side view and ground view screen.

To switch the screens, press the **CAMERA** button when the vehicle speed is below 7 mph (12 km/h).

Checking for obstacles around the front sides of the vehicle

Each guide line display can be turned ON/OFF.

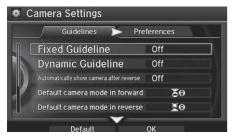

When the door mirrors are folded, the side view screen is not displayed.

The side view screen is switched in the order shown in the figure on P.314.

Customized Surround View Camera System

CAMERA button ► SETTINGS button ► Camera Settings

Set the camera screen settings.

• **Display**: Adjust the screen's preferences.

Troubleshooting

Backing up using the parking guide lines

Vehicle position	Cause	solution Reference page
Turns too big.	Did you turn the steering wheel before the initial positioning guide enters the parking space?	 Stop the vehicle and turn the steering wheel when the initial positioning guide comes to the center of parking space. Backing Up The Vehicle into a Parking Space Marked with Parking Lines P. 316
	Did you turn the steering wheel before the steering position alignment guide enters the parking space while backing up?	Stop the vehicle and turn the steering wheel when the steering position alignment guide fits in the parking space.
	Did you fully turn the steering wheel while backing up?	 Fully turn the steering wheel when steering.
Turns too short.	Did you turn the steering wheel after the initial positioning guide comes outside of the parking space?	Stop the vehicle and turn the steering wheel when the initial positioning guide comes to the center of the parking space.
	Did the steering position alignment guide come off of the parking space while backing up?	Stop the vehicle and turn the steering wheel when the steering position alignment guide fits in the parking space.
The projection line is off.	-	 The position is automatically corrected after continuing to drive for a short amount of time.

Parallel-parking using the parking guide lines

Vehicle position	Cause	solution	Reference page
Too deep.	Did the steering position alignment guide come off of the curbside line of the parking space while backing up?	Stop the vehicle and turn the steering wheel when the steering position alignment guide overlaps with the curbside line of the parking space.	Parallel Parking the Vehicle into a Parking Space Marked with Parking Lines. P. 320
	Did you fully turn the steering wheel while backing up?	 Fully turn the steering wheel when steering. 	
Too shallow.	Did you turn the steering wheel before the steering position alignment guide overlaps with the curbside line of the parking space while backing up?	Stop the vehicle and turn the steering wheel when the steering position alignment guide overlaps with the curbside line of the parking space.	
Too close to the vehicle in front.	Did you turn the steering wheel when the initial positioning guide is outside of the parking space?	Stop the vehicle and turn the steering wheel when the initial positioning guide comes to the corner of the parking space.	
Too close to the vehicle behind.	Was the initial positioning guide inside of the parking space?	Stop the vehicle and turn the steering wheel when the initial positioning guide comes to the corner of the parking space.	
	Did you fully turn the steering wheel while backing up?	 Fully turn the steering wheel when steering. 	
The projection line is off.	-	 The position is automatically corrected after continuing to drive for a short amount of time. 	

About camera view image

Condition	Cause	solution	Refer to:
Camera view images are hard to see.	 The images may not be displayed clearly when: At night, in rainy condition, and a dark location The camera lens has insects, moist, or debris stuck to the camera lens. 	 When the camera view image is not clearly displayed due to weather conditions, etc, visually confirm the safety using mirrors. 	-
	The camera lens is scratched.		
	The temperature of the camera is high.		
	 Strong light such as the sun's light shines on the camera.* 		
	• When light shines on the camera in a dark location.		
	* When strong light shines on the camera, halation which fogs around the light source or smearing which creates the streaks of the light may occur.		
Camera view images are not clear.	If the camera lens is dirty, clear images are not displayed.	 When the camera lens is dirty, wipe off the dirt, debris, and the like using water, mild detergent, or glass cleaner. 	-
		 Never use any benzine, thinner, or polishing powder such as cleanser. It will cause damage to the lens. 	
Camera position is shifted.	The camera body or its surrounding parts have been subject to some severe impact or pressure.	 Do not have any severe impacts or pressures on the camera body or its surrounding parts. 	-
		• In case of being subject to an impact, stop using the camera and contact a dealer.

Troubleshooting

Map, Voice, Entering Destinations

Problem	Solution
The Startup Confirmation screen is displayed every time I start the car.	This is normal. The Startup Confirmation screen reminds you and your guest drivers to always operate the navigation system in a safe manner. The Startup Confirmation screen goes off after a certain period of time and the top screen of the last mode is displayed.
The navigation system reboots by itself (returns to the opening screen).	A reboot can be caused by extreme temperatures or shock from bumpy roads, and does not necessarily indicate a problem. If this happens frequently, please see a dealer.
How do I specify a destination when an entered city or street could not be found?	 Try entering the street first. Some cities are lumped in with a major metro area. In rural "unverified" areas or new subdivisions, streets may be missing or only partially numbered. Try selecting the destination directly from the map. Map Input P. 111
Why do some letters become grayed out when I enter an address?	As you enter each letter in an address or a place/landmark, the navigation system looks in the database to see what letters are possible and grays out letters that do not apply.
How do I delete Personal Addresses, Previous Destinations, or the Home Address?	 Press the SETTINGS button. Select Navi Settings > Personal Info to display the types of information. Select the type of address to delete. Select Delete.
I cannot hear the navigation system voice.	 Press the SETTINGS button. Select System Settings and check that Guidance Volume is not set to 0. Select Voice Reco and set Voice Prompt to On.
The voice control system is having difficulty recognizing my voice commands.	 Check that the vents are not blowing air onto the microphone on the ceiling, the vehicle is as quiet as possible, and you are using the correct command when speaking. ▶ Voice Recognition P. 25
I cannot give voice commands.	Make sure you selected OK at the Startup Confirmation screen. ➡ Start-up P. 22

Problem	Solution
I cannot select an option using the Interface Dial.	To reduce potential driver distraction, certain onscreen functions and features are limited or inoperable while the vehicle is moving. Use voice commands or pull over to proceed.
The navigation system pronunciation of street names in the guidance command or destination address sounds strange.	The basic guidance phrases use a studio-recorded voice, but street names are pronounced using a machine-generated voice. Consequently, the name may be mispronounced or sound strange at times.
The screen is bright when I drive at night.	 Check that the nighttime dashboard brightness control is not set to maximum. Press the SETTINGS button. Select Navi Settings > Map > Color (Night). Switching Display Mode Manually P. 75
The screen is dark when I drive during the day.	Press the SETTINGS button. Select Navi Settings > Map > Color (Day). ☑ Switching Display Mode Manually P. 75
How do I change or remove my PIN?	 Press the SETTINGS button. Select Navi Settings > Personal Info > PIN Number > Address Book PIN or Go Home PIN. Enter your existing PIN. You then have the choice to change or remove the PIN. PIN Numbers P. 49
I have forgotten my PIN. How do I reset the PIN for Home or the PIN for personal addresses?	A dealer must reset the PIN for you.
Why is Call grayed out on the Calculate Route screen?	Your phone is not paired to <i>Bluetooth</i> ® HandsFreeLink® or, if paired, your phone is in use. ▶ Bluetooth® HandsFreeLink® P. 226

Traffic

Problem	Solution
Traffic information is missing or is not displaying properly. What is wrong?	 Check that the traffic status indicator is available on the map screen. Map Screen Legend P. 9 Traffic information relies on a clear signal. If signal strength is low, traffic data may not be available. Check that the traffic icons are turned on. Showing Icons on Map P. 72 There may be a temporary technical problem in your metropolitan area. Call Acura Client Relations to see if there is an outage. Acura Client Relations Contact Information P. 356 If the situation persists, see your Acura dealer for assistance. Traffic information is available only in certain areas.
The navigation system sometimes provides a detour route when I am driving a route on the freeway.	If Traffic Rerouting is set to On, the navigation system provides a detour route to your destination only if it can find a significantly faster route than the original one. ■ Traffic Rerouting P. 59
The navigation system routes me to an exit and an alternate freeway with unknown flow speeds or surface streets.	The navigation system predicts which route should be faster based on freeway congestion along your route. Use your own experience to determine whether the alternate route would be faster.
How can I ignore the detour route and return to the original route?	Press the SETTINGS button. Select Navi Settings > Routing, and set Traffic Rerouting to Off. ➡ Traffic Rerouting P. 59

Guidance, Routing

Problem	Solution
The navigation system does not route me the same way I would go or the same way as other mapping systems.	The navigation system attempts to generate the optimal route. You can change the route preferences used when calculating a route. ▶ Route Preference P. 56
The navigation system wants to route me around potential traffic problems. How do I stop these pop-up messages?	Press the SETTINGS button. Select Navi Settings > Routing, and set Traffic Rerouting to Off. ▶ Traffic Rerouting P. 59
The street I'm on is not shown on the map screen.	The mapping database is constantly undergoing revision. You can access the most recent information on the internet. ■ Map Coverage P. 357
The vehicle position icon is not following the road and the "GPS icon" text in the upper left hand corner of the screen is white or missing.	 Check that the GPS antenna (located in the dashboard) is not blocked. For best reception, remove items from the dashboard, such as radar detectors, cell phones, or loose articles. Metallic tinting or other aftermarket devices can interfere with the GPS reception. Please consult a dealer. ▶ GPS P. 354
The blue highlighted route and voice guidance stopped or turned into a blue/pink line before I got to my destination.	Your route has entered an unverified area. ▶ Unverified Routing P. 57
How do I stop the map from rotating as I drive along?	Press the SETTINGS button. Select Navi Settings > Map > View > North-Up.
The "time to destination" display sometimes increases even though I am getting closer to my destination.	If your speed reduces due to slower traffic, the navigation system updates the "time to destination" based on your actual road speed to give you a better estimate of arrival time.
The vehicle position icon on the map "lags" a short distance behind, especially when I arrive at an intersection.	This is normal. The navigation system is unaware of the width of intersections. Large differences in vehicle position can indicate a temporary loss of the GPS signal. → GPS P. 354
The screen is showing white dots as I drive along.	These dots are called "breadcrumbs." These are displayed if Display Tracking is set to On. ▶ Display Tracking P. 84

Problem	Solution
How do I remove the white dots ("breadcrumbs") from my screen?	Press the SETTINGS button. Select Navi Settings > Map, set Display Tracking to Off or select Delete Tracking to remove the white dots from the map. ▶ Display Tracking P. 84
A road that I selected to avoid is being used when routing.	When you "draw" your area to avoid, make sure to select sections of roads that include at least one intersection. ■ Avoided Area P. 61
My elevation (shown when I display the current position) seems to fluctuate even though my elevation has not changed.	This is normal. The elevation can vary ±100 feet due to GPS calculation errors. ■ GPS P. 354
My elevation is missing on the "current position" screen.	The elevation is only displayed if the GPS antenna can receive signals from at least four satellites. Try moving the vehicle into an open area. The elevation is also not displayed if the calculated elevation is zero or below sea level.

Update, Coverage, Map Errors

Problem	Solution
My city is not part of a fully verified detailed coverage area.	The mapping database is constantly undergoing revision. You can access the most recent information on the internet. ▶ Map Coverage P. 357
Does the navigation system work outside North America?	The navigation system contains maps for the 50 U.S. states, Canada, Puerto Rico, and Mexico. The navigation system will not work in other countries. ▶ Map Coverage P. 357
How do I report errors I find in the database?	Minor errors are bound to occur in a large database. If you encounter major errors, see ▶ Reporting Errors P. 356

Display, Accessories

Problem	Solution
The display appears dim when starting the car in really cold weather.	This is normal. The display will become brighter after a few minutes.

Miscellaneous Questions

Problem	Solution
My battery was disconnected or went dead, and the navigation system is asking for a code.	Set the power mode to ON, and press and hold the (b) (Power) button for two seconds. The system should reactivate. If you have installed an aftermarket system, contact a dealer.

Surround View Camera*

Problem	Solution
When I shift gears, the rear camera image display is delayed.	This is normal. When shifting into or out of Reverse, you may experience a delay while the screen image switches between the audio/information screen and the rear camera image.
The rear camera image is too dark or too bright. How do I adjust the brightness?	While the camera image is displayed, press the SETTINGS button and select Camera Settings > Display , and select or \bigcirc to adjust the brightness. This adjustment does not affect the audio/information screen brightness settings.

^{*:} Not available on all models

Error Messages

Navigation System

Error Message	Solution
The display temperature is too high. For protection, the system will shut off until the display cools down.	This message appears briefly when the display temperature is too high. The navigation system turns off until the display cools down. The system turns back on automatically when the display cools down.
System temp is low. System will shut down until it warms up.	The navigation system has difficulty reading the HDD when the temperature is below approximately -22°F (-30°C). The navigation system starts up automatically when the
The navigation system temperature is too low. For protection, the system will shut off until it warms up.	display warms up.
The navigation system atmospheric pressure is too low. For protection, the system will shut off until the pressure returns to safe levels.	The HDD is inoperable due to low atmospheric pressure. Move your vehicle to the place where the atmospheric pressure is high.
The navigation system temperature is too high. For protection, the system will shut off until it cools down.	The navigation system has difficulty reading the HDD when the temperature is high. The navigation system starts up automatically when the system cools down.
System temp is too high. System will shut down until it cools down.

HDD access error. The system will reset and attempt to correct the problem.	temperature, and low atmospheric pressure. After a short wait, try to operate the system again. If this does not solve the problem, consult with the dealer.

CD Player

If a disc error occurs, you may see the following error messages.

Error Message	Cause	Solution
Unplayable File	Track/file format not supported	• Current track/file will be skipped. The next supported track/file plays automatically.
Bad Disc Please Check Owner's Manual Push Eject Mecha Error	Mechanical error	 Press the ▲ (eject) button and remove the disc, and check that the error message is cleared. Check that the disc is not damaged or deformed, and insert the disc again. ▶ Protecting CDs P. 186
Bad Disc Please Check Owner's Manual	Servo error	 If the error message reappears, press the button, and pull out the disc. Insert a different disc. If the new disc plays, there is a problem with the first disc. If the error message repeats, or the disc cannot be removed, contact a dealer. Do not try to force the disc out of the player.
Check Disc	Disc error	• Check that the disc is not damaged or deformed. ▶ Protecting CDs P. 186
Heat Error	High temperature	• Turn the audio system off and allow the player to cool down until the error message is cleared.

Hard Disc Drive (HDD) Audio

If an error occurs while playing the Hard Disc Drive (HDD) Audio, you may see the following error messages. If you cannot clear the error message, contact a dealer.

Error Message	Solution
HDD access error. Please consult your dealer.	_
The display system temperature is too high. For protection, the system will shut off until the display cools down.	Turn the audio system off and allow the player to cool down until the error message is cleared.
The navigation system temperature is too low. For protection, the system will shut off until it warms up.	The navigation system has difficulty reading the HDD when the temperature is below approximately -22°F (-30°C). The navigation system starts up automatically when the display warms up.
Unplayable File	Appears when a file format not supported. Current track will be skipped. The next supported track plays automatically.

iPod®/USB Flash Drive

If an error occurs while playing an iPod® or USB flash drive, you may see the following error messages. If you cannot clear the error message, contact a dealer.

Error Message	Solution
USB Error	Appears when there is a problem with the audio system. Check if the device is compatible with the audio system.
Incompatible USB Device Please Check Owner's Manual	Appears when an incompatible device is connected. Disconnect the device. Then turn the audio system off, and turn it on again. Do not reconnect the device that caused the error.
Unsupported Version	Appears when an unsupported iPod® is connected. If it appears when a supported iPod® is connected, update the iPod® software to the newer version.
Connect Retry	Appears when the system does not acknowledge the iPod®. Reconnect the iPod®.
Unplayable File	Appears when the files in the USB flash drive are DRM or an unsupported format. This error message appears for about 3 seconds, then plays the next song.
No Data	Appears when the iPod® is empty. USB flash drive Appears when the USB flash drive is empty or there are no MP3, WMA, or AAC files in the USB flash drive. iPod® and USB flash drive Check that compatible files are stored on the device.
Unsupported	Appears when an unsupported device is connected. If it appears when a supported device is connected, reconnect the device.

Pandora[®]

If an error occurs while playing Pandora®, you may see the following error messages. If you cannot clear the error message, contact a dealer.

Error Message	Cause	Solution
Incompatible USB Device Please Check Owner's Manual	Appears when an incompatible device is connected.	Disconnect the device. Then turn the audio system off, and turn it again. Do not reconnect the device that caused the error.
Audio/Information Screen There is no station list in the device. Please add the station list to your device. On Demand Multi-Use Display ^{IM} No stations have been created. Please create a station on the device.	Appears when there is no station list on the device.	Use the device to create a station.
Music licenses force us to limit the number of tracks you may skip each hour.	Appears when you try to skip a song or select Dislike over the predetermined number of times in an hour.	Try again later.
Unable to save rating. Unable to save bookmark.	Appears when the commanded operation is failed.	Try again later.
No data	Appears when no data is available with Pandora® activated.	Reboot the app and reconnect the device.
Unsupported	Appears when Pandora® version is not	Update Pandora® to the latest version.
PANDORA App version is not supported.	supported.	
PANDORA system maintenance	Appears when the Pandora® server is in maintenance.	Try again later.

Error Message	Cause	Solution
Cannot connect to PANDORA. When stopped, check your mobile device. When not driving, please see mobile device.	 The Pandora® app failed to start because of the following device errors: The display on your smartphone is turned off. Your smartphone is locked. The home screen or the app screen (music screen) is not displayed on your smartphone. The track is not played on your smartphone even after 30 seconds have passed. The Pandora® app is not installed in your device, or the Pandora® version is not supported. 	 Turn the phone screen on, and make sure it is unlocked. The Pandora® version is not supported. Update to the latest version.
	The Pandora® app in your smartphone is not compatible with the app launcher system.	Download the most recent version of the Pandora® app.
	The required app is not installed.	Download the HondaLink app from www.hondalink.com.
The maximum number of stations that can be created is 100. To create more, please delete one or more previously created stations.	Appears when the number of created stations reaches the limitation.	Delete the unneeded stations from the Station List.
Unable to create new station. Please try again.	Appears when you try to create a new station.	Try again later.

Error Message	Cause	Solution
Unable to play PANDORA. Please try again later.	Appears when you try to play PANDORA.	Try again later.
Unable to play PANDORA. Music licensing restricts play in this area.		Try again later.
Unable to play PANDORA. When stopped, log-in to PANDORA.		Log in to the PANDORA sever.
This PANDORA station is currently not available. Please select another station.	Appears when the station you selected is not currently available.	Select another station.

Aha[™] Radio

If an error occurs while playing Aha^{TM} Radio, you may see the following error messages. If you cannot clear the error message, contact a dealer.

Error Message	Solution
Cannot connect to AcuraLink. When stopped, check your mobile device.	Appears when the Aha^{TM} app is not activated. Check your device.
Incompatible USB Device Please Check Owner's Manual	Appears when an incompatible device is connected. Disconnect the device. Then turn the audio system off, and turn it on again. Do not reconnect the device that caused the error.

Surround View Camera*

If an error message is displayed, contact a dealer.

System Initialization

The navigation system must be initialized if power to the navigation system is interrupted for any reason (e.g., the battery was disconnected).

Entering the Security Code

In most cases, you do not need to enter a security code. Follow the steps to reactivate the system.

Enter code

To enter the security code automatically, push and hold the audio power button for 2 seconds. If this does not work, manually enter the security code using the touch panel below.

- **1.** Set the power mode to ON, and turn on the audio system.
- **2.** Press and hold the (Power) button for more than two seconds.
 - ▶ The system is reactivated when the system's control unit recognizes that the system is in your vehicle. If the control unit fails to recognize, you must go to a dealer and have the system checked.

Acquiring GPS Information

Depending on the length of time the power was interrupted, your system may require GPS initialization.

The navigation system lost power and is acquiring its location from the GPS satellites. This usually takes less than 10 minutes.

* Start the engine.

- * Park the vehicle in an open area away from trees, power lines, and tall buildings.
- * Remove loose articles, mobile phones, or electrical accessories located near the GPS antenna.
- * If this screen is displayed repeatedly when starting the vehicle, see your dealer.

If initialization is not necessary, the system proceeds directly to the Startup Confirmation screen.

If the system fails to locate a sufficient number of satellites to locate your position within 10 minutes, the following screen is displayed. Something is interfering with the system's ability to acquire its location. Check the following:

* The vehicle must be in an open area with a clear view of the sky.

*Remove sources of GPS interference like metallic window tint above antenna, or electrical items near antenna (see owner's manual for details).

* Check GPS antenna cable connection.

* Restart the engine and repeat the GPS acquire procedure. If the problem persists, see your dealer.

If you are experiencing GPS reception problems:

■ GPS P. 354

Startup Confirmation Screen

The Startup Confirmation screen is displayed when initialization has successfully completed. It is displayed every time you start your vehicle. Press to select **OK** to continue.

Map Matching

Map matching is the process of using the acquired GPS information to locate your position on the map screen. If you are on a mapped road, the name of the road is displayed along the bottom of the map screen when map matching is completed. Do not enter a destination until the road name is displayed.

The system may initially show your location on a different street (e.g., in urban areas where streets are close together), may show an incorrect elevation, or may delay the display of the vehicle position icon at intersections. This is normal; the system will correct itself while you drive.

GPS

The signals received from the GPS satellites are extremely weak (less than a millionth of the strength of a local FM station) and require an unobstructed view of the sky. The GPS antenna is located in the dashboard. The signal reception can easily be interrupted or interfered with by the following:

- Metallic window tint on the front or side windows
- Cell phones, PDAs, or other electronic devices docked in a cradle or lying loose on the dashboard
- Remote starters or "hidden" vehicle tracking systems mounted near the navigation unit
- Audio electronic devices mounted near the navigation unit
- Trees, tall buildings, freeway overpasses, tunnels, or overhead electrical power wires

The GPS is operated by the U.S. Department of Defense. For security reasons, there are certain inaccuracies built into the GPS for which the navigation system must constantly compensate. This

can cause occasional positioning errors of up to several hundred feet.

Address Calculation

The destination icon shows only the approximate location of a destination address. This occurs if the number of possible addresses is different from the number of actual addresses on a block. For example, the address 1425 on a 1400 block with 100 possible addresses (because it is followed by the 1500 block) will be shown a quarter of the way down the block by the system. If there are only 25 actual addresses on the block, the actual location of address 1425 would be at the end of the block.

Database

The digitized map database reflects conditions as they existed at various points in time before production. Accordingly, your database may contain inaccurate or incomplete data or information due to the passage of time, road construction, changing conditions, or other causes.

For example, some places/landmarks may be missing when you search the database because the name was misspelled, the place was improperly categorized, or a place/landmark is not yet in the database. This is also true for police stations, hospitals, and other public institutions. Do not rely on the navigation system if you need law enforcement or hospital services. Always check with local information sources.

In addition, the map database contains verified and unverified areas. Unverified streets may be missing from the map, in the wrong location, or have an incorrect name or address range. A message will warn you if your route includes unverified streets. Exercise additional caution when driving in unverified areas.

The database does not include, analyze, process, consider, or reflect any of the following categories of information:

- Neighborhood quality or safety
- Population density
- Availability or proximity of law enforcement
- Emergency, rescue, medical, or other assistance
- Construction work, zones, or hazards
- Road and lane closures
- Legal restrictions (such as vehicular type, weight, load, height, and speed restrictions)
- Road slope or grade
- Bridge height, width, weight, or other limits
- Traffic facilities safety
- Special events

Pavement characteristics or conditions

Every effort has been made to verify that the database is accurate. The number of inaccuracies you experience increases the longer you go without obtaining an updated map database.

☑ Obtaining a Navigation Update P. 357

We assume no liability for any incident that may result from an error in the program, or from changed conditions not noted above.

Resolving Problems

If you run into a specific issue that you cannot resolve, consult the following help resources:

- For navigation system issues:
 Troubleshooting P. 336
 There are also FAQs available online at www.acuranavi.com.
- For traffic-related issues: Traffic P. 338
- For reporting issues with the database or places/landmarks:
 - **Reporting Errors** P. 356
- Call Acura Client Relations.
 Acura Client Relations Contact Information P. 356

Reporting Errors

You can help to improve database accuracy by reporting any errors you encounter.

- Report errors in freeways and main "verified" roads shown in black on the map at http://mapreporter.navteq.com/ dur-web-external/.
- Please do not report errors in purple "unverified" roads. Maps for these areas are provided for reference only.
 Unverified Routing P. 57
- Please do not report errors in places/ landmarks, such as changes in business names. Information about points of interest are constantly being updated. An updated database is available for purchase, usually in the fall of each year.
 - Obtaining a Navigation Update P. 357
- For vehicle position icon errors, screen error messages, or other GPS-related errors:

► Troubleshooting P. 336 **► System Limitations** P. 354

Acura Client Relations Contact Information

Acura Navi

American Honda Motor Co., Inc.

Acura Client Relations Mail Stop 500-2N-7E 1919 Torrance Blvd.

Torrance, CA 90501-2746 Tel: (800) 382-2238

Visiting a Dealer

If you have a question that you cannot resolve using the available help resources, you can consult a dealer. Please identify the specific issue (e.g., error occurs when you enter a specific address, when driving on a certain road, or just when it's cold) so that the service technician can refer the issue to the factory so that a solution can be found. Be patient, the service technician may be unfamiliar with your specific issue.

Map Coverage

The navigation system provides map coverage for the United States, Canada, Puerto Rico, and Mexico. The map coverage consists of accurately mapped (verified) metropolitan areas and a less accurate (unverified) rural database. Note that unverified areas are constantly being reviewed and converted to verified areas each year.

Map coverage update information is available from Acura Client Relations or online at www.acuranavi.com.

To find navigation system update information:

- **1.** Visit www.acuranavi.com.
- **2.** Enter your vehicle model and model year.
- **3.** Click Map Coverage to display a list of verified coverage areas on the most recent update.
- **4.** Click Map Coverage Details to display a PDF document with a full listing of all coverage areas.
 - ➤ Adobe® Reader® is required for viewing and printing the Portable Document Format (PDF) documents. To download the latest version of Adobe Reader, visit http:// get.adobe.com/reader/.

Obtaining a Navigation Update

Acura is continually expanding the scope of the navigation system. Navigation system software upgrades may be made available periodically, usually in the fall of each year.

To purchase an update:

- **1.** Obtain your vehicle's VIN number and the System/Device Information.
 - **System Device Information** P. 306
- 2. Call the Acura Navigation Disc Fulfillment Center at (888) 549-3798, or order online at www.acuranavi.com.

An update is not available from a dealer. However, the dealer may assist you in obtaining one for you out of courtesy. There is no program for free updates.

Traffic Information

- Continuously updated traffic information is available in certain areas across the lower 48 U.S. states, Hawaii, and some cities in Canada.
- Visit automobiles.honda.com/traffic for a complete listing of coverage areas and other information.

Operation in Alaska, Hawaii, Canada, Puerto Rico, and Mexico

■ Map Coverage

All roads displayed on the map screens are verified roads. Information in this manual relating to "unverified" roads or areas is not applicable.

■ Address and Place Entry Screens

Entering a destination address or place/ landmark on another island may result in a screen caution message. This is because there are no ferry routes between islands in the database.

■Puerto Rico and Mexico

If **Street Name Guidance** is set to **On**, the street names will not be read out by voice guidance. This may change in a future data update.

User Agreements

■ Navigation System User Agreement

In using this HDD "Satellite Linked Navigation System" (the "HDD"), which includes HONDA MOTOR CO., LTD. software, ALPINE ELECTRONICS, INC. software, and NAVTEQ database contents (hereinafter referred to as "Licensors"), you are bound by the terms and conditions set forth below. By using your copy of the HDD, you have expressed your Agreement to the terms and conditions of this Agreement. You should, therefore, make sure that you read and understand the following provisions. If for any reason you do not wish to be bound by the terms of this Agreement, please return the HDD to vour dealer.

- The HDD may not be copied, duplicated, or otherwise modified, in whole or in part, without the express written permission of the Licensors.
- The HDD may not be transferred or sublicensed to any third party for profit, rent or loan, or licensed for reuse in any manner.

- The HDD may not be decompiled, reverse engineered or otherwise disassembled, in whole or in part.
- The HDD may not be used in a network or by any other manner of simultaneous use in multiple systems.
- The HDD is intended solely for personal use (or internal use where the end-user is a business) by the consumer. The HDD is not to be used for commercial purposes.
- The Licensors do not guarantee to the client that the functions included in the HDD meet the specific objectives of the user.
- Licensor shall not be responsible for any damages caused by the use of the HDD to the actual user or to any third party.
- The warranty on the HDD shall not extend to an exchange or refund due to misspelling, omission of letters, or any other cosmetic discrepancy in the contents of the HDD.
- The right to use the HDD shall expire either when the user destroys the HDD or software, or when any of the terms of this Agreement are violated and the Licensors exercise the option to revoke the license to use the HDD or software.

- The terms and conditions hereof apply to all subsequent users and owners as well as to the original purchaser.
- The logos of oil companies, hotels, convenience stores, and other businesses are displayed for your information and convenience, and in no way imply any sponsorship, approval or endorsement of these companies, or their products. The logos are trademarks of their respective owners.
- The marks of companies displayed by this product to indicate business locations are the marks of their respective owners.
- The use of such marks in this product does not imply any sponsorship, approval, or endorsement by such companies of this product.

The user shall indemnify and save harmless the Licensors, and their officers, employees and agents, from and against any claim, demand or action, irrespective of the nature of the cause of the claim, demand or action, alleging loss, costs, expense, damages or injuries (including injuries resulting in death) arising out of the use or possession of the HDD or software.

Use, duplication, or disclosure of this HDD by or on behalf of the United States government is subject to "Restricted Rights" as set forth at FAR 52.227-14, -19 or DFARS 252.227-7013, as applicable. Manufacturers are the Licensors, including HONDA MOTOR CO., LTD., 2-1-1 Minami Aoyama Minato-Ku Tokyo 107-8556 JAPAN., Alpine Electronics, Inc., 20-1 Yoshima Kogyodanchi, Iwaki, Fukushima 970-1192 JAPAN., NAVTEQ Corporation, 425 W Randolph St. Chicago, IL 60606, USA

■ Navigation System END USER LICENSE AGREEMENT

You have acquired a device ("DEVICE") that includes software licensed by Alpine Electronics, Inc. (collectively "ALPINE") from an affiliate of Microsoft Corporation (collectively "MS"). Those installed software products of MS origin, as well as associated media, printed materials, and "online" or electronic documentation ("SOFTWARE") are protected by international intellectual property laws and treaties. The SOFTWARE is licensed, not sold. All rights reserved.

IF YOU DO NOT AGREE TO THIS END USER LICENSE AGREEMENT ("EULA"), DO NOT USE THE DEVICE OR COPY THE SOFTWARE INSTEAD, PROMPTLY CONTACT ALPINE FOR INSTRUCTIONS ON RETURN OF THE UNUSED DEVICE(S) FOR A REFUND. ANY USE OF THE SOFTWARE, INCLUDING BUT NOT LIMITED TO USE ON THE DEVICE, WILL CONSTITUTE YOUR AGREEMENT TO THIS EULA (OR RATIFICATION OF ANY PREVIOUS CONSENT).

- GRANT OF SOFTWARE LICENSE
 This EULA grants you the following license: You may use the SOFTWARE only on the DEVICE.
- NOT FAULT TOLERANT
 THE SOFTWARE IS NOT FAULT
 TOLERANT. ALPINE HAS
 INDEPENDENTLY DETERMINED HOW TO
 USE THE SOFTWARE IN THE DEVICE,
 AND MS HAS RELIED UPON ALPINE TO
 CONDUCT SUFFICIENT TESTING TO
 DETERMINE THAT THE SOFTWARE IS
 SUITABLE FOR SUCH USE.
- NO WARRANTIES FOR THE SOFTWARE THE SOFTWARE is provided "AS IS" and with all faults. THE ENTIRE RISK AS TO SATISFACTORY QUALITY, PERFORMANCE, ACCURACY, AND

361

- EFFORT (INCLUDING LACK OF NEGLIGENCE) IS WITH YOU. ALSO, THERE IS NO WARRANTY AGAINST INTERFERENCE WITH YOUR ENJOYMENT OF THE SOFTWARE OR AGAINST INFRINGEMENT. IF YOU HAVE RECEIVED ANY WARRANTIES REGARDING THE DEVICE OR SOFTWARE THOSE WARRANTIES DO NOT ORIGINATE FROM, AND ARE NOT BINDING ON, MS.
- NO LIABILITY FOR CERTAIN DAMAGES. EXCEPT AS PROHIBITED BY LAW, MS, MICROSOFT CORPORATION AND THEIR AFFILIATES SHALL HAVE NO LIABILITY FOR ANY INDIRECT, SPECIAL, **CONSEQUENTIAL OR INCIDENTAL** DAMAGES ARISING FROM OR IN CONNECTION WITH THE USE OR PERFORMANCE OF THE SOFTWARE. THIS LIMITATION SHALL APPLY EVEN IF ANY REMEDY FAILS OF ITS ESSENTIAL PURPOSE. IN NO EVENT SHALL MS. MICROSOFT CORPORATION AND/OR THEIR AFFILIATES BE LIABLE FOR ANY AMOUNT IN EXCESS OF U.S. TWO **HUNDRED FIFTY DOLLARS** (U.S.\$250.00).
- SPEECH RECOGNITION If the SOFTWARE includes speech recognition component(s), you should understand that speech recognition is an inherently statistical process and that recognition errors are inherent in the process. Neither ALPINE nor its suppliers shall be liable for any damages arising out of errors in the speech recognition process.
- LIMITATIONS ON REVERSE ENGINEERING, DECOMPILATION, AND DISASSEMBLY You may not reverse engineer, decompile, or disassemble the SOFTWARE, except and only to the extent that such activity is expressly permitted by applicable law notwithstanding this limitation.
- ADDITIONAL SOFTWARE/SERVICES The SOFTWARE may permit ALPINE, MS, Microsoft Corporation or their affiliates to provide or make available to you SOFTWARE updates, supplements, addon components, or Internet-base service components of the SOFTWARE after the date you obtain your initial copy of the SOFTWARE ("Supplemental Components").

- ► If ALPINE provides or makes available to you Supplemental Components and no other EULA terms are provided along with the Supplemental Components, then the terms of this EULA shall apply.
- ► If MS, Microsoft Corporation or their affiliates make available Supplemental Components, and no other EULA terms are provided, then the terms of this EULA shall apply, except that MS, Microsoft Corporation or affiliate entity providing the Supplemental Component(s) shall be licensor of the Supplemental Component(s).
- ► ALPINE, MS, Microsoft Corporation and their affiliates reserve the right to discontinue any Internet-based services provided to you or made available to you through the use of the SOFTWARE
- RECOVERY MEDIA If SOFTWARE is provided by ALPINE on separate media and labeled "Recovery Media" you may use the Recovery Media solely to restore or reinstall the SOFTWARE originally installed on the DFVICE

UPGRADES

If the SOFTWARE is provided by ALPINE separate from the DEVICE on separate media or via web download or other means, and is labeled "For Upgrade Purposes Only" you may install one (1) copy of such SOFTWARE onto the DEVICE as a replacement copy for the existing SOFTWARE, and use it in accordance with this EULA, including any additional EULA terms accompanying the upgrade SOFTWARE.

- TERMINATION
 - Without prejudice to any other rights, ALPINE or MS may terminate this EULA if you fail to comply with the terms and conditions of this EULA. In such event, you must destroy all copies of the SOFTWARE and all of its component parts.
- INTELLECTUAL PROPERTY RIGHTS
 All title and intellectual property rights in and to the SOFTWARE (including but not limited to any images, photographs, animations, video, audio, music, text and "applets," incorporated into the SOFTWARE), the accompanying printed materials, and any copies of the SOFTWARE, are owned by MS, Microsoft Corporation, their affiliates or

suppliers. The SOFTWARE is licensed, not sold.

You may not copy the printed materials accompanying the SOFTWARE. All title and intellectual property rights in and to the content which may be accessed through use of the SOFTWARE is the property of the respective content owner and may be protected by applicable copyright or other intellectual property laws and treaties. This EULA grants you no rights to use such content. All rights not specifically granted under this EULA are reserved by MS, Microsoft Corporation, their affiliates and suppliers. Use of any online services which may be accessed through the SOFTWARE may be governed by the respective terms of use relating to such services. If this SOFTWARE contains documentation that is provided only in electronic form, you may print one copy of such electronic documentation.

TRADEMARKS

This EULA does not grant you any rights in connection with any trademarks or service marks of ALPINE MS, Microsoft Corporation, their affiliates or suppliers.

PRODUCT SUPPORT

Product support for the SOFTWARE is not provided by MS, its parent corporation Microsoft Corporation, or their affiliates or subsidiaries. For product support, please refer to ALPINE support number provided in the documentation for the DEVICE. Should you have any questions concerning this EULA, or if you desire to contact ALPINE for any other reason, please refer to the address provided in the documentation for the DEVICE.

- SOFTWARE TRANSFER ALLOWED BUT WITH RESTRICTIONS
 - You may permanently transfer rights under this EULA only as part of a permanent sale or transfer of the Device, and only if the recipient agrees to this EULA. If the SOFTWARE is an upgrade, any transfer must also include all prior versions of the SOFTWARE.
- EXPORT RESTRICTIONS

You acknowledge that SOFTWARE is of US-origin. You agree to comply with all applicable international and national laws that apply to the SOFTWARE, including the U.S. Export Administration Regulations, as well as end-user, enduse and country destination restrictions

issued by U.S. and other governments. For additional information on exporting the SOFTWARE, see http://www.microsoft.com/exporting/.

■ Gracenote Music Recognition Service (CDDB)

Music recognition technology and related data are provided by Gracenote®. Gracenote is the industry standard in music recognition technology and related content delivery.

For more information, visit www.gracenote.com.

When music is recorded to the HDD from a CD, information such as the recording artist and track name are retrieved from the Gracenote Database and displayed (when available).

Gracenote may not contain information for all albums.

Gracenote is an internet-based music recognition service that allows artist, album, and track information from CDs to display on the HDD.

Gracenote users are allowed 4 free updates a year. More information about Gracenote, its features, and downloads are available at www.honda.com (in U.S.) or www.honda.ca (in Canada).

CD and music-related data from Gracenote, Inc., copyright © 2000 to present Gracenote. Gracenote Software, copyright © 2000 to present Gracenote.

One or more patents owned by Gracenote apply to this product and service. See the Gracenote website for a non-exhaustive list of applicable Gracenote patents. Gracenote, CDDB, MusicID, MediaVOCS, the Gracenote logo and logotype, and the "Powered by Gracenote" logo are either registered trademarks or trademarks of Gracenote in the United States and/or other countries.

■ Gracenote® END USER LICENSE AGREEMENT

This application or device contains software from Gracenote, Inc. of Emeryville, California ("Gracenote"). The software from Gracenote (the "Gracenote Software") enables this application to perform disc and/or file identification and obtain music- related information, including name, artist, track, and title information ("Gracenote Data") from online servers or embedded databases

(collectively, "Gracenote Servers") and to perform other functions. You may use Gracenote Data only by means of the intended End-User functions or this application or device.

You agree that you will use Gracenote Data, the Gracenote Software, and Gracenote Servers for your own personal non-commercial use only.

You agree not to assign, copy, transfer, or transmit the Gracenote Software or any Gracenote Data to any third party.

YOU AGREE NOT TO USE OR EXPLOIT GRACENOTE DATA, THE GRACENOTE SOFTWARE, OR GRACENOTE SERVERS, EXCEPT AS EXPRESSLY PERMITTED HEREIN

You agree that your non-exclusive license to use the Gracenote Data, the Gracenote Software, and Gracenote Servers will terminate if you violate these restrictions. If your license terminates, you agree to cease any and all use of the Gracenote Data, the Gracenote Software, and Gracenote Servers.

Gracenote reserves all rights in Gracenote Data, the Gracenote Software, and the Gracenote Servers, including all ownership rights. Under no circumstances will Gracenote become liable for any payment to you for any information that you provide. You agree that Gracenote, Inc. may enforce its rights under this Agreement against you directly in its own name.

The Gracenote service uses a unique identifier to track queries for statistical purposes. The purpose of a randomly assigned numeric identifier is to allow the Gracenote service to count queries without knowing anything about who you are. For more information, see the web page for the Gracenote Privacy Policy for the Gracenote service.

The Gracenote Software and each item of Gracenote Data are licensed to you "AS IS."

Gracenote makes no representations or warranties, express or implied, regarding the accuracy of any Gracenote Data from in the Gracenote Servers. Gracenote reserves the right to delete data from the Gracenote Servers or to change data categories for any cause that Gracenote deems sufficient. No warranty is made that the Gracenote Software or Gracenote Servers are error-free or that functioning of

Gracenote Software or Gracenote Servers will be uninterrupted.

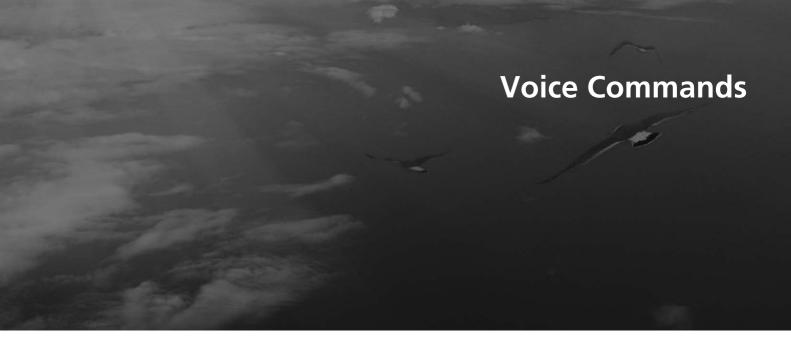

Gracenote is not obligated to provide you with new enhanced or additional data types or categories that Gracenote may provide in the future and is free to discontinue its services at any time.

GRACENOTE DISCLAIMS ALL
WARRANTIES EXPRESS OR IMPLIED,
INCLUDING, BUT NOT LIMITED TO,
IMPLIED WARRANTIES OF
MERCHANTABILITY, FITNESS FOR A
PARTICULAR PURPOSE, TITLE, AND
NONINFRINGEMENT. GRACENOTE DOES
NOT WARRANT THE RESULTS THAT WILL
BE OBTAINED BY YOUR USE OF THE
GRACENOTE SOFTWARE OR ANY
GRACENOTE SERVER. IN NO CASE WILL
GRACENOTE BE LIABLE FOR ANY
CONSEQUENTIAL OR INCIDENTAL
DAMAGES OR FOR ANY LOST PROFITS OR
LOST REVENUES.

As required by the FCC

- 1. This device complies with Part 15 of the FCC Rules and Canadian RSS-210/RSSGen. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
- 2. The FCC requires the user to be notified that any changes or modifications made to this device that are not expressly approved by the party responsible for compliance may void the user's authority to operate the equipment.
- 3. This product emits radio frequency energy, but the radiated output power of this device is far below the FCC and IC radio frequency exposure limits. This equipment complies with FCC and IC RF radiation exposure limits set forth for an uncontrolled environment. Nevertheless, the device should be used in such a manner that the potential for human contact with the antenna during normal operation is minimized.
