Accessories Precautions

The GPS antenna is located in the dashboard. Metallic front or side window tinting can seriously degrade or obstruct GPS reception.

Signal noise from devices such as radar detectors, vehicle tracking devices, remote starters, and additional amplifiers can disrupt the navigation system. If you install any such item, install it away from the navigation display and antenna.

Important Safety Information

WARNING

Using the navigation system while driving can take your attention away from the road, causing a crash in which you could be seriously injured or killed.

Only operate system controls when the conditions permit you to safely do so.

Avoid focusing on the screen or manually operating the system controls while driving.

Enter information before you begin driving or when stopped. As you drive, listen to the audible instructions and use voice commands when possible. Pull to the side of the road if you need more time to look at the screen or operate the controls.

Route guidance may conflict with street closures, road construction, detours, and out-of-date map data.

The system itself may also have limitations. Verify route information by carefully observing roads, signs, and signals. Always use your own judgment and obey traffic laws.

 **System Limitations** P. 302

NOTICE

This vehicle's navigation display, if so equipped, includes mercury-containing components. Upon removal, please reuse, recycle, or dispose of as hazardous waste. Clean the screen with a soft, damp cloth. You may use a mild cleaner intended for use on navigation screens.

How to Enter Information

You can enter information (e.g., city names, street names, personal names, and business names comprising letters, numbers, and symbols) when prompted on input screens by two different methods.

Using Voice Control

When you see  in this manual, voice commands are available for that feature.

- Say the letter, number, or symbol (e.g., say  "A").
- Use spelling assist (e.g., say  "Alpha" to enter the letter "A" or  "Hyphen" to enter a hyphen).
- The system beeps if you say an unavailable (grayed out) letter or number.
- If a voice command is not recognized, a list is displayed with possible options.

On list screens:

- Say the number of the list item (e.g., say  "Five" to select item 5).
- Say  "Up" or  "Previous" to scroll up one page.
- Say  "Down" or  "Next" to scroll down one page.

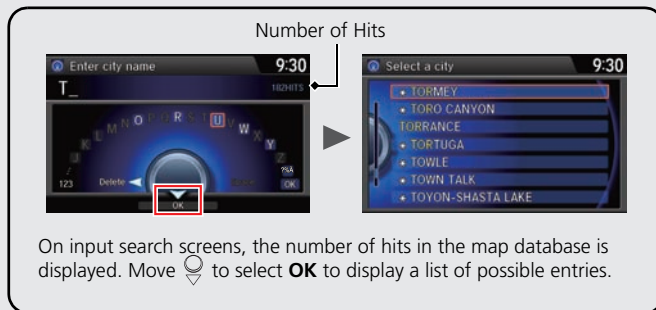

Using the Interface Dial

Rotate  to highlight a character.

- Select  to display upper/lower case characters.
- Select  to display symbols and accented characters.
- Select  (or move ) to edit the entered characters.

Press  to enter the highlighted character.

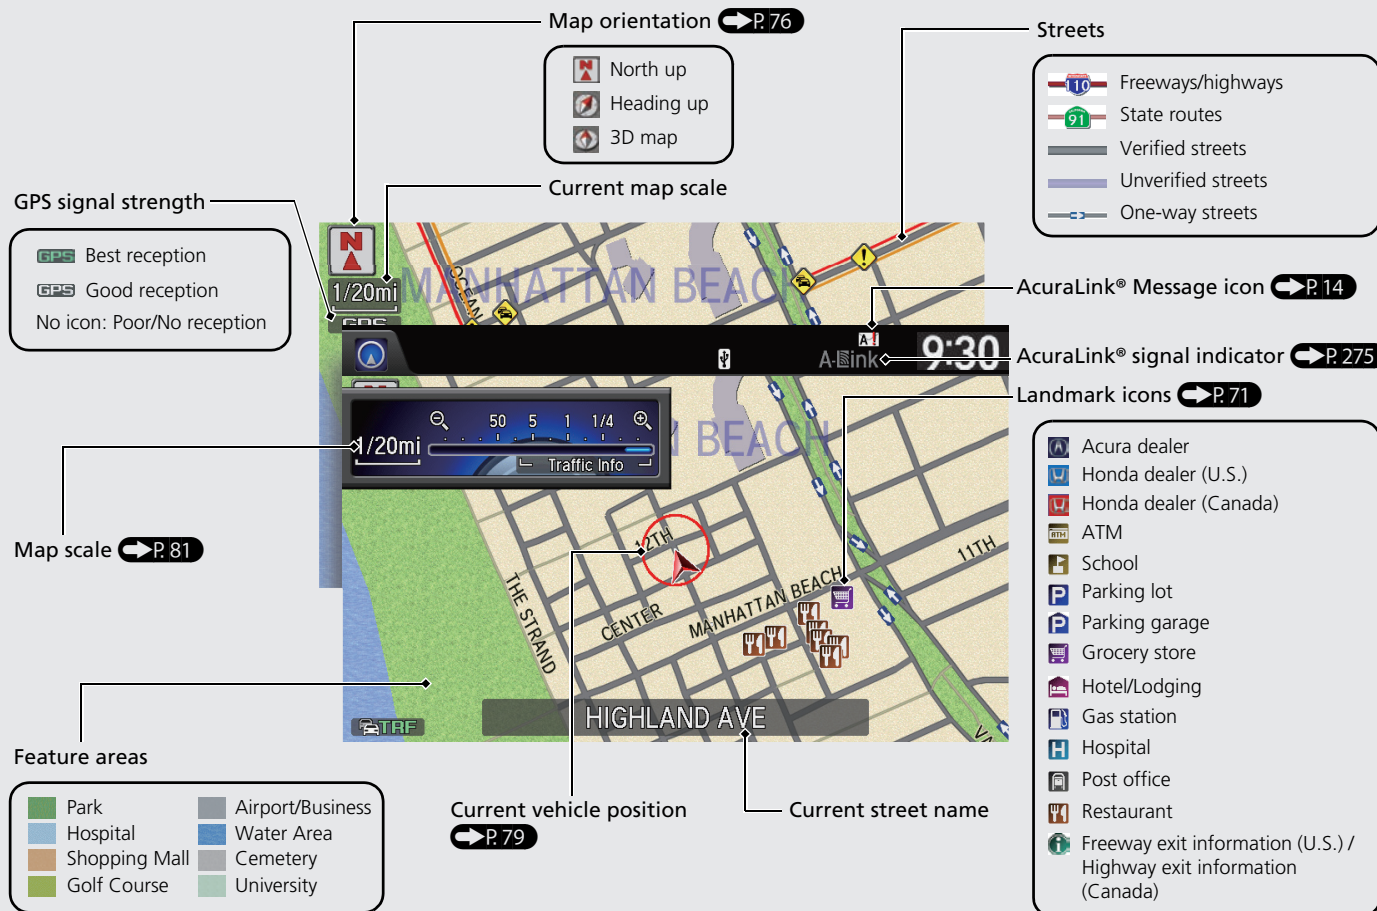

- Move  to select **Space** to enter a space character.
- Move  to select **Delete** to remove the last entered character.

- You can also use the touch screen to enter information.

Scrolling through lists or tabs is limited while the vehicle is moving. **Certain screen functions are limited or inoperable while the vehicle is moving. For these functions, use available voice commands or pull over to proceed.**

- Rotate  to read the tips.
- Move  or  to display the previous/next page.

Troubleshooting

For more Information  P.283

Why does the vehicle position icon on the map “lag” a short distance behind my actual position, especially at intersections?

This is normal. The navigation system is unaware of the width of intersections. Large differences in vehicle position can indicate a temporary loss of the GPS signal.

Why does the “time to destination” display sometimes increase even though I am getting closer to my destination?

The “time to destination” is based on your actual road speed and traffic conditions to give you a better estimate of arrival time.

How do I specify a destination when an entered city or street could not be found?

Try entering the street first. Some cities are lumped in with a major metro area. In rural “unverified” areas or new subdivisions, streets may be missing or only partially numbered.

How do I turn on the navigation system voice guidance?

On the map screen, press  to display the Map Menu. Rotate  to select **Guidance Volume**. Adjust the preferred volume level.

My battery was disconnected or went dead, and the navigation system is asking for a code. Where do I find it?

In most cases, you do not need to enter a code. Simply press and hold the  (Power) button for two seconds; the system should reactivate.

 **System Initialization** P. 300

How to Use This Manual

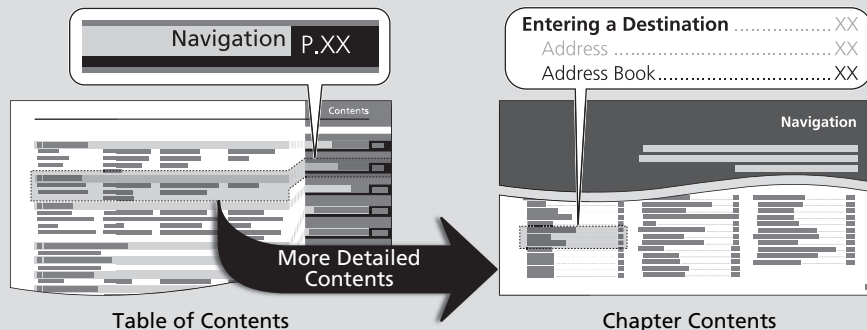

This section explains different methods on how you can easily find information in this manual.

Searching the Table of Contents

➡ P.1

Two types of Tables of Contents help you find your desired information.

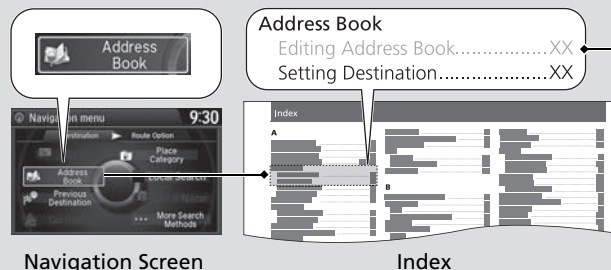

First, find the general chapter related to what you are looking for (e.g., entering a destination from the Address Book). Then, go to that chapter to view a more specific table of contents.

This more detailed table of contents shows you exactly what information is listed by section and title.

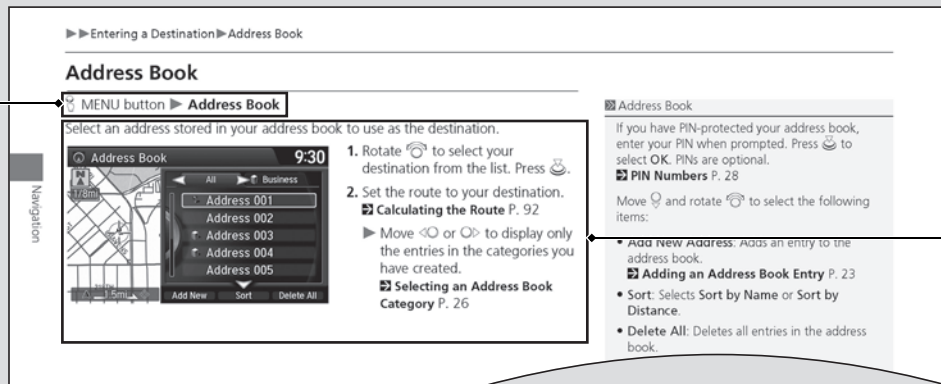

Searching the Index ➡ P.327

Menu items displayed on the navigation screen (e.g., Address Book) can be found individually in the Index.

The Index consists of main terms and sub-entries. The sub-entries help you get to the desired page depending on what you are looking for.

Go to the Next page ➡

After following the menu tree, step-by-step instructions explain how to achieve the desired result.

Menu Tree

The menu tree helps guide you through the system's menu options. To get to your desired function, follow the menu tree in order of the steps shown.

All menu options can also be activated with voice commands.

MENU button ► **Address Book**

Press the hard button on the system control panel.

Press the **MENU** button.

Select the menu option with the Interface Dial.

Rotate  to select **Address Book**. Press .

Sample pages and images in this section may differ from the actual ones.

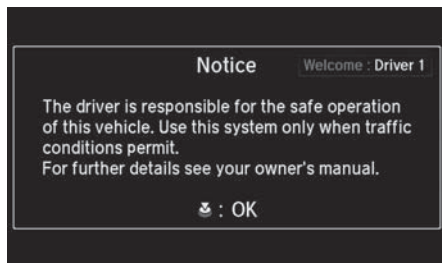

System Setup

This section describes the start-up procedure and the navigation and setup functions.

Start-up	20	Unverified Routing	56	3D Angle Adjustment	77

The navigation system starts automatically when you set the power mode to ACCESSORY or ON. At start-up, the following Confirmation screen is displayed.

1. Press  to select **OK**.
 - ▶ If you do not select **OK**, the map screen is displayed after a certain period of time.
 - ▶ Your current position is displayed on the map screen.

2. Press the **NAV** button if a different mode is selected.
 - ▶ Your current position is displayed on the map screen.

Start-up

If the navigation system loses power at any time, you may need to press and hold the  (Power) button for more than two seconds, or you may be prompted for the five-digit security code.

System Initialization P. 300

At start-up, the driver's keyless access remote is automatically detected and the address book settings, setup preferences, wallpapers, and audio settings for that driver (e.g., Driver 1) are loaded.

"OK" on the Confirmation screen cannot be selected by using a voice command.

■ Limitations for Manual Operation

Certain manual functions are disabled or inoperable while the vehicle is in motion. You cannot select a grayed-out option using the Interface Dial until the vehicle is stopped.

Voice commands are still operable while the vehicle is in motion.

Your vehicle has a voice control system that allows hands-free operation of most of the navigation system functions.

The voice control system uses the  (Talk) and  (Hang-Up/Back) buttons on the steering wheel and a microphone near the map lights on the ceiling.

A “Getting Started” feature provides a tutorial that explains how to use the voice control system.

 **Getting Started Tutorial** P. 15

Command Input

If the system does not understand a command or you wait too long to give a command, the system asks you to repeat the command.

When you give a command, the system generally either repeats the command as a confirmation or asks you for further information. If you do not wish to hear this feedback, you can turn it off. However, listening to the feedback will help familiarize you with the way the system expects commands to be phrased.

If the system cannot perform a command or the command is not appropriate for the screen you are on, the system beeps.

On character input screens, a list of possible characters is displayed if the system does not recognize your command.

You can find out which voice commands are available for a particular screen using the  “Voice Help” command. The system will display and read the list of available commands to you.

 **Voice Help** P. 15

Voice Control System

When you press the  (Talk) button, the system prompts you to say a voice command and gives examples. Press and release the  (Talk) button again to bypass this prompt and give a command.

Command Input

The audio system is muted while using the voice control system.

Voice Recognition

To achieve optimum voice recognition when using the navigation voice control system:

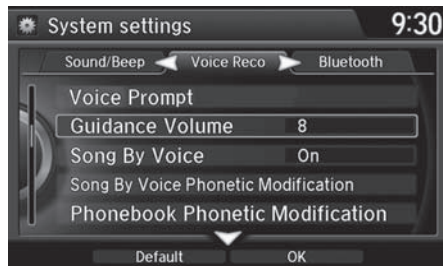

- Make sure the correct screen is displayed for the voice command that you are using.
 **Voice Commands** P. 314
- Close the windows and moonroof.
- Adjust the dashboard and side vents so air does not blow onto the microphone on the ceiling.
- Speak clearly in a clear, natural speaking voice without pausing between words.
- Reduce any background noise and the climate controls fan speed if possible. The system may misinterpret your command if more than one person is speaking at the same time.
- Refer to the Voice Help feature.
 **Voice Help** P. 15

Voice Recognition

The voice control system can only be used from the driver's seat because the microphone unit removes noises from the front passenger's side.

Siri Eyes Free

When your iPhone is paired and linked to the system via *Bluetooth®*, you can say Siri-related commands. Make sure Siri on your iPhone is turned on.

📱 **Pairing a Phone** P. 221

1. Press and hold the  (Talk) button for more than two seconds until you hear the Siri tone.
2. Talk to Siri.
 - ▶ When you hear the Siri tone, you can continue to respond without pressing any button. If the Siri tone times out, you have to press and hold the  (Talk) button again to reactivate Siri Eyes Free.
 - ▶ Press the  (Hang-Up/Back) button to turn off Siri Eyes Free.

📱 Siri Eyes Free

iPhone and Siri are trademarks of Apple, Inc.

Siri Eyes Free is available only on iPhone with iOS 6.0 and above.

Some commands work only on specific phone features or apps.

Some features may not be available for all countries or all areas. For details about Siri, refer to <http://www.apple.com>.

We recommend against using Siri other than in Eyes Free mode while operating a vehicle.

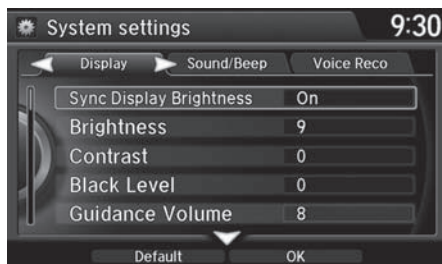

On Siri Eyes Free, the display remains the same and no feedback or commands appear.

While using Siri, you cannot operate the system with the built-in voice recognition.

On or Off?	The driver wishes to manually navigate using the navigation map and choose the streets that lead to the destination.	The driver chooses to let the navigation system suggest possible routing, knowing that the guidance may not be accurate.
Route calculation	Route is usually longer, using verified roads whenever possible.	Route is shorter, but uses unverified (purple) streets that may not be accurate.

Unverified Routing

Unverified roads are found in rural areas, and typically include residential streets away from the center of a town. They may not be accurate, and can contain errors in location, naming, and address range.

Unverified roads are shown only when viewing the map in the 1/20, 1/8, 1/4, 1/2, 1 and 2 (mile) / 80, 200, 400, 800 (m), 1.6 and 3.2 (km) map scales.

3. Scroll the map to position the cursor over at your correct position. Press .
4. Rotate to position the arrowhead in the correct direction the vehicle is facing.
5. Press to select **OK**.

Correct Vehicle Position

An apparent position error can occur where buildings, tunnels, and other objects block or reflect the GPS signals, forcing the system to use "dead reckoning" to determine your location and direction.

Using this function to adjust vehicle position is not recommended. When the system reacquires a GPS signal, it will automatically place the vehicle in the correct location.

If you continually have to adjust the vehicle position, you may have problems with the GPS reception or there may be database errors.

Viewing the Route

Map Screen

After calculating the route to your destination, the route is displayed on the map screen.

➔ **Map Screen Legend** P. 9

As you drive, the system tracks your position on the map in real time and provides guidance as you approach each guidance point on the route.

➔ **During Route Guidance** P. 10

Viewing the Route

➔ **"Display Map"**

You can change the map scale using voice commands (e.g., say "Display 2 mile (3 km) scale").

➔ **Map Scale Commands** P. 314

You can also change the map scale by rotating .

You can control the icons displayed on the map screen using voice commands (e.g., say "Display post office").

➔ **Map Display Commands** P. 314

You can obtain information about the route using voice commands (e.g., say "How long to the destination?").

➔ **Route Commands** P. 316

You can display the next guidance point on the map screen by saying "Display Map Guide" (when en route).

If you scroll the map while en route, the time and distance to destination indicators are replaced with an indicator showing distance from the current vehicle position.

You can display only the map screen or a split map-guidance screen.

➔ **Guidance Mode** P. 63

■ Guidance Screen

The guidance screen offers an alternative way to view your route.

- ▶ The next guidance point is displayed as you approach each guidance point on the route.
- ▶ You can also view a list of guidance directions.

» Guidance Screen

A visual guide helps you check the guidance screen.

➤ **Guidance Screen** P. 10

Turn-by-Turn Directions

The next guidance point appears on the multi-information display.

➤ **Turn-by-Turn Directions** P. 10

You can turn this feature on or off using the multi-information display. See the Owner's Manual for instructions.

Route Line

When driving on verified streets, the route line is light blue. The route line display changes when driving on unverified streets:

Straight line guide

Blue-pink route line

- If **Unverified Routing** is **Off**, the route line uses verified streets only (when possible). If **Straight Line Guide** is set to **On**, a pink “vector line” pointing directly towards your destination is displayed.
 ➤ **Straight Line Guide** P. 78

- If **Unverified Routing** is **On**, the route line changes to a blue-pink line to indicate that the route line uses unverified streets.

Route Line

You can set **Unverified Routing** to **Off** to follow your own route to the destination. If **Unverified Routing** is **On**, be aware that unverified streets may not be displayed accurately.

➤ **Unverified Routing** P. 56

You can always view the entire route by simply saying

🗨️ *“Display entire route.”*

The route line may also consist of red, orange, or green segments when traffic information is displayed.

➤ **AcuraLink Real-Time Traffic™** P. 14

➤ **Traffic Rerouting™** P. 130

■ Deviating From the Planned Route

If you leave the calculated route, the system automatically recalculates a route to the desired destination based on your current location and direction.

➤ **Route Preference** P. 54

■ Tracking Dots

You can display a series of dots (breadcrumbs) to track the path you are taking. If needed, you can follow the dots back to the mapped road you originally left.

➤ **Display Tracking** P. 84

▣ Tracking Dots

A message “Not on a digitized road” may appear when you drive 1/2 mile (800 m) away from a mapped road.

Breadcrumbs may occasionally be displayed in urban areas, such as large parking lots in shopping malls, in new subdivisions where the roads are not yet in the database, or in areas where a GPS signal is unavailable, such as in a parking garage.

Breadcrumbs are limited to approximately 150 miles (240 km). Breadcrumbs at the beginning of the trail are deleted if you exceed that distance.

Breadcrumbs are displayed only at 1/20, 1/8, 1/4, and 1/2 mile (80, 200, 400, and 800 m) map scales.

Listening to Voice Guidance

 **ENTER** button (on map) ▶ **Voice**

As you approach each guidance point, a pop-up window is displayed on the map screen with instructions for you to follow. Voice guidance for each guidance point is also provided.

Typically, you hear three prompts:

- 1/2 mile (800 m) from the guidance point (2 miles (3 km) on freeway/highway)
- 1/4 mile (400 m) from the guidance point (1 mile (1.5 km) on freeway/highway)
- Just before the guidance point

To replay voice guidance, rotate  to select **Voice** in the Map Menu.

If you select **Voice** between guidance points, voice guidance for the next guidance point is provided.

Listening to Voice Guidance

 "Voice" (on the map screen)

You can turn voice guidance OFF if you prefer. Press the **SETTINGS** button. Select **System Settings** and set **Guidance Volume** to **0**.

You can also adjust **Guidance Volume** by rotating the volume knob while the route guidance or voice command confirmations is announced.

When driving in unverified areas, the phrase "if possible" is inserted before each voice guidance prompt.

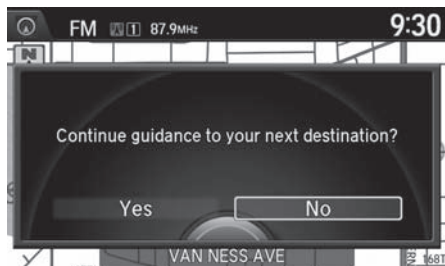

Voice in the Map Menu may be grayed out if:

- The system is in process of gathering the route guidance information.
- The vehicle is out of the road (e.g., pulling in a parking lot).

The timing of voice guidance varies depending on the type of road you are on and the distance to the next guidance point.

Reaching a Waypoint

When you reach a waypoint, a pop-up message is displayed. You can continue or pause the route guidance.

Rotate  to select **No** to pause the route guidance. Press .

► Select **Yes** to continue the guidance.

■ Resuming the route guidance

You can resume the route guidance in the following ways:

- Restart the engine when you stop your car (e.g., to rest, stop for gas, etc.).
 **Resuming Your Trip** P. 145
- Select **Resume Guidance** from the navigation menu or the map menu.
 **Map Menu** P. 125

About Your Audio System

The audio system features AM/FM radio and the SiriusXM® Radio service. It can also play audio CDs, WMA/MP3/AAC files, Hard Disc Drive (HDD) audio, USB flash drives, iPod, iPhone and *Bluetooth*® devices.

You can operate the audio system from the buttons and switches on the panel, the icons on the touchscreen interface.

⌘ About Your Audio System

SiriusXM® Radio is available on a subscription basis only. For more information on SiriusXM® Radio, contact a dealer.

⌘ **SiriusXM® Radio Service** P. 169

SiriusXM® Radio is available in the U.S. and Canada, except Hawaii, Alaska, and Puerto Rico.

SiriusXM® is a registered trademark of Sirius XM® Radio, Inc.

Video CDs, DVDs, and 3 in (80 mm) mini CDs are not supported.

iPod, iPhone and iTunes are trademarks of Apple Inc.

State or local laws may prohibit the operation of handheld electronic devices while operating a vehicle.

When the screen is viewed through polarized sunglasses, a rainbow pattern may appear on the screen due to optical characteristics of the screen. If this is disturbing, please operate the screen without polarized sunglasses.

USB Port

Install the iPod or iPhone dock connector or the USB flash drive to the USB port.

⌘ USB Port

- Do not leave the iPod or USB flash drive in the vehicle. Direct sunlight and high temperatures may damage it.
- Do not connect the iPod or USB flash drive using a hub.
- Do not use a device such as a card reader or hard disc drive, as the device or your files may be damaged.
- We recommend backing up your data before using the device in your vehicle.
- Displayed messages may vary depending on the device model and software version.

If the audio system does not recognize the iPod, try reconnecting it a few times or reboot the device. To reboot, follow the manufacturer's instructions provided with the iPod or visit www.apple.com/ipod.

Auxiliary Input Jack

Use the jack to connect standard audio devices.

1. Open the center console.
2. Open the AUX cover.
3. Connect a standard audio device to the input jack using a 1/8 in (3.5 mm) stereo miniplug.
 - The audio system automatically switches to the AUX mode.

▣ Auxiliary Input Jack

You can return to the AUX mode by selecting **Change Source** on the Audio menu screen or **Audio Source** on the On Demand Multi-Use Display™.

Audio System Theft Protection

The audio system is disabled when it is disconnected from the power source, such as when the battery is disconnected or goes dead. In certain conditions, the system may display Enter code. If this occurs, reactivate the audio system.

■ Reactivate the audio system

1. Set the power mode to ON.
2. Turn on the audio system.
3. Press and hold the audio system power button for more than two seconds.
 - The audio system is reactivated when the audio control unit establishes a connection with the vehicle control unit. If the control unit fails to recognize the audio unit, you must go to a dealer and have the audio unit checked.

Setting Audio Shortcuts

You can store up to six radio stations, and HDD audio album/play lists when playing AM, FM, SiriusXM® radio, or HDD audio.

■ Storing a station or song

1. Select **Shortcuts**.
2. Tune to a radio station or select a song.

▣ Receiving SiriusXM® Radio

The SiriusXM® satellites are in orbit over the equator; therefore, objects south of the vehicle may cause satellite reception interruptions. Satellite signals are more likely to be blocked by tall buildings and mountains the farther north you travel from the equator.

You may experience reception problems under the following circumstances:

- In a location with an obstruction to the south of your vehicle
- In tunnels
- On the lower level of a multi-tiered road
- Large items carried on the roof rack

(Pick-up) button: Press to go to the **Speed Dial/Call History** on the multi-information display or to answer an incoming call.

(Hang-up/back) button: Press to end a call, to cancel a command or to clear the phone information on the multi-information display.

(Talk) button: Press to give HFL voice commands.

PHONE button: Press to go directly to the Phone screen.

Interface dial: Rotate to select an item on the screen, then press . Move , or to select secondary menu.

Bluetooth® HandsFreeLink®

To use HFL, you need a *Bluetooth*®-compatible mobile phone. For a list of compatible phones, pairing procedures, and special feature capabilities: Call 1-888-528-7876 or visit www.acura.com/handsfreelink (U.S.) or www.handsfreelink.ca (Canada).

Voice control tips:

- Aim the vents away from the ceiling and close the windows, as noise coming from them may interfere with the microphone.
- Press and release the button when you want to call a number using a stored voice tag, a phonebook name, or a number. Speak clearly and naturally after a beep.
- If the microphone picks up voices other than yours, the command may be misinterpreted.
- To change the volume level, use the audio system's volume knob or the remote audio controls on the steering wheel.

State or local laws may prohibit the operation of handheld electronic devices while operating a vehicle.

If you receive a call while using the audio system, the system resumes its operation after ending the call.

If you press button, the climate control fan speed is reduced automatically. When voice recognition ends, the fan speed returns to the previous level.

1. Rotate to select **Yes**. Press .
2. Make sure your phone is in search or discoverable mode. Press .
 - ▶ HFL automatically searches for a *Bluetooth*® device.
3. When your phone appears on the list, select it by pressing .
 - ▶ If your phone does not appear, you can select **Refresh** to search again.
 - ▶ If your phone still does not appear, move to select **Phone not Found?** and search for *Bluetooth*® devices using your phone. From your phone, select **HandsFreeLink**.

Pairing a Phone

Your *Bluetooth*®-compatible phone must be paired to HFL before you can make and receive hands-free calls.

Phone Pairing Tips:

- You cannot pair your phone while the vehicle is moving.
- Up to six phones can be paired.
- Your phone's battery may drain faster when it is connected to HFL.
- If your phone is not ready for pairing or not found by the system within three minutes, the system will time out and returns to idle.

Once you have paired a phone, you can see it displayed on the screen with one or two icons on the right side.

These icons indicate the following:

- : The phone can be used with HFL.
- : The phone is compatible with *Bluetooth*® Audio.

4. HFL gives you a pairing code on the navigation screen.
 - Confirm if the pairing code on the screen and your phone match. This may vary by phone.
5. You will receive a notification on the screen if pairing is successful.

4. You will receive a notification on the screen if deletion is successful.

Importing Phonebook Data

When your phone is paired, the contents of its phonebook and call history are automatically imported to HFL.

Importing Phonebook Data

When you select a person from the list in the mobile phonebook, you can see up to three category icons. The icons indicate what types of numbers are stored for that name.

	Pref		Fax
	Home		Car
	Mobile		Other
	Work		Message
	Pager		Voice

On some phones, it may not be possible to import the category icons to HFL.

The phonebook is updated after every connection. Call history is updated after every connection or call.

AcuraLink® Messages

This section describes how Acura directly communicates important information to you regarding your vehicle.

AcuraLink®	266
In Case of Emergency.....	266
Security Features	269
Operator Assistance	270
AcuraLink® Message	271
AcuraLink® Subscription Status.....	275

A subscription-based service that provides convenient features such as voice communication in case of emergency, online security, one-on-one operator assistance, and the transmission of important messages regarding your vehicle's status.

For information on traffic rerouting and traffic information updates, provided by the AcuraLink® server.

In Case of Emergency

Your vehicle may not be able to connect to the operator if the battery level is low, the line is disconnected or you do not have adequate mobile coverage.

You cannot use emergency services when:

- You travel outside the AcuraLink® service coverage areas.
- There is a problem with the connecting devices, such as the **ASSIST** button, microphone, speakers, or the unit itself.
- You are not subscribed to the service or your subscription is no longer valid.

» AcuraLink®

AcuraLink® also provides services you can operate from the Internet or your smartphone.

To subscribe to AcuraLink®, or to get more information about all of its features, contact an Acura dealer or visit owners.acura.com (U.S.) or www.myacura.ca (Canada).

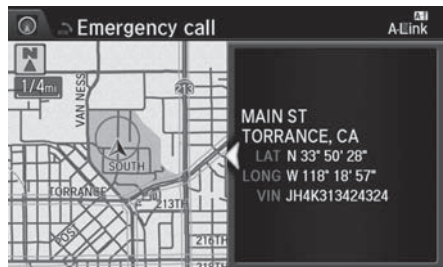

» In Case of Emergency

You cannot operate other navigation- or phone-related functions using the screens while talking to the operator.

Only the operator can terminate the connection to your vehicle.

Automatic collision notification

Navigation screen

If your vehicle's airbags deploy or if the unit detects that the vehicle is severely impacted, your vehicle automatically will attempt to connect to the AcuraLink® operator. Once connected, information about your vehicle, its positioning, and its condition will be sent to the operator; you also can speak to the operator when connected.

On Demand Multi-Use Display™

Automatic collision notification

If the unit fails to connect to the operator, it repeatedly tries until it succeeds.

■ Manual operator connection

If you need to talk to the AcuraLink® operator in an emergency situation, you can manually connect to them by pressing the **ASSIST** button with the power mode in ACCESSORY or ON.

1. Open the cover attached to the ceiling console.
2. Press the **ASSIST** button.
 - ▶ You are connected to the AcuraLink® operator.

▣ Manual operator connection

Do not press the button while driving. When you need to contact the operator, park the vehicle in a safe place.

If the unit fails to connect to the operator, it automatically cancels the action after three minutes.

In an emergency, the cover can be broken through to press the **ASSIST** button.

Security Features

Your subscribed telematics service provider can track your vehicle's location, remotely lock or unlock doors, and help you find your vehicle. To use these features, you need your user ID and personal identification number (PIN).

■ Stolen vehicle tracking

This feature searches and tracks down your vehicle position even if it is on the move. If you believe that your vehicle has been stolen, contact the police as well as the provider.

■ Remote door lock/unlock

The provider can remotely lock or unlock doors upon your request.

■ Vehicle finder

This feature is convenient to use when trying to locate your vehicle in large areas, such as a crowded parking lot. If you cannot locate your vehicle after using the remote transmitter's answerback function, you can contact the provider which can then flash your vehicle's exterior lights and sound the horn.

■ Security alarm notification

If the security system in your vehicle detects an abnormal condition, such as someone tampering with the lock on your vehicle, the provider notifies you by your preferred method.

» Security Features

The contact information of your provider, your user ID and PIN will be given when you subscribe to AcuraLink®. If you forget any of the above, contact a dealer or visit owners.acura.com (U.S.) or www.myacura.ca (Canada).

You can also activate the remote door lock/unlock and vehicle finder features from the Internet or using your smartphone app. Ask a dealer or visit owners.acura.com (U.S.) or www.myacura.ca (Canada).

» Vehicle finder

The lights will stop flashing and horn will stop sounding under the following conditions:

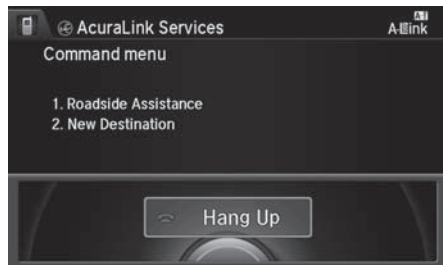

- When 30 seconds have elapsed.
- You unlock the doors using the remote transmitter.
- You unlock the doors using the keyless access system.
- You unlock the doors using the built-in key.
- The power mode is set to ACCESSORY or ON.

Operator Assistance

Connect to the AcuraLink® operator when trying to find a destination or for roadside assistance.

1. Press the **LINK** button.
 - Connection to the operator begins.

2. Talk to the operator.
 - To disconnect, rotate the  to select **Hang Up**, select **End Call** on the On Demand Multi-Use Display™, or press the **Hang-up** button.

Operator Assistance

3. Rotate  to select a message you want to read, then press .

Reading a message

If there is no message listed on the menu, **AcuraLink/Messages** is grayed out and cannot be selected.

The message icon disappears once you read the message.

However, the exclamation mark that indicates that the message has a high priority remains.

- : A read message with high priority.

Message Options

While a message is displayed, you can use options to take immediate action to the message.

Available options are:

- **Voice:** Reads the message aloud. Select Stop to cancel it.
- **Find Acura Dlr.:** Searches for the nearest Acura dealer.
- **Delete:** Deletes the displayed message.
- **Call Your Dealer:** Calls your Acura dealer using HFL.
- **Schedule Dealer Appointment:** Automatically sets an appointment date at your dealer.
- **Phone number:** Dials a number displayed in the message via HFL.
- **Diagnostic Info:** Updates the current diagnostic message by connecting to the Acura server using HFL.

Message Options

The available options vary by message category.

You can delete all messages in a category at once.

Voice is available only when the **Message Auto Reading** setting is in ON, and the language selected is English.

■ Dealer Appointments

You can confirm the scheduled appointment date when you receive a **Maintenance Minder** or **Recalls/Campaigns** message, or reschedule any existing appointments.

The navigation system must be initialized if power to the navigation system is interrupted for any reason (e.g., the battery was disconnected).

Entering the Security Code

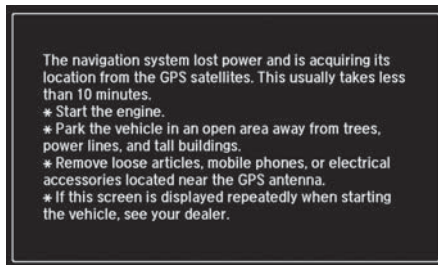

In most cases, you do not need to enter a security code. Follow the steps to reactivate the system.

1. Set the power mode to ON, and turn on the audio system.
2. Press and hold the  (Power) button for more than two seconds.
 - The system is reactivated when the system's control unit recognizes that the system is in your vehicle. If the control unit fails to recognize, you must go to a dealer and have the system checked.

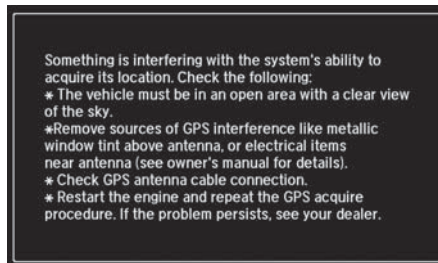

Acquiring GPS Information

Depending on the length of time the power was interrupted, your system may require GPS initialization.

If initialization is not necessary, the system proceeds directly to the Startup Confirmation screen.

If the system fails to locate a sufficient number of satellites to locate your position within 10 minutes, the following screen is displayed.

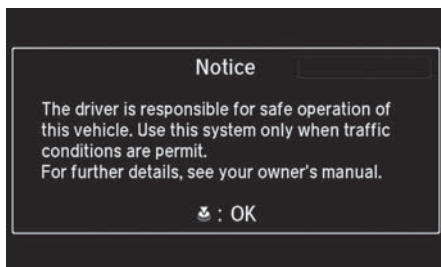

If you are experiencing GPS reception problems:

➤ **GPS System P. 302**

Startup Confirmation Screen

The Startup Confirmation screen is displayed when initialization has successfully completed. It is displayed every time you start your vehicle. Press  to select **OK** to continue.

Map Matching

Map matching is the process of using the acquired GPS information to locate your position on the map screen. If you are on a mapped road, the name of the road is displayed along the bottom of the map screen when map matching is completed. Do not enter a destination until the road name is displayed.

The system may initially show your location on a different street (e.g., in urban areas where streets are close together), may show an incorrect elevation, or may delay the display of the vehicle position icon at intersections. This is normal; the system will correct itself while you drive.

GPS System

The signals received from the GPS satellites are extremely weak (less than a millionth of the strength of a local FM station) and require an unobstructed view of the sky. The GPS antenna is located in the dashboard. The signal reception can easily be interrupted or interfered with by the following:

- Metallic window tint on the front or side windows
- Mobile phones, PDAs, or other electronic devices docked in a cradle or lying loose on the dashboard
- Remote starters or “hidden” vehicle tracking systems mounted near the navigation unit
- Audio electronic devices mounted near the navigation unit
- Trees, tall buildings, freeway/highway overpasses, tunnels, or overhead electrical power wires

The GPS is operated by the U.S. Department of Defense. For security reasons, there are certain inaccuracies built into the GPS for which the navigation system must constantly compensate. This can cause

occasional positioning errors of up to several hundred feet or tens of meters.

Address Calculation

The destination icon shows only the approximate location of a destination address. This occurs if the number of possible addresses is different from the number of actual addresses on a block. For example, the address 1425 on a 1400 block with 100 possible addresses (because it is followed by the 1500 block) will be shown a quarter of the way down the block by the system. If there are only 25 actual addresses on the block, the actual location of address 1425 would be at the end of the block.

Database

The digitized map database reflects conditions as they existed at various points in time before production. Accordingly, your database may contain inaccurate or incomplete data or information due to the passage of time, road construction, changing conditions, or other causes. For example, some places/landmarks may be missing when you search the database because the name was misspelled, the place was improperly categorized, or a place/landmark is not yet in the database. This is also true for police stations, hospitals, and other public institutions. Do not rely on the navigation system if you need law enforcement or hospital services. Always check with local information sources. In addition, the map database contains verified and unverified areas. Unverified streets may be missing from the map, in the wrong location, or have an incorrect name or address range. A message will warn you if your route includes unverified streets. Exercise additional caution when driving in unverified areas.

The database does not include, analyze, process, consider, or reflect any of the following categories of information:

- Neighborhood quality or safety
- Population density
- Availability or proximity of law enforcement
- Emergency, rescue, medical, or other assistance
- Construction work, zones, or hazards
- Road and lane closures
- Legal restrictions (such as vehicular type, weight, load, height, and speed restrictions)
- Road slope or grade
- Bridge height, width, weight, or other limits
- Traffic facilities safety
- Special events
- Pavement characteristics or conditions

Every effort has been made to verify that the database is accurate. The number of inaccuracies you experience increases the longer you go without obtaining an updated map database.

We assume no liability for any incident that may result from an error in the program, or from changed conditions not noted above.

Resolving Problems

If you run into a specific issue that you cannot resolve, consult the following help resources:

- For navigation system issues:
 📖 **Troubleshooting** P. 284
- There are also FAQs available online at www.acuranavi.com (U.S.) or www.acuranavi.ca (Canada).
- For traffic-related issues:

Reporting Errors

You can help to improve database accuracy by reporting any errors you encounter.

- Report errors in freeways/highways and main “verified” roads shown in black on the map at <http://mapreporter.navteq.com/dur-web-external/>.
- Please do not report errors in purple “unverified” roads. Maps for these areas are provided for reference only.
 📖 **Unverified Routing** P. 56
- Please do not report errors in places/landmarks, such as changes in business names. Information about points of interest are constantly being updated. An updated database is available for purchase, usually in the fall of each year.

Visiting a Dealer

If you have a question that you cannot resolve using the available help resources, you can consult a dealer. Please identify the specific issue (e.g., error occurs when you enter a specific address, when driving on a certain road, or just when it's cold) so that the service technician can refer the issue to the factory so that a solution can be found. Be patient, the service technician may be unfamiliar with your specific issue.

Map Coverage

The navigation system provides map coverage for the United States, Canada, Puerto Rico, and Mexico. The map coverage consists of accurately mapped (verified) metropolitan areas and a less accurate (unverified) rural database. Note that unverified areas are constantly being reviewed and converted to verified areas each year.

Map coverage update information is available from Acura Client Relations or online at www.acuranavi.com (U.S.) or www.acuranavi.ca (Canada).

To find navigation system update information:

1. Visit the website.
 2. Enter your vehicle model and model year.
 3. Click Map Coverage to display a list of verified coverage areas on the most recent update.
 4. Click Map Coverage Details to display a PDF document with a full listing of all coverage areas.
- Adobe® Reader® is required for viewing and printing the Portable Document Format (PDF) documents. To download the latest version of Adobe Reader, visit <http://get.adobe.com/reader/>.

Obtaining a Navigation Update

Acura is continually expanding the scope of the navigation system. Navigation system software upgrades may be made available periodically, usually in the fall of each year. To purchase an update:

1. Obtain your vehicle's VIN number and the System/Device Information.

■ **System Device Information** P. 280

2. Call the Acura Navigation Disc Fulfillment Center at (888) 549-3798, or order online at www.acuranavi.com (U.S.) or www.acuranavi.ca (Canada).

An update is not available from a dealer. However, the dealer may assist you in obtaining one for you out of courtesy. There is no program for free updates.

Traffic Information

Continuously updated traffic information is available in major metropolitan areas across the 48 contiguous states and some cities in Canada. A list of coverage areas is available online.

To find traffic information:

1. Visit www.acura.com/realtimetraffic.
2. Select Real-Time Traffic on the TLX.
3. Click AcuraLink Real-Time Traffic.

Operation in Alaska, Hawaii, Canada, Puerto Rico, and Mexico

■ Map Coverage

All roads displayed on the map screens are verified roads. Information in this manual relating to "unverified" roads or areas is not applicable.

■ Address and Place Entry Screens

Entering a destination address or place/landmark on another island may result in a screen caution message. This is because there are no ferry routes between islands in the database.

■ Puerto Rico and Mexico

If **Street Name Guidance** is set to **On**, the street names will not be read out by voice guidance. This may change in a future data update.

- SPEECH RECOGNITION

If the SOFTWARE includes speech recognition component(s), you should understand that speech recognition is an inherently statistical process and that recognition errors are inherent in the

process. Neither ALPINE nor its suppliers shall be liable for any damages arising out of errors in the speech recognition process.

- LIMITATIONS ON REVERSE ENGINEERING, DECOMPILE, AND DISASSEMBLY
You may not reverse engineer, decompile, or disassemble the SOFTWARE, except and only to the extent that such activity is expressly permitted by applicable law notwithstanding this limitation.
- ADDITIONAL SOFTWARE/SERVICES
The SOFTWARE may permit ALPINE, MS, Microsoft Corporation or their affiliates to provide or make available to you SOFTWARE updates, supplements, add-on components, or Internet-base service components of the SOFTWARE after the date you obtain your initial copy of the SOFTWARE ("Supplemental Components").
▶ If ALPINE provides or makes available to you Supplemental Components and no other EULA terms are provided along with the Supplemental Components, then the terms of this EULA shall apply.

- ▶ If MS, Microsoft Corporation or their affiliates make available Supplemental Components, and no other EULA terms are provided, then the terms of this EULA shall apply, except that MS, Microsoft Corporation or affiliate entity providing the Supplemental Component(s) shall be licensor of the Supplemental Component(s).

- ▶ ALPINE, MS, Microsoft Corporation and their affiliates reserve the right to discontinue any Internet-based services provided to you or made available to you through the use of the SOFTWARE.

- RECOVERY MEDIA
If SOFTWARE is provided by ALPINE on separate media and labeled "Recovery Media" you may use the Recovery Media solely to restore or reinstall the SOFTWARE originally installed on the DEVICE.
- UPGRADES
If the SOFTWARE is provided by ALPINE separate from the DEVICE on separate media or via web download or other means, and is labeled "For Upgrade Purposes Only" you may install one (1) copy of such SOFTWARE onto the

DEVICE as a replacement copy for the existing SOFTWARE, and use it in accordance with this EULA, including any additional EULA terms accompanying the upgrade SOFTWARE.

- **TERMINATION**

Without prejudice to any other rights, ALPINE or MS may terminate this EULA if you fail to comply with the terms and conditions of this EULA. In such event, you must destroy all copies of the SOFTWARE and all of its component parts.

- **INTELLECTUAL PROPERTY RIGHTS**

All title and intellectual property rights in and to the SOFTWARE (including but not limited to any images, photographs, animations, video, audio, music, text and "applets," incorporated into the SOFTWARE), the accompanying printed materials, and any copies of the SOFTWARE, are owned by MS, Microsoft Corporation, their affiliates or suppliers. The SOFTWARE is licensed, not sold. You may not copy the printed materials accompanying the SOFTWARE. All title and intellectual property rights in and to the content which may be accessed through use of the SOFTWARE is the

property of the respective content owner and may be protected by applicable copyright or other intellectual property laws and treaties. This EULA grants you no rights to use such content. All rights not specifically granted under this EULA are reserved by MS, Microsoft Corporation, their affiliates and suppliers. Use of any on-line services which may be accessed through the SOFTWARE may be governed by the respective terms of use relating to such services. If this SOFTWARE contains documentation that is provided only in electronic form, you may print one copy of such electronic documentation.

- **TRADEMARKS**

This EULA does not grant you any rights in connection with any trademarks or service marks of ALPINE MS, Microsoft Corporation, their affiliates or suppliers.

- **PRODUCT SUPPORT**

Product support for the SOFTWARE is not provided by MS, its parent corporation Microsoft Corporation, or their affiliates or subsidiaries. For product support, please refer to ALPINE support number

provided in the documentation for the DEVICE.

Should you have any questions concerning this EULA, or if you desire to contact ALPINE for any other reason, please refer to the address provided in the documentation for the DEVICE.

- **SOFTWARE TRANSFER ALLOWED BUT WITH RESTRICTIONS**

You may permanently transfer rights under this EULA only as part of a permanent sale or transfer of the Device, and only if the recipient agrees to this EULA. If the SOFTWARE is an upgrade, any transfer must also include all prior versions of the SOFTWARE.

- **EXPORT RESTRICTIONS**

You acknowledge that SOFTWARE is of US-origin. You agree to comply with all applicable international and national laws that apply to the SOFTWARE, including the U.S. Export Administration Regulations, as well as end-user, end-use and country destination restrictions issued by U.S. and other governments. For additional information on exporting the SOFTWARE, see <http://www.microsoft.com/exporting/>.

■ Gracenote Music Recognition Service (CDDB)

Music recognition technology and related data are provided by Gracenote®. Gracenote is the industry standard in music recognition technology and related content delivery.

For more information, visit www.gracenote.com.

When music is recorded to the HDD from a CD, information such as the recording artist and track name are retrieved from the Gracenote Database and displayed (when available).

Gracenote may not contain information for all albums.

Gracenote is an internet-based music recognition service that allows artist, album, and track information from CDs to display on the HDD.

Gracenote users are allowed 4 free updates a year. More information about Gracenote, its features, and downloads are available at www.honda.com (in U.S.) or www.honda.ca (in Canada).

CD and music-related data from Gracenote, Inc., copyright © 2000 to present Gracenote. Gracenote Software, copyright © 2000 to present Gracenote. One or more patents owned by Gracenote apply to this product and service. See the Gracenote website for a non-exhaustive list of applicable Gracenote patents. Gracenote, CDDB, MusicID, MediaVOCS, the Gracenote logo and logotype, and the "Powered by Gracenote" logo are either registered trademarks or trademarks of Gracenote in the United States and/or other countries.

■ Gracenote® END USER LICENSE AGREEMENT

This application or device contains software from Gracenote, Inc. of Emeryville, California ("Gracenote"). The software from Gracenote (the "Gracenote Software") enables this application to perform disc and/or file identification and obtain music-related information, including name, artist, track, and title information ("Gracenote Data") from online servers or embedded databases (collectively, "Gracenote Servers") and to perform other

functions. You may use Gracenote Data only by means of the intended End-User functions or this application or device. You agree that you will use Gracenote Data, the Gracenote Software, and Gracenote Servers for your own personal non-commercial use only.

You agree not to assign, copy, transfer, or transmit the Gracenote Software or any Gracenote Data to any third party. **YOU AGREE NOT TO USE OR EXPLOIT GRACENOTE DATA, THE GRACENOTE SOFTWARE, OR GRACENOTE SERVERS, EXCEPT AS EXPRESSLY PERMITTED HEREIN.** You agree that your non-exclusive license to use the Gracenote Data, the Gracenote Software, and Gracenote Servers will terminate if you violate these restrictions. If your license terminates, you agree to cease any and all use of the Gracenote Data, the Gracenote Software, and Gracenote Servers.

Gracenote reserves all rights in Gracenote Data, the Gracenote Software, and the Gracenote Servers, including all ownership rights. Under no circumstances will Gracenote become liable for any payment to you for any information that you provide. You agree that Gracenote, Inc. may enforce

its rights under this Agreement against you directly in its own name.

The Gracenote service uses a unique identifier to track queries for statistical purposes. The purpose of a randomly assigned numeric identifier is to allow the Gracenote service to count queries without knowing anything about who you are. For more information, see the web page for the Gracenote Privacy Policy for the Gracenote service.

The Gracenote Software and each item of Gracenote Data are licensed to you "AS IS." Gracenote makes no representations or warranties, express or implied, regarding the accuracy of any Gracenote Data from in the Gracenote Servers. Gracenote reserves the right to delete data from the Gracenote Servers or to change data categories for any cause that Gracenote deems sufficient. No warranty is made that the Gracenote Software or Gracenote Servers are error-free or that functioning of Gracenote Software or Gracenote Servers will be uninterrupted.

Gracenote is not obligated to provide you with new enhanced or additional data types or categories that Gracenote may provide in

the future and is free to discontinue its services at any time.

GRACENOTE DISCLAIMS ALL WARRANTIES EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, AND NONINFRINGEMENT. GRACENOTE DOES NOT WARRANT THE RESULTS THAT WILL BE OBTAINED BY YOUR USE OF THE GRACENOTE SOFTWARE OR ANY GRACENOTE SERVER. IN NO CASE WILL GRACENOTE BE LIABLE FOR ANY CONSEQUENTIAL OR INCIDENTAL DAMAGES OR FOR ANY LOST PROFITS OR LOST REVENUES.

As required by the FCC

1. This device complies with Part 15 of the FCC Rules and Canadian RSS-210/ RSSGen. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
2. The FCC requires the user to be notified that any changes or modifications made to this device that are not expressly approved by the party responsible for compliance may void the user's authority to operate the equipment.
3. This product emits radio frequency energy, but the radiated output power of this device is far below the FCC and IC radio frequency exposure limits. This equipment complies with FCC and IC RF radiation exposure limits set forth for an uncontrolled environment. Nevertheless, the device should be used in such a manner that the potential for human contact with the antenna during normal operation is minimized.
