2014 RLX Navigation Online Reference Manual

The information and specifications included in this publication were in effect at the time of approval for printing. Honda Motor Co., Ltd., reserves the right, however, to discontinue or change specifications or design at any time without notice and without incurring any obligation.

Accessories Precautions

The GPS antenna is located in the dashboard. Metallic front or side window tinting can seriously degrade or obstruct GPS reception.

Signal noise from devices such as radar detectors, vehicle tracking devices, remote starters, and additional amplifiers can disrupt the navigation system. If you install any such item, install it away from the navigation display and antenna.

Important Safety Information

> ### ⚠ WARNING
>
> Using the navigation system while driving can take your attention away from the road, causing a crash in which you could be seriously injured or killed.
>
> Only operate system controls when the conditions permit you to safely do so.

Navigation Key

Avoid focusing on the screen or manually operating the system controls while driving.

Enter information before you begin driving or when stopped. As you drive, listen to the audible instructions and use voice commands when possible. Pull to the side of the road if you need more time to look at the screen or operate the controls.

Route guidance may conflict with street closures, road construction, detours, and out-of-date map data.

The system itself may also have limitations. Verify route information by carefully observing roads, signs, and signals. Always use your own judgment and obey traffic laws.

Overview—Functions at a Glance

Navigation

You can select any place/landmark as a destination by using voice control or the Interface Dial. The navigation system gives you turn-by-turn driving directions to your destination.

Store home address

Register **1** home address.

Store contacts

Store up to **200** contacts in **2** address books.

Enter destination

Select your destination using **14** methods.

Address	Previous Destination	Scenic Route
Address Book	Go Home	Intersection
Place Category	Place Phone Number	Map Input
Local Search	ZAGAT	Coordinate
Place Name	Download POI	
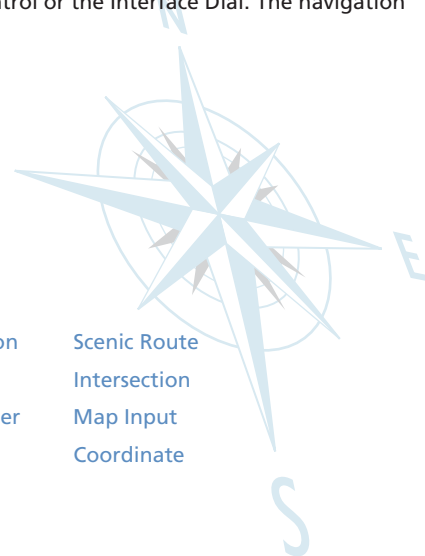

Select route

Set route preferences and select one of **3** routes.

Track route ➡P. 13
Follow your route in real-time with voice guidance.

Subscription service

AcuraLink Real-Time Traffic™ ➡P. 108
Bypass congestion and traffic incidents.

Avoid certain areas ➡P. 118
Set streets and areas to detour around.

Add waypoints ➡P. 112
Add up to *4* "pit stops" along your route.

AcuraLink® ➡P. 13
AcuraLink® provides you with important information and messages between your vehicle and Acura.

Voice Control ➡P. 22
Use voice commands to control the system while driving. You can operate all key functions of the navigation system.

Audio and *Bluetooth*® HandsFreeLink® can be operated on this navigation system. See the Owner's Manual for information on those systems.

Voice Control Operation

Voice Portal Screen

❶ Press and release the 🎤 (Talk) button on the top screen of any mode.
The system prompts you to say a voice command and gives examples. Press and release the 🎤 (Talk) button again to bypass this prompt.

▼
- The system beeps when ready for a command. Press the 📞/🔙 (Hang-Up/Back) button to cancel.
- Available voice commands are highlighted on the screen.

❷ Say a voice command (e.g., Address). After that, follow the voice prompt and say a voice command.

- The audio system is muted during voice control mode.
- You can use other voice commands on the Voice Portal screen. **Voice Command Index** ➡P.146
- Say 🎤 *"Voice Help"* to enter supported commands for the current screen. A voice help tutorial is also available. **Voice Help** ➡P.14
- During the voice control mode, press and hold the 📞/🔙 (Hang-Up/Back) button to return to the Voice Portal screen.
- Set **Voice Prompt** to **Off** to bypass the voice prompt. See your Owner's Manual.
- Carefully read the usage note for the voice control. **Voice Control System** ➡P.22

On the Menu Screen

❶ Press and release the 🎤 (Talk) button on the menu or setting screen.
The system prompts you to say a voice command and gives examples. Press and release the 🎤 (Talk) button again to bypass this prompt.

Available voice commands are highlighted on the screen.

❷ Say a voice command.

- Say 🎤 *"Voice portal"* to display the Voice Portal on any screen.
- Say 🎤 *"Voice Help"* to enter supported commands for the current screen. A voice help tutorial is also available. **Voice Help** ➡P.14

How to Enter Information

You can enter information (e.g., city names, street names, personal names, and business names comprising letters, numbers, and symbols) when prompted on input screens by two different methods.

Using Voice Control

When you see ⓦ in this manual, voice commands are available for that feature.

● Say the letter, number, or symbol (e.g., say ⓦ *"A"*).
● Use spelling assist (e.g., say ⓦ *"Alpha"* to enter the letter "A" or ⓦ *"Hyphen"* to enter a hyphen).
● The system beeps if you say an unavailable (grayed out) letter or number.
● If a voice command is not recognized, a list is displayed with possible options.
On list screens:

● Say the number of the list item (e.g., say ⓦ *"Five"* to select item 5).
● Say ⓦ *"Up"* or ⓦ *"Previous"* to scroll up one page.
● Say ⓦ *"Down"* or ⓦ *"Next"* to scroll down one page.

Using the Interface Dial

Rotate ⓡ to highlight a character.
● Select ⬆ to display upper/lower case characters.
● Select **Sym** to display symbols and accented characters.
● Select **Edit** (or move ⓐ) to edit the entered characters.
Press ⓢ to enter the highlighted character.
● Move ◎▷ to select **Space** to enter a space character.
● Move ◁◎ to select **Delete** to remove the last entered character.
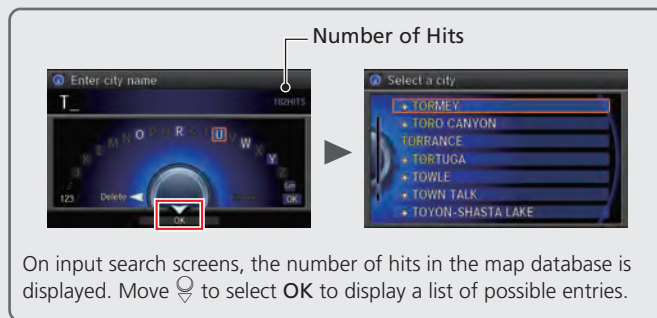

Number of Hits

On input search screens, the number of hits in the map database is displayed. Move ⓥ to select **OK** to display a list of possible entries.

● You can also use the touch screen to enter information.

Scrolling through lists or tabs is limited while the vehicle is moving.

Certain screen functions are limited or inoperable while the vehicle is moving. For these functions, use available voice commands or pull over to proceed.

Navigation—Home Addresses and Going Home

The "Home" feature automatically routes you to your home address from any location simply by selecting Go Home, or saying 🎤 *"Go Home."*

Storing Your Home Address

❶ Press the SETTINGS button.

❷ Rotate 🎛 to select **Navi Settings**. Press 🎛.
❸ Rotate 🎛 to select **Edit Go Home**. Press 🎛.

❹ Rotate 🎛 to select **Name**. Press 🎛.
❺ Enter a name.

❻ Rotate 🎛 to select **Address**. Press 🎛.

❼ Enter an address.

❽ Rotate 🎛 to select **Phone No**. Press 🎛.

❾ Enter a phone number.

❿ Move 🎛 and rotate 🎛 to select **OK**. Press 🎛.

Going Home

❶ From the map screen, press the MENU button.

❷ Rotate 🎛 to select **Go Home**. Press 🎛.
Alternatively, you can say 🎤 *"Go Home"* from any screen. Your home address is displayed on the Calculate Route screen.

❸ Rotate 🎛 to select **Set as Destination**. Press 🎛.

● The following voice commands are available: say 🎤 *"Go Home."*

Navigation—Entering a Destination

Enter your destination using one of several methods, then follow route guidance on the map or guidance screen to your destination. You can also perform these steps using 🗣 voice control.

❶ From the map screen, press the MENU button.

❷ Rotate 🎛 to select **Address**. Press 🎛.

❸ Rotate 🎛 to select **Street**. Press 🎛.

❹ Enter the name of your destination street.

❺ Rotate 🎛 to select your destination street from the list. Press 🎛.

❻ Enter the street number. Move ⬇ to select **OK** when finished.

❼ If there is more than one city with the specified street, a list of cities is displayed. Rotate 🎛 to select the desired city from the list. Press 🎛.
❽ Rotate 🎛 to select **Set as Destination**. Press 🎛.
Route guidance to the destination begins.
● **View Routes**: Choose one of three routes.

● **Route Preference**: Choose Max or Min for the five settings.
Navigation—Changing Route or Destination

You can alter your route by adding waypoints to visit, adding streets to avoid, or changing your destination during route guidance.

Adding a Waypoint ("Pit Stop")

You can add up to four waypoints along your route.

❶ From the map screen, press the MENU button.
❷ Rotate ⟳ to select **Destination List**. Press ⟳.
❸ Rotate ⟳ to select **Add New Destination**. Press ⟳.
❹ Rotate ⟳ to select **Find Along Route**. Press ⟳.

❺ Rotate ⟳ to select location and search method. Press ⟳.

● **Search Around**: Search around a location.
● **Search Along**: Search between two locations.

❻ Select the icon category and location to add to the Destination List when prompted. Edit the order of destinations if necessary.
❼ Move ⟱ and rotate ⟳ to select **Start Route**. Press ⟳.

Changing Your Destination

There are four methods you can use to specify a new destination during route guidance.

● Say 🎤 *"Find Nearest…"*
Searches for the nearest place/landmark on the map screen (e.g., 🎤 *"Find nearest gas station"*).

● Say 🎤 *"Go Home"*
Routes to your home address.

● Selecting an icon on the map
Scroll the map to position the cursor over a place/landmark icon or a new area on the map. Press ⟳ twice.

● Entering a new destination
Press the MENU button. Move ◁ to select **Destination** and enter a new destination.

Canceling Your Route

❶ Press the MENU button.

❷ Rotate ⟳ to select **Cancel Route**. Press ⟳.

From the map screen:

❶ Press ⟳ on the map screen.

❷ Rotate ⟳ to select **Cancel Route**. Press ⟳.
AcuraLink®

AcuraLink® Messages

AcuraLink® provides a direct communication link between you and Acura. It sends and receives several kinds of messages through the Acura server.
The following features are available:

- Vehicle feature guide
- Operating quick tips
- Safety and maintenance information
- Diagnostic information
- Dealer appointment and maintenance reminders

AcuraLink Real-Time Traffic™

Displays continuously updated traffic information and recalculates your route in response to traffic flow, incidents, or road closures. .

Traffic incident icons

- Congestion
- Incident
- Weather
- Construction
- Road Closed

Traffic status indicator

- Traffic information available
- Traffic information off or map scale too large
- No icon: Out of coverage area

Traffic flow indicator

- Heavy
- Moderate
- Free-flow
NOTE AcuraLink Real-Time Traffic™ is a subscription service. For more information, contact an Acura dealer or visit *owners.acura.com*.

13

Voice Help

This navigation system comes with voice help, which shows you what command to say when using the voice command functions.

Command Help

❶ Press and release the 🎙 (Talk) button.
❷ Say 🎙 "*Voice Help.*"

The voice help screen is displayed.

The 🎙 "*Voice Help*" command is available on most screens.

❸ Press and release the 🎙 (Talk) button.

❹ Say one of the options for a list of available commands by category (e.g., 🎙 "*Navi commands*").

❺ Press and release the 🎙 (Talk) button.

❻ Say one of the options for a list of available commands by category (e.g., 🎙 "*Route commands*").

❼ The system displays a list of all available commands for the category. Press 🎛 to hear the list read aloud.

Getting Started Tutorial

❶ Move 🎛 and rotate 🎛 to select **Getting Started** on the voice help screen. Press 🎛.

For "Voice Settings" and "All Commands," see your Owner's Manual.

❷ Press 🎛 to have the system read the tips for the voice control.
● Rotate 🎛 to read the tips.
● Move ◁ or ▷ to display the previous/next page.

Troubleshooting

Q Why does the vehicle position icon on the map "lag" a short distance behind my actual position, especially at intersections?

A This is normal. The navigation system is unaware of the width of intersections. Large differences in vehicle position can indicate a temporary loss of the GPS signal.

Q Why does the "time to destination" display sometimes increase even though I am getting closer to my destination?

A The "time to destination" is based on your actual road speed and traffic conditions to give you a better estimate of arrival time.

Q How do I specify a destination when an entered city or street could not be found?

A Try entering the street first. Some cities are lumped in with a major metro area. In rural "unverified" areas or new subdivisions, streets may be missing or only partially numbered.

Q How do I turn on the navigation system voice guidance?

A
1. Press the SETTINGS button. Rotate ⟳ to select **System Settings** and press ⟳. Check that **Volume** is not set to **0**.
2. Move ◁◎ or ◎▷ to select **Voice Rec.** Set **Voice Prompt** to **On** if you want the system to provide confirmations and system prompts.

Q My battery was disconnected or went dead, and the navigation system is asking for a code. Where do I find it?

A In most cases, you do not need to enter a code. Simply press and hold the PWR ⏻ (Power) button for two seconds; the system should reactivate.
→ **System Initialization** P. 132

How to Use This Manual

This section explains different methods on how you can easily find information in this manual.

Searching the Table of Contents ▶P.1

Two types of Tables of Contents help you find your desired information.

Navigation P.XX

Contents

More Detailed Contents
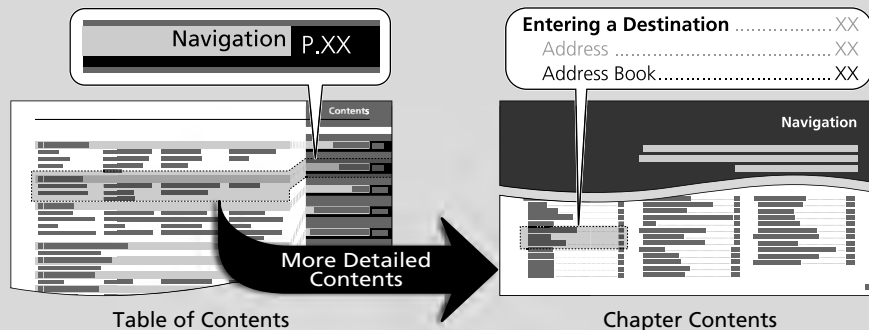

Table of Contents

First, find the general chapter related to what you are looking for (e.g., entering a destination from the Address Book). Then, go to that chapter to view a more specific table of contents.

▣ Address Book

If you have PIN-protected your address book, enter your PIN when prompted. Press ⌁ to select OK. PINs are optional.
▶ PIN Numbers P. 30

Move ⌁ and rotate ⌁ to select the following items:

• Add New Address: Adds an entry to the address book.
  ▶ Adding an Address Book Entry P. 25
• Sort: Selects Sort by Name or Sort by Distance.
• Delete All: Deletes all entries in the address book.

After following the menu tree, step-by-step instructions explain how to achieve the desired result.

Menu Tree

The menu tree helps guide you through the system's menu options. To get to your desired function, follow the menu tree in order of the steps shown.

NOTE:
All menu options can also be activated with voice commands.

ⵜ MENU button ▶ **Address Book**

Press the hard button on the system control panel.

Press the MENU button.

Select the menu option with the Interface Dial.

Rotate ⌁ to select **Address Book**. *Press ⌁.*

Sample pages and images in this section may differ from the actual ones.

System Setup

This section describes the start-up procedure and the navigation and setup functions.

Start-up

The navigation system starts automatically when you set the power mode to ACCESSORY or ON. At start-up, the following Confirmation screen is displayed.

Notice   Welcome · Driver 1

The driver is responsible for safe operation of this vehicle. Use this system only when traffic conditions are permit.
For further details, see your owner's manual.

♨ : OK

1/20m MANHATTAN BEACH

HIGHLAND AVE
1. Press 🔘 to select **OK**.

▶ If you do not select **OK**, the map screen is displayed after a certain period of time.

▶ Your current position is displayed on the map screen.

2. Press the NAV button when a different mode is selected.

▶ Your current position is displayed on the map screen.

≫ Start-up

If the navigation system loses power at any time, you may need to press and hold the PWR ⏻ (Power) button for more than two seconds, or you may be prompted for the five-digit security code.
≫ **System Initialization** P. 132

At start-up, the driver's keyless access remote is automatically detected and the address book settings, setup preferences, wallpapers, and audio settings for that driver (e.g., Driver 1) are loaded.

"OK" on the Confirmation screen cannot be selected by using a voice command.

System Setup

■ Limitations for Manual Operation

Disabled option

Certain manual functions are disabled or inoperable while the vehicle is in motion. You cannot select a grayed-out option using the Interface Dial until the vehicle is stopped.

Voice commands are still operable while the vehicle is in motion.

Your vehicle has a voice control system that allows hands-free operation of most of the navigation system functions.

The voice control system uses the 🔊 (Talk) and ☎/⬅ (Hang-Up/Back) buttons on the steering wheel and a microphone near the map lights on the ceiling.

A "Getting Started" feature provides a tutorial that explains how to use the voice control system.
2 **Getting Started Tutorial** P. 14

Command Input

If the system does not understand a command or you wait too long to give a command, the system asks you to repeat the command.

When you give a command, the system generally either repeats the command as a confirmation or asks you for further information. If you do not wish to hear this feedback, you can turn it off. However, listening to the feedback will help familiarize you with the way the system expects commands to be phrased.

If the system cannot perform a command or the command is not appropriate for the screen you are on, the system beeps.

On character input screens, a list of possible characters is displayed if the system does not recognize your command.

You can find out which voice commands are available for a particular screen using the 🔊 *"Voice Help"* command. The system will display and read the list of available commands to you.
2 **Voice Help** P. 14

≫ 🔊 (Talk) Button

When you press the 🔊 (Talk) button, the system prompts you to say a voice command and gives examples. Press and release the 🔊 (Talk) button again to bypass this prompt and give a command.

≫ Command Input

The audio system is muted while using the voice control system.

Voice Recognition

2014 RLX

To achieve optimum voice recognition when using the navigation voice control system:

- Make sure the correct screen is displayed for the voice command that you are using.
  ⮩ **Voice Commands** P. 146

- Close the windows and moonroof.

- Adjust the dashboard and side vents so air does not blow onto the microphone on the ceiling.

- Speak clearly in a clear, natural speaking voice without pausing between words.

- Reduce any background noise if possible. The system may misinterpret your command if more than one person is speaking at the same time.

- Refer to the Voice Help feature.
  ⮩ **Voice Help** P. 14

≫ Voice Recognition

The voice control system can only be used from the driver's seat because the microphone unit removes noises from the front passenger's side.

Personal Information

H SETTINGS button ▶ **Navi Settings** ▶ **Personal Info**

Use the personal information menu to select and set your address books, home addresses, and PINs. You can also delete unwanted destinations from the list of previously routed destinations.

Rotate ⌾ to select an item. Press ⌾.

The following items are available:

• **Address Book**: Stores new addresses or edits your address book.
  ▷ **Address Book** P. 25
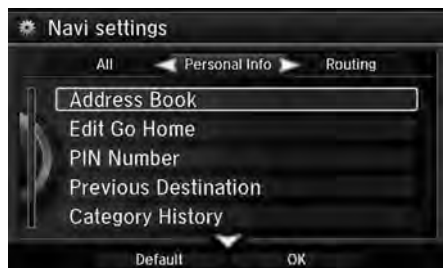

• **Edit Go Home**: Sets or edits your home address.
  ▷ **Home Address** P. 29

• **PIN Number**: Sets or changes your PIN.
  ▷ **PIN Numbers** P. 30

• **Previous Destination**: Deletes the destination history.
  ▷ **Previous Destination** P. 31

• **Category History**: Deletes the place categories you recently used.
  ▷ **Category History** P. 32

• **Download POI**: Edits and deletes the Imported POI categories.
  ▷ **Editing POI Categories** P. 34

≫ Personal Information

Personal information cannot be backed up or moved to another navigation system.

Address Book

2014 RLX

🔘 SETTINGS button ▶ **Navi Settings** ▶ **Personal Info** ▶ **Address Book**

Store up to 200 address entries in two address books (Driver 1 and Driver 2). You can add, edit, and delete information in the address books.
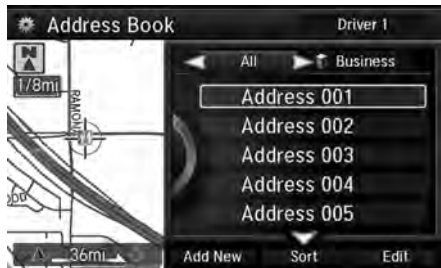

Move ◁◎ or ◎▷ to display only the addresses in the selected category.

Move ◡ to change the user address book (**DRIVER 1** or **DRIVER 2**).

■Adding an Address Book Entry

🔘 SETTINGS button ▶ **Navi Settings** ▶ **Personal Info** ▶ **Address Book**

This section explains how to enter the name and address.

1. Move ◡ and rotate ◎ to select **Add New Address**. Press 🔘.

≫ Address Book

Up to 200 addresses can be stored to each address book of Driver 1 and Driver 2 separately.

If you have PIN-protected your address book, enter your PIN when prompted. Press 🔘 to select **OK**. PINs are optional.
▶ **PIN Numbers** P. 30

Any address book categories you create are also displayed.
▶ **Selecting an Address Book Category** P. 28

≫ Adding an Address Book Entry

If you do not give the address a name, one is automatically assigned (e.g., Address 001). You can re-enter, edit, or make changes to any entry. "Address" is the only required field.
2. Rotate ⌾ to select an item.
Press ⌵.

The following items are available:

• **Name**: Edits the name of the entry.

• **Address**: Edits the address of the entry.

• **Phone No.**: Edits the phone number of the entry.

• **Category**: Specifies the category of the entry.

• **Alert**: Alerts you when you approach the address entry.
On: Beeps and displays a message when your vehicle gets near the entry.
Off (factory default): Disables the feature.

3. Rotate ⌾ to select **Name**.
Press ⌵.

4. Enter a name or title. Move ⌇ to
select **OK**.

5. Rotate ⌾ to select **Address**.
Press ⌵.

6. Rotate ⌾ to select an item for
specifying the address. Press ⌵.

The following items are available:

- **Current Position:** Select your current location.
- **Address:** Enter an address on the character input screen when prompted.
  ⮞ **Address** P. 72
- **Previous Destinations:** Select a previous destination.
  ⮞ **Previous Destination** P. 79
- **Place Name:** Enter the name of a place/landmark.
  ⮞ **Place Name** P. 84
- **Local Search:** Sets a destination by using Local Search.
  ⮞ **Local Search** P. 82
- **Place Category:** Select a category to search for a place/landmark (e.g., Banking, Lodging).
  ⮞ **Place Category** P. 80
- **More Search Methods**: Displays additional search method entries.
  ⮞ **Entering a Destination** P. 70

■Editing an Address Book Entry

🔑 SETTINGS button ▶ **Navi Settings** ▶ **Personal Info** ▶ **Address Book**

1. Rotate ⟳ to select the address to edit. Press ⟱.

2. Enter the name, address, phone number, and category fields.
⮞ **Adding an Address Book Entry** P. 25

3. Move ⟱ and rotate ⟳ to select **OK**. Press ⟱.

⮞ Adding an Address Book Entry

When you use **Place Name** or **Place Category**, the phone number is automatically entered.

You can also add a phone number and category.

⮞ Editing an Address Book Entry

The entered contents are displayed on the Edit address screen.

27

2. Rotate ⏚ to select **Category**. Press ⏛.

3. Rotate ⏚ to select a category. Press ⏛.

▶ Create a category in advance.
  ⭸ **Creating a New Category** P. 28

■ Creating a New Category

1. Move ⏟ and rotate ⏚ to select **New Category**. Press ⏛.

2. Enter a name and select an icon when prompted.

▶ The created category is displayed in the list of categories.

■ Deleting or Editing a Category

1. Move ⏟ and rotate ⏚ to select **Delete** or **Edit**. Press ⏛.

2. Delete an existing category, or change the name and icon.

▶ The selected category to delete is indicated with a trash icon. Move ⏟ and rotate ⏚ to select **OK**.

⭸ Selecting an Address Book Category

Up to 100 categories (including "Unfiled") can be stored to each address book of Driver 1 and Driver 2 separately.

If you delete a category that is used by other addresses, the category type for those addresses changes to "Unfiled."

■Deleting an Address Book Entry

ⓗ SETTINGS button ▶ **Navi Settings** ▶ **Personal Info** ▶ **Address Book**

1. Rotate ⓗ to select the address to delete. Press ⓗ.

2. Move ⓗ and rotate ⓗ to select **Delete**. Press ⓗ.

3. Rotate ⓗ to select **Yes**. Press ⓗ to delete the address.

Home Address

ⓗ SETTINGS button ▶ **Navi Settings** ▶ **Personal Info** ▶ **Edit Go Home**

Set home address that you frequently use.

1. Edit the name, address, and phone number the same way as an address in the address book.
≫ **Adding an Address Book Entry** P. 25

2. Move ⓗ and rotate ⓗ to select **OK**. Press ⓗ.

≫ Deleting an Address Book Entry

When you transfer the vehicle to a third party, delete all address book entries.

≫ Home Addresses

If you have PIN-protected your home addresses, enter your PIN when prompted. Press ⓗ to select **OK**. PINs are optional.
≫ **PIN Numbers** P. 30

If your home street is not in the system database, park on the nearest verified street to your home. When entering the "Address" field, rotate ⓗ to select **Current Position** to use your current location as the home address and press ⓗ.

You can delete a home address if necessary. Move ⓗ and rotate ⓗ to select **Clear Home Entry**. Press ⓗ. Rotate ⓗ to select **Yes**. Press ⓗ.

When you transfer the vehicle to a third party, delete all home addresses.

The home icon is shown on the map screen on the 1/20 and 1/8 mile scales.

PIN Numbers

🔧 SETTINGS button ▶ **Navi Settings** ▶ **Personal Info** ▶ **PIN Number**

Set a four-digit PIN for protecting personal addresses and your home address. Once you set a PIN, you are prompted to enter it whenever you access a personal address or a home address.
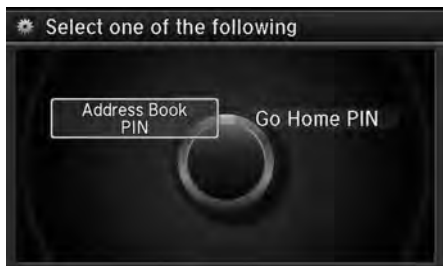

1. Rotate ⊙ to select the PIN to create. Press ⊙.

2. Rotate ⊙ to select a digit to enter. Press ⊙ to select **OK**.

Repeat to enter a new four-digit PIN.

3. Re-enter the new PIN, when prompted, to confirm the number you just entered. Press ⊙ to select **OK**.

▶ If you have not entered the same number both times, an "INCORRECT PIN" message is displayed. Enter your PIN again.

≫ PIN Numbers

PIN
Personal Identification Number (PIN) is a password used to access personal data.

PINs are optional. If you choose to use a PIN, keep a note of the number in a secure location. If you forget your PIN, a dealer will have to reset the navigation system and all of your stored information will be erased. The factory default is no PIN.

If you want to stop using a PIN, move ⊽ to select **Turn off PIN entry**. Press ⊙.

Previous Destination

2014 RLX

Ⓗ SETTINGS button ▶ **Navi Settings** ▶ **Personal Info** ▶ **Previous Destination**

The navigation system maintains a list of your previously routed destinations as a shortcut for entering the same destination in the future. You can delete some or all of your previous destinations from the list.

1. Rotate ⊙ to select the destination to delete. Press ⊙.

▶ Repeat the procedure as necessary.

▶ Items to be deleted are indicated with a trash icon.

Trash icon

2. Move ⊖ and rotate ⊙ to select **OK** to delete the selected destinations.

≫Previous Destinations

Up to 50 destinations can be stored.

To cancel the selection of a previous destination, rotate ⊙ to highlight the destination again. Press ⊙ to de-select it.

Category History

2014 RLX

Ⓧ SETTINGS button ▶ **Navi Settings** ▶ **Personal Info** ▶ **Category History**

The navigation system maintains a list of your recently used place categories as a short cut for selecting the same categories in the future. You can delete some or all of your recently used categories from the list.

≫ Category History

Up to 50 categories can be stored.

To cancel the selection of a category, rotate ⊙ to highlight the category again. Press ⊽ to deselect it.

Download POI

2014 RLX

Import custom Points of Interest (POI) into the navigation system and set the POI as a destination. You can also add, edit, and delete POIs.

■Importing POI Categories

H MENU button (on map) ▶ **More Search Methods** ▶ **Download POI**

1. Connect a USB flash drive with stored POI data to the USB connector.

2. Move ⬇ and rotate ⬡ to select **Import from USB**. Press ⬡.

≫ Importing POI Data

For more information about connecting a USB flash drive, see your Owner's Manual.

POI data in csv and kml formats can be imported.

If you select **From AcuraLink**, you can download POI data from various POI websites.

33

2014 RLX
3. Rotate ⬩ to select a category to import. Press ⬩.

■Editing POI Categories

🎗 SETTINGS button ▶ **Navi Settings** ▶ **Personal Info** ▶ **Download POI**
1. Rotate ⬩ to select the downloaded POI category to edit. Press ⬩.
The following items are available:

• **Alert Setting**: Alerts you when you approach the places/landmarks in the category.

On: Beeps and displays a message when your vehicle gets near the places/landmarks in the category.

Off (factory default): Disables the feature.

• **Delete Category**: Deletes all places/landmarks and icon in the selected category.

• **Edit Icon**: Changes the category icon.

2. Rotate ⟲ to select an item. Press ⟱.

≫ Editing POI Categories

If you select **From AcuraLink**, you can edit **Alert** only.

Routing

Choose various settings that determine the navigation system functionality during route calculation.

Rotate ⌾ to select an item. Press ⌽.

The following items are available:

- **Route Preference**: Changes the route preferences (calculating method).

- **Unverified Routing**: Sets whether you use the route guidance in unverified areas.

- **Traffic Rerouting**: Sets whether you use automatic recalculation based on traffic information.

- **Edit POI Search Radius Along Route**: Sets the distance from the route to find waypoints.

- **Avoided Area**: Specifies areas to avoid when calculating a route.

Route Preference

🔘 SETTINGS button ▶ **Navi Settings** ▶ **Routing** ▶ **Route Preference**

Change the route preference by selecting minimum or maximum driving methods.

Change route preference

Freeways	Max
Toll Roads	Max
ETC Roads	Min
Ferries	Max

Server Route	Off

OK

1. Rotate 🔘 to select an item. Press 🔘.

2. Rotate 🔘 to select **Min** or **Max**. Press 🔘.

▶ Repeat step 1 and 2 as necessary.

3. Move 🔽 to select **OK**. Press 🔘.

≫ Route Preference

The calculated route may be the shortest route or the route you would choose. For safety reasons, the system generally applies the following rules to your route:

- Shortcuts through residential areas are avoided.
- Right turns are favored over left turns or U-turns.
- Time-restricted turns (turns prohibited at certain times of the day) are not used.

Check the ferry schedule when the calculated route includes ferry route.

ETC is short for the Electronic Toll Collection system.

Server Route
- You can view three routes distributed from AcuraLink.
  ⊇ **Viewing the Routes** P. 97

System Setup

Unverified Routing

2014 RLX

🔓 SETTINGS button ▶ **Navi Settings** ▶ **Routing** ▶ **Unverified Routing**

Receive turn-by-turn map and voice guidance in unverified areas.

Rotate 🎛 to select **On** or **Off**.
Press 💎.

Differences	Off	On (factory default)
On or Off?	The driver wishes to manually navigate using the navigation map and choose the streets that lead to the destination.	The driver chooses to let the navigation system suggest possible routing, knowing that the guidance may not be accurate.
Route calculation	Route is usually longer, using verified roads whenever possible.	Route is shorter, but uses unverified (purple) streets that may not be accurate.
Route line	The route line uses verified streets only (when possible). If **Straight Line Guide** is set to **On**, a pink vector line is displayed on the map that continually points to your destination. 2 **Straight Line Guide** P. 60	A blue-pink route line highlights suggested unverified streets on the map while traveling to your destination.

>> Unverified Routing

Unverified roads are found in rural areas, and typically include residential streets away from the center of a town. They may not be accurate, and can contain errors in location, naming, and address range.

Unverified roads are shown only when viewing the map in the 1/20, 1/8, or 1/4 mile map scales.

Straight line guide

Blue-pink route line

System Setup

2014 RLX

Differences	Off	On (factory default)
Cautionary messages	Cautionary pop-up screens and voice announcements remind you to obey all traffic restrictions when starting route guidance, approaching an unverified area, and entering an unverified street.	Cautionary pop-up screens and voice announcements remind you to obey all traffic restrictions when entering an unverified street.
Guidance (map/voice)	There is no turn-by-turn map or voice guidance.	Voice guidance commands end with the phrase "if possible" to remind you to verify all traffic restrictions.
Directions list	A direction list is typically not available. However, depending on your route, directions are provided to help you reach the first available verified road.	A direction list is provided showing street names and turn symbols in pink.

System Setup

Traffic Rerouting

2014 RLX

🎙 SETTINGS button ▶ **Navi Settings** ▶ **Routing** ▶ **Traffic Rerouting**

A faster route can be calculated based on continuously updated traffic information.
➡ **Traffic Rerouting™** P. 108

Rotate ⌾ to select an option.
Press ⌕.

The following options are available:

• **On**: The system reroutes automatically based on traffic information.

• **Off** (factory default): Disables the feature.

≫ Traffic Rerouting

Traffic Rerouting requires an AcuraLink Real-Time Traffic™ subscription.
➡ **AcuraLink®** P. 13

See your Owner's Manual for subscription information.

Automatic traffic rerouting may not provide a detour route depending on circumstances.

Edit POI Search Radius Along Route

2014 RLX

ɴ SETTINGS button ▶ **Navi Settings** ▶ **Routing** ▶ **Edit POI Search Radius Along Route**

Select the distance from your highlighted route line (on either side of your route) that the system will search for a waypoint.
2 **Adding Waypoints** P. 112

You can specify a different search distance for freeways and surface streets.
1. Rotate ⬭ to select an item. Press ⬯.

2. Rotate ⬭ to select a search distance. Press ⬯.
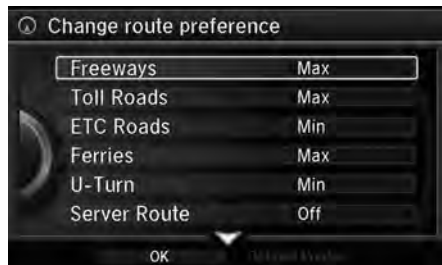

The following items are available:

• **On Freeways**: 1, 2, 5, or 10 miles can be set. Factory default is 2 miles.

• **On Surface Streets**: 1/2, 1, 2, or 5 miles can be set. Factory default is 1/2 mile.

≫ Edit POI Search Radius Along Route

The search distance does not affect the search range used for the Find Nearest voice commands (e.g., say 🎙 *"Find nearest gas station"*).

Avoided Area

2014 RLX

⚙ SETTINGS button ▶ **Navi Settings** ▶ **Routing** ▶ **Avoided Area**

Specify up to five areas to avoid (e.g., road construction, closures), if possible, when the system calculates routes to your destination.

1. Move ⊻ and rotate ⟳ to select **New Area**, or rotate ⟳ to select an existing area to edit.
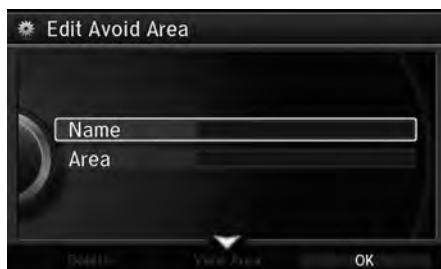

2. Rotate ⟳ to select **Name** to label the area to avoid. Press ⬇.

3. Enter a name or title. Move ⊻ to select **OK**.

4. Rotate ⟳ to select **Area** to define the area to avoid. Press ⬇.

The following options are available (after an area is set):

• **View Area**: Displays the selected avoid area on the map.

• **Delete**: Deletes the selected avoid area.

>> Avoided Area

The maximum size of an "avoid area" is approximately 1 square mile.

If your selected area contains a freeway, you are asked "Do you want to avoid freeways?" Answering "No" allows you to use a route through an avoid area on a freeway without any pop-up messages.

You can select areas to avoid, however you cannot select roads or areas that you want the system to use for routing.

You can enter up to 25 characters for the name.

The following options are available:

- **Address**: Specify the general area by entering an address.
  ⮞ **Address** P. 72

- **Map Input**: Specify the general area by map input.
  ⮞ **Map Input** P. 93

Cursor

Avoid area
5. Rotate ⟳ to select a method for specifying the area. Press ⬇.

6. If you select **Map Input**, scroll the map to position the cursor over your desired start point, adjusting the map scale as necessary. Press ⬇ to mark the start point.

▶ To redo the area selection, press the BACK button.

7. Scroll the map to "draw" the area. Press ⬇ to mark the end point.

8. Press ⬇ to select **OK**.

▶ The area you specify is displayed in the list of areas to avoid.

⟫ Avoided Area

Avoid area can be set in the 1/20, 1/8, or 1/4 mile map scales.

Guidance

Choose various settings that determine the navigation system functionality during route guidance.

Rotate ⌾ to select an item. Press ⌾.

The following items are available:

- **Guidance Mode**: Sets whether to display only the map screen or a split map-guidance screen.
  ⤷ **Guidance Mode** P. 46

- **Street Name Guidance**: Sets whether to read out the street names during voice guidance.
  ⤷ **Street Name Guidance** P. 48

- **Next Maneuver Pop Up**: Sets whether the guidance screen interrupts the screen display.
  ⤷ **Next Maneuver Pop Up** P. 49

- **Guidance Point**: Sets whether to display the guidance information to the destination or the next waypoint.
  ⤷ **Guidance Point** P. 50

- **Estimated Time**: Sets whether to display the remaining time or arrival time to the guidance point.
  ⤷ **Estimated Time** P. 51

Guidance Mode

2014 RLX

  ≫ **Map Screen Legend** P. 8

- **Customize**: Fine-tunes the icon display.
  ≫ **Fine-tuning the Icons** P. 55

- **Off**: Hides the landmark icons.

≫ Showing Icons on Map

You can display or hide the icons using voice commands on the Voice Portal screen (e.g., say ⟨🔊⟩ *"Display hospital"*).
≫ **Map Display Commands** P. 146

If you have PIN-protected your address book, enter your PIN when prompted. Move ⚲ to select **OK**. PINs are optional.
≫ **PIN Numbers** P. 30

54

2014 RLX

■Fine-tuning the Icons

Icons in some categories can be fine-tuned to display or hide.

1. Rotate 🔘 to select the icons to display on the map. Press 🔘.

▶ Pressing 🔘 toggles the icon display on or off.

▶ Repeat the procedure as necessary.

2. Move 🔽 and rotate 🔘 to select **OK**. Press 🔘.

55

Color

Set separate map colors for Day and Night modes.

■Color (Day)

⊗ SETTINGS button ▶ **Navi Settings** ▶ **Map** ▶ **Color (Day)**

Rotate ⟳ to select a color for the Day mode. Press ⟱.

⟩⟩ Color (Day)

Set to **White** (factory default is **Beige**) to obtain the best daytime display contrast.

■Color (Night)

⊗ SETTINGS button ▶ **Navi Settings** ▶ **Map** ▶ **Color (Night)**
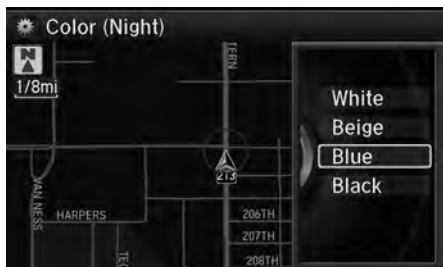

Rotate ⟳ to select a color for the Night mode. Press ⟱.

⟩⟩ Color (Night)

Set to **Black** (factory default) to obtain the best nighttime display contrast.

System Setup

■Switching Display Mode Manually

Set the screen brightness separately for Day and Night modes. Press the ☀️🌙 (Display mode) button to cycle through the display modes (Day to Night to Off).

1. Press the ☀️🌙 button.

▶ The Brightness bar is displayed for a few seconds.

▶ Rotate 🔘 to adjust the brightness. Press 👇.

2. Press the ☀️🌙 button again.

▶ Repeat the procedure to switch the display modes.

≫ Switching Display Mode Manually

A visual guide helps you see the difference between Day and Night modes.
➔ **Day or Night Mode** P. 9

Recommended Settings
• Select mid-range for the dash illumination.
• Select **White** for the map Day display and **Black** for the map Night display.

TOC

System Setup

Illumination control	Priority	Operation
☀☽ button	1	Selects Day, Night, or Off display mode. This button has the highest priority and overrides all other display control adjustments listed below. **Remember**: Once you press this button, you assume full manual control of the display mode until the power mode is set to VEHICLE OFF (LOCK).
Sunlight sensor (see your Owner's Manual for location)	2	If the sunlight sensor detects daylight and the headlights are turned on, the system automatically overrides the Night display and displays the Day display mode. **Remember**: If desired, use the ☀☽ button to override this automatic choice.
Dash illumination adjustment buttons (see your Owner's Manual for location)	3	When headlights are turned on, and you wish to have the Day display mode, adjust the illumination to the full brightness setting (beeps). **Remember**: Adjust the dash brightness back to mid-range to allow auto switching by sensing the headlights are on or off.
Headlights (Auto/On/Off)	4	When turned on, the display changes to Night display mode. The previous three controls listed above can "cancel" this function. **Remember**: Use the ☀☽ button, or adjust the dash illumination to full brightness, to set the display to your desired choice.
Screen color choice	N/A	The user can select the color of the screen that will be displayed for the Day and Night display modes described above. **Remember**: For best contrast, ensure that the map color is white for Day and black for Night.

View (Map Orientation)

🔆 SETTINGS button ▶ **Navi Settings** ▶ **Map** ▶ **View**

Select the map orientation.

Rotate ⟳ to select an option.
Press ⟱.

The following options are available:

- **North-Up**: Displays the map with North always pointing up.

- **Heading-Up**: Displays the map so that the direction you are traveling is always pointing up.

- **3D Map**: Displays the bird's eye view map.

≫ View (Map Orientation)

🗣 *"Display Heading-up"* (on Voice Portal screen), 🗣 *"Display North-up"* (on Voice Portal screen), 🗣 *"Display 3D map"* (on Voice Portal screen)

The red arrow in the symbol always points North.

Heading-up and 3D map view switch to the North-up view on the maximum map scale.

The bird's eye view map switches to the Heading-up map while scrolling the map.

The viewing angle for the bird's eye view can be adjusted.
⤷ **3D Angle Adjustment** P. 60

3D Angle Adjustment

1. Put the vehicle in Park.

2. Rotate ⌾ to select **Correct Vehicle Position**. Press ⌾.

3. Scroll the map to position the cursor over at your correct position. Press ⌾.

4. Rotate ⌾ to position the arrowhead in the correct direction the vehicle is facing.

5. Press ⌾ to select **OK**.

≫ Correct Vehicle Position

An apparent position error can occur where buildings, tunnels, and other objects block or reflect the GPS signals, forcing the system to use "dead reckoning" to determine your location and direction.

Using this function to adjust vehicle position is not recommended. When the system reacquires a GPS signal, it will automatically place the vehicle in the correct location.

If you continually have to adjust the vehicle position, you may have problems with the GPS reception or there may be database errors.
Ⴢ System Limitations P. 134

Viewing the Routes

2014 RLX

View three different routes to your destination.

Rotate ⊚ to select a route. Press ⊚.

▶The travel distance and estimated travel time is displayed for each route.

▶The system calculates and displays the route line on the map screen.
2 **Route Line** P. 100

>> Viewing the Routes

It is not unusual for some calculated route options to be identical.

■ Using the Server Route

Driving to Your Destination

This section describes how to follow the route guidance to your destination, receive traffic information and choose the icons displayed on the map screen.

Viewing the Route

■Map Screen

After calculating the route to your destination, the route is displayed on the map screen.
2 **Map Screen Legend** P. 8

As you drive, the system tracks your position on the map in real time and provides guidance as you approach each guidance point on the route.
2 **During Route Guidance** P. 9

2014 RLX

■Guidance Screen

The guidance screen offers an alternative way to view your route.

▶The next guidance point is displayed as you approach each guidance point on the route.

▶ You can also view a list of guidance directions.

≫ Guidance Screen

A visual guide helps you check the guidance screen.

Turn-by-Turn Directions
The next guidance point appears on the multi-information display.

You can turn this feature on or off using the multi-information display. See the Owner's Manual for instructions.

■Route Line

When driving on verified streets, the route line is light blue. The route line display changes when driving on unverified streets:

Straight line guide
- If **Unverified Routing** is **Off**, the route line uses verified streets only (when possible). If **Straight Line Guide** is set to **On**, a pink "vector line" pointing directly towards your destination is displayed.
  2 **Straight Line Guide** P. 60

Blue-pink route line
- If **Unverified Routing** is **On**, the route line changes to a blue-pink line to indicate that the route line uses unverified streets.

🔊 Route Line

You can set **Unverified Routing** to **Off** to follow your own route to the destination. If **Unverified Routing** is **On**, be aware that unverified streets may not be displayed accurately.
2 **Unverified Routing** P. 39

The route line may also consist of red, orange, or green segments when traffic information is displayed.
2 **AcuraLink Real-Time Traffic™** P. 13
2 **Traffic Rerouting™** P. 108

■Deviating From the Planned Route

If you leave the calculated route, the system automatically recalculates a route to the desired destination based on your current location and direction.
⊇ **Route Preference** P. 37

■Tracking Dots

You can display a series of dots (breadcrumbs) to track the path you are taking. If needed, you can follow the dots back to the mapped road you originally left.
⊇ **Display Tracking** P. 66

≫ Tracking Dots

A message "Not on a digitized road" may appear when you drive half a mile away from a mapped road.

Breadcrumbs may occasionally be displayed in urban areas, such as large parking lots in shopping malls, in new subdivisions where the roads are not yet in the database, or in areas where a GPS signal is unavailable, such as in a parking garage.

Breadcrumbs are limited to approximately 150 miles. Breadcrumbs at the beginning of the trail are deleted if you exceed that distance.

Breadcrumbs are displayed only at 1/20, 1/8, 1/4, and 1/2 mile map scales.

Listening to Voice Guidance

🔗 ENTER button (on map) ▶ **Voice**

As you approach each guidance point, a pop-up window is displayed on the map screen with instructions for you to follow. Voice guidance for each guidance point is also provided.

Typically, you hear three prompts:

- 1/2 mile from the guidance point (2 miles on freeway)

- 1/4 mile from the guidance point (1 mile on freeway)

- Just before the guidance point

To replay voice guidance, rotate 🎛 to select **Voice** in the Map Menu.

If you select **Voice** between guidance points, voice guidance for the next guidance point is provided.

>> Listening to Voice Guidance

🔊 *"Voice"* (on the map screen)

You can turn voice guidance OFF if you prefer. Press the SETTINGS button. Select **System Settings** and set **Volume** to **0**.

When driving in unverified areas, the phrase "if possible" is inserted before each voice guidance prompt.

Voice in the Map Menu may be grayed out if:
- The system is in process of gathering the route guidance information.
- The vehicle is out of the road (e.g., pulling in a parking lot).

The timing of voice guidance varies depending on the type of road you are on and the distance to the next guidance point.

Reaching a Waypoint

When you reach a waypoint, a pop-up message is displayed. You can continue or pause the route guidance.

Rotate ⟳ to select **No** to pause the route guidance. Press ⬇.

▶Select **Yes** to continue the guidance.

■ Resuming the route guidance

You can resume the route guidance in the following ways:

• Restart the engine when you stop your car (e.g., to rest, stop for gas, etc.).

• Select **Resume Guidance** from the navigation menu or the map menu.

Map Menu

Displaying the Map Menu

Use the Map Menu to control the icons displayed on the screen and to display traffic information and messages. You can also use the Map Menu to find locations or to cancel the route.

1. On the map screen, press ⌀.

▶ The Map Menu is displayed on the map screen.

2. Rotate ⌀ to select an item. Press ⌀.

The following items are available:

• **Voice:** Select to hear the voice guidance when en route.
  ➡ **Listening to Voice Guidance** P. 102

>> Map Menu

If you scroll the map while en route, press the NAV (or BACK) button to return to the current position map screen, then press ⌀.

Traffic Incidents
You must have an AcuraLink Real-Time Traffic™ subscription to receive traffic information. See your Owner's Manual for subscription information.
➡ **AcuraLink Real-Time Traffic™** P. 13

The incident icons are displayed on the 5 mile or less map scale.
➡ **Map Scale and Functions** P. 63

- **Map/Guidance**: Allows you to select the map and guidance settings (display mode, icons to display on the map, map orientation, map color, and 3D view angle), display your current location and an overview of the map features.
  2 **Guidance Mode** P. 46
  2 **Showing Icons on Map** P. 54
  2 **Color** P. 56
  2 **View (Map Orientation)** P. 59
  2 **3D Angle Adjustment** P. 60
  2 **Current Location** P. 61
  2 **Map Legend** P. 62

- **Pause Guidance**: Pauses your current route.
  2 **Pausing the Route** P. 111

- **Resume Guidance**: Resumes your current route. This item is displayed while the route guidance is paused.

- **Cancel Route:** Cancels your current route.
  2 **Canceling the Route** P. 111

- **Directions**: Displays a list of the guidance points.
  2 **Directions** P. 106

- **Search Nearby:** Allows you to find the nearest place/landmark (e.g., nearest gas station) by specifying a category. You can then add the location to the list of destinations, set as a waypoint, or set as your destination.
  2 **Find Nearest Place** P. 119

- **Traffic Incidents:** Displays a list of the traffic incidents around your current location or on your current route.
  2 **Traffic Rerouting™** P. 108

≫ Map Menu

Directions
The system provides freeway exit information only in the U.S.

105

Directions

2014 RLX

ENTER button (on map) ▶ **Directions**

Display a list of the guidance points on your route for your confirmation.

1. Rotate ⌾ to select a guidance point from the list. Press ⌽.

   ▶ The system displays a map of the guidance point.
2. Press ⌽ to select **Back to list** or press the BACK button to return to the previous screen.

>> Directions

Guidance points with exit information are indicated by a ⓘ (freeway exit information) icon. Move ⌽ to select **Exit Info** to display the exit information.
≥ **Freeway Exit Information** P. 107

The system provides freeway exit information only in the U.S.

The route guidance information is automatically deleted when you reach your destination.

■Freeway Exit Information

🎙 ENTER button (on map) ▶ **Directions** ▶ **Exit Info**

Display a list of the freeway exits for the route. You can view freeway exit information (whether the exit is near gas stations, restaurants, ATMs, etc.) and add new destinations or waypoints to the calculated route.
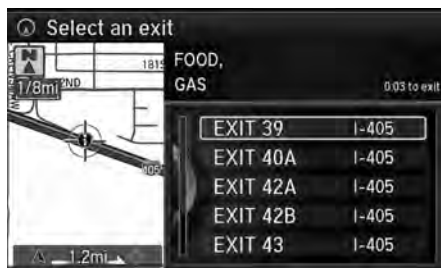

1. Rotate 🎛 to select an exit from the list. Press 🕹.

2. Rotate 🎛 to select a list item. Press 🕹.

▶ Move ◁◎ or ◎▷ to display information for different exits.

▶ You can set the route to your destination.
   ⮕ **Calculating the Route** P. 96

🔧 *"Display Freeway Exit Information"*

You can scroll the map and select a 🛈 (freeway exit information) icon on the map screen to display the freeway exit information. The 🛈 icon is only displayed if there is exit information available.

Icons are displayed only at 1/4, 1/2, or 1 mile scale.
⮕ **Showing Icons on Map** P. 54

The system provides freeway exit information only in the U.S.

The route guidance information is automatically deleted when you reach your destination.

Navigation

Traffic Rerouting™

2014 RLX

When driving to your destination, the system automatically searches for a faster route based on traffic flow information and traffic incidents.
2 **AcuraLink Real-Time Traffic™** P. 13
2 **Traffic Rerouting** P. 41

■Traffic Rerouting™ Manually

🖑 ENTER button (on map) u **Traffic Incidents**

Manually avoid specific incidents and/or congestion on your route:

1. Rotate ⊚ to select an incident from the list. Press ⬡.

► The system displays the map screen and the incident location.

2 Traffic Rerouting

This feature requires an AcuraLink Real-Time Traffic™ subscription.

AcuraLink Real-Time Traffic™ is a subscription service. For more information, contact an Acura dealer or visit *owners.acura.com*.

Automatic traffic rerouting may not provide a detour route depending on circumstances.

2 Traffic Rerouting™ Manually

🎙 *"Display traffic incidents"*, 🎙 *"Display traffic list"*

You can display traffic incidents and related information on the map screen using voice commands.
2 **Map Display Commands** P. 146

2. Rotate 🎛 to select **Avoid**.
Press 🎛.

▶ Repeat step 1 to 2 as necessary.

3. Move 🎛 to select **Reroute**.
Press 🎛.

▶ The system recalculates a detour route that avoids the traffic incidents.

≫ Traffic Rerouting™ Manually

You can choose to avoid up to 10 traffic incidents. It is not always possible for the system to calculate a route that avoids all traffic incidents or specific traffic incidents you select.

The "On Route" tab on the Traffic List screen is only available during route guidance.

You cannot select an incident to avoid from the "All" tab.

You can also manually detour around a traffic incident or unexpected delay even if you do not have an AcuraLink Real-Time Traffic™ subscription or the delay does not yet appear on your display.
2 **Taking a Detour** P. 118

Changing Your Route

🔊 MENU button (when en route)

This section describes how to alter your route, add an interim "waypoint" (pit stop), choose a different destination, cancel your current destination, and continue your trip after stopping.

Rotate 🔘 to select an item. Press 🔘.

The following items are available:

- **Voice**: Select to hear the voice guidance when en route.
  ≥ **Listening to Voice Guidance** P. 102

- **Destination List**: Shows a list of waypoints. You can delete waypoints or edit the order of them.
  ≥ **Editing the Destination List** P. 116

- **Pause Guidance**: Pauses your current route.
  ≥ **Pausing the Route** P. 111

- **Resume Guidance**: Resumes your current route. This item is displayed while the route guidance is paused.

- **Cancel Route**: Cancels the route guidance.
  ≥ **Canceling the Route** P. 111

- **View Routes**: Displays three different routes.
  ≥ **Viewing the Routes** P. 97

QRG

Navigation

- **Change Route Preference**: Changes the route preferences (calculating method).
  ⤷ **Route Preference** P. 37

- **Detour**: Calculates a detour route.
  ⤷ **Taking a Detour** P. 118

- **Avoid Streets**: Avoids streets along your route.
  ⤷ **Avoiding Streets** P. 118

Pausing the Route

🎙 MENU button (when en route) ▶ **Pause Guidance**

Pause the route guidance and return to the map screen. The destination icons and all waypoint flags remain displayed on the map. Press the MENU button when en route and select **Resume Guidance** to resume the route guidance.

Canceling the Route

🎙 MENU button (when en route) ▶ **Cancel Route**

Cancel the route guidance and remove the destination and all waypoints from the destination list. The system then returns to the map screen.

▶ Pausing the Route

You can also pause your route from the Map Menu.
⤷ **Map Menu** P. 104

▶ Canceling the Route

You can also cancel your route from the Map Menu.
⤷ **Map Menu** P. 104

Adding Waypoints

2014 RLX

Add up to four waypoints (pit stops) along the route to your destination.

Waypoints are displayed on the map screen as small, numbered red flags. The route follows the waypoints in the order they are listed in the Destination List.

≫ Adding Waypoints

Waypoints allow you to stop for gas or food, for example, and then continue on to your destination.

Press the NAV button to return to the map screen without adding a waypoint at any time.

The search corridor used for adding waypoints can be adjusted.

You can delete waypoints or edit the order of waypoints in the destination list.

■Adding Waypoints from the Route Menu

🎙 MENU button (when en route) ▶ **Destination List** ▶ **Add New Destination** ▶ **Find Along Route**

1. Rotate 🔘 to select a search method to add a waypoint. Press 🔘.

The following items are available:

• **Search Around:** Searches in a spiral pattern around the location you select.

• **Search Along**: Searches within a "corridor" on either side of the locations you select.

2. Rotate 🔘 to select a waypoint category (e.g., **GAS STATION**). Press 🔘.

Taking a Detour

2014 RLX

🔌 MENU button (when en route) ▶ **Detour**

Calculate a detour route manually. The system attempts to calculate a new route by avoiding the next 5 miles (while on a freeway) or 1 mile (while on a surface street).

Avoiding Streets

🔌 MENU button (when en route) ▶ **Avoid Streets**

Select a street or streets along your route to avoid.
1. Rotate ⊙ to select the street you want to avoid. Press ⊙.

▶ Repeat the procedure to avoid other streets.

2. Move ⊙ to select **Recalculate Route**. Press ⊙.

▶ The system calculates a new route.

>> Taking a Detour

The detour option is convenient if you encounter an unexpected obstacle such as a road closure or extremely heavy traffic congestion.

>> Avoiding Streets

Avoiding certain streets is convenient if you know of road construction, road closures, or excessive traffic along the route.

You cannot choose specific streets you want to use, only those to avoid. However, you can select intersections or waypoints (places/landmarks) that the system will use in your route.
>> **Adding Waypoints** P. 112

You can store up to 10 streets to avoid. You cannot avoid your current street or the streets of your waypoint(s) or destination (system beeps if selected).

Changing Your Destination

There are several methods you can use to change the route destination.

Find Nearest Place

⇧ ENTER button (on map) ▶ **Search Nearby**

Search for the nearest place/landmark on the map screen and set it as your destination.

1. Rotate to select **Search Nearby**. Press .

2. Rotate to select a category type. Press .

3. Rotate to select a place. Press .

4. Rotate to select **Set as Destination**. Press .

5. Move to select **Clear Current Route**. Press .

▶ The route is automatically recalculated and displayed on the map screen.

▶ Rotate to edit the order to set the location as a new waypoint. Press .

≫ Find Nearest Place

"Find Nearest…" (on map screen)

The Find Nearest voice command is the fastest method of specifying a place/landmark as your destination. Many kinds of places can be found.

Selecting a Destination on the Map

2014 RLX

Select a new destination when en route by selecting a location on the map.

1. Scroll the map to position the cursor over your desired destination, adjusting the map scale as necessary. Press ⬇.

▶ If the address displayed is not the desired location, press the BACK button and repeat the procedure.

2. Rotate ⌾ to select **Set as Destination**. Press ⬇.
2 **Calculating the Route** P. 96

3. Move ⬇ to select **Clear Current Route**. Press ⬇.

▶ The route is automatically recalculated and displayed on the map screen.

▶ Rotate ⌾ to edit the order to set the location as a new waypoint. Press ⬇.

>> Selecting a Destination on the Map

If there is more than one icon or street under the map cursor, you are prompted to select the item from a list.

Rotate ⌾ to select an item. Press ⬇.

Entering a New Destination

Navigation

Ĥ MENU button (when en route) ▶ **Destination**

Enter a new destination using the Destination Menu screen even when you are en route.

1. Rotate ⟳ to select a method to enter a new destination.
   ⤷ **Entering a Destination** P. 70

   ▶ After entering a new destination, the address is displayed on the Calculate Route screen.

2. Rotate ⟳ to select **Set as Destination**. Press ⟱.

3. Move ⟱ to select **Clear Current Route**. Press ⟱.

   ▶ The route is automatically recalculated and displayed on the map screen.

   ▶ Rotate ⟳ to edit the order to set the location as a new waypoint. Press ⟱.

≫ Entering a New Destination

⟨ "Display Destination", ⟨ "Display Navigation"

121

Stop your vehicle en route (e.g., to rest, stop for gas, etc.), and then continue on your route.

If you did not complete your route, the Continue Trip screen is displayed when you restart your vehicle.

Rotate ⓞ to select **Set as Destination**. Press ⓤ.

▶You can continue on the same route.

▶Move ◁ⓞ to scroll the map around the destination.

▶Press the BACK button to cancel your destination.

- **Route Preference**: Move ⓠ to select **Route Preference** to change the route preferences (calculating method).
  ⇒ **Route Preference** P. 37

- **View Routes**: Displays three different routes.
  ⇒ **Viewing the Routes** P. 97

Troubleshooting

QRG

Map, Voice, Entering Destinations

Problem	Solution
The Startup Confirmation screen is displayed every time I start the car.	This is normal. The Startup Confirmation screen reminds you and your guest drivers to always operate the navigation system in a safe manner. The Startup Confirmation screen goes off after a certain period of time and the top screen of the last mode is displayed.
I want to turn off the welcome sound that comes on every time I start the car.	Go to **System Settings**, and select the **Opening** tab. You can turn **Sound Volume** to **0**.
The navigation system reboots by itself (returns to the opening screen).	A reboot can be caused by extreme temperatures or shock from bumpy roads, and does not necessarily indicate a problem. If this happens frequently, please see a dealer.
How do I specify a destination when an entered city or street could not be found?	• Try entering the street first. Some cities are lumped in with a major metro area. In rural "unverified" areas or new subdivisions, streets may be missing or only partially numbered. • Try selecting the destination directly from the map. ⇨ **Map Input** P. 93
Why do some letters become grayed out when I enter an address?	As you enter each letter in an address or a place/landmark, the navigation system looks in the database to see what letters are possible and grays out letters that do not apply.
How do I delete Personal Addresses, Previous Destinations, or the Home Address?	**1.** Press the SETTINGS button. Select **Navi Settings** > **Personal Info** to display the types of information. **2.** Select the type of address to delete. **3.** Select **Delete**.
I cannot hear the navigation system voice.	**1.** Press the SETTINGS button. Select **System Settings** and check that **Volume** is not set to **0**. **2.** Select **Voice Rec.** and set **Voice Prompt** to **On**.
The voice control system is having difficulty recognizing my voice commands.	• Check that the vents are not blowing air onto the microphone on the ceiling, the vehicle is as quiet as possible, and you are using the correct command when speaking. ⇨ **Voice Recognition** P. 23 • Say "Voice Help" on any screen to see a list of the applicable voice commands.

2014 RLX

Problem	Solution
I cannot give voice commands.	Make sure you selected **OK** at the Startup Confirmation screen. ⊇ **Start-up** P. 20
I cannot select an option using the Interface Dial.	To reduce potential driver distraction, certain onscreen functions and features are limited or inoperable while the vehicle is moving. Use voice commands or pull over to proceed.
The navigation system pronunciation of street names in the guidance command or destination address sounds strange.	The basic guidance phrases use a studio-recorded voice, but street names are pronounced using a machine-generated voice. Consequently, the name may be mispronounced or sound strange at times.
The screen is bright when I drive at night.	**1.** Check that the nighttime dashboard brightness control is not set to maximum. **2.** Press the SETTINGS button. Select **Navi Settings** > **Map** > **Color (Night)**. Set the Night color to Black for the best contrast. ⊇ **Switching Display Mode Manually** P. 57
The screen is dark when I drive during the day.	Press the SETTINGS button. Select **Navi Settings** > **Map** > **Color (Day)**. Set the Day color to White for the best contrast. ⊇ **Switching Display Mode Manually** P. 57
How do I change or remove my PIN?	**1.** Press the SETTINGS button. Select **Navi Settings** > **Personal Info** > **PIN Number** > **Address Book PIN** or **Go Home PIN**. **2.** Enter your existing PIN. You then have the choice to change or remove the PIN. ⊇ **PIN Numbers** P. 30
I have forgotten my PIN. How do I reset the PIN for Home or the PIN for personal addresses?	A dealer must reset the PIN for you.
Why is **Call** grayed out on the Calculate Route screen?	Your phone is not paired to *Bluetooth*® HandsFreeLink® or, if paired, your phone is in use. See your Owner's Manual.

Traffic

2014 RLX

Problem	Solution
AcuraLink Real-Time Traffic™ information could not be received or is not displayed properly.	• Check that the traffic status indicator is available on the map screen. 　**Map Screen Legend** P. 8 • Check that the traffic icons are turned on. 　**Showing Icons on Map** P. 54 • AcuraLink automatically updates traffic information every five minutes. If the information remains the same, press the LINK button, and connect to the operator. For information on the LINK button, see the owner's manual. • There may be a temporary technical problem in your metropolitan area. Call Acura Client Relations to see if there is an outage. 　**Acura Client Relations Contact Information** P. 136 • If the situation persists, see your Acura dealer for assistance. • AcuraLink is not available in Alaska, Hawaii, Canada, Puerto Rico, and Mexico.
The navigation system sometimes provides a detour route when I am driving a route on the freeway.	If **Traffic Rerouting** is set to **On**, the navigation system provides a detour route to your destination only if it can find a significantly faster route than the original one. 　**Traffic Rerouting** P. 41
The navigation system routes me to an exit and an alternate freeway with unknown flow speeds or surface streets.	The navigation system predicts which route should be faster based on freeway congestion along your route. Use your own experience to determine whether the alternate route would be faster.
How can I ignore the detour route and return to the original route?	Press the SETTINGS button. Select **Navi Settings** > **Routing**, and set **Traffic Rerouting** to **Off**. 　**Traffic Rerouting** P. 41

Guidance, Routing

2014 RLX

Problem	Solution
The navigation system does not route me the same way I would go or the same way as other mapping systems.	The navigation system attempts to generate the optimal route. You can change the route preferences used when calculating a route. 2 **Route Preference** P. 37
The navigation system wants to route me around potential traffic problems. How do I stop these pop-up messages?	Press the SETTINGS button. Select **Navi Settings** > **Routing**, and set **Traffic Rerouting** to **Off**. 2 **Traffic Rerouting** P. 41
The street I'm on is not shown on the map screen.	The mapping database is constantly undergoing revision. You can access the most recent information on the internet. 2 **Map Coverage** P. 137
The vehicle position icon is not following the road and the "GPS icon" text in the upper left hand corner of the screen is white or missing.	• Check that the GPS antenna (located in the dashboard) is not blocked. For best reception, remove items from the dashboard, such as radar detectors, cell phones, or loose articles. • Metallic tinting or other aftermarket devices can interfere with the GPS reception. Please consult a dealer. 2 **GPS System** P. 134
The blue highlighted route and voice guidance stopped or turned into a blue/pink line before I got to my destination.	Your route has entered an unverified area. 2 **Unverified Routing** P. 39
How do I stop the map from rotating as I drive along?	Press the SETTINGS button. Select **Navi Settings** > **Map** > **View** > **North-Up**, or say *"Display north-up"* to change the map orientation.
The "time to destination" display sometimes increases even though I am getting closer to my destination.	If your speed reduces due to slower traffic, the navigation system updates the "time to destination" based on your actual road speed to give you a better estimate of arrival time.
The vehicle position icon on the map "lags" a short distance behind, especially when I arrive at an intersection.	This is normal. The navigation system is unaware of the width of intersections. Large differences in vehicle position can indicate a temporary loss of the GPS signal. 2 **GPS System** P. 134

Troubleshooting

QRG

TOC

Troubleshooting

Problem	Solution
The screen is showing white dots as I drive along.	These dots are called "breadcrumbs." These are displayed if **Display Tracking** is set to **On**. ⇒ **Display Tracking** P. 66
How do I remove the white dots ("breadcrumbs") from my screen?	Press the SETTINGS button. Select **Navi Settings** > **Map**, set **Display Tracking** to **Off** or select **Delete Tracking** to remove the white dots from the map. ⇒ **Display Tracking** P. 66
A road that I selected to avoid is being used when routing.	When you "draw" your area to avoid, make sure to select sections of roads that include at least one intersection. ⇒ **Avoided Area** P. 43
My elevation (shown when I display the current position) seems to fluctuate even though my elevation has not changed.	This is normal. The elevation can vary ±100 feet due to GPS calculation errors. ⇒ **GPS System** P. 134
My elevation is missing on the "current position" screen.	The elevation is only displayed if the GPS antenna can receive signals from at least four satellites. Try moving the vehicle into an open area. The elevation is also not displayed if the calculated elevation is zero or below sea level.

Update, Coverage, Map Errors

Problem	Solution
My city is not part of a fully verified detailed coverage area.	The mapping database is constantly undergoing revision. You can access the most recent information on the internet. 2 **Map Coverage** P. 137
Does the navigation system work outside North America?	The navigation system contains maps for the 50 U.S. states, Canada, Puerto Rico, and Mexico. The navigation system will not work in other countries. 2 **Map Coverage** P. 137
How do I report errors I find in the database?	Minor errors are bound to occur in a large database. If you encounter major errors, see 2 **Reporting Errors** P. 136

Display, Accessories

Problem	Solution
The display appears dim when starting the car in really cold weather.	This is normal. The display will become brighter after a few minutes.

Miscellaneous Questions

Problem	Solution
My battery was disconnected or went dead, and the navigation system is asking for a code.	Press and hold the PWR ⏻ (Power) button for two seconds. The system should reactivate. If you have installed an aftermarket system, contact a dealer.

Navigation System

Error Message	Solution
The display temperature is too high. For protection, the system will shut off until the display cools down.	This message appears briefly when the display temperature is too high. The navigation system turns off until the display cools down. The system turns back on automatically when the display cools down.
System temp is low. System will shut down until it warms up.	The navigation system has difficulty reading the HDD when the temperature is below approximately -22°F. The navigation system starts up automatically when the display warms up.
The navigation system temperature is too low. For protection, the system will shut off until it warms up.	
The navigation system atmospheric pressure is too low. For protection, the system will shut off until the pressure returns to safe levels.	The HDD is inoperable due to low atmospheric pressure. Move your vehicle to the place where the atmospheric pressure is high.
The navigation system temperature is too high. For protection, the system will shut off until it cools down.	The navigation system has difficulty reading the HDD when the temperature is high. The navigation system starts up automatically when the system cools down.
System temp is too high. System will shut down until it cools down.	
HDD access error. Please consult your dealer.	Writing of the data to the HDD failed with a cause other than low temperature, high temperature, and low atmospheric pressure. After a short wait, try to operate the system again. If this does not solve the problem, consult with the dealer.
HDD access error. The system will reset and attempt to correct the problem.	

Reference Information

The navigation system must be initialized if power to the navigation system is interrupted for any reason (e.g., the battery was disconnected).

Entering the Security Code

Find the navigation system's security code and serial number label in your Owner's Manual kit. Do not store the label in your vehicle. If you lose the label, you must first retrieve the serial number, and then obtain the code. You can find out about your serial number and security code from a dealer.
1. Set the power mode to ON, and turn on the audio system.

► If you set the power mode to ACCESSORY, you will be requested to enter the security code. See step 3.

2. Press and hold the PWR ⏻ (Power) button for more than two seconds.

► The system is reactivated when the system's control unit recognizes that the system is in your vehicle.
If the control unit fails to recognize, "ENTER CODE" appears on the navigation screen.

3. If necessary, enter the security code.

► If you do not enter the security code correctly after 10 tries, leave the system for one hour before trying again, or visit a dealer to have the system reset.

NOTE:
In the U.S. you can register the security code at My Acura (owners.acura.com), and find information on how to retrieve the serial number and obtain the code at radio-navicode.acura.com.

Acquiring GPS Information

Depending on the length of time the power was interrupted, your system may require GPS initialization.
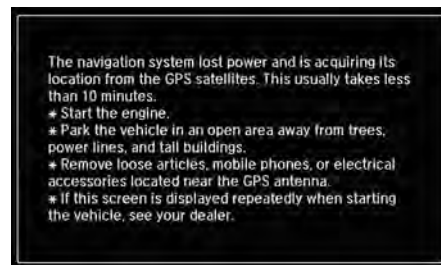

If initialization is not necessary, the system proceeds directly to the Startup Confirmation screen.

If the system fails to locate a sufficient number of satellites to locate your position within 10 minutes, the following screen is displayed.
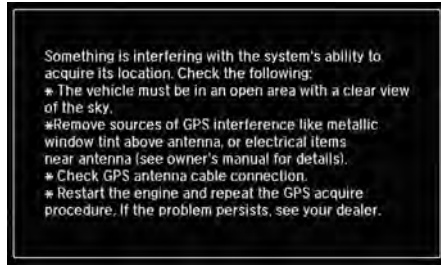

If you are experiencing GPS reception problems:
2 **GPS System** P. 134

Startup Confirmation Screen

The Startup Confirmation screen is displayed when initialization has successfully completed. It is displayed every time you start your vehicle. Press 🖑 to select **OK** to continue.

Map Matching

Map matching is the process of using the acquired GPS information to locate your position on the map screen. If you are on a mapped road, the name of the road is displayed along the bottom of the map screen when map matching is completed. Do not enter a destination until the road name is displayed.

The system may initially show your location on a different street (e.g., in urban areas where streets are close together), may show an incorrect elevation, or may delay the display of the vehicle position icon at intersections. This is normal; the system will correct itself while you drive.

System Limitations

2014 RLX

QRG

TOC

Reference Information

134

GPS System

The signals received from the GPS satellites are extremely weak (less than a millionth of the strength of a local FM station) and require an unobstructed view of the sky. The GPS antenna is located in the dashboard. The signal reception can easily be interrupted or interfered with by the following:

• Metallic window tint on the front or side windows

• Cell phones, PDAs, or other electronic devices docked in a cradle or lying loose on the dashboard

• Remote starters or "hidden" vehicle tracking systems mounted near the navigation unit

• Audio electronic devices mounted near the navigation unit

• Trees, tall buildings, freeway overpasses, tunnels, or overhead electrical power wires

The GPS is operated by the U.S. Department of Defense. For security reasons, there are certain inaccuracies built into the GPS for which the navigation system must constantly compensate. This can cause occasional positioning errors of up to several hundred feet.

Address Calculation

The destination icon shows only the approximate location of a destination address. This occurs if the number of possible addresses is different from the number of actual addresses on a block. For example, the address 1425 on a 1400 block with 100 possible addresses (because it is followed by the 1500 block) will be shown a quarter of the way down the block by the system. If there are only 25 actual addresses on the block, the actual location of address 1425 would be at the end of the block.

Database

The digitized map database reflects conditions as they existed at various points in time before production. Accordingly, your database may contain inaccurate or incomplete data or information due to the passage of time, road construction, changing conditions, or other causes.

For example, some places/landmarks may be missing when you search the database because the name was misspelled, the place was improperly categorized, or a place/landmark is not yet in the database. This is also true for police stations, hospitals, and other public institutions. Do not rely on the navigation system if you need law enforcement or hospital services. Always check with local information sources.

In addition, the map database contains verified and unverified areas. Unverified streets may be missing from the map, in the wrong location, or have an incorrect name or address range. A message will warn you if your route includes unverified streets. Exercise additional caution when driving in unverified areas.

The database does not include, analyze, process, consider, or reflect any of the following categories of information:

• Neighborhood quality or safety
• Population density
• Availability or proximity of law enforcement
• Emergency, rescue, medical, or other assistance
• Construction work, zones, or hazards
• Road and lane closures
• Legal restrictions (such as vehicular type, weight, load, height, and speed restrictions)
• Road slope or grade
• Bridge height, width, weight, or other limits

• Traffic facilities safety
• Special events
• Pavement characteristics or conditions

Every effort has been made to verify that the database is accurate. The number of inaccuracies you experience increases the longer you go without obtaining an updated map database.

We assume no liability for any incident that may result from an error in the program, or from changed conditions not noted above.

Resolving Problems

If you run into a specific issue that you cannot resolve, consult the following help resources:

- For navigation system issues:
  ⮑ **Troubleshooting** P. 124
  There are also FAQs available online at *www.acuranavi.com.*

- For traffic-related issues:
  ⮑ **Traffic** P. 126

- For reporting issues with the database or places/landmarks:
  ⮑ **Reporting Errors** P. 136

- Call Acura Client Relations.
  ⮑ **Acura Client Relations Contact Information** P. 136

Reporting Errors

You can help to improve database accuracy by reporting any errors you encounter.

- Report errors in freeways and main "verified" roads shown in black on the map at *http://mapreporter.navteq.com/dur-web-external/*.

- Please do not report errors in purple "unverified" roads. Maps for these areas are provided for reference only.
  ⮑ **Unverified Routing** P. 39

- Please do not report errors in places/landmarks, such as changes in business names. Information about points of interest are constantly being updated. An updated database is available for purchase, usually in the fall of each year.
  ⮑ **Obtaining a Navigation Update Data** P. 137

- For vehicle position icon errors, screen error messages, or other GPS-related errors:
  ⮑ **Troubleshooting** P. 124
  ⮑ **System Limitations** P. 134

Acura Client Relations Contact Information

Acura Navi

American Honda Motor Co., Inc.

Acura Client Relations
Mail Stop 500-2N-7E
1919 Torrance Blvd.

Torrance, CA 90501-2746
Tel: (800) 382-2238

Visiting a Dealer

If you have a question that you cannot resolve using the available help resources, you can consult a dealer. Please identify the specific issue (e.g., error occurs when you enter a specific address, when driving on a certain road, or just when it's cold) so that the service technician can refer the issue to the factory so that a solution can be found. Be patient, the service technician may be unfamiliar with your specific issue.

QRG

Reference Information

Map Coverage

The navigation system provides map coverage for the United States, Canada, Puerto Rico, and Mexico. The map coverage consists of accurately mapped (verified) metropolitan areas and a less accurate (unverified) rural database. Note that unverified areas are constantly being reviewed and converted to verified areas each year.

Map coverage update information is available from Acura Client Relations or online at *www.acuranavi.com*.

To find navigation system update information:

1. Visit *www.acuranavi.com*.

2. Enter your vehicle model and model year.

3. Click Map Coverage to display a list of verified coverage areas on the most recent update.

4. Click Map Coverage Details to display a PDF document with a full listing of all coverage areas.

▶ Adobe® Reader® is required for viewing and printing the Portable Document Format (PDF) documents. To download the latest version of Adobe Reader, visit *http://get.adobe.com/reader/*.

Obtaining a Navigation Update Data

Acura is continually expanding the scope of the navigation system. Navigation system software upgrades may be made available periodically, usually in the fall of each year.

To purchase an updated data file:

1. Obtain your vehicle's VIN number and the System/Device Information.
➡ **System Device Information** P. 68

2. Call the Acura Navigation Disc Fulfillment Center at (888) 549-3798, or order online at *www.acuranavi.com.*

Update data is not available from a dealer. However, the dealer may assist you in obtaining an update data for you out of courtesy. There is no program for free updates.

Traffic Information

Continuously updated traffic information is available in major metropolitan areas across the 48 contiguous states and some cities in Canada. A list of coverage areas is available online.

To find traffic information:

1. Visit *www.acura.com/realtimetraffic*.

2. Select Real-Time Traffic on the RLX.

3. Click AcuraLink Real-Time Traffic.

Operation in Alaska, Hawaii, Canada, Puerto Rico, and Mexico

■Map Coverage

All roads displayed on the map screens are verified roads. Information in this manual relating to "unverified" roads or areas is not applicable.

■Address and Place Entry Screens

Entering a destination address or place/landmark on another island may result in a screen caution message. This is because there are no ferry routes between islands in the database.

■Puerto Rico and Mexico

If **Street Name Guidance** is set to **On**, the street names will not be read out by voice guidance. This may change in a future data update.

User Agreements

■Navigation System User Agreement

In using this HDD "Satellite Linked Navigation System" (the "HDD"), which includes HONDA MOTOR CO., LTD. software, ALPINE ELECTRONICS, INC. software, and NAVTEQ database contents (hereinafter referred to as "Licensors"), you are bound by the terms and conditions set forth below. By using your copy of the HDD, you have expressed your Agreement to the terms and conditions of this Agreement. You should, therefore, make sure that you read and understand the following provisions. If for any reason you do not wish to be bound by the terms of this Agreement, please return the HDD to your dealer.

- The HDD may not be copied, duplicated, or otherwise modified, in whole or in part, without the express written permission of the Licensors.

- The HDD may not be transferred or sublicensed to any third party for profit, rent or loan, or licensed for reuse in any manner.

- The HDD may not be decompiled, reverse engineered or otherwise disassembled, in whole or in part.

- The HDD may not be used in a network or by any other manner of simultaneous use in multiple systems.

- The HDD is intended solely for personal use (or internal use where the end-user is a business) by the consumer. The HDD is not to be used for commercial purposes.

- The Licensors do not guarantee to the client that the functions included in the HDD meet the specific objectives of the user.

- Licensor shall not be responsible for any damages caused by the use of the HDD to the actual user or to any third party.

- The warranty on the HDD shall not extend to an exchange or refund due to misspelling, omission of letters, or any other cosmetic discrepancy in the contents of the HDD.

- The right to use the HDD shall expire either when the user destroys the HDD or software, or when any of the terms of this Agreement are violated and the Licensors exercise the option to revoke the license to use the HDD or software.

Reference Information

- The terms and conditions hereof apply to all subsequent users and owners as well as to the original purchaser.

- The logos of oil companies, hotels, convenience stores, and other businesses are displayed for your information and convenience, and in no way imply any sponsorship, approval or endorsement of these companies, or their products. The logos are trademarks of their respective owners.

- The marks of companies displayed by this product to indicate business locations are the marks of their respective owners.

- The use of such marks in this product does not imply any sponsorship, approval, or endorsement by such companies of this product.

The user shall indemnify and save harmless the Licensors, and their officers, employees and agents, from and against any claim, demand or action, irrespective of the nature of the cause of the claim, demand or action, alleging loss, costs, expense, damages or injuries (including injuries resulting in death) arising out of the use or possession of the HDD or software.

Use, duplication, or disclosure of this HDD by or on behalf of the United States government is subject to "Restricted Rights" as set forth at FAR 52.227-14, -19 or DFARS 252.227-7013, as applicable. Manufacturers are the Licensors, including HONDA MOTOR CO., LTD., 2-1-1 Minami Aoyama Minato-Ku Tokyo 107-8556 JAPAN., Alpine Electronics, Inc., 20-1 Yoshima Kogyodanchi, Iwaki, Fukushima 970-1192 JAPAN., NAVTEQ Corporation, 425 W Randolph St. Chicago, IL 60606, USA.

■Navigation System END USER LICENSE AGREEMENT

You have acquired a device ("DEVICE") that includes software licensed by Alpine Electronics, Inc. (collectively "ALPINE") from an affiliate of Microsoft Corporation (collectively "MS"). Those installed software products of MS origin, as well as associated media, printed materials, and "online" or electronic documentation ("SOFTWARE") are protected by international intellectual property laws and treaties. The SOFTWARE is licensed, not sold. All rights reserved.

IF YOU DO NOT AGREE TO THIS END USER LICENSE AGREEMENT ("EULA"), DO NOT USE THE DEVICE OR COPY THE SOFTWARE INSTEAD, PROMPTLY CONTACT ALPINE FOR INSTRUCTIONS ON RETURN OF THE UNUSED DEVICE(S) FOR A REFUND. ANY USE OF THE SOFTWARE, INCLUDING BUT NOT LIMITED TO USE ON THE DEVICE, WILL CONSTITUTE YOUR AGREEMENT TO THIS EULA (OR RATIFICATION OF ANY PREVIOUS CONSENT).

- **GRANT OF SOFTWARE LICENSE**
  This EULA grants you the following license: You may use the SOFTWARE only on the DEVICE.

- **NOT FAULT TOLERANT**
  THE SOFTWARE IS NOT FAULT TOLERANT. ALPINE HAS INDEPENDENTLY DETERMINED HOW TO USE THE SOFTWARE IN THE DEVICE, AND MS HAS RELIED UPON ALPINE TO CONDUCT SUFFICIENT TESTING TO DETERMINE THAT THE SOFTWARE IS SUITABLE FOR SUCH USE.

- **NO WARRANTIES FOR THE SOFTWARE**
  THE SOFTWARE is provided "AS IS" and with all faults. THE ENTIRE RISK AS TO SATISFACTORY QUALITY, PERFORMANCE, ACCURACY, AND

EFFORT (INCLUDING LACK OF NEGLIGENCE) IS WITH YOU. ALSO, THERE IS NO WARRANTY AGAINST INTERFERENCE WITH YOUR ENJOYMENT OF THE SOFTWARE OR AGAINST INFRINGEMENT. IF YOU HAVE RECEIVED ANY WARRANTIES REGARDING THE DEVICE OR SOFTWARE THOSE WARRANTIES DO NOT ORIGINATE FROM, AND ARE NOT BINDING ON, MS.

- **NO LIABILITY FOR CERTAIN DAMAGES.**
  EXCEPT AS PROHIBITED BY LAW, MS, MICROSOFT CORPORATION AND THEIR AFFILIATES SHALL HAVE NO LIABILITY FOR ANY INDIRECT, SPECIAL, CONSEQUENTIAL OR INCIDENTAL DAMAGES ARISING FROM OR IN CONNECTION WITH THE USE OR PERFORMANCE OF THE SOFTWARE. THIS LIMITATION SHALL APPLY EVEN IF ANY REMEDY FAILS OF ITS ESSENTIAL PURPOSE. IN NO EVENT SHALL MS, MICROSOFT CORPORATION AND/OR THEIR AFFILIATES BE LIABLE FOR ANY AMOUNT IN EXCESS OF U.S. TWO HUNDRED FIFTY DOLLARS (U.S.$250.00).

- **SPEECH RECOGNITION**
  If the SOFTWARE includes speech recognition component(s), you should understand that speech recognition is an inherently statistical process and that recognition errors are inherent in the process. Neither ALPINE nor its suppliers shall be liable for any damages arising out of errors in the speech recognition process.

- **LIMITATIONS ON REVERSE ENGINEERING, DECOMPILATION, AND DISASSEMBLY**
  You may not reverse engineer, decompile, or disassemble the SOFTWARE, except and only to the extent that such activity is expressly permitted by applicable law notwithstanding this limitation.

- **ADDITIONAL SOFTWARE/SERVICES**
  The SOFTWARE may permit ALPINE, MS, Microsoft Corporation or their affiliates to provide or make available to you SOFTWARE updates, supplements, add- on components, or Internet-base service components of the SOFTWARE after the date you obtain your initial copy of the SOFTWARE ("Supplemental Components").

▶ If ALPINE provides or makes available to you Supplemental Components and no other EULA terms are provided along with the Supplemental Components, then the terms of this EULA shall apply.

▶ If MS, Microsoft Corporation or their affiliates make available Supplemental Components, and no other EULA terms are provided, then the terms of this EULA shall apply, except that MS, Microsoft Corporation or affiliate entity providing the Supplemental Component(s) shall be licensor of the Supplemental Component(s).

▶ ALPINE, MS, Microsoft Corporation and their affiliates reserve the right to discontinue any Internet-based services provided to you or made available to you through the use of the SOFTWARE.

- **RECOVERY MEDIA**
  If SOFTWARE is provided by ALPINE on separate media and labeled "Recovery Media" you may use the Recovery Media solely to restore or reinstall the SOFTWARE originally installed on the DEVICE.

TOC

Reference Information

- **UPGRADES**
  If the SOFTWARE is provided by ALPINE separate from the DEVICE on separate media or via web download or other means, and is labeled "For Upgrade Purposes Only" you may install one (1) copy of such SOFTWARE onto the DEVICE as a replacement copy for the existing SOFTWARE, and use it in accordance with this EULA, including any additional EULA terms accompanying the upgrade SOFTWARE.

- **TERMINATION**
  Without prejudice to any other rights, ALPINE or MS may terminate this EULA if you fail to comply with the terms and conditions of this EULA. In such event, you must destroy all copies of the SOFTWARE and all of its component parts.

- **INTELLECTUAL PROPERTY RIGHTS**
  All title and intellectual property rights in and to the SOFTWARE (including but not limited to any images, photographs, animations, video, audio, music, text and "applets," incorporated into the SOFTWARE), the accompanying printed materials, and any copies of the SOFTWARE, are owned by MS, Microsoft Corporation, their affiliates or

suppliers. The SOFTWARE is licensed, not sold.

You may not copy the printed materials accompanying the SOFTWARE. All title and intellectual property rights in and to the content which may be accessed through use of the SOFTWARE is the property of the respective content owner and may be protected by applicable copyright or other intellectual property laws and treaties. This EULA grants you no rights to use such content. All rights not specifically granted under this EULA are reserved by MS, Microsoft Corporation, their affiliates and suppliers. Use of any on-line services which may be accessed through the SOFTWARE may be governed by the respective terms of use relating to such services. If this SOFTWARE contains documentation that is provided only in electronic form, you may print one copy of such electronic documentation.

- **TRADEMARKS**
  This EULA does not grant you any rights in connection with any trademarks or service marks of ALPINE MS, Microsoft Corporation, their affiliates or suppliers.

- **PRODUCT SUPPORT**
  Product support for the SOFTWARE is not provided by MS, its parent corporation Microsoft Corporation, or their affiliates or subsidiaries. For product support, please refer to ALPINE support number provided in the documentation for the DEVICE.
  Should you have any questions concerning this EULA, or if you desire to contact ALPINE for any other reason, please refer to the address provided in the documentation for the DEVICE.

- **SOFTWARE TRANSFER ALLOWED BUT WITH RESTRICTIONS**
  You may permanently transfer rights under this EULA only as part of a permanent sale or transfer of the Device, and only if the recipient agrees to this EULA. If the SOFTWARE is an upgrade, any transfer must also include all prior versions of the SOFTWARE.

- **EXPORT RESTRICTIONS**
  You acknowledge that SOFTWARE is of US-origin. You agree to comply with all applicable international and national laws that apply to the SOFTWARE, including the U.S. Export Administration Regulations, as well as end-user, end-use and country destination restrictions

Reference Information

issued by U.S. and other governments. For additional information on exporting the SOFTWARE, see *http:// www.microsoft.com/exporting/*.

As required by the FCC

1. This device complies with Part 15 of the FCC Rules and Canadian RSS-210/RSSGen. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

2. The FCC requires the user to be notified that any changes or modifications made to this device that are not expressly approved by the party responsible for compliance may void the user's authority to operate the equipment.

3. This product emits radio frequency energy, but the radiated output power of this device is far below the FCC and IC radio frequency exposure limits. This equipment complies with FCC and IC RF radiation exposure limits set forth for an uncontrolled environment. Nevertheless, the device should be used in such a manner that the potential for human contact with the antenna during normal operation is minimized.
