TECHNOLOGY REFERENCE GUIDE

The Technology Reference Guide is designed to help you get acquainted with your new Honda and provide basic instructions on some of its technology and convenience features. This guide covers the Accord Sedan Touring.

This guide is not intended to be a substitute for the Owner’s Manual. For more detailed information on vehicle controls and operation, please refer to the respective sections in the Owner’s Manual or Navigation Manual.
SMART ENTRY WITH PUSH BUTTON START

Unlocking the Doors

Grab either one of the front door handles.

Locking the Doors

Press the door lock button on either front door handle.

Opening the Trunk

Press the trunk release button under the trunk handle.

Engine Start/Stop Button

Accessory or On Mode

Operate audio or other electrical features without turning the engine on.

Press the ENGINE START/STOP button once (without pressing the brake pedal). Press it again for ON mode.

Starting the Engine

Press and hold the brake pedal, then press the ENGINE START/STOP button.

Turning the Vehicle Off

Shift to Park, then press the ENGINE START/STOP button.

Note: If you press the button and the shift lever is not in Park, the vehicle goes into Accessory mode.
Program how and when the vehicle doors automatically lock and unlock.

**AUTO DOOR LOCKS**

**Door Locks**

**Default Lock Setting**
The doors are preset to lock when your vehicle reaches about 10 mph.

**Default Unlock Setting**
All doors are set to unlock when the driver’s door is opened.

**Changing the Door Lock Settings**

Below is an example of how to change the auto door unlock setting*. Make sure the vehicle is in ON mode. See your Owner’s Manual for other setting options.

1. Press SETTINGS.

2. Select Vehicle Settings.

3. Move the interface dial to the right to Door/Window Setup.

4. Select Auto Door Unlock.

5. Select from the options.

6. Press BACK to exit the menu.

**Note:** The driver’s and front passenger’s door can be opened by pulling the inner front door handle, regardless of the setting. Changing the setting to “All Doors” is useful for rear passengers.

* You can also change vehicle settings using the multi-information display.
INSTRUMENT PANEL INDICATORS

Briefly appear with each engine start. Red and orange indicators are most critical. Blue and green indicators are used for general information. See your Owner’s Manual for more information.

Malfunction Indicators
If an indicator remains on, there may be a problem; see your dealer

- Charging system
- Low brake fluid
- Low oil pressure
- SRS (supplemental restraint system)
- EPS (electric power steering)
- FCW (forward collision warning system)
- LDW (lane departure warning system)
- ABS (anti-lock brake system)
- Malfunction lamp (check engine light)
- TPMS (tire pressure monitoring system)
- VSA® (vehicle stability assist)
- Smart Entry System
- Brake system
- Adaptive Cruise Control

On/Off Indicators

- PASSENGER AIRBAG OFF (next to display screen)
- VSA OFF
- ECON Mode on
- Fog lights on
- Headlights on
- Turn signals/hazards on
- High beams on
- Adaptive Cruise Control on

Condition Indicators
Action is needed by driver

- Parking brake on:
- Door/Trunk open:
- Seat belt reminder:
- Immobilizer (blinks):

- Release
- Close door(s) / trunk
- Fasten seat belt(s)
- Use correct key

- Low fuel:
- FCW (blinks):
- LDW (blinks):
- Refill
- Brake
- Stay in your lane

- Low tire pressure:
- System message indicator:
- Add air
- Check MID

- Low brake fluid
- ABS (anti-lock brake system)
- Malfunction lamp (check engine light)
- TPMS (tire pressure monitoring system)
- VSA® (vehicle stability assist)
Accessing the Information Display

When you start the engine, the information display shows your last active selection from the previous drive cycle.

To toggle between the different displays:
- Press either info button (▲/▼) for the main displays.
- Press SEL/RESET for the lower displays.

Main Displays

- Main Screen
- Vehicle settings
- Average and instant fuel economy
- Oil life
- Range
- Average speed
- Elapsed time

Lower Displays

- Odometer
- Trip A
- Trip B

*You can also change vehicle settings using the SETTINGS button on the center panel.
INTELLIGENT MULTI-INFORMATION DISPLAY (i-MID)

Choose what to display in the center screen.

Changing the Display

Press the Display button to change the main displays.

Display Options

Audio
- Shows current audio information.

Phone
- Shows phone screen.

Navigation
- Shows map or navigation information.

Info
- Shows information screen and options.

Audio Options

Source: Select audio sources.
Preset: Select preset stations or channels.
Skip/Seek: Change stations, channels, tracks, etc.
More: Select menu options and sound settings.

Using the Touchscreen

Interactive touchscreen display includes audio and Bluetooth® HandsFreeLink® functionality.

Bluetooth® HandsFreeLink® Options

When you enter the Dial screen from the Phone Menu, you can use the touchscreen to enter the number.

When you enter the Phonebook screen from the Phone Menu, you can use the touchscreen to search for names.

Sound/Screen Options

Select More from the main screen.

Select Sound Settings to adjust the audio system.
Select Screen Settings to adjust various screen features.
TIRE PRESSURE MONITORING SYSTEM (TPMS)

Monitors the vehicle’s tire pressures.

How It Works

When the tire pressure drops significantly below recommended levels, the low tire pressure indicator comes on.

What to Do

1. Visually inspect the tires for damage.
2. Use a tire air pressure gauge to check which tire(s) have low pressure.
3. Inflate the tire(s), if necessary, to the recommended pressures listed on the label on the driver’s doorjamb.

TPMS Calibration

Any time you inflate, change, or rotate one or more of your tires, you need to recalibrate the system.

1. Press SETTINGS.
2. Select Vehicle Settings.
3. Select TPMS Calibration.
4. Select Calibrate.
5. The low tire pressure indicator blinks and calibration begins.

ECO ASSIST™

When turned on, performance of the vehicle’s engine, transmission, cruise control, and air conditioning system are adjusted to maximize fuel efficiency.

ECON Button

1. Press ECON to turn the system on.
2. The ECON mode indicator comes on.
3. Press ECON again to turn the system off.

Ambient Meter

Indicates instant fuel efficiency using color-coded bars.

High fuel efficiency

Moderate fuel efficiency

Low fuel efficiency
DRIVING POSITION MEMORY SYSTEM (DPMS)

How It Works

1. Turn on the vehicle. Make sure the shift lever is in Park (P).
2. Adjust your preferred seat settings.
3. Press SET. You will hear a beep.
4. Press the memory button corresponding to the remote (1 or 2) you are using. You will hear two beeps.

Note: Stored positions can also be recalled by pressing memory buttons (1 or 2) on the door.

ONE-TOUCH TURN SIGNAL

Use this quick and convenient method to signal a lane change.

How It Works

• Lightly push the turn signal lever up or down for a three-blink sequence.
• For a continuous signal, push the lever up or down until it locks into place.

AUTO HEADLIGHTS WITH WIPER INTEGRATION

For your safety and convenience, your vehicle's headlights automatically turn on when you activate the windshield wipers.

How It Works

• Make sure your headlights are in the AUTO position.
• Turn on your windshield wipers. The headlights also turn on.
• When you turn off the windshield wipers, the headlights turn off shortly after.
MULTI-VIEW REAR CAMERA

For added convenience, the area behind your vehicle is displayed to help you navigate while backing up.

How It Works

- When you shift into Reverse (R), a real-time image of the area behind your vehicle is shown in the navigation display, along with helpful parking guidelines.
- The display turns off when you shift out of Reverse.

Switching Views

There are three rearview modes: wide, normal, and top down. Press the interface dial to toggle between views.

Camera Settings

Turn the guidelines on or off.

1. Press SETTINGS.

2. Select Camera Settings.

3. Select Rear Camera.

4. Select one of the options.

   Fixed Guidelines: Guidelines appear when you shift into Reverse. Select On or Off.

   Dynamic Guidelines: Guidelines move as you turn the steering wheel. Select On or Off.

5. Press BACK to exit the menu.
How It Works

Turning LDW On or Off

Press the LDW button to turn the system on or off.

LDW may not activate under certain conditions. See your Owner's Manual for more information.

How It Works

How It Works

When the right turn signal is activated, a camera located in the passenger side door mirror shows the right rear area outside your vehicle on the display.

If you cross a lane line without using your turn signal, the LDW indicator flashes, a message appears on the MID, and a beep sounds.

See your Owner's Manual for more information on adjusting LaneWatch settings.

LaneWatch TM

Helps you check your right blind spots when you make a right lane change.

LANE WATCH TM

LANE DEPARTURE WARNING (LDW)

Alerts you if your vehicle begins to move out of a detected lane without the turn signal activated.

A camera mounted between the windshield and the rearview mirror determines if your vehicle begins to move away from the center of a detected lane while driving between 40–90 mph.

LaneWatch Display

Press the LaneWatch button on the turn signal switch to view a constant real-time display. Press it again to turn the display off. The display still appears when the right turn signal is activated.

See your Owner's Manual for more information on adjusting LaneWatch settings.
Customizing FCW

Use the interface dial to make and enter selections.

1. Press SETTINGS.

2. Select Vehicle Settings.

3. Move the interface dial to the right to Driver Assist Style.

4. Select Forward Collision Warning Distance.

5. Select one of the options.

   - **Long**: early warning timing
   - **Normal**: standard warning timing
   - **Short**: late warning timing
   - **Off**: Turn the system off

6. Press BACK to exit the menu.

**FORWARD COLLISION WARNING (FCW)**

Alerts you to the possibility of a front-end collision.

**How It Works**

If the radar sensor in the front grille detects a vehicle in front of you when your vehicle speed is 10 mph or higher—and it determines there is a likelihood of a frontal collision—the system provides you with the following visual and audible warnings:

- **With the FCW Distance set to Short:**
  - the heads-up light near the windshield flashes continuously
  - the FCW indicator flashes continuously
  - a beep sounds continuously until you take preventive action

- **With the FCW Distance set to Normal or Long:**
  - the heads-up light near the windshield and FCW indicator flash twice
  - if you do not take action to prevent a collision and the distance to the other vehicle becomes sufficiently close, BRAKE flashes on the MID, the FCW indicator and heads-up light flash, and a beep sounds continuously until you take preventive action

FCW may not activate under certain conditions. See your Owner’s Manual for more information.
Adaptive Cruise Control (ACC)

Set a time or space interval between your vehicle and the vehicle ahead of you. When the vehicle ahead changes speed, ACC senses the change and adapts to maintain a set range.

How It Works

1. Press MAIN.
2. ACC appears on the MID and the ACC indicator comes on.

Switching Between ACC and Standard Cruise Control

1. Press and hold the Distance button for about one second.
2. The selected mode appears on the MID.

Switching Between ACC and Standard Cruise Control

1. Press MAIN to activate.
2. Accelerate to the desired speed (above 25 mph).
3. Press and release -/SET, then release the accelerator pedal.
4. To increase speed: Press RES/+.
   To decrease speed: Press -/SET.

Canceling ACC

There are three ways to cancel:

- Press MAIN.
- Press CANCEL.
- Tap the brake pedal.

Changing Vehicle Distance

Control the distance between your vehicle and the vehicle in front of you.

ACC automatically adjusts the following distance based on the range selected and your vehicle speed.

- Very Long range
- Long range
- Middle range
- Short range

Press the Distance button to shuffle through four ranges.

The selected range and set speed are shown on the MID.

<table>
<thead>
<tr>
<th>Range</th>
<th>MID Screen</th>
</tr>
</thead>
<tbody>
<tr>
<td>Very Long</td>
<td><img src="image" alt="Very Long" /></td>
</tr>
<tr>
<td>Long</td>
<td><img src="image" alt="Long" /></td>
</tr>
<tr>
<td>Middle</td>
<td><img src="image" alt="Middle" /></td>
</tr>
<tr>
<td>Short</td>
<td><img src="image" alt="Short" /></td>
</tr>
</tbody>
</table>

Note: The ACC radar sensor in the front grille can detect and monitor the distance of a vehicle up to approximately 100 yards ahead.
VOICE RECOGNITION

How It Works

Control four different systems with the steering wheel buttons and the ceiling microphone.

To reduce the likelihood of driver distraction, certain manual functions may be inoperable or grayed out while the vehicle is moving. Voice commands are always available.

Pick-Up button: Answer an incoming call or go to a phone-specific voice portal screen.

Hang-Up/Back button: End a call, decline an incoming call, or cancel an operation.

Talk button: Give phone, navigation, audio, or climate control commands.

Voice Command Portal

When you press the Talk button from any of the main screens (NAV, PHONE, INFO, AUDIO), the voice portal screen appears and the system gives you examples of voice commands that can be used. For more examples, see page 26.

Voice Command Tips

- To hear a list of available commands at any time, press and release the Talk button, then say “Help.”
- When using the Talk button, wait for a beep, then give a command.
- When the Talk button is pressed, all available voice commands are highlighted in yellow.
- Speak in a clear, natural voice.
- Reduce all background noise.
- Adjust the dashboard and side vents away from the microphone in the ceiling.
- Close the windows.
**Commonly Used Voice Commands**

Here are some examples of commonly used voice commands. Try some of these to familiarize yourself with the voice command system.

Press and release the Talk button before you give a command.

### General Commands

(Accepted on most screens to change displays)

- Display map
- Display menu
- Display phone
- Information
- Display audio screen
- What time is it?

### Find Place Commands

(Accepted on Map screen)

- Find nearest:
  - ATM
  - gas station
  - Mexican restaurant
  - hospital
  - bank
  - post office

### Navigation Commands

(accepted on Map screen)

- How long/far to the destination?
- Display destination map
- Display entire route

### Display Commands

(accepted on Map screen)

- Display (or hide):
  - ATM
  - gas station
  - restaurant
  - post office
- Display north up/heading up
- Zoom in/out
- Go home
- Display current location

### Audio Commands

(Accepted on most screens)

- Radio on
- Radio # FM/AM
- Radio preset 1/2/3/4/5/6
- XM channel #
- XM preset 1/2/3/4/5/6
- DISC play
- DISC play track #
- DISC skip forward/back
- iPod/USB/HDD play

### Phone Commands

(Accepted on most screens)

- Call “phone number”
- Call “voice tag”

### Climate Control Commands

(Accepted on most screens)

- Air conditioner on/off
- Rear defrost on/off
- Climate control recirculate/fresh air
- Fan speed up/down
- Temperature # degrees
  (# = 57–87)
- Temperature max hot/cold

### Help Commands

(Accepted on most screens)

- Voice help (list of all available commands by category)
NAVIGATION

Entering a Destination Using Voice Commands

Set a destination using a street address. For other destination options, see your Navigation Manual.

Press and release the Talk button before you give a command.

1. **Say** “Address.”

2. **Say** “Street,” then say the street name on the next screen. Do not include the direction (N, S, E, W) or type (St., Ave., Blvd., etc.).

3. A list of street names appears. **Say** the number next to the street you want.

4. **Say** the entire street address number. For example, “1-2-3-4.” If necessary, **say** “OK” to proceed.

5. If the street address is in more than one city, a list of city names appears. **Say** the number next to the city you want to select.

6. **Say** “Set as destination” to set the route.

**NOTE:** It is recommended that you enter your destination before driving or when the vehicle is stopped.

Using the “Find Nearest” Command

Find a nearby point of interest, such as a gas station, movie theater, restaurant, etc.

**Press and release the Talk button before you give a command.**

1. From the map screen, **say** “Find nearest ATM.”

2. A list of the nearest ATMs in your area is displayed by shortest distance to destination.

3. **Say** the number next to the destination you want to select.

4. **Say** “Set as destination” to set the route.

Using the “Address” Command

Set a destination using a street address. For other destination options, see your Navigation Manual.

**Press and release the Talk button before you give a command.**

1. **Say** “Address.”

2. **Say** “Street,” then say the street name on the next screen. Do not include the direction (N, S, E, W) or type (St., Ave., Blvd., etc.).

3. A list of street names appears. **Say** the number next to the street you want.

4. **Say** the entire street address number. For example, “1-2-3-4.” If necessary, say “OK” to proceed.

5. If the street address is in more than one city, a list of city names appears. **Say** the number next to the city you want to select.

6. **Say** “Set as destination” to set the route.

**NOTE:** It is recommended that you enter your destination before driving or when the vehicle is stopped.

Map Screen Legend

- **Calculated route**
- **Time to go**
- **Distance to go**
- **Current vehicle location**
- **Next guidance point**
Using HFL

Make and receive phone calls through your vehicle's audio system. Visit handsfreelink.honda.com to check if your phone is Bluetooth-compatible.

To reduce the likelihood of driver distraction, certain functions may be inoperable or grayed out while the vehicle is moving. Stop or pull over to perform the function.

Displaying Traffic Information

Say “Display traffic” to view traffic flow and icons.

Traffic Rerouting

The system can automatically provide detours around traffic or incidents when a destination is set and Traffic Rerouting is turned on in Navi Settings (see page 45).

1. Say “Display traffic on my route” to view a list of incidents on your route.
2. Say the number of the incident you want to avoid.
3. Say “Avoid” and the incident list returns.
4. Say “Recalculate route” to set the new route.

Incident Icons:

- Incidents
- Road closed
- Congestion
- Weather
- Construction

Traffic flow and incident icons are only displayed on map scales of 5 miles (8 km) or less.

Note: Traffic flow and incident icons are only displayed on map scales of 5 miles (8 km) or less.

FM Traffic

Provides continuously updated info, including traffic speed, incidents, and construction in major metro areas. Works in cities where a clear FM traffic signal is available.

Press and release the Talk button before you give a command.

Use these buttons to navigate through the HFL menus.

Pick-Up button: Answer an incoming call or go to a phone-specific voice portal screen.

Hang-Up/Back button: End a call, decline an incoming call, or cancel an operation.

Talk button: Make a call using a stored voice tag, phonebook name, or phone number.

PHONE button: Go to the phone screen.

BACK button: Cancel an operation or return to the previous screen.

SETTINGS button: Go to Phone Settings to pair a phone and set up text/mail options.

Interface Dial: Rotate to scroll through selections and press to make a selection.

MENU button: From the Phone screen, access Speed Dial, Redial, Call History, Phonebook, Dial, and Text/Mail options.
Pairing Your Phone

Pair your phone to begin using hands-free phone and related audio functions. The vehicle must be stopped to pair the phone.

**Use the interface dial to make and enter selections.**

1. **Press SETTINGS.**
   - ![Settings Icon]

2. **Select** Phone Settings.
   - ![Phone Settings Icon]

3. **Select** Bluetooth Device List (if no phone has been paired) or Connect Phone (if another phone has been paired).
   - ![Bluetooth Devices List]

4. **Select** Add Bluetooth Device.
   - ![Add Bluetooth Device]

5. Make sure your phone is in discovery mode.
   - ![Searching for Devices]

6. HFL searches for your phone. **Select** your phone when it appears on the list.
   - ![HandsFreeLink Search]

7. HFL gives you a six-digit code. **Compare** it to the code that appears on your phone. If it is the same, **connect** to HFL from your phone.
   - ![Connect to HFL]

8. The system asks if you want to enable Phone Synchronization. **Select** On.
   - ![Enable Phone Synchronization]

Pairing Your Phone

Dialing a Number

Enter a 10-digit phone number to call.

**Using the Menu**

**Use the interface dial to make and enter selections.**

1. **Press PHONE.**
   - ![Phone Dial]

2. **Press MENU.**
   - ![Menu]

3. **Select** Dial.
   - ![Select Dial]

4. From the navigation screen or the touchscreen, **enter** the phone number. **Select** the green Dial icon to call.
   - ![Enter Phone Number]

**Using Voice Commands**

Press and release the TALK button to say a command.

1. **Say** “Dial by number.”
   - ![Say Dial by Number]

2. **Say** the phone number.
   - ![Say Phone Number]

3. **Say** “Dial.” The system begins to dial.
   - ![Dial]

*This feature is inoperable when the vehicle is moving.*
Receiving a Call

When you receive an incoming call, you hear a notification and see the following pop-up message:

Press the Pick-Up button to accept the call.

Press the Hang-Up button to end or decline the call.

Using Speed Dial

Store 20 speed dial entries for quick calling.

Using the Menu

Use the interface dial to make and enter selections.

1. Press PHONE.

2. From the Speed Dial tab, scroll the list of speed dial entries.

3. Select the entry to call.

Using Voice Commands

When a speed dial entry is stored with a voice tag, you can make a call using voice commands at any time. See your Owner’s Manual for more information.

Press and release the TALK button to say a command.

Say “Call” and the stored voice tag name. The system begins to dial.

You can also say the name and type of any phone number stored in your phonebook. For example, say “Call by name” followed by “John Smith mobile.”

Note: Phone synchronization must be on for the “Call by name” feature to work.

Using the Phonebook

When your phone is paired, its entire phonebook is automatically imported to the system. This feature is inoperable when the vehicle is moving.

Use the interface dial to make and enter selections.

1. Press PHONE.

2. Press MENU.

3. Select Phonebook.

4. Scroll through the list to find the name and number you want to call, and select it to call.

Receiving a Call

When you receive an incoming call, you hear a notification and see the following pop-up message:

Press the Pick-Up button to accept the call.

Press the Hang-Up button to end or decline the call.
SMS TEXT MESSAGING AND E-MAIL

Receive and send text messages and e-mails from your paired and linked phone using Bluetooth® HandsFreeLink®. Visit handsfreelink.honda.com to see if this feature is compatible on your phone. Standard message rates apply. This feature is limited while the vehicle is moving.

Receiving Messages

Use the interface dial to make and enter selections.

1. A notification appears on the display. Select Read to open the message.
2. The message is displayed, and the system reads it aloud.

Replying to Messages

Use the interface dial to make and enter selections.

1. With the message open, move the interface dial down to select Reply.
2. Select one of the six available reply messages.
3. Select Send to send the message.

Displaying Messages

Use the interface dial to make and enter selections.

1. Press PHONE.
2. Press MENU.
3. Select Text/Email. The 20 most recent messages are displayed.
4. Select Inbox or the desired folder.
5. Select a message to open it and hear it read aloud.

Calling the Sender

Use the interface dial to make and enter selections.

1. With the message open, move the interface dial down to select Call.
2. HFL begins dialing the number.

Note: Notifications and operation for SMS Text and E-mail are separate. Choose your desired account in the Phone Settings menu.
BLUETOOTH® AUDIO

Stream audio from your compatible phone through your vehicle's audio system. Visit handsfreelink.honda.com to check if this feature is available on your phone.

**Playing Bluetooth Audio**

1. Make sure your phone is on and paired to Bluetooth® HandsFreeLink® (see page 32).
2. Press SOURCE.
3. Press the Bluetooth icon.
4. From your phone, open the desired audio player or app and begin playing. Sound is redirected to the audio system.
5. Press (↑) or (↓) on the screen or (←) or (→) on the steering wheel to change tracks.

**Notes:**
- Make sure the volume on your phone is properly adjusted.
- You may need to enable additional Bluetooth settings on your phone for playback.
- The play/pause function and remote audio controls may not be supported on all phones.

iPod® OR USB FLASH DRIVE

Play audio files from your compatible iPod or USB flash drive through your vehicle’s audio system.

**Connecting Devices and Playing Audio Files**

1. Open the USB port in the front console. Connect the dock connector or flash drive.
2. Press SOURCE.
3. Press the iPod or USB icon.
4. Press the album or folder bar to change albums or folders.
5. Press (↑) or (↓) on the screen or (←) or (→) on the steering wheel to change tracks.

**iPod** is a registered trademark of Apple Computer, Inc., registered in the U.S. and other countries. iPod not included.
HARD DISC DRIVE (HDD) AUDIO

Record CDs onto your vehicle’s hard disc drive. Songs are automatically recorded once a CD is inserted into the disc slot.

Playing HDD Audio

1. Press SOURCE.
2. Press the HDD icon.
3. Press (หนองข้าว) or (น้ำดอกไม้) on the screen or (ข้าว) or (ดอกไม้) on the steering wheel to change tracks.

Searching for Music

Use the interface dial to make and enter selections.

1. From the audio screen, move the interface dial to the left to go to the HDD search screen.
2. Select one of the categories.
3. Select a track and press ENTER to begin playing.
SONG BY VOICE™ (SBV)

Play songs from your iPod and HDD from most navigation/audio screens by using simple voice commands.

Playing Audio Files Using Voice Commands

Using the “Play” Command

Press and release the Talk button before you give a command.

1. **Say** “Music search.”
2. **Say** “Play” and a search option. For example, **say** “Play artist XYZ.”
3. The system plays the first song by the artist and returns to your original screen.

Using the “List” Command

Press and release the Talk button before you give a command.

1. **Say** “Music search.”
2. **Say** “List” and a search option. For example, **say** “List artist XYZ.”
3. A list of tracks by the selected artist displays. Say the number of your selection. For example, **say** “One.”
4. The system plays the first song by the artist and returns to your original screen.

HondaLink featuring Aha™

Access music and entertainment programming, location-based services, and social media sites through your vehicle’s audio system. Download the HondaLink app to your phone prior to using this feature at owners.honda.com/apps. Visit handsfreelink.honda.com to check if this feature is available on your phone. Standard data rates apply.

Playing Aha

1. **For Bluetooth connection:** Make sure your phone is paired to Bluetooth® HandsFreeLink® (see page 32) and the screen is on and unlocked. **For USB connection:** Connect the dock connector to the USB port.
2. **Press** SOURCE.
3. **Press** the Aha icon on the second screen and streaming begins.
4. From the screen, **select** items such as Like/Dislike and Play/Pause.

Notes:
- You can select Bluetooth or USB priority connection in the Audio Settings menu (see page 45). This establishes what kind of connection will happen every time you turn your vehicle on.
- iPhone can connect via Bluetooth or USB; Android can connect via Bluetooth only.
- If you cannot operate Aha through the audio system, it may be streaming through Bluetooth® Audio. Make sure the Aha source on your audio system is selected.
SETTINGS FOR YOUR VEHICLE

Change different settings for many features in your vehicle. See your Owner’s Manual for detailed information on settings and options.

Adjusting Vehicle Settings

Press SETTINGS to select the settings menu. Use the interface dial to make and enter selections.

Choose from the available options:

- **Navi Settings**
  - Change various settings for navigation system routing.

- **Camera Settings**
  - Change camera modes.

- **Vehicle Settings**
  - TPMS calibration, meter setup, door setup, and more.

- **System Settings**
  - Adjust the display, system language, and more.

- **Phone Settings**
  - Pair a phone, change call and text/e-mail options, and more.

- **Info Settings**
  - Import wallpaper and select clock type.

- **Audio Settings**
  - Change sound options and various settings for audio modes.

---

**PANDORA®**

Play and operate Pandora streaming radio from your compatible phone through your vehicle’s audio system. Visit handsfreelink.honda.com to check if this feature is available on your phone. Standard data rates apply.

### Playing Pandora

1. **For Bluetooth connection:** Make sure your phone is paired to Bluetooth® HandsFreeLink® (see page 32) and the screen is on and unlocked.
   - For USB connection: Connect the dock connector to the USB port.

2. **Select SOURCE.**

3. **Select** the Pandora icon and streaming begins.

4. From the screen, **select** items such as Like/Dislike and Play/Pause.

### Notes:

- You can select Bluetooth or USB in Connected Device Priority in the Audio Settings menu (see page 45). This establishes what kind of connection will happen every time you turn your vehicle on.
- iPhone can connect via Bluetooth or USB; Android and BlackBerry can connect via Bluetooth only.
- If you cannot operate Pandora through the audio system, it may be streaming through Bluetooth® Audio. Make sure the Pandora source on your audio system is selected.

*iPhone is a registered trademark of Apple Computer, Inc., registered in the U.S. and other countries. iPhone not included.*
Owner Link allows you to explore features and technologies specific to your vehicle, schedule service appointments, obtain and update maintenance and service records, and access other useful information. SAFETY REMINDER

Your vehicle is equipped with airbags. Airbags do not replace seat belts; they add to the protection offered by seat belts. Airbags can help protect you in some types of collisions, but they do not provide protection in all collisions.

Always make sure you and your passengers wear seat belts, and that young children are properly secured in a child seat or booster in the rear seat. Never place an infant seat in the front passenger’s seat as the force of a deploying airbag can seriously injure an infant.

HOMELINK® (if equipped)

The HomeLink Universal Transceiver can be programmed to operate up to three remote-controlled devices around your home, such as garage doors, lighting, or home security systems.

Training a Button

1. Position the remote transmitter you wish to link 1–3 inches from the HomeLink button you want to program.

2. Press and hold the desired HomeLink button and the button on the remote transmitter. Does the HomeLink indicator (LED) blink at a faster rate after about 10 seconds?

3. Press and hold the programmed HomeLink button for about 2 seconds. Does the device (garage door opener) work?

4. Press and hold the HomeLink button again. HomeLink indicator flashes for 2 seconds, then remains on. HomeLink LED remains on.

5. Press the programmed HomeLink button again; the remote-controlled device should operate.

If you have any problems programming HomeLink, see the owner’s manual included with the device you are trying to program, call HomeLink at (800) 355-3515, or visit www.homelink.com.
FUEL RECOMMENDATION

• Only use unleaded gasoline of 87 octane or higher.
• Some gasoline in North America contains MMT, a manganese-based fuel additive. Prolonged and consistent use of gasoline containing MMT can deteriorate your vehicle’s performance, fuel economy, and the emission control system. Always use MMT-free gasoline if available. Failures caused by use of gasoline containing MMT may not be covered under warranty.
• “TOP TIER Detergent Gasoline” meets a new gasoline standard jointly established by leading automotive manufacturers to meet the needs of today’s advanced engines. In most cases, qualifying gasoline retailers will identify their gasoline as having met “TOP TIER Detergent Gasoline” standards at the retail location. This fuel is guaranteed to contain the proper level of detergent additives and be free of metallic additives. This helps avoid build-up of deposits in your engine and emission control system. Because the level of detergency and harmful metallic additives (such as MMT) in gasoline vary in the market, Honda endorses the use of “TOP TIER Detergent Gasoline” where available to help maintain the performance and reliability of your vehicle. For more information, visit www.toptiergas.com.
• For further important information on fuel and lubricants for your car and information on gasoline that does not contain MMT, contact your dealer or visit Owner Link at owners.honda.com.
