TECHNOLOGY REFERENCE GUIDE

The Technology Reference Guide is designed to help you get acquainted with your new Honda and provide basic instructions on some of the technology items. This guide covers the Odyssey LX and EX trim levels.

This guide is not intended as a substitute for the Owner's Manual. For complete information on vehicle controls and operation, please refer to the respective sections in the Owner's Manual.

</table>

**Default Lock/Unlock Setting**

**Default Lock Setting**
All doors and the tailgate are preset to lock when your vehicle reaches about 10 mph.

**Default Unlock Setting**
Only the driver's door is preset to unlock when you shift into Park (P).

**Programming the Auto Door Unlock Setting**

To program all doors and the tailgate to unlock when you shift to Park:

1. **Close** the driver's door. **Shift** into Park.
2. **Turn** the ignition switch to ON (II).
3. **Press and hold** the unlock side of the master lock switch for about 10 seconds. In that time, you will hear three clicks.
4. Within 5 seconds, **turn** the ignition switch to LOCK (O).

**Default Lock Setting**
All doors and the tailgate are preset to lock when your vehicle reaches about 10 mph.

**Default Unlock Setting**
Only the driver's door is preset to unlock when you shift into Park (P).
## INSTRUMENT PANEL INDICATORS

Briefly appear with each engine start. Red and amber indicators are most critical. Blue and green indicators are used for general information.

### Malfunction Indicators
If an indicator remains on, there may be a problem; see your dealer.

**INFORMATION DISPLAY**

Consists of several displays that provide you with useful information.

**Accessing the Information Display**

When you start the engine, the display shows your last active selection from the previous drive cycle.

To toggle between the different displays, **press and release** the select/reset knob repeatedly.

**Information Displays**

- **Odometer, Outside temperature**
- **Fuel range, Instant fuel economy**
- **Oil life**
- **Trip meter, Average fuel economy**

---

**TIRE PRESSURE MONITORING SYSTEM (TPMS)**

Monitors the vehicle's tire pressures.

**How It Works**

Each tire valve stem contains a TPMS sensor.

When the tire pressure drops significantly below recommended levels, the low tire pressure indicator comes on.

If the TPMS indicator appears, there may be a problem with the system. See your dealer.

**What to Do**

1. **Visually inspect** the tires for damage.
2. **Use** a tire air pressure gauge to check which tire(s) have low pressure.
3. **Inflate** the tire(s), if necessary, to the recommended pressures listed on the label on the driver's doorjamb.

*EX only
The HomeLink Universal Transceiver can be programmed to operate up to three remote-controlled devices around your home, such as garage doors, lighting, or home security systems.

**Training a Button**

1. Position the remote transmitter you wish to link 1–3 inches from the HomeLink button you want to program.

2. Press and hold the desired HomeLink button and the button on the remote transmitter.

3. Press and hold the programmed HomeLink button for about a second. Does the device (garage door opener) work?

4. Press and hold the HomeLink button again.

   *HomeLink indicator (LED) remains on.*

5. Press the programmed HomeLink button again; the remote-controlled device should operate.

If you have any problems programming HomeLink, see the owner’s manual included with the device you are trying to program, call HomeLink at (800) 355-3515, or visit www.homelink.com.

**CD Library (Ex Only)**

Store up to 18 audio CDs in the system memory.

**Recording an Audio CD**

1. **Insert** an audio CD.

2. The system asks if you want to record the CD to memory. **Select** Yes or No.

3. **Choose** the location to store the CD.

4. The CD records. If available, album information is displayed.

**Using the CD Library**

1. **Press** the CDL button. The last album recorded begins playing.

2. To view the CD library, **press** LIST on the selector knob.

3. A list of recorded CDs appears. **Select** the album and track you want to hear.

   *To change tracks, press the SKIPI or (REW) button, or rotate the selector knob.*

   *To change albums, press the CATEGORY (+) or (-) button.*
Owner Link allows you to explore features and technologies specific to your vehicle, schedule service appointments, obtain and update maintenance and service records, manage your financial services account, and access other useful information. Register at www.owners.honda.com to ensure that you continue to enjoy the experience of owning a Honda.

SAFETY REMINDER

Your vehicle is equipped with airbags. Airbags do not replace seat belts; they add to the protection offered by seat belts. Airbags can help protect you in some types of collisions, but they do not provide protection in all collisions.

Always make sure you and your passengers wear seat belts, and that young children are properly secured in a child seat or booster in the rear seat. Never place an infant seat in the front passenger’s seat as the force of a deploying airbag can seriously injure an infant.

FUEL RECOMMENDATION

• Only use unleaded gasoline of 87 octane or higher.
• Some gasoline in North America contains MMT, a manganese-based fuel additive. Prolonged and consistent use of gasoline containing MMT can deteriorate your vehicle’s performance, fuel economy, and the emission control system. Always use MMT-free gasoline if available. Failures caused by use of gasoline containing MMT may not be covered under warranty.
• “TOP TIER Detergent Gasoline” meets a new gasoline standard jointly established by leading automotive manufacturers to meet the needs of today’s advanced engines. In most cases, qualifying gasoline retailers will identify their gasoline as having met “TOP TIER Detergent Gasoline” standards at the retail location. This fuel is guaranteed to contain the proper level of detergent additives and be free of metallic additives. This helps avoid build-up of deposits in your engine and emission control system. Because the level of detergency and harmful metallic additives (such as MMT) in gasoline vary in the market, Honda endorses the use of “TOP TIER Detergent Gasoline” where available to help maintain the performance and reliability of your vehicle. For more information, visit www.toptiergas.com.
• For further important information on fuel and lubricants for your car and information on gasoline that does not contain MMT, contact your dealer or visit Owner Link at www.owners.honda.com.
