TECHNOLOGY REFERENCE GUIDE

The Technology Reference Guide is designed to help you get acquainted with your new Honda and provide basic instructions on some of its technology and convenience features. This guide covers the Civic Coupe DX.

This guide is not intended as a substitute for the Owner’s Manual. For complete information on vehicle controls and operation, please refer to the respective sections in the Owner’s Manual.

</tbody>
</table>

**Briefly appear with each engine start. Red and amber indicators are most critical. Blue and green indicators are used for general information.**
**ECON BUTTON**

When turned on, the vehicle's engine performance, transmission, and air conditioning system are adjusted for maximum fuel economy.

**Turning the ECON Mode On/Off**

Helps you further maximize your fuel economy by modifying some vehicle functions.

1. Press **ECON**.

2. The **ECON** mode indicator comes on.

3. Press **ECON** again to turn the system off.

**AMBIENT METER**

Indicates instant fuel efficiency using color-coded bars.

**Ambient Meter Color-Coded Bars**

- High fuel efficiency
- Moderate fuel efficiency
- Low fuel efficiency

**INFORMATION DISPLAY**

Consists of several displays that provide you with useful information.

**Accessing the Information Display**

When you start the engine, the information display shows your last active selection from the previous drive cycle.

To toggle between the different displays, press and release the SEL/RESET button repeatedly.

**Information Displays**

- Average fuel A, Trip meter A, Odometer
- Average fuel B, Trip meter B, Odometer
- Average fuel A, Oil life, Odometer
- Range, Trip meter A, Odometer
TIRE PRESSURE MONITORING SYSTEM (TPMS)

Monitors the vehicle’s tire pressures.

How It Works

Each tire valve stem contains a TPMS sensor.

When the tire pressure drops significantly below recommended levels, the low tire pressure indicator comes on.

If the TPMS indicator appears, there may be a problem with the system. See your dealer.

What to Do

1. **Visually inspect** the tires for damage.
2. **Use** a tire air pressure gauge to check which tire(s) have low pressure.
3. **Inflate** the tire(s), if necessary, to the recommended pressures listed on the label on the driver’s doorjamb.

SAFETY REMINDER

Your vehicle is equipped with airbags. Airbags do not replace seat belts; they add to the protection offered by seat belts. Airbags can help protect you in some types of collisions, but they do not provide protection in all collisions.

Always make sure you and your passengers wear seat belts, and that young children are properly secured in a child seat or booster in the rear seat. Never place an infant seat in the front passenger’s seat as the force of a deploying airbag can seriously injure an infant.

FUEL RECOMMENDATION

• Only use unleaded gasoline of 87 octane or higher.
• Some gasoline in North America contains MMT, a manganese-based fuel additive. Prolonged and consistent use of gasoline containing MMT can deteriorate your vehicle’s performance, fuel economy, and the emissions control system. Always use MMT-free gasoline if available. Failures caused by use of gasoline containing MMT may not be covered under warranty.
• “TOP TIER Detergent Gasoline” meets a new gasoline standard jointly established by leading automotive manufacturers to meet the needs of today’s advanced engines. In most cases, qualifying gasoline retailers will identify their gasoline as having met “TOP TIER Detergent Gasoline” standards at the retail location. This fuel is guaranteed to contain the proper level of detergent additives and be free of metallic additives. This helps avoid build-up of deposits in your engine and emission control system. Because the level of detergency and harmful metallic additives (such as MMT) in gasoline vary in the market, Honda endorses the use of “TOP TIER Detergent Gasoline” where available to help maintain the performance and reliability of your vehicle. For more information, visit www.toptiergas.com.
• For further important information on fuel and lubricants for your car and information on gasoline that does not contain MMT, contact your dealer or visit Owner Link at www.owners.honda.com.
