Auto Door Locking/Unlocking

Default Lock Setting

The doors are preset to lock when your vehicle reaches about 9 mph.

Default Unlock Setting

Only the driver's door is preset to unlock when you shift into Park (P).

Modifying the Auto Door Unlock Setting

Follow these steps to program all doors to unlock when you shift into Park:

Press and hold either Info button (▲/▼) for 3 seconds to enter customization mode. **Press** either Info button (▲/▼) to toggle between the different MID displays, then **press SEL/RESET** to **activate** the selected menu.

1. Select "CHG SETTING."
2. Select "DOOR SETUP."
3. Select "AUTO DOOR UNLOCK."
4. Select "ALL DOORS WITH SHIFT TO P." Once set, the MID will show the previous menu.
5. To exit and save the setting, select "EXIT."

See *Customized Settings* in your owner's manual for other programmable settings.

Rearview Camera

The display shows a view behind the vehicle with guide lines to help you navigate while in Reverse (R).

How It Works

Once you **shift** into Reverse, a real-time image of the rear view shows in the monitor. It automatically turns off when you **shift** out of Reverse.

Base models

To turn the display off or on while in Reverse, **press and release** the power button.

About This Advanced Technology Guide

This Advanced Technology Guide has been prepared to help you get quickly acquainted with your new Acura, and to provide reference instructions on driving controls and convenience items.

However, this guide is not intended as a substitute for the Owner's Manual. For complete information on operating the vehicle safely, please refer to the Owner's Manual.

As with the Owner's Manual, this guide covers all models of the Acura RDX. Therefore, you may find descriptions of equipment and features that are not on your particular model.

Safety Reminder

Your vehicle is equipped with airbags. Airbags do not replace your seat belts; they add to the protection offered by seat belts. Airbags can help protect you in some types of collisions, but they do not provide protection in all collisions.

Always make sure you and your passengers wear seat belts, and that young children are properly secured in a child seat or booster in the rear seat. Never place an infant seat in the front passenger's seat as the force of a deploying airbag can seriously injure an infant.

Fuel Recommendation

- Use only unleaded gasoline of 91 octane or higher.
- Some gasoline in North America contains MMT, a manganese-based fuel additive. Prolonged and consistent use of gasoline containing MMT can deteriorate your vehicle's performance, fuel economy, and the emissions control system. Always use MMT-free gasoline if alternatives exist. Failures caused by use of gasoline containing MMT may not be covered under warranty.
- For further important information on fuel and lubricants for your car and information on gasoline that does not contain MMT, contact your dealer or visit Owner Link at www.acura.com.
