Smart Cable Installation Instructions

PC Requirements:
1. Windows 2000 or XP
2. A DB9 serial (RS232) port

For the Acura SLX:
1. Unzip the file downloaded from Helm to the C: drive.
2. Double click C:\HORWBPSC\Disk1\SETUP.EXE to install the application.
3. Respond as required to any prompts.
4. Double click C:\HORWBPSC\Rwbpsc01.exe to run the application. (The display may need to be refreshed to see this file, which is created during installation.)

For the Honda Passport:
1. Unzip the file downloaded from Helm to the C: drive.
2. Double click C:\HORWAPSC\Disk1\SETUP.EXE to install the application.
3. Respond as required to any prompts.
4. Double click C:\HORWAPSC\Rwapsc01.exe to run the application. (The display may need to be refreshed to see this file, which is created during installation.)
