

Map Coverage

Map coverage consists of two types of roads: “verified roads” and “unverified roads.” See “Introduction” on page 3 for more information.

Non-detailed Coverage

Cities and towns in the non-detailed map coverage area have not been fully verified. These are denoted in the City list by a “*” next to the name. Only major federal, state, and county roads leading to and through these cities and towns are verified. You can enter an address in these areas, but your guidance will stop at the last verified road nearest your destination. You can then use the dashed line to navigate to your destination.

Because only major roads are mapped in these non-detailed areas, the calculated route may not be the shortest possible. You may be aware of secondary roads that shorten the travel distance and time.
